

**CITY COUNCIL AGENDA
CITY HALL, 291 N. MAIN STREET
PORTERVILLE, CALIFORNIA
JANUARY 19, 2021, 5:30 PM**

The City of Porterville City Council will hold a Regular Meeting on January 19, 2021 via live stream only. No physical meeting address will be provided and said meeting will be conducted remotely.

Pursuant to Executive Order N-29-20, signed by Governor Newsom on March 17, 2020, and in an effort to protect public health and slow the rate of transmission of COVID-19, the City of Porterville is allowing for and encouraging electronic participation at City Council Meetings. Until further notice, Porterville City Council Meetings will be livestreamed on YouTube at <https://www.youtube.com/channel/UC5KuhSrNMNL9nwHJVtnJvvA>. Public comments may be submitted to CouncilMeetingComments@ci.porterville.ca.us and will be read aloud for Council consideration during Oral Communications or during any public hearings as applicable. Members of the public are encouraged to submit comments prior to 6:30 p.m., Tuesday, January 19, 2021, to participate in this meeting. Staff will periodically check for emails that may have been submitted after 6:30 p.m., however it is not guaranteed that those emails will be read prior to Council action. Please direct any questions to the Office of City Clerk at 559-782-7464.

Call to Order

Roll Call

ORAL COMMUNICATIONS

This is the opportunity to address the City Council on any matter scheduled for Closed Session. Unless additional time is authorized by the Council, all commentary shall be limited to three minutes.

CITY COUNCIL CLOSED SESSION:

A. Closed Session Pursuant to:

1 - Government Code Section 54956.8 – Conference with Real Property Negotiators/Property: 2700 W. Teapot Dome Avenue, Porterville, CA. Agency Negotiator: John Lollis and Jason Ridenour. Negotiating Parties: City of Porterville and Tulare County Jr. Livestock Show and Community Fair. Under Negotiation: Terms and Price.

2 - Government Code Section 54957.6 – Conference with Labor Negotiator. Agency Negotiator: John Lollis and Patrice Hildreth. Employee Organizations: Management and Confidential Series; Porterville Peace Officers Association; Porterville City Employees Association; Porterville City Firefighters Association; Fire Officers Series; Public Safety Support Unit; and all unrepresented employees.

3 - Government Code Section 54956.9(d)(1) – Conference with Legal Counsel – Existing Litigation: Statewide Traffic Safety and Signs, Inc. v. California Professional

Engineering, Inc., et al., Tulare County Superior Court Case No. 284137.

4 - Government Code Section 54956.9(d)(3) – Conference with Legal Counsel – Anticipated Litigation – Significant Exposure to Litigation: Four cases in which facts are not yet known to potential plaintiff.

5 - Government Code Section 54956.9(d)(4) – Conference with Legal Counsel – Anticipated Litigation – Initiation of Litigation: One case.

6:30 P.M. RECONVENE OPEN SESSION AND REPORT ON REPORTABLE ACTION TAKEN IN CLOSED SESSION

Pledge of Allegiance Led by Vice Mayor Flores
Invocation

ORAL COMMUNICATIONS

This is the opportunity to address the Council on any matter of interest, whether on the agenda or not. Unless additional time is authorized by the Council, all commentary shall be limited to three minutes.

AB 1234 REPORTS

This is the time for all AB 1234 reports required pursuant to Government Code § 53232.3.

1. San Joaquin Valley Air Pollution Control District (SJVAPCD) Governing Board - December 17, 2020
2. Tule River Tribe Signing Ceremony - December 23, 2020
3. Tule River Improvement JPA - January 4, 2021
4. Tulare County Regional Transit Agency/Finance Committee - January 5, 2021
5. Eastern Tule Groundwater Sustainability Agency - January 7, 2021
6. City Council COVID-19 Ad Hoc Committee - January 8, 2021
7. Tulare County Regional Transit Agency - January 11, 2021
8. California League of Cities Homeless Roundtable - January 13, 2021

REPORTS

This is the time for all committee/commission/board reports; subcommittee reports; and staff informational items.

- I. City Commission and Committee Meetings
 1. Parks & Leisure Services Commission
 2. Library & Literacy Commission

3. Arts Commission
4. Animal Control Commission
5. Youth Commission
6. Transactions and Use Tax Oversight Committee (TUTOC)

II. Staff Informational Reports

1. Henry Street Park Project Update
2. Water Conservation Phase III Status Update
3. Library Planning Update
4. Rescue Mission Update

CONSENT CALENDAR

All Consent Calendar Items are considered routine and will be enacted in one motion. There will be no separate discussion of these matters unless a request is made, in which event the item will be removed from the Consent Calendar. All items removed from the Consent Calendar for further discussion will be heard at the end of Scheduled Matters.

1. **Purchase of Emergency Reporting's Response Management System**
Re: Consideration to approve Emergency Reporting's quote for annual subscription and maintenance services.
2. **Authorization to Purchase Digester Recirculation Pumps**
Re: Request authorization to purchase two recirculation pumps and mechanical seals on Digester #3 located at the City of Porterville's Wastewater Treatment Facility for a not to exceed amount of \$52,457.
3. **Authorization to Purchase Mobile Radar Units**
Re: Consideration to authorize the purchase of the mobile radar units from Staler Radar Applied Concepts INC. for \$7,983.23.
4. **Authorization of Final Payment for Remediation Project at City Hall and Fire Station No. 1**
Re: Consideration of authorizing final payment for the project to remediate City facilities damaged by the Library Fire, in the amount of \$1,001,872.75 to Belfor Property Restoration, and \$265,000 to Ductz, to be paid out of Library Fire Insurance proceeds.
5. **Authorization for Specialized Service - SCADA Relocation**
Re: Authorization to secure Tesco Controls, Incorporated, to relocate the Supervisory Control and Data Acquisition (SCADA) interface into a temporary office at the Wastewater Treatment Facility.
6. **Bid Results - Asbestos and Other Hazardous Materials Abatement and Demolition Project**
Re: Consideration to award the Asbestos and Other Hazardous Materials Abatement and Demolition Project to Central Valley Environmental in the amount of \$93,994.00.
7. **Award Contract - Corporation Yard Electrification Project, Phase 2**
Re: Consideration to award the Corporation Yard Electrification Project, Phase 2 to

EverLevel Holdings, LLC in the amount of \$592,000; and authorize an additional \$59,200 for construction management, construction surveying, quality control, and inspection services.

8. Award of Contract - Olive Avenue and Newcomb Street Traffic Signal Upgrade Project

Re: Consideration to award the Olive Avenue and Newcomb Street Traffic Signal Upgrade Project to PTM General Engineering Services, Inc. in the amount of \$515,015.00 and authorize an additional appropriation of \$39,933.00 of STP Funds.

9. Authorization to Amend R3 Consulting Services Agreement

Re: Consideration of authorization to Amend R3 Consulting services Agreement to include additional assistance required with SB 1383 regulatory compliance as well as an analysis of operational considerations to the City's solid waste collections Department in the amount not to exceed \$43,516.00.

10. Authorization to Submit A Congestion Mitigation and Air Quality (CMAQ) Improvement Program Grant Application for Electric Refuse Trucks

Re: Consideration to submit a CMAQ Improvement Grant application for the purchase of three electric refuse trucks.

11. Authorization to apply for Local Early Action Planning (LEAP) Grant

Re: Consideration to approve the draft Resolution authorizing staff to apply for LEAP Grant funding.

12. Assignment of Airport Lease - Lot 34D

Re: Consideration to approve the Assignment of Lease for Lot No. 34D at the Porterville Municipal Airport from Joyce Moody-Flores to Scott Creager.

13. Status Report - Developer Impact Fees

Re: Acceptance of the Status Report on Developer Impact Fees for the fiscal year ended June 30, 2020.

14. Status and Review of Local Emergency: Drought

Re: Considering approval of the continuance of the Declaration of Local Emergency.

SCHEDULED MATTERS

15. Consideration of Appointments to the Transactions and Use Tax (Measure H) Oversight Committee ("TUTOC")

Re: Consideration of an appointment to fill one of the two vacancies on the Committee.

16. Consideration of the City Council's Procedural Handbook

Re: Consideration of the City Council's Procedural Handbook.

17. Status and Review of Proclamation of Local Emergency: COVID-19

Re: Considering approval of the continuation of the Proclamation of Local Emergency due to COVID-19.

ORAL COMMUNICATIONS

OTHER MATTERS

CLOSED SESSION

Any Closed Session Items not completed prior to 6:30 p.m. will be considered at this time.

ADJOURNMENT - to the meeting of February 2, 2020.

In compliance with the Americans with Disabilities Act and the California Ralph M. Brown Act, if you need special assistance to participate in this meeting, or to be able to access this agenda and documents in the agenda packet, please contact the Office of City Clerk at (559) 782-7464. Notification 48 hours prior to the meeting will enable the City to make reasonable arrangements to ensure accessibility to this meeting and/or provision of an appropriate alternative format of the agenda and documents in the agenda packet.

Materials related to an item on this Agenda submitted to the City Council after distribution of the Agenda packet are available for public inspection during normal business hours at the Office of City Clerk, 291 North Main Street, Porterville, CA 93257, and on the City's website at www.ci.porterville.ca.us.

CITY COUNCIL AGENDA – JANUARY 19, 2021

SUBJECT: 1. Henry Street Park Project Update

SOURCE: Parks and Leisure Services

COMMENT: Community Services Employment Training (CSET) received State Proposition 68 restoration, rehabilitation and improvement of parks funds, and selected the City's Henry Street property as one of its project sites. CSET recently began project oversight at the property to make site improvements which is intended to initially become a passive park space complementing existing Murry Park.

CSET's scope of work includes removal of dead and non-native plants and debris, dredging of the pond, restoration of the current pipeline to fill the pond, bank stabilization, installation of sidewalk, installation of a decomposed granite walking trail and more, over the span of several years based on funding. The City plans to make street improvements along Henry Street, add a restroom, and ultimately add a parking lot and other amenities.

CSET's crew consists of California Conservation Corps (CCC) members. The CCC provides supervised crews of 10-15 young adults ages 18 to 25 that are trained and equipped to work safely on a wide variety of projects. The CCC has removed a lot of dead and non-native plants and debris, and nearly completed the bank stabilization. They plan to complete the first phase of restoring the waterway to the Henry Street property pond by March 2020. CSET has indicated that those accomplishments by March 2020 will conclude their initial round of Proposition 68 funding.

In addition to the Prop 68 grant, CSET plans to submit an ATP grant to further make improvements to the Murry Park expansion. If successful, CSET would receive an additional \$142,000 of funding and would ask the City to provide up to \$27,000 matching funds. CSET's ATP funds would be used to do street-side sidewalks along Putnam, relocation of the rail fence, and additional trail work. These funds would free up future Prop 68 or other grant funds obtained by CSET to do more work for the park expansion. One source of the City's matching funds could come from CDBG Park Improvement grant funds.

CITY COUNCIL AGENDA – JANUARY 19, 2021

SUBJECT: 2. Water Conservation Phase III Status Update

SOURCE: Public Works

COMMENT:

The City of Porterville has continued to implement an active water conservation approach, both conserving and providing flexibility to the community. The City transitioned from Phase III to Phase IV of the City's Water Conservation Plan as of December 1, 2020. The Water Conservation Plan applies to all municipal water users within or outside city limits. As part of the Phase IV plan, the City reduced outdoor watering to one day per week watering schedule based on address. If an address ends with an "odd" number, the watering day is Saturday; if an address ends with an "even" number, the watering day is Sunday. The Phase IV plan limits outdoor watering to one (1) day per week, with "odd" addresses allowed watering on Saturday and "even" addresses allowed watering on Sunday. Outdoor watering is prohibited between the hours of 5 a.m. to 10 a.m. and 5 p.m. to 10 p.m., with no watering allowed Monday through Friday. Watering of outdoor landscaping is prohibited during, and within 48 hours after, measurable rainfall which is now defined as greater than 0.01 of an inch.

Violations of prohibited activities are considered infractions and are punishable by fines of up to \$500 for each day in which the violation occurs. Any peace officer or employee of a public agency charged with enforcing laws and authorized to do so by Ordinance may issue a citation to the violator. The City of Porterville will be responding to enforcement by issuing a Notice of Violation for all witnessed occurrences and staff will be processing all reported issues. Enforcement statistics for the month of December 2020 show that a total of three Notices of Violation were issued for water wasting, and one Administrative Citation was issued.

Water production for December 2020 shows a 6% increase from the 5-year average. The production for the month of December 2020 was 203 million gallons, which when compared to the production for the month of December 2013 of 194 million gallons, equates to a 4.65% increase. Residential consumption for December 2020 was 73.75 gallons per capita per day (GPCD).

Compliance with individual water supplier conservation requirements is based on cumulative savings. Cumulative tracking means that conservation savings will be added together from one month to the next and compared to the amount of water used during the same months in 2013. City Staff will be evaluating conservation totals in two formats: 1. Calculate the cumulative conservation totals for production as compared to production in 2013; and 2. Calculate cumulative conservation totals in relation to GPCD, in efforts to evaluate population growth impacts on production as compared to 2013. The cumulative

total of production for the City of Porterville's conservation efforts will reflect June 2015 through December 2020. Porterville's cumulative total production conservation through December 2020 is 19.53%. The cumulative total of GPCD for the City of Porterville's conservation efforts will reflect June 2015 through December 2020. Porterville's cumulative total GPCD conservation through December 2020 is 25.7%.

Under the February 2, 2016, emergency regulation, the City of Porterville received a revised conservation standard of 28% with an additional 2% reduction for climate adjustment, making the City's conservation standard 26%. After reviewing the Water Board's Self-Certification criteria for drought impacts to water supplies, the City of Porterville Council approved maintaining a self-imposed standard of 26%. The continuation of the current conservation goals keep a standardized message that the City has worked to develop in public outreach, provides resiliency and capacity to ensure three years of supply under drought conditions, meets the minimum 20% conservation standard defined in the City's Urban Water Management Plan, and assists the City toward meeting the requirements of the Sustainable Groundwater Management Act (SGMA).

The State Water Board continues to require monthly reporting to track what agencies are doing and how they perform throughout the year. Proposed permanent regulations will require agency reporting to continue monitoring the performance of urban water conservation with a preparedness to return back to a conservation standard if necessary.

DROUGHT RESPONSE Phase IV

Mandatory Odd/Even Watering Schedule, based on address. Residents will be allowed ONE day a week to water lawns and landscapes. No watering allowed Monday through Fridays.

Watering is prohibited between the hours of 5:00 AM to 10:00 AM and 5:00 PM to 10:00 PM.

No watering outdoor landscapes during and within 48 hours after measurable rainfall (>0.01 inches).

Excessive water runoff is prohibited.

The washing of sidewalks and driveways is prohibited.

Vehicles shall only be washed on designated watering days and with a hose equipped with a shut-off nozzle.

The operation of ornamental water features is prohibited unless the fountain uses a recycling system.

Non-compliance with Phase IV water conservation regulations could result in citations with fines up to \$500.

DROUGHT RESPONSE PHASE IV

The City of Porterville has adopted Phase IV of its Drought Response Plan. As part of the Phase IV plan, the City has restricted watering days to one day per week, based on address.

CITY COUNCIL AGENDA – JANUARY 19, 2021

SUBJECT: 3. Library Planning Update

SOURCE: Parks and Leisure Services

COMMENT: At its meeting on December 15, 2020, City Council defined the composition of a Library Facility Planning Committee to include Council Member Carrillo and six others. The remaining six Committee members will be comprised of the City's Parks and Leisure Services Director, the City Librarian, one Library and Literacy Commissioner, one Friends of the Library member, and two members of the public. The City is currently advertising for those two public seats that will be appointed by the Council.

The City is utilizing an on-call consultant to draft the plans for the temporary library facility to be located at 50 W. Olive Avenue, Suite B. The consultant has begun work on the plans which are expected to be completed next month. The acceptance of the building is expected in the next couple of weeks as the developer has completed the 'vanilla shell' improvements.

Authorization to hire a consultant to perform a needs assessment was also approved by the Council at its meeting on December 15, 2020. At its upcoming meeting on February 2, 2021, staff will be seeking Council's authorization to commence the Release of a Request for Proposals process to hire the needs assessment consultant.

CITY COUNCIL AGENDA – JANUARY 19, 2021

SUBJECT: 4. Rescue Mission Update

SOURCE: Community Development

COMMENT: At its meeting on June 18, 2019, the City Council adopted Resolution 43-2019, approving Conditional Use Permit (CUP) 2018-041-C for the New Porterville Rescue Mission (NPRM) to allow for a Social Services Facility located at 30 S. A Street. As outlined in Resolution 43-2019, Condition #1, and in compliance with Porterville Municipal Code Chapter 21, Section 301.09, "Social Services Facilities shall provide: adequate and accessible sanitary facilities, including lavatories, restrooms and refuse containers; sufficient patron seating facilities for dining; effective screening devices such as landscaping and masonry fences in conjunction with outdoor activity areas." To meet these requirements, NPRM was to continue to work on site improvements, and stay in touch with staff until all items had been completed. CUP 2018-041-C includes a requirement that staff provide a bi-annual update to the Council on the status of project.

At its meeting on February 4, 2020, staff presented to Council the bi-annual update as required in the CUP to update the status of improvements. The item was continued as additional information needed to be provided by NPRM in writing. At its meeting on March 3, 2020, staff provided to Council the proposed Plan of Action that staff considered quite aggressive and reported that a realistic timeline would be three to six months before there would be an issuance of a building permit. At its meeting on July 21, 2020, staff provided an update to Council regarding the progress of the NPRM's remodel project. NPRM was issued a building permit on July 7, 2020. The scope of the permit includes removing existing staff bedroom walls to open up to existing open area to accommodate fourteen (14) beds total on the west end of the building, remodel of two restrooms to meet accessibility standards, the installation of two new concrete door landings, one new door landing with stairs and handrails, as well as reversing the swing of an existing door. NPRM had anticipated that this phase of construction would take approximately three to four months to complete.

At its meeting on November 17, 2020, staff provided an update to Council regarding the progress of the NPRM's remodel project. The Council was informed that the NPRM's project had experienced delays due to the pandemic as well as encountering structural issues during the demolition process.

Since the update provided to Council on November 17, 2020, the NPRM was issued a permit for the structural revision to correct the issues encountered during the demolition process on November 25, 2020. Staff subsequently met with the NPRM on January 4, 2021, to discuss the progress of the project. The NPRM informed staff that the project timeline has been impacted by the

COVID-19 pandemic, noting that that they received a letter from one of their suppliers informing them that the delivery of their order had been delayed due to the pandemic. A framing inspection was provided by the Building Division on January 5, 2021, and second framing inspection on January 8, 2021. The NPRM passed the second framing inspection and is now working towards completing the plumbing and electrical improvements of its permit.

Staff will present to Council the bi-annual update as required in the CUP to update the status of improvements at its meeting on February 2, 2021.

CITY COUNCIL AGENDA – JANUARY 19, 2021

SUBJECT: Purchase of Emergency Reporting's Response Management System

SOURCE: Fire

COMMENT: Over the past several years, the Fire Department has implemented a variety of technological updates. Recently, it has come to the Department's attention that the current Response Management System provider, Zoll, is being phased out as an industry standard, as many fire departments are transitioning to more online compatible systems. A Response Management System is the program through which all fires, medical calls, and other emergency responses are logged; reports are created through the system, and data can be queried as needed. Zoll, who has been the City's provider for the past several years, is not updating its product line in a manner that is compatible with closest unit dispatching and some of the newer functions supported by Spillman, the City's new dispatching software.

After extensive research and coordination with neighboring fire departments, staff has found that Emergency Reporting would provide the greatest functionality and room to grow with the Department's needs. Most of the neighboring jurisdictions are using this same system, which will prove beneficial when mutual aid is requested. Further, this is fully compatible with the Spillman dispatching system as well as other software used by the Department. Because this technology is fairly new, only Emergency Reporting can provide these capabilities, as referenced in the attached letter. For these reasons, this would be a sole source contract.

The service would be provided as an annual contract. Year one, which includes all startup needs, would cost \$7,740, while future years would be \$6,490. The supplied quote provides for the subscription fees as well as maintenance. Funding will be allocated from the Fire Department Operating Budget.

RECOMMENDATION: That the City Council approve Emergency Reporting's quote for annual subscription and maintenance services as per the attached quote.

Emergency Reporting
2200 Rimland Dr, Suite 305
Bellingham, WA 98226 USA

May 20, 2020

To Whom It May Concern,

Emergency Reporting is the only vendor delivering web-based EMS reporting (NEMSIS Compliant) integrated with fire incident reporting (NFIRS Authorized vendor), fully integrated with VISION (Risk Assessment software), with full NFPA 1500 reporting capabilities available through the Federal Safety Analytics product.

Furthermore, the described solution is also integrated with 15 modules for daily operations, including occupancy pre-fire & inspection forms, apparatus maintenance, training, hydrants, personnel, library and others.

If there are any questions or concerns on this matter, please feel free to bring them to my attention.

Sincerely,

David Nokes

FDID:

CAD Link & Occupancy Module Setup Contact Name

***CAD Link Setup Contact Name (Fire Dept Contact):**

(Only Required if putting CAD link in place to PSAP)

***Phone#:** _____

***e-mail:** _____

- Please check one. *(New Customer Accounts Only)*

For Occupancy Module configuration would you like your setup to be based on NFPA ☐ or ICC ☐?

* This is for setting up Categories and Subcategories.

** If left blank implementation will default to the ICC settings.

Data Import Information - *Required to Process Order

If you wish to import any non-NFIRS data and the "import fee" is not a line item on this order form, please contact your sales rep to have the order form updated. Your order cannot be processed until this fee is added to the above products "line item" list. ER doesn't import training records at this time. Otherwise, if you have purchased to have your non-NFIRS data imported, please check the selected areas below so that implementation will be able to assist you appropriately.

Other Imports (Check all that apply - imported for a fee)

- ☐ Equipment
- ☐ Occupancy
- ☐ Hydrants
- ☐ Flow Test
- ☐ Personnel
- ☐ Apparatus

Terms & Conditions

Backdraft OpCo, LLC dba Emergency Reporting ("COMPANY"), and the above-named account ("AGENCY") are entering into an agreement as of the signature date.

Fire & EMS Solution Terms & Conditions

COMPANY shall perform the following services:

1. Collect emergency response data via a website accessible at <https://secure.emergencyreporting.com>.
2. Maintain collected data to standards set by FEMA's National Fire Incident Reporting System (NFIRS) and/or the National Emergency Medical Services Information System (NEMSIS), version 3.3.4 or 3.4.0 as supported by your state.
3. Provide EMS export services for states that are officially supported by COMPANY for EMS exports. Due to the number of states that have modified the NEMSIS standard, NEMSIS 3 is not a supported EMS Export type in many cases. State EMS reporting is not supported unless the state is specifically listed on our website.
4. Provide ongoing changes and bug fixes, at no additional charge, to remain in compliance with NFIRS & NEMSIS 3.

5. For supported states and exports (NFIRS, state specific EMS, or other export types) provide email or direct HTTPS download to the necessary recipients. If possible, COMPANY will configure direct submission to the state; if the state prohibits third party submissions, COMPANY will provide Agency with the applicable data for state reporting requirements.
6. Ensure appropriate security, privacy, and encryption of data transmitted to and from the website, in compliance with COMPANY's internal policies, federal HIPAA regulations and industry practices regarding security.
7. Provide access to the website by current browser technology as stated here:
<https://emergencyreporting.com/emergency-reporting-system-requirements/>
8. Provide data backup to guard against data loss in the event of catastrophic system failure.
9. Guarantee uptime of 99.9%, as calculated on an annual basis.

The Agency shall be responsible for the following:

1. Maintain an active user list of accounts that are authorized to access the website.
2. Pay all outstanding charges in a timely fashion. Non-timely payment may result in deactivation of service (deactivation will occur with warning to the AGENCY; AGENCY data will be accessible when charges are brought current).
3. Maintain active Internet Service Provider (ISP) services to access the website. ISP charges are not included in this agreement. ISP failures are not the responsibility of COMPANY.
4. Use supported web browsers as listed in the COMPANY website:
<https://emergencyreporting.com/emergency-reporting-system-requirements/>
5. The AGENCY agrees to abide by the Company TERMS OF SERVICE which can be found at:
<https://info.emergencyreporting.com/termservice>

Additional CAD Link Terms & Conditions

COMPANY shall perform the following services:

1. Web Service CAD Links - Receive CAD interface data to the following address:
<https://secure.emergencyreporting.com/WS/V1.0/Dispatch/CallCenter.php>. COMPANY reserves the right to reject or ignore invalid data.
2. For Flat File Parser (FFP) integration, COMPANY shall provide a cloud service that automates the parsing process and route CAD incident data to your specific account.
3. Provide ongoing changes and bug fixes, to keep the CAD Interface address specified above operational.
4. Supply mapping (alias) tools, submission tracking, and general processing tools to assist in the management of CAD supplied data to COMPANY standards.
5. Ensure appropriate security, privacy, and encryption of data transmitted to and from the website, in compliance with COMPANY's internal policies, federal HIPPA regulations and industry practices regarding security.

The Agency shall be responsible for the following:

1. Provide clean, valid data for processing, either via text, xml (for Flat File Parser Integrations) or web services (for web services direct installations)
2. For FFP Integrations, the Agency shall provide a computer to install a SFTP client that shall have access to CAD RMS export file directory where text or xml files are dropped with the following SFTP settings:
 1. SFTP
 2. Port 22
 3. Server <http://cadfiles.emergencyreporting.com>
 4. Username and Password setup on time of integration
3. If agency does not supply SFTP client, BDO shall provide client at an additional cost.
4. Agency shall provide technical staff to assist with integration, debugging, networking, and general troubleshooting of CAD link technology and infrastructure.
5. Additional charges from your CAD vendor may apply and should be discussed with that vendor.
6. Once your CAD link is deployed any changes to the format of the file and or changes of the CAD system that result in a rebuilding of the CAD link connection may result in change order fees.

Governing Law. The AGENCY agrees that the rights of user and COMPANY shall be governed by the Laws of the State of Washington, without regard to any conflicts of law, rules or provisions. Sole and exclusive jurisdiction for any action or proceeding arising out of or related to this agreement shall be in an appropriate State or Federal Court located in WA State. Notwithstanding the foregoing, if you are a U.S. public entity, these Terms and Conditions will be governed by the local law of the State or Commonwealth in which you are located.

Data Ownership. All data transmitted to the website remains the property of the AGENCY. Retransmission of this data to the necessary state reporting authorities is authorized. Modifying, deleting or other modifications of submitted incident data by COMPANY is prohibited. Scientific research that is based on broad data trends is authorized, but no AGENCY specific data is to be made visible to any third parties.

Statute of Limitation. The AGENCY agrees that any cause of action you may have against COMPANY must be commenced within (2) years after the claim arises.

Pricing. The AGENCY agrees to the prices set forth in this agreement. COMPANY reserves the right to modify AGENCY pricing at the billing renewal date and will provide 30 day advance written notice of its intent to do so. COLA adjustment shall not exceed seven (7) percent.

Taxes. As stated in Section 15.4 of the Company TERMS OF SERVICE which can be found at: <https://info.emergencyreporting.com/termsofservice> , "Unless otherwise stated, our fees do not include any taxes, levies, duties, or similar governmental assessments of any nature,, including, but not limited to, value-added, sales, use, or withholding taxes, assessable by any local, state, provincial, federal, or foreign jurisdiction (collectively, "**Taxes**"). You are responsible for paying all Taxes associated with Your purchases. If we have the legal obligation to pay or collect Taxes for which You are responsible, the appropriate amount shall be invoiced to and paid by You, unless You provide us with a valid tax exemption certificate authorized by the appropriate taxing authority. For clarity, we are solely responsible for taxes assessable against us based on our income, property , and employees.

Termination. Either AGENCY or COMPANY can terminate service at any time upon 30 days written (or email) notice. Future service fees, if any, will be refunded to the AGENCY.

Billing Cycle Start Date. The AGENCY agrees that the billing cycle start date will become effective on the 1st of the following month in which the signed order form is received by COMPANY.

Copyright. The AGENCY recognizes that the COMPANY website is protected under U.S. copyright and trademark law, international conventions and other applicable law. The AGENCY agrees to not license, sell, publish, decompile, reverse engineer, or otherwise deconstruct any portion of COMPANY's technology.

COMPANY uses computer technology to collect data, and no such technology is 100% reliable at all times. System failures may occur without warning. Although all efforts will be made to prevent such failures, the AGENCY recognizes that these failures are outside the control of COMPANY, and agrees to hold COMPANY, its principals, employees, and agents harmless. If any court holds any portion of this Agreement to be unenforceable, then the remainder of this Agreement shall survive.

CITY COUNCIL AGENDA – JANUARY 19, 2021

SUBJECT: Authorization to Purchase Digester Recirculation Pumps

SOURCE: Public Works

COMMENT: The City's Wastewater Treatment Facility has received three quotes to replace two recirculation pumps and mechanical seals on Digester #3. Recirculation pumps withdraw the contents of the digester and recirculate the material through the heat exchanger and back to the digester to stabilize the organic contents collected during the wastewater treatment process.

The existing pumps were installed in 1977, have over forty (40) years of service, and are needing replacement. The replacement pumps are a non-clog centrifugal vortex type pump equipped with recessed impeller. This design reduces the wear and tear on the impeller providing less maintenance and greater efficiency.

The three quotes received are as follows:

<u>Vendor</u>	<u>Total Cost</u>
ESSCO Pumps and Controls	\$ 43,650
MTB Water Systems and Service	\$ 49,700
JB Water	\$ 47,300

ESSCO Pumps and Controls has been identified as the lowest quote, therefore securing the purchase for a total project amount not to exceed \$52,457, which includes two recirculation pumps and mechanical seals, taxes, shipping, and a 10% contingency. Expenditure for the equipment is to be funded from the 2020/2021 Wastewater Operating Budget.

RECOMMENDATION: That City Council:

1. Award ESSCO Pumps and Controls at an amount not to exceed \$52,457 for two digester recirculation pumps and mechanical seals, taxes, shipping, and a 10% contingency; and
2. Direct the Finance Director to initiate a Purchase Order to ESSCO Pumps and Controls at an amount not to exceed \$52,457, which includes the purchase of two digester recirculation pumps and mechanical seals, taxes, shipping, and a 10% contingency; and
3. Direct the Finance Director to make payment to ESSCO Pumps and Controls upon receipt of invoice approved by the

Item No. 2.

Public Works Director.

Subject: Sludge Pump

Date: January 5th 2021

Robert,

Our quotation for an Essco Vortex Pump for your facility is below, please let me know if any questions.

<u>QTY.</u>	<u>DESCRIPTION</u>
<u>2</u>	<u>ESSCO model 4x12 HDPL Large power frame heavy duty horizontal pump with a 100% recessed vortex style impeller, dynamically balanced in two planes, capable of passing 4" diameter and long length solids. Each unit shall be constructed of heavy duty engineered Cast Iron with Ductile Iron impeller, Cast Iron volute, Cast iron Wear Plate, Cast Iron mechanical seal box, grease lubricated bearings, heavy duty Steel pump shaft, and shaft sleeve. The pump shall be fitted with a .5" vent and standard factory paint.</u> <u>Also included: pumps mounted on a steel baseplate, with coupling, guard, and 7.5 HP, TEFC motor wired for 230/460V.</u>
<u>2</u>	<u>Silicon Carbide Super Seal</u>

Clarifications:

1. This proposal shall become part of the final purchase order documents.
2. Any equipment or appurtenances not specifically listed in the scope of supply shall be provided by others.
3. Unless otherwise indicated above, standard submittals and O&M manuals are included herein.
4. This proposal is based on equipment delivery within one year of date of customer's purchase order.
5. Unless otherwise indicated above, the following are not included in this proposal: Installation, Chemicals, Interconnecting wiring, conduit, piping and valves. Anchor bolts. Field Painting. Taxes. Tariffs. Duties. Bonds.

Commercial Terms Summary:

1. Price Valid For 30 Days
2. Payment Terms: Net 30
3. Freight: FOB factory, full freight allowed
4. *Submittals: 2 weeks after acceptance of order
5. *Shipment: 12-16 weeks after acceptance of order or customer's written approval and release for production

* Note: lead times are estimates based on the current engineering and production work load at the time of bid. Actual lead times may vary based on the workloads at the time of order and release for production – consult factory at time for order and release for production to confirm lead times.

CITY COUNCIL AGENDA – JANUARY 19, 2021

SUBJECT: Authorization to Purchase Mobile Radar Units

SOURCE: Police

COMMENT: One of the essential duties of the Porterville Police Department is the enforcement of traffic laws in order to prevent and reduce traffic collisions, and thus safeguard lives and protect property. The use of mobile radar units mounted in patrol vehicles have shown to have direct and immediate impact on speed of vehicles in high collision areas where they are deployed.

The Department has been deploying the same model of mobile radar units, the Stalker Radar unit, in police vehicles and motorcycles for several years. Officers are trained on these specific devices and the units are maintained and calibrated by the Department's Traffic Unit.

At its meeting on July 7, 2020, the City Council authorized the Department to accept the Selective Traffic Enforcement Grant from the California Office of Traffic Safety in the amount of \$105,500. The grant included funding for the purchase of mobile radar equipment not to exceed \$8,000.

The Department requests that the Council authorize approval to purchase three mobile radar units from its current vendor, Stalker Radar Applied Concepts Inc., in the amount of \$7,983.23. Funding is available in the Department's FY 2020/2021 Special Safety Grants Fund under the guidelines provided by the California Office of Traffic Safety.

RECOMMENDATION: That the City Council:

1. Authorize the purchase of the mobile radar units from Stalker Radar Applied Concepts INC. for \$7,983.23; and
2. Authorize the payment for the radar unit with the grant funds from the Office of Traffic Safety (OTS) Grant upon delivery.

Please review these Terms and Conditions carefully before proceeding.

CITY COUNCIL AGENDA – JANUARY 19, 2021

SUBJECT: Authorization of Final Payment for Remediation Project at City Hall and Fire Station No. 1

SOURCE: Administrative Services

COMMENT: As the City Council is aware, during the Library Fire incident of February 18, 2020, City Hall and Fire Station 1 sustained prolonged exposure to smoke resulting in significant combustion by-products damage at the facilities. At the recommendation of both the City's insurer and its public adjustor, the City Council authorized a large scale remediation project at both facilities with services provided by Belfor Property Restoration, which was the lead contractor for the combustion by-product abatement and full restoration; KCE Matrix which conducted environmental assessments and inspection, asbestos analyses, and and laboratory testing; and Ductz, which provided restoration of the facilities' HVAC systems duct work.

The Remediation Project was completed in the Fall and the final billing was sent to the City's insurer Alliant for its audit and approval. In late December, staff was notified that Alliant's audit was complete and the final billing on the project was submitted for payment as indicated below. The credit memo is a result of the audit conducted by Alliant and Belfor's subsequent adjustment.

Belfor Property Restoration: \$1,041,016.75

Belfor Property Restoration Credit Memo: (\$39,144.00)

Ductz HVAC Restoration: \$265,000.00

At this time, staff seeks Council authorization to make final payment to Belfor Property Restoration in the amount of \$1,001,872.75 (\$1,041,016.75 less credit of \$39,144.00); and to Ductz in the amount of \$265,000. It is proposed that payment be made from the Library Fire Insurance proceeds.

In addition, pursuant to previous Council direction, payments related to the abatement portion of the project were paid out of the Library Fire Insurance proceeds as the work was completed and approved on the Remediation Project. Payment in the amount of \$65,236.68 was made to Belfor on November 30, 2020, following approval and audit of the abatement portion of the project. Payments were also made to KCE Matrix consisting of \$6,500 on August 17, 2020 and \$16,700 on November 30, 2020 for asbestos abatement sampling, post abatement site inspections, and laboratory analyses.

RECOMMENDATION:

That the City Council:

1. Authorize final payment to Belfor Property Restoration in the amount of \$1,001,872.75 and final payment to Ductz in the amount of \$265,000 to be paid out of Library Fire Insurance proceeds; and
2. Ratify the previous payments made to Belfor in the amount of \$65,236.68 on November 30, 2020; and to KCE Matrix in the amount of \$6,500 on August 17, 2020, and \$11,700 on November 30, 2020.

ATTACHMENTS:

1. Belfor Final Invoice
2. Belfor Credit Memo
3. Ductz Final Invoice
4. Belfor Paid Invoice (November 30, 2020)
5. KCE Paid Invoice (August 17, 2020)

CITY COUNCIL AGENDA – JANUARY 19, 2021

SUBJECT: Authorization for Specialized Service - SCADA Relocation

SOURCE: Public Works

COMMENT: The City of Porterville Wastewater Treatment Facility (WWTF) administrative building is scheduled to be demolished to remediate lead and asbestos in the building. The WWTF will need to relocate the Supervisory Control and Data Acquisition (SCADA) interface into a temporary office. The interface will be used to communicate remotely to the fixed hardware cabinet located in the salvaged portion of the remaining office building. Tesco Controls, Incorporated, the WWTF integrator, will need to assist in the relocation of the SCADA system.

Tesco Controls, Incorporated has submitted a quote of \$9,560 for the disconnection of SCADA system power and networking cables, perform the relocation of the server rack, server rack components, perform reconnection at a new temporary location, and perform startup and testing. Expenditure for the project is to be funded from the 2020/2021 Wastewater Operating Budget.

RECOMMENDATION: That City Council:

1. Award the WWTF SCADA Relocation Services to TESCO Controls Incorporated for a not to exceed amount of \$9,560; and
2. Direct the Finance Director to initiate a Purchase Order to TESCO Controls Incorporated for a not exceed amount of \$9,560; and
3. Direct the Finance Director to make payment to TESCO Controls Incorporated upon receipt of invoice approved by the Public Works Director.

ATTACHMENTS: 1. Tesco Controls, Inc. Quote

Michael Knight, Public Works Director

Final Approver: John Lollis, City Manager

To: City of Porterville
Attn: Robert Alvarez
Re: WWTP SCADA Relocation Services

Quote Date: Nov. 20, 2020
Quote No.: 20K161Q01

Thank you for your interest in TESCO products, services, and solutions. We are pleased to quote the following scope of work pertaining to the above-referenced project. The scope includes relocation of the Wastewater Treatment Plant SCADA system to a temporary location for construction of a new Treatment Facility Central Office.

TESCO will perform required disconnection of SCADA system power and networking cables, perform relocation of server rack, server rack components, and thin clients, perform reconnection at temporary location, perform startup and test. TESCO's scope also includes coordination with the City for networking requirements at temp location and cut over planning.

Item	Qty	Description
1	Lot	Professional Services: - Project Management – project coordination - Network & Telemetry – remote support for networking components and testing assistance - SCADA Engineering – on site power down and relocation services, connections at temp location, startup and test. - Field Service – SCADA relocation and startup assistance
TOTAL FOR ITEM 1:		\$9,560.00

Terms and Conditions

- Quote is firm for 30 days unless otherwise stated.
- Price does include applicable sales tax, use tax, and applicable fees.
- TESCO price is FOB factory, full freight allowed.
- TESCO warranties against defect in design workmanship and materials for a period of one year from date of installation, and does not exceed 18 months from the date of shipment from the factory.
- TESCO carries liability insurance, with full workman's compensation coverage.
- Terms are net 30 days on approved credit accounts.
- Interest will be applied to all past due invoices.
- All merchandise sold is subject to lien laws.
- Final retention to be paid within 10 days after the project notice of completion.

Please feel free to contact us at (916) 395-8800 to discuss any questions or comments you may have regarding this quotation.

Sincerely,

Richard Martinez

CITY COUNCIL AGENDA – JANUARY 19, 2021

SUBJECT: Bid Results - Asbestos and Other Hazardous Materials Abatement and Demolition Project

SOURCE: Engineering and Project Management

COMMENT: On December 22, 2020, staff received three bids for the Asbestos and Other Hazardous Materials Abatement and Demolition Project. The project consists of required abatement of existing asbestos materials, mercury lighting, and other components mandating specific abatement protocol mandated by State regulations. The proposed project includes the full demolition of the Spencer House and Waste Water Treatment Facility (WWTF) Office (while protecting SCADA equipment), and the first step in the remodeling of the Stout Building.

The bid results are as follows:

<u>Contractors are as follows:</u>	<u>Spencer House</u>	<u>Stout Building</u>	<u>WWTF Office</u>	<u>Total Bid</u>
Central Valley Environmental Fresno, CA	\$32,477	\$13,519	\$47,998	\$93,994
PARC Environmental Fresno, CA	\$32,000	\$12,500	\$56,000	\$100,500
Resource Environmental Inc Long Beach, CA	\$69,940	\$23,440	\$75,920	\$169,300

The Engineer's Estimate of probable cost for this project is \$78,642. The low bid presented by Central Valley Environmental of Fresno is \$93,994, which is 19.52% higher than the Engineer's Estimate. An additional \$9,399 is necessary for abatement contingencies (10%) and an additional \$18,345 is required for construction management, quality control and inspection services (19.52%), equating to a total construction cost of \$121,738. This total is 16.11% higher than the previously anticipated total project cost.

Staff examined the total anticipated costs by location comparing the Engineer's Estimate to the apparent low bid results and those results are as follows:

<u>Location</u>	<u>Engineer's Estimate Total Cost</u>	<u>Low Bid Total Cost</u>
Spencer House	\$34,021.40	\$38,200
Stout Building	\$30,086.20	\$23,235
WWTF Office	\$40,743.40	\$60,303

It is City Council's policy to reject all bids when the bid exceeds 10% of the Engineer's Estimate. Although the possibility exists that the City will receive favorable bids if re-advertised, there are no guarantees that the City will receive less costly bids, and will likely necessitate a change in scope of the design of the project and/or an increase in the budget appropriation. Staff believes that the higher than anticipated bid amount is due mainly to the difficulties presented in protecting the existing SCADA equipment by maintaining the integrity of that portion of the building.

The Spencer House and Stout Building are both funded and approved in the 2020/2021 Fiscal Year (FY) Budget with Local Transportation funding (LTF) up to a total amount of \$75,000. The WWTF Office portion of this project is funded and approved in the 2020/2021 FY Budget with Waste Water Treatment Facility Reserve Funds (WWTFR) up to \$100,000. This project is fully funded if City Council determines to award.

RECOMMENDATION: That City Council Consider:

1. Award of the Asbestos and Other Hazardous Materials Abatement and Demolition Project to Central Valley Environmental in the amount of \$93,994.00;
2. Authorize progress payments up to 100% of the contract amount;
3. Authorize a 10% contingency to cover unforeseen construction costs; and
4. Authorize 19.52% for construction management, quality control, and inspection services.

CITY COUNCIL AGENDA – JANUARY 19, 2021

SUBJECT: Award Contract - Corporation Yard Electrification Project, Phase 2

SOURCE: Engineering and Project Management

COMMENT: On January 12, 2021, staff received two bids for the Corporation Yard Electrification Project, Phase 2. The project will consist of the installation of prefabricated parking structures, removal and replacement of asphalt paving, installation of electrical equipment, conduit and wiring, and installation of solar photovoltaic systems and related appurtenances.

The Engineer's Estimate of Probable cost for the project was \$962,500. The low bid presented by EverLevel Holdings, LLC of Altadena is \$592,000, which is \$370,500 less than the Engineer's Estimate. An additional \$59,200 is necessary for construction contingency (10%) and \$59,200 is required for construction management, surveying, quality control and inspection services (10%); equating to a total construction cost of \$710,400.

Funding for this project is approved in the 2020/2021 Fiscal Year Budget and will come from Federal Transit Administration 5307 grant funds and the Transit allocation of Local Transportation Funds.

The bids are as follows:

<u>Contractor</u>	<u>Amount</u>
EverLevel Holdings, LLC Altadena, CA	\$592,000
A-C Electric Company Bakersfield, CA	\$802,920

Staff has found the low bid acceptable.

RECOMMENDATION: That City Council:

1. Award the Corporation Yard Electrification Project, Phase 2 to EverLevel Holdings, LLC in the amount of \$592,000;
2. Authorize progress payments up to 100% of the contract amount;
3. Authorize a 10% contingency to cover unforeseen costs; and
4. Authorize an additional \$59,200 for construction management, construction surveying, quality control, and inspection services.

CITY COUNCIL AGENDA – JANUARY 19, 2021

SUBJECT: Award of Contract - Olive Avenue and Newcomb Street Traffic Signal Upgrade Project

SOURCE: Engineering and Project Management

COMMENT: On January 12, 2021, staff received two bids for the Olive Avenue and Newcomb Street Traffic Signal Upgrade Project. The project includes installation of a new traffic signal at the intersection of Olive Avenue and Newcomb Street to accommodate protected left-turn phasing from the Newcomb Street legs of the intersection, as well as accessibility improvements at the intersection corners.

The Engineer's Estimate of probable cost for the project is \$482,170. The low bid presented by P T M General Engineering Services Inc of Riverside is \$515,015, which is \$32,845 (6.8%) more than the Engineer's Estimate. An additional \$51,501 is required for construction contingency (10%) and \$51,501 is required for construction management, surveying, quality control and inspection services (10%), equating to a total construction cost of \$618,017.

Funding for this project includes \$327,420 from the Highway Safety Improvement Program (HSIP) and \$250,664 of Surface Transportation Program (STP) funds as approved in the FY 2020/2021 Budget. An additional \$39,933 of STP funds is required to fully fund this project.

The bids are as follows:

<u>Contractor</u>	<u>Amount</u>
P T M General Engineering Services Inc Riverside, CA	\$515,015
California Professional Engineering Inc La Puente, CA	\$747,361

Staff has found the low bid acceptable.

RECOMMENDATION: That City Council:

1. Award the Olive Avenue and Newcomb Street Traffic Signal Upgrade Project to P T M General Engineering Services, Inc in the amount of \$515,015;
2. Authorize progress payments up to 100% of the contract amount;

3. Authorize a 10% contingency to cover unforeseen costs;
4. Authorize 10% for construction management, quality control, and inspection services; and
5. Authorize additional appropriation of \$39,933 of STP Funds.

CITY COUNCIL AGENDA – JANUARY 19, 2021

SUBJECT: Authorization to Amend R3 Consulting Services Agreement

SOURCE: Public Works

COMMENT: At its meeting on July 7, 2020, the City Council authorized the Mayor to execute a Consultant Service Agreement with R3 Consulting, Inc. to conduct a comprehensive solid waste rate study and related tasks intended to satisfy the requirements of Proposition 218 rate setting as applied to municipal solid waste service rates.

During the solid waste rate study, staff determined that additional assistance is required with SB 1383 regulatory compliance as well as an analysis of the potential for privatizing/outsourcing the City's solid waste collection operations.

SB 1383 (Lara, Chapter 395, Statutes of 2016), established methane emissions reduction targets in a statewide effort to reduce emissions of short-lived climate pollutants (SLCP) in various sectors of California's economy. As it pertains to CalRecycle, SB 1383 establishes targets to achieve 50 percent reduction in the level of the statewide disposal of organic waste from the 2014 level by 2020 and a 75 percent reduction by 2025. The law grants CalRecycle the regulatory authority required to achieve the organic waste disposal reduction targets and establishes an additional target that no less than 20 percent of currently disposed edible food is recovered for human consumption by 2025. On January 1, 2022, the regulations take effect and state enforcement begins.

The additional proposed services, relating to SB 1383, from R3 Consulting, Inc. include: SB 1383 Compliance Matrix, SB 1383 Implementation Record, Municipal Code updates and Ordinances, and estimates for SB 1383 compliance costs.

R3 will also evaluate the potential for privatizing the City's municipal solid waste collection operations, with proposed services including: Outsourcing Analysis, evaluate additional City costs to provide industry standard operations, estimate the value of the City's Solid Waste Collection operations, analyze the cost and rate impacts of privatization, pros and cons of outsourcing versus municipal operations, and a presentation of findings to City Council.

It is staff's recommendation that the Council amend the Consultant Service Agreement with R3 Consulting, Inc. to include the additional services in the amount of \$39,560. R3 is a solid waste management consulting firm that works exclusively for municipal agencies.

Funding for the additional services is available in the Solid Waste Reserve Fund.

RECOMMENDATION: That City Council:

1. Authorize the Public Works Director to execute the Amendment to the Consultant Service Agreement, upon approval by City Council, with R3 Consulting, Inc. in the amount not to exceed \$43,516 (inclusive of a 10% contingency); and
2. Authorize progress payments up to 100% of the agreed upon fee amounts.

ATTACHMENTS: 1. Additional Scope of Services

Appropriated/Funded:

Review By:

Department Director:

Michael Knight, Public Works Director

Final Approver: John Lollis, City Manager

December 2, 2020

Mr. Michael Knight
Public Works Director
City of Porterville
555 N. Prospect Street
Porterville, CA 93257

Subject: Proposal to Provide SB 1383 Compliance Services and Analyze the Potential for Outsourcing the City's Municipal Solid Waste Management Operations

Dear Mr. Knight:

R3 Consulting Group, Inc. (R3) is pleased to submit the attached additional work scope and budget to assist the City of Porterville (City) with an SB 1383 regulatory compliance plan and analyzing the potential for privatizing/outsourcing the City's solid waste collection operations, as requested by the City.

We appreciate the opportunity to submit our additional proposal to the City. Should you have any questions or need any additional information please do not hesitate to call me at (916) 947-4880 or by email at wschoen@r3cgi.com.

Sincerely,

R3 CONSULTING GROUP

William Schoen | Project Director

Additional Proposed Services

Scope of Services

Task 1 SB 1383 Compliance Services

Task 1.1 Identification of Legislative Requirements

R3 will develop a SB 1383 Matrix that will list the major jurisdiction compliance requirements, the responsible entity, and potential alternative responsible entities. The identification of alternative responsible entities will include two separate listings, one assuming the City continues to provide municipal services and the second assuming the City outsources those service to the private sector. An SB 1383 Compliance Analysis letter report will be drafted to accompany the SB 1383 Matrix. That letter report will summarize SB 1383 requirements and responsibilities, including **Implementation Record** requirements (**Attachment 1**), which provides a framework for organizing and tracking the City's compliance efforts (see Task 1.2 below). Cost estimates will be prepared for City activities necessary to comply with SB 1383 (see Task 1.4), and recommendations provided to the City for next steps specific to its SB 1383 compliance efforts.

Task 1.2 Implementation Record Based Compliance Plan

R3 will develop an expanded **Implementation Record (Attachment 1)** that lists the requirements of each Implementation Record item based on the language in the referenced Sections, as applicable. Working with the City, R3 will then prepare preliminary required program descriptions, identify questions that the City needs to answer to address particular requirements, and recommended next steps, as applicable.

The intent of this effort is to provide a preliminary draft of the City's required **Implementation Record** for those items that can be addressed at this point that the City can use to guide its subsequent SB 1383 compliance efforts.

As part of this task, drafts of the following required descriptions will be developed with City input:

- A written description of the City's Inspection and Enforcement Program;
- A description of which collection methods the City will use to comply with SB 1383;
- A description of the City's process for determining the level of container contamination;
- A description of the City's process for issuing waivers and frequency of inspections to verify the validity of waivers;
- A description of the City's hauler program; and
- A description of how the City will comply with the requirements of Article 12. Procurement of Recovered Organic Waste Products.

Task 1.1 – 1.2 Deliverables

- One (1) draft and final electronic SB 1383 Compliance Matrix.
- One (1) draft and final electronic SB 1383 Compliance Analysis Letter Report.
- One (1) draft and final Preliminary Draft **Implementation Record** document.

Task 1.3 Municipal Code Update

Section 18981.2 of SB 1383 (Implementation Requirements on Jurisdictions) states that:

- (a) By January 1, 2022, a jurisdiction shall adopt enforcement ordinance(s), or similarly enforcement mechanisms that are consistent with the requirements of this chapter, to mandate that organic waste generators, haulers, and other entities subject to the requirements of this chapter that are subject to the jurisdiction's authority with the requirements of this chapter.

Rather than incorporate pages of SB 1383 related ordinance language in the City's Municipal Code for 1383, as CalRecycle's Model Enforcement Ordinance does, we propose incorporating the language below into Chapter 13 - Garbage and Refuse of the City's municipal code. That language will be followed by a summary of the major requirements for all applicable parties, available waivers, and fines and penalties so the reader has an effective understanding of what is required and the associated consequences for non-compliance. For more detail the reader is referred to the specifics of SB 1383. We suggest this approach is more user friendly and effective in that the reader doesn't get buried/lost in the detail suggested in the CalRecycle Model Enforcement Ordinance. The City's attorney should review this approach and make sure that it is acceptable and effectively complies with the regulations.

8.12.807 SB 1383 Regulatory Compliance.

Organic waste generators, franchised waste haulers, and all other entities subject to the requirements of SB 1383 shall fully comply with all applicable SB 1383 regulatory requirements or be subject to the penalties as prescribed in Section 18997.2 of SB 1383, or Section 13-24 (Penalty for Violation), as determined by the Public Works Director and/or his or her designee.

Task 1.3 Deliverable

- Draft SB 1383 Municipal Code language

Task 1.4 Estimates for SB 1383 Compliance Costs

SB 1383 compliance will require changes in collection systems, increased public education, implementation of monitoring and enforcement activities, as well as other changes, all of which have potential cost impacts. R3 will develop cost estimates for City SB 1383 regulatory compliance related costs that will be based in part on information developed as part of Task 1.2 above, which will be factored into the City's Financial Model and projected rate adjustments.

Task 1.4 Deliverable

- Cost estimates for City SB 1383 compliance costs.

Task 2 Privatization | Outsourcing Analysis

R3 will evaluate the potential for privatizing the City's municipal solid waste collection operations. That analysis will include:

1. Projecting the costs related to recommended improvements to the City's current municipal collection system to bring operations in line with industry standards, and SB 1383 compliance costs, and the associated impact on the City's current rates;

2. Projecting current costs in the Solid Waste budget that would **not** go away if the City were to outsource those operations, and the associated franchise fee that would be required to cover those costs;
3. Assessing the potential rate impact associated with outsourcing of the City's solid waste management operations;
4. Assessing the regional market and the potential interest in an exclusive City residential and commercial franchise if the City were to decide to outsource those operations;
5. Comparing the advantages and disadvantages associated with municipal and outsourced operations; and
6. Providing recommendations for contractor requirements related to displaced City employees, should operations be outsourced.

Task 2.1 Evaluate Additional City Costs to Provide Industry Standard Operations

Assessing the impacts of privatization requires an understanding of the current baseline in which the City is operating, and how the City should be operating to meet industry standards. R3 will utilize the findings from the current operational performance review to project the costs and associated rate impact of recommended improvements to existing operations to bring those operations in line with industry standards. This baseline can then be compared to the potential costs and rates associated with privatization. Additional costs related to SB 1383 compliance (Task 1.4) will also be factored into this projected baseline rate.

Task 2.2 Estimate the Value of the City's Solid Waste Collection Operations

R3 will project the value of the City's operations to a private contractor through an analysis of the following:

- Estimated value of vehicles, containers, and other equipment, less any outstanding capital depreciation not realized by the City; and
- Estimated value of the City's operations based on the projected revenues over a typical franchise contract term that would be realized above a reasonable target profit level, if any, accounting for the current rate schedule and anticipated required rate adjustments.

This analysis will be factored into the cost and rate impacts associated with privatization (Task 2.4).

Task 2.3 Analyze the Cost and Rate Impacts of Privatization

A key issue in deciding if outsourcing is a favorable option for the City is to determine the impact on customer rates. That impact is a combination of:

- The cost of the contractor's operations, including profit; and
- City fees that the contractor is required to pay.

As part of this task R3 will:

- Work with City staff to identify current Solid Waste budgeted costs that would not go away if those operations were privatized, and as such need to be accounted for in assessing the costs/rates associated with outsourcing of those operations.

- Review rates in neighboring jurisdictions provided by private contractors and present that information as one benchmark for the potential rates the City might expect were it to outsource its operations. This analysis will build on the results of our Refuse Rate Survey being conducted as part of our current scope of work; and
- Assess the current regional market and the potential interest of the private sector in a City franchise. This may include contacting regional haulers to gauge their interest in a City franchise and potential rates for an SB 1383 compliant residential and commercial collection system.

In comparing projected rate impacts of privatization, it is important to note that the City's current rates are low relative to the region. A significant increase in rates is expected to be required to address the current Solid Waste budget annual revenue shortfall, provide for additional staff and other resources needed to bring the City's municipal operations in line with industry standards, and provide for additional costs related to SB 1383 compliance. As such, our analysis will include a projection of the increase to the current rates that will be necessary to support the above additional costs, which we will then compare to the potential rate impact associated with privatization.

Task 2.4 Pros and Cons of Outsourcing Versus Municipal Operations

R3 will provide a comparison of the pros and cons associated with continued municipal operations and the outsourcing of those operations. We will also provide case studies of the City of Hemet's (2011), and City of San Bernardino's (2016) privatizations of their municipal operations, including up front and ongoing payments received, and how displaced employees were handled as part of those privatizations. R3 will also provide recommendations for the handling of any City employees that would be displaced if the City were to outsource solid waste management operations.

Task 2.5 Analysis of Outsourcing Letter Report

The results of Tasks 2.1 through 2.4 will be presented in a draft electronic Letter Report. A final electronic Letter Report will be provided based on draft report comments received from the City.

Task 2.6 Presentation of Findings to City Council

R3 will participate in a Zoom City Council meeting to present the results of our review and answer questions from City Council members.

Task 2 Deliverable

- One (1) electronic draft Letter Report incorporating the above tasks, and one (1) electronic final Letter Report incorporating input from the City.
- Presentation of our findings at one (1) City Council Zoom meeting.

Project Budget

R3 proposes to complete the above scope of work on a time and material basis for a not-to-exceed budget of **\$39,560** as shown in **Table 1** below. Our hourly billing rates are provided in **Table 2**.

Table 1
Project Budget

Task		Cost	Hours
1	SB 1383 Program Implementation	\$ 22,925	125
2	Privatization Analysis	\$ 16,635	91
		Total Hours	216
		Total Cost	\$ 39,560

Table 2
Billing Schedule

2020 BILLING RATES AND CHARGES	
Classification	Hourly Rate
Principal	\$225 per hour
Project Director	\$215 per hour
Senior Project Manager	\$190 per hour
Project Manager	\$185 per hour
Senior Project Analyst	\$165 per hour
Senior Administrative Support	\$160 per hour
Project Analyst	\$155 per hour
Associate Analyst	\$145 per hour
Administrative Support	\$125 per hour
REIMBURSABLE COSTS (Included in Hourly Rates)

Travel — Other	Direct cost
Delivery and other expenses	Direct cost

Payments

Unless otherwise agreed in writing, fees for work completed will be billed monthly at the first of each month for the preceding month and will be payable within 30 days of the invoice date.

Attachment 1

Implementation Record Requirements

Section 18995.2. Implementation Record and Recordkeeping Requirements.

- (a) A jurisdiction shall maintain all records required by this chapter in the Implementation Record.
- (b) The Implementation Record shall be stored in one central location, physical or electronic, that can be readily accessed by the Department.
- (c) Upon request by the Department, the jurisdiction shall provide access to the Implementation Record within ten business days.
- (d) All records and information shall be included in the Implementation Record within 60 days of the creation of the record or information.
- (e) All records shall be retained by the jurisdiction for five years.
- (f) A jurisdiction is to maintain all required SB 1383 records in the **Implementation Record** that is to include, at a minimum, the following information:
 - (1) A copy of all ordinances, or other similar enforceable mechanisms, contracts, and agreements, as required by this chapter.
 - (2) A written description of the jurisdiction's inspection and enforcement program that it uses to comply with Sections 18995.1 (pg. 100) and 18995.4 (pg. 104).¹
 - (3) All organic waste collection service records required by Section 18984.4 (pg. 67).
 - (4) All contamination minimization records required by Section 18984.6 (pg. 70).
 - (5) All waiver and exemption records required by Section 18984.14 (pg. 76).
 - (6) All education and outreach records required by Section 18985.3 (pg. 78).
 - (7) All hauler program records required by Section 18988.4 (pg. 83).
 - (8) All jurisdiction edible food recovery program records required by Section 18991.2 (pg. 86).
 - (9) All recovered organic waste procurement target records required by Section 18993.2 (pg. 95).
 - (10) All recycled content paper procurement records required by Section 18993.4 (pg. 97).
 - (11) All inspection, route review, and compliance review reports generated pursuant to the requirements of Section 18995.1(d) (pg. 102).
 - (12) All records of enforcement actions undertaken pursuant to this chapter.
 - (13) All records of complaints and investigations of complaints required by Section 18995.3 (pg. 103) and compliance with the jurisdiction's Inspection and Enforcement requirements of Sections 18995.1 (pg. 100).
 - (14) All records required by Section 18998.4 (pg. 117) if the jurisdiction is implementing a performance-based source-separated organic waste collection service under Article 17 of this chapter.

CITY COUNCIL AGENDA – JANUARY 19, 2021

SUBJECT: Authorization to Submit A Congestion Mitigation and Air Quality (CMAQ) Improvement Program Grant Application for Electric Refuse Trucks

SOURCE: Public Works

COMMENT: The purpose of the federal Congestion Mitigation and Air Quality Improvement (CMAQ) program is to fund transportation projects or programs that will contribute to attainment or maintenance of the national ambient air quality standards (NAAQS). Funding can be expended on projects to reduce ozone precursor emissions (including nitrogen oxides (NOx) and volatile organic compounds (VOC), carbon monoxide (CO), and particulate matter (PM) emissions or PM precursor (e.g. NOx) emissions from transportation.

The primary purpose of CMAQ is to fund transportation projects or programs that will assist Tulare County in meeting federal air quality standards. Focus is on improving traffic flow to reduce vehicle emissions, reducing vehicle miles traveled, retrofitting or replacing high polluting vehicles, etc.

On November 19, 2020, the Tulare County Association of Governments (TCAG) released a Call for Projects of approximately \$10 million for project implementation from Fall 2021 to April 2023.

It is staff's recommendation that the City submit a CMAQ application for this Call for Projects. For the Council's consideration, this CMAQ application will be for the procurement of three electric zero-emission refuse trucks. The total project cost is estimated to be \$1,569,038, of which, \$1,389,069 in CMAQ funds is requested. The local match share is estimated to be \$179,969 and will be funded from the Solid Waste Equipment Replacement Fund.

If awarded, the project will start in September 2021 and it is expected the electric refuse vehicles will be in service by October 2022.

RECOMMENDATION: That the City Council authorize staff to prepare and submit a CMAQ Improvement Grant application for the purchase of three electric refuse trucks.

CITY COUNCIL AGENDA – JANUARY 19, 2021

SUBJECT: Authorization to apply for Local Early Action Planning (LEAP) Grant

SOURCE: Community Development

COMMENT: In early 2020, the California Department of Housing and Community Development (HCD) released a notice of funding availability (NOFA) in the amount of \$250 million for regional and local governments to be used to accelerate housing production. Of the funding available, \$119 million has been earmarked for a second, over-the-counter grant program similar to that of the SB2 Planning Grant program. The monies are to be used for “eligible activities” that “demonstrate an increase in housing related planning activities.” In accordance with the NOFA, the City of Porterville is eligible to receive up to \$300,000 in over-the-counter grant funding if an application is submitted by January 31, 2021.

Under the Fifth Cycle of the Regional Housing Needs Assessment (RHNA), the Tulare County Association of Governments (TCAG) determined for the planning period 2014-2023, the City of Porterville is expected to approve 1,199 affordable housing units. Like many jurisdictions, the City is struggling to meet that allocation.

HCD recently announced that in addition to the SB2 and LEAP programs, HCD will be administering the Regional Early Action Planning Grant (REAP) program, which allocated almost \$19 million to the San Joaquin Valley working groups, including TCAG. Individual jurisdictions could be eligible for a portion of those funds as well. As such, the City could potentially receive in excess of \$750,000 for planning updates and projects.

On September 17 and October 1, 2019, the City Council deliberated three options proposed by Staff for the SB2 Planning Grants program. These options included pre-approved architectural plans for expedited housing production, a specific plan for ±420 acres located south of the Tule River and between Westwood and SR 65 (SoTu), and a Mixed Use Development toolkit to guide developers on how to develop mixed-use projects. On October 1, 2019, the Council directed Staff to prepare an application for the pre-approved architectural plans and defer SoTu for future grant opportunities.

The City of Porterville’s housing stock lacks diversity with nearly 75% of residential units being in the form of single-family residences. While the Single Family Home will always be a cornerstone of housing development in Porterville, there is a pressing need for alternative forms of housing to be

developed. Diversification of the housing stock could benefit a wide array of residents such as young professionals not ready for homeownership, elderly residents who do not want to maintain an entire house in their golden years, or those residents for whom homeownership is not financially feasible. A diversified housing stock could also help lay the groundwork for additional economic revitalization and investment by offering: 1.) A variety of housing options could entice employers to relocate/open in the Porterville area due to varying levels of home affordability for potential employees 2.) Promoting districts and neighborhoods oriented around multi-modal transportation can attract amenities and services growing industries desire, and 3.) Increased housing stock at different affordability levels encourages businesses that cater to different demographics to open.

Based on the City's long term development needs outlined in the RHNA and previous Council direction, a SoTu Specific Plan and Sphere of Influence amendment would be a prime candidate for the City's LEAP application. Conceptual drafts of SoTu by staff estimate that SoTu could support 4,667 new housing units ($\Delta 27.1\%$) in a variety of densities at full build-out, resulting in the addition of an estimated 15,691 new residents ($\Delta 26.1\%$). While the full costs to completely pre-entitle this area could not be covered by LEAP, the grant would be used to cover the costs of feasibility studies and outline a Conceptual Plan, which would outline infrastructure and circulation needs, as well as better identify housing development. Future grant funds could continue the relay effort and ultimately lead the City toward an approved, ready to build, specific planned area. Growth across the Tule River is inevitable; by taking the initial steps to develop a specific plan, this could enable the City to effectively encourage, guide, and manage the growth in a key area of the City's future.

RECOMMENDATION: That the City Council approve the draft Resolution authorizing staff to apply for LEAP Grant funding.

RESOLUTION NO. ____-2020

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF PORTERVILLE
AUTHORIZING APPLICATION FOR, AND RECEIPT OF, LOCAL GOVERNMENT
PLANNING SUPPORT GRANT PROGRAM FUNDS

WHEREAS: pursuant to Health and Safety Code 50515 et. Seq, the Department of Housing and Community Development (Department) is authorized to issue a Notice of Funding Availability (NOFA) as part of the Local Government Planning Support Grants Program (hereinafter referred to by the Department as the Local Early Action Planning Grants program or LEAP); and

WHEREAS: the City Council of Porterville desires to submit a LEAP grant application package ("Application"), on the forms provided by the Department, for approval of grant funding for projects that assist in the preparation and adoption of planning documents and process improvements that accelerate housing production and facilitate compliance to implement the sixth cycle of the regional housing need assessment; and

WHEREAS, the Department has issued a NOFA and Application on January 27, 2020 in the amount of \$119,040,000 for assistance to all California Jurisdictions;

Now, therefore, the City Council of Porterville ("Applicant") resolves as follows:

SECTION 1. The Community Development Director is hereby authorized and directed to apply for and submit to the Department the Application package;

SECTION 2. In connection with the LEAP grant, if the Application is approved by the Department, the Community Development Director of the City of Porterville is authorized to submit the Application, enter into, execute, and deliver on behalf of the Applicant, a State of California Agreement (Standard Agreement) for the amount of \$300,000, and any and all other documents required or deemed necessary or appropriate to evidence and secure the LEAP grant, the Applicant's obligations related thereto, and all amendments thereto; and

SECTION 3. The Applicant shall be subject to the terms and conditions as specified in the NOFA, and the Standard Agreement provided by the Department after approval. The Application and any and all accompanying documents are incorporated in full as part of the Standard Agreement. Any and all activities funded, information provided, and timelines represented in the Application will be enforceable through the fully executed Standard Agreement. Pursuant to the NOFA and in conjunction with the terms of the Standard Agreement, the Applicant hereby agrees to use the funds for eligible uses and allowable expenditures in the manner presented and specifically identified in the approved Application.

CITY COUNCIL AGENDA – JANUARY 19, 2021

SUBJECT: Assignment of Airport Lease - Lot 34D

SOURCE: Finance

COMMENT: Joyce Moody-Flores, the current leaseholder of Lot No. 34D, has sold the hangar to Scott Creager. Joyce Moody-Flores is requesting the transfer of the lease to Scott Creager. Scott Creager is requesting City Council authorization to assume the existing lease between the City of Porterville and Joyce Moody-Flores, which expires on May 31, 2024. The hangar on the subject property is being utilized for parking and storage of aircraft.

RECOMMENDATION: That the City Council approve the Assignment of Lease for Lot No. 34D at the Porterville Municipal Airport from Joyce Moody-Flores to Scott Creager; and authorize the Mayor to sign the Lessor's Consent to Assignment of Lease Agreement on behalf of the City.

AIRCRAFT HANGAR
BILL OF SALE

Jayce Moody Flores

This sale agreement is made by and between (Seller) Scott CREAGER of City of Hartsville and (Buyer) Scott Creager of City of Visalia.

With the signing of this sale agreement and the Buyer transferring the total purchase price of \$ 28,000 to the Seller, the Seller hereby sells and forever transfers the ownership of the aircraft hangar described below, to the Buyer.

Description of the aircraft hangar being sold:

AIRCRAFT

Make: STRUCTURES INC Model: 42X48 Serial #: _____
Airport location name: PORTERVILLE CA Site # Lot 34D

Seller represents and warrants that it has full and good title to the described aircraft hangar, full authority to sell and transfer the same, and that the aircraft hangar being sold is free and clear of all liens, encumbrances, liabilities, and adverse claims, of every nature and description.

Buyer understands that the aircraft hangar is being sold in its present condition "as is" and "where is" and that Seller disclaims any implied warranty of condition or function, or any responsibility thereof.

Authorizing signatures:

<u><i>Jayce Moody Flores</i></u> Seller	<u><i>Scott Creager</i></u> Buyer
<u>Jayce A. Moody Flores</u> (seller's name printed)	<u>SCOTT CREAGER</u> (buyer's name printed)
<u>Dec 21, 2020</u> date signed	<u>12-21-2020</u> date signed

BILL OF SALE

I, Joyce Moody Flores, of the City of Porterville, County of Tulare, State of CA, herein referred to "seller", for consideration hereby acknowledged, sell to Scott Creager, of the city of Visalia, County of Tulare, State of CA, herein referred to as "buyer", the following described goods:

The airport hangar and all related fixtures and improvements located upon the real property described as Lot 34D, Hanger Road, Porterville Airport, Porterville CA.

Seller convey no more extensive interest in and said property and goods then that interest to which he is entitled under the lease dated June 1, 2014 by and between the City of Porterville and Joyce Moody-Flores. Said described lease defines the rights and obligations of the lessee to remove said improvements from the real property and seller represents that buyer has no other further, or additional rights in said property.

Seller warrants that her interest to the previously described property is free of all debts or encumbrances.

Seller agrees to allow the purchaser to assume his lease with the City of Porterville, unchanged.

This bill of sale shall be effective as to the transfer of property listed herein as of December 21, 2020.

Joyce Moody-Flores

**ASSIGNMENT OF LEASE
PORTERVILLE MUNICIPAL AIRPORT**

THIS AGREEMENT, made this 19th day of January, 2021, by and between Joyce Moody-Flores, 1867 W. Tomah Ave., Porterville, CA owner of a hangar on Lot 34D at the Porterville Municipal Airport, as the Assignor, and Scott Creager, 2838 West Harvard Ave., Visalia, CA, as the Assignee.

In consideration of the mutual covenants herein contained, each act to be performed hereunder, and for other valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties agree as follows:

1. Effective December 21, 2020, Assignor hereby assigns, transfers and conveys to Assignee all of his right, title and interest as Lessee, in, to and under a certain Lease Agreement dated June 1, 2014 (hereinafter "Lease"), executed by and between the City of Porterville, as Lessor, and Joyce Moody-Flores, as the original Lessee, providing for the letting of certain premises located at the Porterville Municipal Airport, Porterville, California, being more particularly described as follows:

Airport land Lot No. 34D, containing a total area of approximately 2,350 square feet, and establishing a Lease terminating on May 31, 2024.

2. Effective December 21, 2020, Assignee hereby accepts and assumes all of the obligations, responsibilities and liabilities of Assignor under said Lease, and agrees to perform said Lease Agreement according to its terms, covenants and conditions, without exception, and Assignee understands and agrees that Landlord makes no warranty or representation that either Assignor or Assignee would be given an exclusive use in the Porterville Municipal Airport for the use thereof by Assignor and/or Assignee, except as provided in the Lease.

3. Upon execution of this Assignment of Lease and Landlord's consent hereto, the parties' Noticed Address shall be as set forth herein above. The parties further understand there is a \$150 assignment fee, payable to the City of Porterville, and the Assignee must provide proof of aircraft and hangar owner's liability insurance within thirty (30) days of Council approval.

4. Assignor hereby covenants said Lease as valid and existing and hereby warrant that Assignor is not in default as of the date of this Assignment.

5. This Assignment shall be binding upon and shall inure to the benefit of the respective parties, their successors and assigns.

IN WITNESS WHEREOF, the parties hereto have executed this Assignment of Lease as of the date first above written.

CITY COUNCIL AGENDA – JANUARY 19, 2021

SUBJECT: Status Report - Developer Impact Fees

SOURCE: Finance

COMMENT: Pursuant to Government Code Section 66006 (b)(1), a detailed fund analysis of the capital improvement funds containing developer impact fees has been prepared. A copy of this analysis has been delivered to the Building Industry Association of Tulare/Kings Counties, Inc. (BIA), per their request.

The format and content of this analysis have been developed around criteria previously approved by BIA.

RECOMMENDATION: That the City Council accept the Status Report on Developer Impact Fees for the fiscal year ended June 30, 2020.

CITY COUNCIL AGENDA – JANUARY 19, 2021

SUBJECT: Status and Review of Local Emergency: Drought

SOURCE: City Manager's Office

COMMENT: Governor Brown issued Executive Order B-29-15 on Wednesday, April 1, 2015, which established drought-related mandates and restrictions in addition to those already stipulated in previous Executive Orders B-26-14 and B-28-14. Of significance, the Governor directed the State Water Resources Control Board to impose restrictions to achieve a statewide 25% reduction in potable urban water usage through February 28, 2016, in comparison to the amount used in 2013, and with consideration given to per capita usage as a basis. The Governor further directed the Board to impose additional restrictions on commercial, industrial, and institutional properties with significant landscaping (cemeteries, golf courses, parks, schools, etc.), to also achieve a 25% reduction in potable water usage. Also of significance, the Board was directed to prohibit irrigation with potable water outside of newly constructed homes and buildings that is not delivered by drip or micro-spray systems.

On November 13, 2015, Governor Brown issued Executive Order B-36-15, which extends emergency conservation regulations through October 2016, if drought conditions persist through January 2016. On February 2, 2016, the State Water Resources Control Board adopted extended emergency water conservation regulations, to be in effect March 1 through October 31, 2016. The City of Porterville benefited somewhat from the extended regulations as the City's water conservation rate has been reduced from 32% to 26%, due to new water connections that have been made and population served (4%), as well as a new climate adjustment factor that was considered (2%).

On May 9, 2016, Governor Brown issued Executive Order B-37-16 ("Making Water Conservation a California Way of Life"), which directs the State Water Resources Control Board to establish new regulations making permanent the emergency conservation regulations. On May 18, 2016, the State Water Resources Control Board adopted a statewide water conservation approach that replaces the percentage reduction-based water conservation standard with a localized "stress test" approach that mandates urban water suppliers act immediately to ensure at least a three-year supply of water to their customers under continued drought conditions.

On April 7, 2017, Governor Brown issued Executive Order B-40-17, which ended the drought state of emergency in most of California, with the exception of Fresno, Kings, Tulare and Tuolumne counties where emergency water supply

and reliability projects are continuing toward addressing diminishing groundwater supplies. The Order maintains monthly reporting requirements and prohibitions on wasteful practices. It is anticipated that the Governor will end the drought state of emergency in the four remaining counties in the near future.

On May 31, 2018, Governor Brown signed both AB 1668 (Friedman) and SB 606 (Hertzberg), which set permanent overall targets for indoor and outdoor water consumption. The legislation sets an initial limit for indoor water use of 55 gallons per-person per-day in 2022, reducing to 52.5 gallons per-person per-day in 2025, and finally to 50 gallons per-person per-day in 2030. The amount of residential outdoor use is yet-to-be determined, but will allow for varying regional climates. In addition, a standard for water loss due to leak rates in water system pipes will be established. As an urban water provider, the City of Porterville will need to submit its plan for compliance for approval by the State Water Resources Control Board.

At its meeting on December 15, 2020, the City Council took action in the continued affirmation of the adoption of a Resolution of Declaration of Local Emergency due to local residences within the city having been identified as having wells that are now dry as a result of the drought. Twenty-six (26) residences within the city were determined to have dry wells, for which City staff submitted a Mutual Aid Request to Tulare County OES to initiate the household tank program for identified properties within the city where wells are dry and challenged for permanent connection. The State has committed funding for non-profit agencies to continue drought-related activities, which Self-Help Enterprises has continued the household tank program locally, through State Cleanup and Abatement Account (CAA) emergency funds.

Representatives for the City, County, State (CalOES, DDW, DWR, and SWB) and non-profit partners have continued to meet in support of the long-term permanent water connection project for the entire East Porterville area and the estimated 1,800 expected future connections. DWR identified 423 residential units in the East Porterville area (381 of which are in the City's Urban Development Boundary), that were served by the County's Household Tank Program and desired by the State to be connected to the City's water distribution system as soon as possible. DWR has completed a significant City waterline extension project to permanently connect those 423 residential units to the City's water system (considered Phase I of the project). To provide initial source water for the DWR extension project, CalOES desired to expeditiously connect the new well on Olive Avenue to the City's water system instead of being first equipped as a filling station. Given the new well has an estimated water production value of 800 gallons per minute, as well as a SWB assumed 1.5 gallons per minute per residence, the new well could effectively serve up to 500 single-family residential units. The City indicated its significant interest that the E. Vandalia Avenue area and its eighty (80) residential units be included in the water connection project, to which the State was agreeable.

Given CalOES has paid for the development of the new well, and its connection to the City's water system, the City will be required under "Drought

Redundancy and Resiliency Provisions" to make available to the State up to three million gallons of water per month without charge for emergency purposes.

To proceed with the connection of the new well to the City's water system and the 500 East Porterville and E. Vandalia Avenue residential units, the City Council approved modifications to the Draft Agreement between the City and County at its meeting on April 5, 2016, which the County Board of Supervisors subsequently approved at their meeting on May 10, 2016.

A Memorandum of Understanding between the State, County, and City on the East Porterville permanent water connection project was approved by the Council during a Special Meeting on Tuesday, June 21, 2016, and approved by the Board of Supervisors on Tuesday, June 28, 2016. With the approval of the MOU, the State began the permanent connection of approximately forty (40) homes that are located along existing City water mains. Subsequently, the State officially requested that the City approve the connection of an additional thirty (30) residences as part of the first immediate connections, for up to a total of seventy (70), which the Council approved at its meeting on August 2, 2016.

In regards to the new well's development and connection to the City's water distribution system, the Board of Supervisors awarded the contract for equipping and connecting the new well at their meeting of Tuesday, August 16, 2016, and construction activities commenced the week of October 10, 2016. County staff had previously indicated that the well would be in service and connected to the City's system no later than December 2016, however, the well was operational and connected to the City's water distribution as of Friday, February 17, 2017. Given the delay in the well's completion and connection, DWR requested that the Council consider allowing the connection of residences as they become prepared for connection, to which the Council was receptive, and a Draft MOU Amendment was approved by the Council at its meeting on December 6, 2016, and subsequently approved by the Board of Supervisors at its meeting on December 20, 2016. City staff continues to work with County staff toward the transfer of the well's ownership from the County to the City.

As of Friday, March 31, 2017, the date the State established as the final day for property owners to complete the registration process to participate in the State-funded connection program opportunity, of the 1,017 eligible developed residential properties identified by the State for connection, 722 completed the required Extra-Territorial Services Agreement, leaving 295 developed residential properties non-responsive to this unique connection program, 23 of which were reported as having either dry or diminishing capacity wells. On February 6, 2018, the final residential connection was made of the approximate eligible 800 residences in East Porterville to the City's water system.

City staff continues to coordinate with Self-Help Enterprises and State representatives toward the extension of water mains to serve all residential properties within City limits and the city's periphery that are currently participating in the County's Household Tank Program. The two main areas of

focus are N. Cobb Street (northwest of State Route 65 and Pioneer Avenue), and S. Cloverleaf Street (southeast of State Route 65 and Olive Avenue). The State has maintained its commitment to grant-fund the necessary infrastructure and connection fees, providing an official funding letter to the City on January 18, 2018, which commits up to \$2.81 million in funding until December 31, 2019. The authorization to advertise for bids for the water connection project was approved by the Council at its July 17th meeting, after which DWR reviewed the bid package for compliance and approved in December the package for advertisement. Council authorized award of the construction contract for approximately \$1.82 million at its meeting on January 15, 2019. City staff conducted a pre-construction public outreach meeting with the affected residents on the status of the project on Thursday, April 4, 2019. Council authorized the agreement with Self-Help Enterprises Inc. to provide the private residential connections at its meeting on July 2, 2019, and construction work began on the project. At its meeting on October 1, 2019, the Council accepted the public works segment of the project in the installation of water mains as complete, with Self-Help and CSET continuing to collaborate on the completion of the individual private connections and abandonment of private wells. City staff has recently been made aware that there may be a couple of additional residences whose wells are dry that are located along existing City water mains or may require further extension of water mains. Staff is coordinating with State staff on addressing these new isolated needs.

County OES and the State Division of Drinking Water (DDW) have reported to the City that the Central Mutual Water Company, located south of the city and south of Gibbons Avenue, has had its well run dry and desires an immediate emergency connection to the City's water system to serve the 41 connections currently without water. DDW is wishing to support a financial application to upgrade the small water system to City standards (new water lines, meters ,etc.), and to sponsor an Urban Development Boundary (UDB) Amendment application to Tulare County Local Agency Formation Commission (LAFCO), given this area is currently outside the City's UDB but within the City's Urban Area Boundary (UAB). Given several private wells have run dry in this area, DDW is also attempting to sponsor their connection to the City's water system. For source water capacity for the connections, DWR will include these new connections within the East Porterville water connection capacity development projects. At its Special meeting on August 30th, the City Council directed staff to proceed with the immediate emergency connection of the Central water system, with the permanent connection of the system contingent upon an Agreement with DDW to the sponsorship conditions they have offered. At its meeting on October 1, 2019, the Council directed staff to proceed with the amendment of the UDB to facilitate annexation, which a public meeting with the affected residents was conducted on Wednesday, October 9, 2019. At its meeting on April 21, 2020, the Council conducted a Public Hearing and approved Resolutions of approval of the environmental determination and amendment to the UDB to facilitate annexation.

DDW has also reported to the City that the Del Oro East Plano water system, located on Paul Street (southeast of the intersection of Plano Street and Worth

Avenue), is experiencing problems with its existing well and have implemented severe water restrictions. The East Plano water system serves fourteen (14) residences and approximately 45 people. DDW is wishing to provide financial support to upgrade the small water system to City standards (new water lines, meters ,etc.), and for source water capacity for the connections, DDW would need to either pay appropriate fees and/or develop a capacity development project. The Council is aware that the Del Oro Grandview Gardens water system (north of W. North Grand Avenue) is also experiencing significant issues, and DDW may seek their future consolidation with the City's water system as well.

DDW has further reported to the City that the Beverly Grand Mutual Water Company water system, located north of West North Grand Avenue, is experiencing problems with its existing well and water quality issues, and desires its connection to the City's system to serve the 31 residences the system serves. DDW is wishing to provide financial support to upgrade the small water system to City standards (new water lines, meters ,etc.), and for source water capacity for the connections, DDW has agreed to pay appropriate fees toward developing a capacity development project, which at its meeting of October 3, 2017, the Council approved a purchase agreement with Smee Homes, Inc. for the acquisition of property along the Tule River for the development of a new municipal well. At its meeting of October 1, 2019, the Council approved proceeding with the consolidation of the Beverly Grand water system.

RECOMMENDATION: That the City Council receive the report of status and review of the Declaration of Local Emergency and determine the need exists to continue said Declaration.

Final Approver: John Lollis, City Manager

RESOLUTION NO. 49-2015

A RESOLUTION OF THE CITY COUNCIL OF
THE CITY OF PORTERVILLE DECLARING A DROUGHT EMERGENCY
WITHIN THE CITY OF PORTERVILLE

WHEREAS: in response to the ongoing severe drought, the State Water Resources Control Board approved an emergency regulation to ensure water agencies, their customers, and state residents increase water conservation in urban settings or face possible fines or other enforcement; and

WHEREAS: as we enter the fourth year of severe drought, long-term forecasts indicate no relief of the current drought conditions, and suggest a warmer-than-average summer, resulting in increased domestic demand for water; and

WHEREAS: public and private potable water supplies continue to be threatened due to decreasing supplies of groundwater caused by the precipitation deficit and an extended state of groundwater overdraft; and

WHEREAS: the long-term ramifications of the current drought will have a significant impact on the city of Porterville and potentially pose a danger to the health and welfare of its residents; and

NOW, THEREFORE, BE IT RESOLVED: that the City Council of the City of Porterville does hereby proclaim that, due to drought conditions, a Local Emergency now exists in the city of Porterville and shall remain in effect for the duration of the emergency; and

BE IT FURTHER RESOLVED: that the City Council of the City of Porterville requests the Governor and California Department of Water Resources make available California Disaster Assistance Act funding for the State of Local Emergency proclaimed on May 5, 2015, and seek all available forms of Federal assistance, to include a Presidential Declaration of Emergency and Individual Assistance and Public Assistance programs as applicable; and

BE IT FURTHER RESOLVED: that a copy of this resolution be forwarded to the State Director of the Office of Emergency Services.

PASSED, APPROVED, AND ADOPTED this 5th day of May 2015.

Milt Stowe, Mayor

John D. Lollis, City Clerk

By: Patrice Hildreth, Chief Deputy City Clerk

TULARE COUNTY – CITY OF PORTERVILLE WELL AGREEMENT

THIS AGREEMENT is entered into this day of, May 10, 2016, between the COUNTY OF TULARE, referred to as COUNTY, and the CITY OF PORTERVILLE, referred to as CITY, with reference to the following:

- A. WHEREAS, East Porterville/Doyle Colony area properties within the COUNTY's jurisdiction and within the CITY's Urban Development Boundary are experiencing serious water shortages due to the historical drought conditions. Attached hereto as Exhibit 'A' is a map defining the East Porterville/Doyle Colony and Vandalia areas; and
- B. WHEREAS, CITY and COUNTY have been and are collaborating to jointly develop a new municipal water well; and
- C. WHEREAS, COUNTY shall secure complete funding for a new well to be solely owned, operated and maintained by the CITY for the purpose of providing long-term capacity to enable permanent water connections to properties that comply with CITY'S Annexation and Extension of Municipal Services policy, with certain exceptions for specific properties in excess of the maximum lot size. These procedures are defined by two Resolutions, 74-2014 and 19-2016, which are attached hereto as Exhibit 'B'; and
- D. WHEREAS, the COUNTY owns a parcel at the southeast corner of the Tule River and Olive Avenue (APN 240-120-017), represented in Exhibit 'C', and has drilled a municipal supply well, and will equip said well utilizing CITY standards, after which the COUNTY shall convey the land to CITY at a cost of \$1; and
- E. WHEREAS, CITY operates an existing municipal water system, with limited infrastructure already established in the East Porterville/Doyle Colony and Vandalia areas, and has experience and qualifications necessary to provide such services; and
- F. WHEREAS, CITY and COUNTY mutually agree that a regional, collaborative solution to leverage and expand CITY'S municipal water system into the East Porterville/Doyle Colony and Vandalia areas is the most feasible means to address the area's water needs; and
- G. WHEREAS, CITY is willing to enter into this Agreement with COUNTY upon terms and conditions set forth herein; and
- H. WHEREAS, CITY and COUNTY mutually understand that due to the limited resources of the CITY's municipal water system, all future connections must comply with the CITY's Annexation and Extension of Municipal Services policies, with certain exceptions for specific properties in excess of the maximum lot size, attached hereto and made a part thereof as Exhibit 'B'.

ACCORDINGLY, IT IS AGREED:

- 1. **TERM:** This agreement shall become effective as of the date the agreement is fully executed by both agencies.
- 2. **SERVICES TO BE PERFORMED & PAYMENT FOR SERVICES – EQUIPPING MUNICIPAL WELL FACILITY:** Refer to attached Exhibit 'D'.

TULARE COUNTY AGREEMENT NO. 27596

3. **SERVICE TO BE PERFORMED IN PERPETUITY:** The services described below shall be performed in perpetuity upon completion of all tasks enumerated in Exhibit 'D' and upon COUNTY securing the funds for equipping the well to CITY standards and requirements:
- A. CITY shall provide to STATE and/or COUNTY, upon STATE and COUNTY's request, a maximum of three million (3,000,000) gallons of water per month upon integration of the well provided under this Agreement, for the purposes of meeting emergency water needs in COUNTY's jurisdiction. CITY shall not charge COUNTY or STATE for said water.
 - B. CITY shall utilize water produced by the well provided under this Agreement as source capacity for new service connections and agreements in East Porterville/Doyle Colony and Vandalia areas. CITY agrees to provide source water for up to four hundred twenty-three (423) new connections in the East Porterville/Doyle Colony area subject to the CITY'S Annexation and Extension of Municipal Services policies, with certain exceptions for specific properties in excess of the maximum lot size, and up to 80 new connections in the Vandalia area. The 423 new connections noted above are inclusive of those properties immediately adjacent to an existing water main, estimated at 40 parcels, which can be connected to the City's water system immediately upon execution of this agreement and the Memorandum(a) of Understanding between CITY, COUNTY, and STATE. Upon connection to CITY services, the listed properties will be exempt from payment of CITY water impact fees, but will be subject to standard fees, such as, but not limited to, water service and meter installation, unless otherwise financed by STATE or other funding sources, and associated monthly fees. This section shall not be construed to limit additional connections beyond the above referenced 503 properties provided for herein, where CITY provides consumption documentation that determines additional source capacity is available as a result of the connection of this well to CITY's system.
 - C. CITY expressly agrees to own, operate, maintain, repair and otherwise care for the well provided under this Agreement, in order to maintain it in proper working order and to the highest standard, for the duration of the well's useful life.
 - D. COUNTY shall grant the parcel on which the well is located to the CITY by Grant Deed at a cost of \$1 upon formal acceptance of the project. A 50-foot control zone around the well site is a requirement of the State Water Resources Control Board, Drinking Water Program, therefore establishing the minimum parcel size to be conveyed to the CITY. Existing COUNTY infrastructure may encroach through or conflict with the subject parcel and if so, ownership, maintenance, repair and replacement of these facilities shall transition to the City's responsibility by separate maintenance agreement upon acceptance of the project.
 - E. CITY shall not be entitled to compensation by COUNTY, or any State or Federal agency providing funding for the activities enumerated in Exhibit 'D', for any ongoing costs related to owning, operating, maintaining, repairing, or replacing this well. CITY and COUNTY expressly agree that CITY's ongoing compensation for such ongoing costs shall be the use of the well for CITY's use within its water system, unrestricted except as noted in "A"

above. No part of this paragraph shall be construed to limit or restrict in any way CITY's ability to seek any grant funding or collect rates and fees from users of CITY's water system.

- F. All recipients of water are subject to CITY water policies, such as, but not limited to, water conservation and watering schedules. Connections made as noted in "B" above may be subject to further water conservation thresholds as required by the STATE.

4. This Agreement represents the entire agreement between CITY and COUNTY as to its subject matter and no prior oral or written understanding shall be of any force or effect. No part of this Agreement may be modified without the written consent of both parties.

5. Except as may be otherwise required by law, any notice to be given shall be written and shall be either personally delivered, sent by facsimile transmission or sent by first class mail, postage prepaid and addressed as follows:

COUNTY: County Administrative Officer/Clerk of the Board
of Supervisors of the County of Tulare
Administrative Building
2800 W. Burrel Avenue
Visalia, CA 93291

(Fax No.: (559) 733-6318 / Phone No. (559) 636-5005)

CITY: City Manager
291 N. Main St.
Porterville, CA 93257

(Fax No.: (559) 715-4013/ Phone No. (559) 782-7466)

Notice delivered personally or sent by facsimile transmission is deemed to be received upon receipt. Notice sent by first class mail shall be deemed received on the fourth day after the date of mailing. Either party may change the above address by giving written notice pursuant to this paragraph.

6. This Agreement reflects the contributions of both parties and accordingly the provisions of Civil Code section 1654 shall not apply to address and interpret any uncertainty.
7. Unless specifically set forth, the parties to this Agreement do not intend to provide any other party with any benefit or enforceable legal or equitable right or remedy.
8. This Agreement shall be interpreted and governed under the laws of the State of California without reference to California conflicts of law principles. This Agreement is entered into and shall be performed in Tulare County, California. CITY waives the removal provisions of California Code of Civil Procedure Section 394.
9. The failure of either party to insist on strict compliance with any provision of this Agreement shall not be considered a waiver of any right to do so, whether for that breach or any subsequent breach. The acceptance by either party or either performance or payment shall not be considered to be a waiver of any preceding breach of the Agreement by the other party.
10. The Recitals and the Exhibits to this Agreement are fully incorporated into and are integral parts of this Agreement.

11. This Agreement is subject to all applicable laws and regulations. If any provision of this Agreement is found by any court of other legal authority, or is agreed by the parties, to be in conflict with any code or regulation governing its subject, the conflicting provision shall be considered null and void. If the effect of nullifying any conflicting provision is such that a material benefit of the Agreement to either party is lost, the Agreement may be terminated at the option of the affected party. In all other cases the remainder of the Agreement shall continue in full force and effect.
12. Each party agrees to execute any additional documents and to perform any further acts which may be reasonably required to affect the purposes of this Agreement.
13. CITY expressly agrees that it will not discriminate in employment or in the provision of services on the basis of any characteristic or condition upon which discrimination is prohibited by state or federal law or regulation.
14. Insurance
15. Permit
16. Dispute Resolution: If a dispute arises out of or relating to this Agreement, or the breach thereof, and if said dispute cannot be settled through negotiation, the parties agree first to try in good faith to settle the dispute by non-binding mediation before resorting to litigation or some other dispute resolution procedure, unless the parties mutually agree otherwise. The mediator shall be mutually selected by the parties, but in case of disagreement, the mediator shall be selected by lot from among two nominations provided by each party. All costs and fees required by the mediator shall be split equally by the parties, otherwise each party shall bear its own costs of mediation. If mediation fails to resolve the dispute within 30 days, either party may pursue litigation to resolve the dispute.
17. Indemnification: CITY shall hold harmless, defend and indemnify COUNTY, its agents, officers and employees from and against any liability, claims, actions, costs, damages or losses of any kind, including death or injury to any person and/or damage to property, including COUNTY property, arising from, or in connection with, the performance by CITY or its agents, officers and employees under this Agreement. This indemnification specifically includes any claims that may be made against COUNTY by any taxing authority asserting that an employer-employee relationship exists by reason of this Agreement, and any claims made against COUNTY alleging civil rights violations by CITY under Government Code sections 12920 et seq. (California Fair Employment and Housing Act), and any fines or penalties imposed on COUNTY for CITY's failure to provide form DE-542, when applicable. This indemnification obligation shall continue beyond the term of this Agreement as to any acts or omissions occurring under this Agreement or any extension of this Agreement.

RESOLUTION NO. 74 -2014

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF PORTERVILLE DEFINING OBJECTIVES AND POLICIES FOR ANNEXATIONS AND MUNICIPAL SERVICES

WHEREAS: The City of Porterville established a policy concerning annexation and provision of municipal services in 1986, noting that “the City, in order to grow for reasons of economies of scale and quality of services must expand its boundaries within reason, generally encourages the owners of properties contiguous to the city of Porterville to annex to said City of Porterville”; and

WHEREAS: Since 1990, the population of the city of Porterville has increased 53% according to the California Department of Finance, and the land area of the city proper has increased by 38% according to City annexation records; and

WHEREAS: The City of Porterville accepts its responsibility to provide municipal services to those residents, businesses, and other land uses within the limits of the city. The City of Porterville has taken the position that the costs of all physical improvements within the city have been paid by property owners, and other taxes derived in the city, and, therefore, these same people should not be required to bear the expense of additional physical improvements needed to serve newly annexed areas.

NOW, THEREFORE, BE IT RESOLVED, that the City Council of the City of Porterville does hereby define the following objectives related to annexations and municipal services:

1. To promote orderly development while discouraging urban sprawl, preserving open space and prime agricultural lands, and efficiently extending government services.
2. To honor the City’s fundamental responsibility to provide efficient and sustainable public services to the inhabitants of the city, and where appropriate, to provide those services beyond the limits of the city within the Urban Development Boundary, and only in extreme cases to those properties beyond the Urban Development Boundary within the Urban Area Boundary.
3. To provide for land development and growth in a manner consistent with the General Plan, particularly as it relates to land use and circulation.
4. To consider an application upon its own merits, and identify what benefits would accrue to the City as an agency and service provider, to the residents of the city of Porterville, and to the applicant.
5. To identify the problems involved in any proposal considered for annexation or request for extra-territorial services and resolve them in the manner most beneficial to the properties within the city of Porterville.
6. To develop factual information to permit informed discussion between City representatives and property owners/residents of unincorporated territories.

BE IT FURTHER RESOLVED, that the City Council of the City of Porterville does hereby establish the following policies for consideration of annexations and municipal services:

1. It shall be the policy of the City of Porterville to consider annexation proposals only within the Urban Development Boundary, which is defined as the City of Porterville Annexation Boundary, as adopted by Tulare County Local Area Formation Commission (LAFCo).

2. It shall be the policy of the City of Porterville to consider extra-territorial service requests primarily within the Urban Development Boundary, which is defined as the City of Porterville Annexation Boundary, as adopted by Tulare County LAFCo.
3. It shall be the policy of the City of Porterville, only where necessary in order to respond to an existing or impending threat to public health or safety of affected residents, to consider extra-territorial service requests within the Urban Area Boundary, as adopted by City Council and identified on the City of Porterville Zoning Map.
4. It shall be the policy of the City of Porterville to consider annexation proposals and extra-territorial service requests in a manner consistent with the policies and regulations adopted by the Tulare County LAFCo and the State of California, as applicable.
5. It shall be the policy of the City of Porterville to discourage single-family one (1) lot annexation proposals that may have an adverse fiscal impact on the City of Porterville.
6. It shall be the policy of the City Council that territory shall not be annexed to the city of Porterville, which as a result of such annexation, unincorporated territory is completely surrounded, or substantially surrounded by the city of Porterville.
7. It shall be the policy of the City of Porterville that annexation proposals shall be in conformance with the Cortese-Knox-Hertzberg Act of 2000, as amended.
8. It shall be the policy of the City Council to consider each petition/consent for annexation upon its relationship to what economic benefits will accrue to the City of Porterville, and to the area residents/property owners.
9. It shall be the policy of the City Council that the costs of all physical improvements will be borne by the property owners/resident or developer.
10. It shall be the policy of the City of Porterville to maintain the viability of agricultural productivity; i.e. protecting and conserving as much agricultural land as possible in the area surrounding the Porterville community.
11. It shall be the policy of the City of Porterville that the applicant for annexation present proposals to the Project Review Committee and explain the particulars of the area under consideration for possible annexation, including a plan for services.
12. It shall be the policy of the City of Porterville to consider any requests for annexation or extra-territorial services in a manner consistent with the procedures adopted by resolution of the City Council.

PASSED, APPROVED AND ADOPTED this 21st day of October, 2014.

RESOLUTION 19-2016

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF PORTERVILLE
ESTABLISHING PROCEDURES FOR ANNEXATIONS AND EXTENSION OF
MUNICIPAL SERVICES

WHEREAS: On October 21, 2014, the City Council of the City of Porterville adopted two resolutions that defined objectives and policies, and established procedures for annexations and municipal services, respectively; and

WHEREAS: The on-going, severe drought of the past few years has created a situation where hundreds of parcels in the East Porterville area are experiencing dry wells, or wells of substandard water quality. State and regional agencies have come together with the City to identify and develop a long-term solution to this crisis, which will involve a significant infrastructure project to allow extension of municipal water services to the area. Not all parcels within the subject area meet the mandatory findings for extra-territorial service agreements as identified in the City's current procedures.

NOW, THEREFORE, BE IT RESOLVED, that the City Council of the City of Porterville does hereby amend existing procedures to submit application for municipal services, and to have said application(s) processed as outlined in Exhibit "A", attached. The exemption identified for the East Porterville Feasibility Study Project Area will apply to the area represented in Exhibit "B".

PASSED, APPROVED AND ADOPTED this 19th day of April, 2016.

Milt Stowe, Mayor

ATTEST:

John D. Lollis, City Clerk

BY 

Luisa Zavala, Deputy City Clerk

All properties requesting annexation or extraterritorial services are subject to the procedures established below unless otherwise stated. Compliance with City of Porterville procedures does not guarantee approval by LAFCo of annexations or extra-territorial service agreements. Upon request for an annexation or extraterritorial services request, staff will evaluate whether the applicant's property is within the City's Urban Development Boundary or Urban Area Boundary and explain the process.

ANNEXATION APPLICATION PROCEDURE

1. A complete annexation application packet includes: fees, an Irrevocable Agreement to Annex, information as needed to define a deed restriction specific to land use and zoning, Application for Annexation, and other materials as required with those applications respectively.
2. On receipt of an application as outlined above, all materials will be considered by the Project Review Committee, who will coordinate in a pre-consultation process with LAFCO staff and the County Public Works Department for review and recommendation.
3. During review by the Project Review Committee of the necessary application and data, staff will prepare a report and findings on all aspects of the proposed action(s).
4. An environmental document will be prepared pursuant to the California Environmental Quality Act (CEQA), reviewing the potential environmental effect of the proposed activities. The Zoning Administrator will make an initial determination of the level of environmental review required.
5. After proper noticing, a public hearing will be held for the City Council to hear comments related to the project at a regularly scheduled meeting. The Council will authorize staff to initiate the application with LAFCo. Documents will be filed in accordance with the Cortese-Knox-Hertzberg Act of 2000, as amended, and submitted to the Local Agency Formation Commission for its review, recommendation and action.
6. On consummation by the City Council, the City Clerk shall submit the necessary materials to the State Board of Equalization with the appropriate acreage fees, which are paid by the Applicant.
7. In the event the annexation fails, either by dissenting votes of the City Council or at hearing at LAFCo, the City Council may approve an extraterritorial service agreement within the Urban Development Boundary, subject to conditions identified in the deed restriction.

ANNEXATION EXEMPTION PROCEDURE

Where a certain property meets all of the following criteria, they may proceed with an Extraterritorial Service Agreement for water or storm-water drainage without first attempting annexation, subject to the conditions of Extraterritorial Service Agreements as defined below.

1. Previously developed single family residences on parcels 24,999 square feet or smaller, OR a school developed by a State funded school district.
2. The parcel requesting services must be immediately adjacent to a municipal main providing the requested service, or the property owner shall provide for the extension of the main line to City standards at their expense.

EXTRATERRITORIAL SERVICES APPLICATION PROCEDURE

Extraterritorial Service connections may be made subject to the following conditions. Note specific parameters and the required findings for connections in the Urban Development Boundary and the Urban Area Boundary.

1. Application: A complete extraterritorial services application packet includes: fees, an Irrevocable Agreement to Annex, information as needed to define a deed restriction specific to land use and zoning, and other materials as required with those applications respectively.
2. General Plan Consistency:
 - a. Proposed Uses and Improvements: Service connections are to be withheld from proposed uses and improvements that would not be consistent with the adopted Land Use Element of the Porterville Area General Plan and the City of Porterville General Plan.
 - b. Existing Uses and Improvements: Service connections to existing uses and improvements which are not consistent with the adopted Land Use Element of the Porterville Area General Plan and the City of Porterville General Plan shall be considered at the discretion of the City Council, and may be subject to other restrictions.
3. Agreements and covenants:
 - a. A deed restriction specific to land use and zoning must be approved by the property owner and the City Council, and recorded with the County of Tulare upon the property, at the applicant's cost.
 - b. An irrevocable agreement to annex must be signed by the property owner and recorded with the County of Tulare upon the property, at the applicant's cost.
4. Time limitations: The City Manager or his designee, or the City Council may condition the approval of applications for service connections by establishing a time frame within which connections must be made to avoid re-application.
5. Improvement Plans: Applications for service connections, which necessitate the extension of one or more municipal facilities to property in order to make such connections, shall be conditioned by the City Manager or his designee, or the City Council to require that Construction Drawings of the intended public improvements be submitted to the City Engineer for plan check and approval. Costs incurred for the preparation of improvement plans, and certain off-site construction and/or installation costs related to extending facilities, shall be the responsibility of the applicant.
6. Fees: Prior to the issuance of a Connection Permit, payment must be made to the City of Porterville of all fees pertinent to the respective service connection, or connections, approved by the City Manager or his designee, or the City Council.

Within the Urban Development Boundary:

For connection of water or storm-water facilities, the requesting party must fully fund the extension of infrastructure if it does not already exist in order to connect. The City of Porterville Wastewater Facility is a regional facility and as such, an extraterritorial service request cannot be denied; however, the requesting party must fund a fair share of the extension of infrastructure if it does not already exist in order to connect. Contract services for police, fire, or building inspection services shall be approved by resolution of the City Council.

For connection of water or storm-water facilities, the following findings must be made in order for the Council approve an extraterritorial service connection:

- That the subject property is a previously developed single family residence on a parcel 24,999 square feet or smaller, OR a school developed by a State funded school district.
- That failure to connect to municipal services would result in a threat to public health or safety of affected residents.
- That connection of the subject property would not result in a negative impact to the City of Porterville water and/or storm-water system.
- That the subject property is not within an island as defined by Tulare LAFCo.
- That an attempt to annex the subject site is not realistic given current city limit boundaries. Specifically, the parcel is too far removed from the city limit, and/or the number and valuation of adjacent parcels would result in a failed annexation effort.

Within the Urban Area Boundary:

For connection of water or storm-water facilities, the requesting party must fully fund the extension of infrastructure if it does not already exist in order to connect. The City of Porterville Wastewater Facility is a regional facility and as such, an extraterritorial service request cannot be denied; however, the requesting party must fund a fair share of the extension of infrastructure if it does not already exist in order to connect. Contract services for police, fire, or building inspection services shall be approved by resolution of the City Council.

For connection of water or storm-water facilities, the following findings must be made in order for the Council approve an extraterritorial service connection:

- That the subject property is a previously developed single family residence on a parcel 24,999 square feet or smaller, OR a school developed by a State funded school district.
- That failure to connect to municipal services would result in a threat to public health or safety of affected residents.
- That connection of the subject property would not result in a negative impact to the City of Porterville water and/or storm-water system.

EXEMPTIONS AND EXCEPTIONS

1. PVPUD: Connections to Porterville Regional Sewage Treatment Facilities serving uses and improvements to property within the boundaries and jurisdiction of the Porter Vista Public Utility District (PVPUD) are exempted from application to the City of Porterville. Interested parties should contact the PVPUD for information on connection requirements and fees pertaining

to sewer services. This exemption does not apply to requests for connection to Municipal Water and/or Master Storm Drain Facilities.

2. PRIOR APPROVALS: Porterville City Council approval of requests for connection to Regional Sewage Treatment, Municipal Water and/or Master Storm Drain Facilities as authorized prior to the adoption and effective date of the respective policies set forth herein shall remain valid and in force according to the terms and conditions initially specified at the time of approval, and re-application will not be required.

3. PROPERTIES WITHIN THE EAST PORTERVILLE FEASIBILITY STUDY PROJECT AREA: The California State Water Resources Control Board, in coordination with the Department of Water Resources Drought Task Force, is charged with preparing a feasibility study to define a long-term solution to the water related issues in East Porterville. Properties within that boundary would be permitted to apply for connection, whether in association with DWR, SWRCB, or at a later date, on their own. Such connections would be subject to the mandatory findings as outlined in this procedure, with the following exceptions:

- Rather than require that the subject property be a developed single-family residence on a parcel 24,999 square feet or smaller, neither the land use nor the parcel size would be restricted neither the land use nor the parcel size would be restricted for legal and legal non-conforming structures and land uses existing as of April 29, 2016.
- Further, properties within certain islands in the EPFS Project Area would not be required to annex prior to connection. This exception does not limit the City of Porterville's authority to pursue annexation in the future, but rather waives the requirement that annexation must be approved prior to connection.

Discussion Draft

Subject to Additional Review and Modification by the Parties

Porterville MOU
Draft 2
June 15, 2016
PortervilleEmergencyMOU061516

Memorandum of Understanding (MOU)

Regarding the Provisions of Emergency Water Supplies to East Porterville

by the California Department of Water Resources (DWR), California Office of Emergency

Service (OES), the State Water Resources Control Board (SWRCB),

the County of Tulare (County), and City of Porterville (Porterville),

which are collectively known as the “Parties”

Recitals

Whereas, some residents living in an unincorporated area of Tulare County, commonly known as “East Porterville,” have experienced loss of adequate water supply to their homes and properties as a result of severe drought conditions, which has caused significant hardship for the residents;

Whereas, Governor Edmund G. Brown Junior has directed all State agencies to assist these residents who are in need of water supplies with emergency and long-term assistance;

Whereas, Governor Edmund G. Brown Junior signed Assembly Bill 685 in 2012, adding Water Code section 106.3, which recognizes that every human being has the right to safe, clean, affordable, and accessible water adequate for human consumption, cooking, and sanitary purposes, and which requires all relevant state agencies to consider this right when revising, adopting, or establishing pertinent policies, regulations, and grant criteria;

Whereas, the Parties have provided emergency water supplies to some residents of East Porterville that are without an adequate household water supply;

Whereas, the Parties to this MOU seek an emergency and long-term solution to the lack of adequate household water supply by developing and providing continuous water supplies to these residents;

Whereas, East Porterville is located east and adjacent to Porterville, which has an existing municipal water system that serves residents within the incorporated area of Porterville;

Whereas, some of the residents of East Porterville without an adequate household water supply could be connected to Porterville's municipal water system provided certain arrangements and projects are carried out by the Parties;

Whereas, Vandalia is a neighborhood located within Porterville, and some Vandalia residents lack adequate household water supply and these households could be connected to Porterville's municipal water system;

Whereas, the Parties have met and have discussed alternative plans and projects that would provide an emergency water supply from Porterville to some residents of East Porterville and Vandalia in an expeditious manner;

Whereas, to advance these projects, DWR has provided funding, as reflected in the agreement between DWR and Tulare attached as Exhibit 1, for a municipal well designated as "Well C1" located in Tulare County that ultimately could be used to supply water to these residents of East Porterville;

Whereas, the SWRCB has also provided funding for Well C1, as reflected in the agreement between the SWRCB and the County attached as Exhibit 2;

Whereas, the County and Porterville intend to execute an agreement, a draft of which is attached as Exhibit 3, that will connect Well C1 to Porterville's municipal water system and that will provide for an adequate household water supply for some residents of East Porterville; and

Whereas, the Parties have reached an understanding on how best to implement the project alternative that will provide an adequate household water supply to some residents of East Porterville and Vandalia, and alleviate the hardships in an expeditious, cost-effective manner.

Understanding

A. Description of Emergency Project and Long-Term Plan

1. The purpose of this MOU is to set forth in writing the intentions of the Parties of how best to move forward with plans to complete an emergency water supply project (Project) to some residents in the East Porterville and Vandalia areas, which are represented in Exhibit 4. (Map showing East Porterville and Porterville). The goal of the Project is to provide an adequate household water supply to some of the residents and properties in these areas that do not have one presently, and to end the need of the Parties to provide temporary water supplies to those residents through tanks and bottles.

2. The Parties intend to develop the Project in two phases. Phase 1 will make municipal water connections to the properties in East Porterville that have dry wells and are adjacent to Porterville's existing municipal water distribution system. It is estimated that this phase will serve 40 properties with dry wells that are currently receiving temporary household water supplies.

3. The Parties intend that Phase 2 of the Project will provide municipal water supply to approximately 500 properties in East Porterville and in Vandalia that have dry wells or otherwise lack an adequate source of water and have not been connected by Phase 1. In order to complete Phase 2, the residents of these properties will likewise need to connect to Porterville's municipal water system.

4. As soon as possible, Porterville and DWR will undertake Phase 1 of the Project and connect the properties in East Porterville that are adjacent to Porterville's existing municipal water distribution system. These connections will be accomplished as described in Water Installation Diagram attached as Exhibit 5 and based on the cost estimate, which is attached as Exhibit 6. In order to make these connections, a property owner desiring to receive public water supply will need to execute the Extraterritorial Service Agreement, a sample of which is attached as Exhibit 7, and the SWRCB's Water Connection Agreement, a sample of which is attached as Exhibit 8. Necessary signatures and agreements with property owners will be sought through SWRCB's outreach carried out with the assistance of all Parties to this MOU.

5. The Parties intend that Well C1 will be used to provide the emergency water supply in Phase 2 to about 500 properties without adequate household water supplies. The Parties presently understand that there are about 423 properties in East Porterville and approximately 80 properties in Vandalia where connections may be needed to provide emergency water supplies.

6. The Parties have created a Technical Workgroup consisting of engineers and planners, which work cooperatively on the technical issues described in this MOU. Based on recommendations of the Technical Workgroup, the Parties intend to provide the emergency water supply contemplated by this MOU.

7. The Parties intend to develop a Long-Term Water System Plan (Long-Term Plan) for the East Porterville area, which will serve other residents in the area besides those served by the Project. The Parties intend that the Project will be designed consistent with the Long-Term Plan to ensure that all water facilities constructed as part of the Project will be incorporated into the facilities ultimately developed through the Long-Term Plan. The first work product produced by the Technical Workgroup will be a Feasibility Study for the Long-Term Plan. The outline of the Feasibility Study is attached as Exhibit 9.

8. The Parties intend to use best efforts to complete both phases of the Project by December 31, 2016. The completion date of the Long-Term Plan is dependent on the completion of the Feasibility Study carried out by Technical Workgroup and on Porterville and/or the County applying for and securing sufficient funding from the SWRCB or from other sources. The Parties desire to complete the Long-Term Plan as expeditiously as possible.

B. Project Contributions of the Parties

9. Working in cooperation with the other Parties and the Technical Workgroup, DWR will prepare all environmental compliance for the Project, and design and construct the Project, both Phases 1 and 2. DWR will provide funding for Phases 1 and 2 of the Project through Emergency Drought Funding. DWR intends to serve as California Environmental Quality Act (CEQA) lead agency for the Long-Term Plan and will prepare any necessary CEQA documentation and any other necessary environmental review documents, unless the Feasibility Study recommends another lead agency.

10. SWRCB will provide the community outreach to assist in obtaining necessary property owner acceptance before proceeding with Project. SWRCB will also work with Porterville and/or County to secure funding of the Long-Term Plan. SWRCB will provide certain reviews and approvals for the permitting of the Project and the Long-Term Plan.

11. OES will coordinate all of the State's efforts under the Governor's Drought Task Force in the Project area and will be provided at no cost by Porterville up to 3,000,000 gallons of emergency water per month as needed as a result of this MOU and the agreement that Porterville and the County are in the process of considering for execution, a draft of which is attached as Exhibit 3, with regard to the Well C1.

12. Porterville will provide the needed water service to the residents of East Porterville without an adequate household water supply after they are connected to Porterville's municipal water system as described in the Project. The water service will be accomplished per the Extraterritorial Service Agreement, which requires that property owners served pay the monthly water bill. DWR is funding the residents' connection to the Project, and as a result, some of the normal connection fees will be waived provided that connection is made during Phase 1 or Phase 2. Porterville will install the water meters for each connection, which will be paid for by DWR.

13. The County intends to execute an agreement with Porterville that is consistent with this MOU and Exhibit 3, which will allow Well C1 to serve as a water supply for the Project. The County will inspect the work of the Project and the property connections at no cost to the residents.

14. The Parties to the MOU will cause the removal of all temporary water tanks from the properties upon completion of the Project and the appurtenances necessary for the receipt of municipal water service. The work for removing the water tanks will be carried out by the County under an agreement between the County and OES.

C. General Provisions

15. The Parties intend to use their best efforts to carry out this MOU. This MOU is not a binding agreement, and is not intended to create contractual rights and remedies among the Parties. However, the Parties have entered into and intend to enter into certain binding agreements in the future necessary to develop and complete the Project and the Long-Term Plan.

16. This MOU will become effective upon the signature of the all Parties. The MOU will terminate on December 31, 2016, unless extended by all of the Parties in writing.

Amendment No. 1

To the East Porterville Water Supply Project

Memorandum of Understanding (MOU)

Regarding the Provisions of Emergency Water Supplies to East Porterville
by the California Department of Water Resources (DWR), California Office of
Emergency Service (OES), the State Water Resources Control Board (SWRCB),
the County of Tulare (County), and City of Porterville (Porterville),
which are collectively known as the "Parties"

This Amendment No.1 to the MOU is made this 7th day of November, 2016. As described below, this Amendment No.1 recognizes the MOU is still in effect, modifies certain sections of this MOU, and adds new sections to the MOU.

Recitals

Whereas, some residents living in an unincorporated area of Tulare County, commonly known as "East Porterville," have experienced loss of adequate water supply to their homes and properties as a result of severe drought conditions, which has caused significant hardship for the residents;

Whereas, Governor Edmund G. Brown Junior has directed all State agencies to assist these residents who are in need of water supplies with emergency and long-term assistance;

Whereas, the Parties to this MOU seek an emergency and long-term solution to the lack of adequate household water supply by developing and providing continuous water supplies to these residents;

Whereas, to advance these projects, DWR and the SWRCB have provided funding, as reflected in Exhibits 1 and 2, for a municipal well designated as "Well C1" located in Tulare County that ultimately could be used to supply water to these residents of East Porterville;

Whereas, the Parties have reached an understanding on how best to implement the project alternative that will provide an adequate household water supply to some residents of East Porterville and Vandalia, and alleviate the hardships in an expeditious, cost-effective manner:

Whereas, the purpose of this amendment is to clarify some sections of the MOU and to add several new sections.

NOW THEREFORE, IT IS MUTUALLY AGREED that the following changes are hereby made to the MOU:

1. Section A (2) is amended to read as follows:

The Parties intend to develop the Project in two phases. Phase 1 will make municipal water connections to the properties in East Porterville and Vandalia that have dry wells and/or water tanks. It is estimated that this phase will serve approximately 300 properties.

2. Section A (3) is amended to read as follows:

The Parties intend that Phase 2 of the Project will provide municipal water supply to approximately 800 properties in East Porterville by connecting them to the City of Porterville's water system. The total number of homes eligible for this Project is approximately 1,100.

3. Section A (5) is amended to read as follows:

The Parties intend that Well C1 will be used to provide the initial water supply. The Parties acknowledge the delay in Well C1 completion. To mitigate the effects of this on the residents of East Porterville, the City of Porterville will allow connections of homes as they become prepared for connection. These early connections will be beyond the initial 70 connections (previously 40 connections) agreed to, given the availability of capacity during the winter months. However, these additional connections to the City's water system will cease on March 1, 2017, if Well C1's connection to the City's water system is not completed by then.

4. Sections A (7) b-f shall be added and made part of this MOU:

7 (a). The Parties intend to develop a Long-Term Water System Plan (Long-Term Plan) for the East Porterville area, which will serve other residents in the area besides those served by the Project. The Parties intend that the Project will be designed consistent with the Long-Term Plan to ensure that all water facilities constructed as part of the Project will be incorporated into the facilities ultimately developed through the Long-Term Plan. The first work product produced by the Technical Workgroup will be a Feasibility Study for the Long-Term Plan. The outline of the Feasibility Study is attached as Exhibit 9.

(b). The East Porterville Water Supply Project Hydraulic Analysis Report ("Hydraulic Analysis Report," which is attached as Exhibit 10) determined that the water supply capacity required to serve all eligible residents of East Porterville is 1,435 gallons per minute (gpm). This capacity shall be based on the sustainable yield of the wells which is defined as 75 percent of the initial design capacity. Since Well C1 has a sustainable yield of 600 gpm, the Parties agree that the State will fund the construction and equipping of additional wells to provide the 835 gpm shortfall.

(c). Based on the Hydraulic Analysis, a 700,000 gallon water storage tank is required to serve the residents of East Porterville. However, based on Porterville's master plan recommendations, a 1.2 million-gallon storage tank is required for the City's buildout. The Parties therefore intend to construct a 1.2 million-gallon storage tank with cost sharing between the State and the City. The State will fund the cost of a 700,000 gallon tank required for the Project and the City of Porterville will fund the cost of the additional 500,000 gallons of storage required for the City's future use as contained in its master plan. The cost-sharing shall be proportional to the tank capacity being funded.

(d). The Parties intend to upgrade the existing Henderson-Plano Booster Pump Station and the Granite Hills Intertie which would facilitate water supply to the East Pressure Zone which serves East Porterville. The State will fund the construction of one booster pump rated at 2,100

gpm along with a variable frequency drive and the Granite Hills Intertie. The City will fund the replacement of its two existing pumps along with associated variable frequency drives as part of Phase 2 of the Project. These two pumps are more than 30-years old and their replacement will enable the City's water system to operate more efficiently and in a cost-saving manner.

(e). The Parties further agree that a booster pump station of capacity 1,670 gpm is required to convey water from the West Pressure Zone, where the new wells will be located, to the Central Pressure Zone for onward conveyance to East Porterville. The State will fund the construction of this booster pump station.

(f). Given that Well C1 has an estimated sustainable yield of 600 gpm, as well as a unit demand of 0.833 gpm per home connection based on the Hydraulic Analysis , Well C1 could effectively serve up to 720 households . The Parties agree that home connections for Phase 2 of the Project can begin as soon as Well C1 is connected to the City's water system, and the Henderson-Plano Booster Pump Station upgrade and the Granite Hills Intertie are completed. These home connections shall cease when the capacity of Well C1 is exceeded. Thereafter, additional home connections will be made after the construction of additional wells or if City staff determines that the water system can support additional home connections.

5. Section (C) 16 is amended to read as follows:

16. This MOU will become effective upon the signature of the all Parties. The MOU will terminate on June 30, 2018, unless extended by all Parties in writing.

6. The list of the Exhibits at the end of MOU is amended to read as follows:

1. DWR and Tulare County Executed Well C1 Agreement
2. SWRCB and County Executed Well C1 Agreement (Water Board Grant #D-15-11-902)
3. County and Porterville Draft Well Agreement
4. Map of East Porterville
5. Household Water Service Installation Diagram
6. Household Water Service Cost Estimate
7. Sample Extraterritorial Service Agreement
8. Sample SWRCB Water Connection Agreement
9. Draft Feasibility Study for the Long-Term Plan
10. East Porterville Water Supply Project Hydraulic Analysis Report

This MOU has been executed by:

California Department of Water Resources

State Water Resources Control Board

California Office of Emergency Services

County of Tulare

City of Porterville

EDMUND G. BROWN JR.
GOVERNOR

MATTHEW RODRIGUEZ
SECRETARY FOR
ENVIRONMENTAL PROTECTION

State Water Resources Control Board

NOV 29 2017

The Honorable Milt Stowe
Mayor of City of Porterville
291 North Main Street
Porterville, CA 93257

RECEIVED

DEC 04

CITY OF PORTERVILLE
CITY MANAGER

Dear Mayor Stowe:

The Department of Water Resources and the State Water Resources Control Board are requesting an increase to the number of household connections from 720 to 800 to the City of Porterville (City) water system, prior to the completion of the East Porterville Emergency Water Supply Project – Phase 2 (Project). The construction of all facilities is estimated to be completed by June 2019.

According to Section A(7)(f) of Amendment No. 1 to the Project's Memorandum of Understanding (MOU), the estimated sustainable yield of Well C1 is 600 gallons per minute (gpm) and therefore will serve up to 720 households. Our current projections show that approximately 800 households will need to be connected by the end of 2017.

Our current plans are to drill two additional wells which would add more than 835 gpm of sustainable yield to the City's water supply, pending land acquisition by the City. Further, our calculations indicate that Well C1 is currently capable of producing 800 gpm in the interim, which can support a total of 960 households in the short term. It is our hope that the City will complete acquisition of the properties needed to drill the two additional wells in a timely manner to ensure that the City's water supply does not become stressed.

We look forward to hearing favorably from you and thank you for your continued support in providing safe drinking water to the residents of East Porterville.

Sincerely,

James Maughan, Assistant Deputy Director
Division of Financial Assistance

January 18, 2018

Mr. Michael K. Reed
Public Works Director
City of Porterville
291 North Main Street
Porterville, California 93257

RECEIVED

JAN 22 2018

City of Porterville
Public Works Dept

Approval of Funding from Local Assistance Funds to the City of Porterville for the
County Areas Water Supply Project

Dear Mr. Reed:

Your request for funds to accomplish the city of Porterville's scope of work to connect drought-impacted households in seven Tulare County areas bounded by the city has been approved. The approved funding is not to exceed the amount of \$2,812,946.00. The term of the funding is from January 18, 2018, to December 31, 2019.

The purpose of this funding is for the city of Porterville to effectuate the connection of the drought-impacted homes in seven county areas to the city's water distribution system. The project comprises water main extensions, home connections, and well destructions. These homes have been identified as having private residential wells, and the homeowners have voluntarily elected to join the project. As part of their election to participate in the project, the homeowners have consented to having their groundwater wells destroyed.

A grant agreement is being developed and will be sent to you for approval. You are allowed to start incurring costs from January 18, 2018. No reimbursement will be issued until the contract agreement is executed.

If you have any questions or need additional information regarding the agreement, please contact Steve Doe by email at Steve.Doe@water.ca.gov or by phone at (559) 230-3348.

Sincerely,

A handwritten signature in black ink, appearing to read 'Kevin Faulkenberry'.

Kevin Faulkenberry, Chief
South Central Region Office

Executive Department

State of California

EXECUTIVE ORDER B-40-17

WHEREAS California has endured a severe multi-year drought that has threatened the water supplies of communities and residents, devastated agricultural production in many areas, and harmed fish, animals and their environmental habitats; and

WHEREAS Californians responded to the drought by conserving water at unprecedented levels, reducing water use in communities by more than 22% between June 2015 and January 2017; and

WHEREAS the State Water Resources Control Board, the Department of Water Resources, the Department of Fish and Wildlife, the Office of Emergency Services, and many other state agencies worked cooperatively to manage and mitigate the effects of the drought on our communities, businesses, and the environment; and

WHEREAS the State provided 66,344,584 gallons of water to fill water tanks for communities suffering through drought-related water shortages, outages, or contamination, and provided emergency assistance to drill wells and connect communities to more robust water systems; and

WHEREAS the State took a number of important actions to preserve and protect fish and wildlife resources, including stream and species population monitoring, fish rescues and relocations, infrastructure improvements at trout and salmon hatcheries, and infrastructure to provide critical habitat for waterfowl and terrestrial animals; and

WHEREAS the State established a Statewide Water Efficiency and Enhancement Program for agricultural operations that provides financial assistance for the implementation of irrigation systems that save water; and

WHEREAS water content in California's mountain snowpack is 164 percent of the season average; and

WHEREAS Lake Oroville, the State Water Project's principal reservoir, is 101 percent of average, Lake Shasta, the federal Central Valley Project's largest reservoir, is at 110 percent of average, and the great majority of California's other major reservoirs are above normal storage levels; and

WHEREAS despite winter precipitation, the effects of the drought persist in areas of the Central Valley, including groundwater depletion and subsidence; and

WHEREAS our changing climate requires California to continue to adopt and adhere to permanent changes to use water more wisely and to prepare for more frequent and persistent periods of limited water supply; and

WHEREAS increasing long-term water conservation among Californians, improving water use efficiency within the State's communities and agricultural production, and strengthening local and regional drought planning are critical to California's resilience to drought and climate change.

NOW, THEREFORE, I, EDMUND G. BROWN JR., Governor of the State of California, in accordance with the authority vested in me by the Constitution and statutes of the State of California, do hereby **TERMINATE THE JANUARY 17, 2014 DROUGHT STATE OF EMERGENCY** for all counties in California except the Counties of Fresno, Kings, Tulare, and Tuolumne.

I FURTHER ORDER THAT:

1. The orders and provisions contained in my April 25, 2014 Emergency Proclamation, as well as Executive Orders B-26-14, B-28-14, B-29-15, and B-36-15 are rescinded.
2. The orders and provisions contained in Executive Order B-37-16, **Making Water Conservation a California Way of Life**, remain in full force and effect except as modified by this Executive Order.
3. As required by the State Emergency Plan and Government Code section 8607(f), the Office of Emergency Services, in coordination with other state agencies, shall produce an after-action report detailing the State's response to the drought and any lessons learned in carrying out that response.

MAINTAINING CONSERVATION AS A WAY OF LIFE

4. The State Water Resources Control Board (Water Board) shall continue development of permanent prohibitions on wasteful water use and requirements for reporting water use by urban water agencies, and to provide a bridge to those permanent requirements, shall maintain the existing emergency regulations until they expire as provided by the Water Code. Permanent restrictions shall prohibit wasteful practices such as:
 - Hosing off sidewalks, driveways and other hardscapes;
 - Washing automobiles with hoses not equipped with a shut-off nozzle;
 - Using non-recirculated water in a fountain or other decorative water feature;
 - Watering lawns in a manner that causes runoff, or within 48 hours after measurable precipitation; and
 - Irrigating ornamental turf on public street medians.
5. The Water Board shall rescind those portions of its existing emergency regulations that require a water supply stress test or mandatory conservation standard for urban water agencies.

6. The Department of Water Resources (Department) shall continue work with the Water Board to develop standards that urban water suppliers will use to set new urban water use efficiency targets as directed by Executive Order B-37-16. Upon enactment of legislation, the Water Board shall adopt urban water use efficiency standards that include indoor use, outdoor use, and leaks as well as performance measures for commercial, industrial, and institutional water use. The Department shall provide technical assistance and urban landscape area data to urban water suppliers for determining efficient outdoor use.
7. The Water Board and the Department shall continue to direct actions to minimize water system leaks that waste large amounts of water. The Water Board, after funding projects to address health and safety, shall use loans from the Drinking Water State Revolving Fund to prioritize local projects that reduce leaks and other water system losses.
8. The Water Board and the Department shall continue to take actions to direct urban and agricultural water suppliers to accelerate their data collection, improve water system management, and prioritize capital projects to reduce water waste. The California Public Utilities Commission is requested to work with investor-owned water utilities to accelerate work to minimize leaks.
9. The Water Board is further directed to work with state agencies and water suppliers to identify mechanisms that would encourage and facilitate the adoption of rate structures and other pricing mechanisms that promote water conservation.
10. All state agencies shall continue response activities that may be needed to manage the lingering drought impacts to people and wildlife. State agencies shall increase efforts at building drought resiliency for the future, including evaluating lessons learned from this current drought, completing efforts to modernize our infrastructure for drought and water supply reliability, and shall take actions to improve monitoring of native fish and wildlife populations using innovative science and technology.

CONTINUED DROUGHT RESPONSE IN FRESNO, KINGS, TULARE, AND TUOLUMNE COUNTIES

11. The Water Board will continue to prioritize new and amended safe drinking water permits that enhance water supply and reliability for community water systems facing water shortages or that expand service connections to include existing residences facing water shortages.
12. The Department and the Water Board will accelerate funding for local water supply enhancement projects and will continue to explore if any existing unspent funds can be repurposed to enable near-term water conservation projects.
13. The Water Board will continue to work with local agencies to identify communities that may run out of drinking water, and will provide technical and financial assistance to help these communities address drinking water

shortages. It will also identify emergency interconnections that exist among the State's public water systems that can help these threatened communities. The Department, the Water Board, the Office of Emergency Services, and the Office of Planning and Research will work with local agencies in implementing solutions to those water shortages.

14. For actions taken in the Counties of Fresno, Kings, Tulare, and Tuolumne pursuant to directives 11–13, the provisions of the Government Code and the Public Contract Code applicable to state contracts, including, but not limited to, advertising and competitive bidding requirements, as well as Division 13 (commencing with section 21000) of the Public Resources Code and regulations adopted pursuant to that Division, are hereby suspended. These suspensions apply to any actions taken by state agencies, and for actions taken by local agencies where the state agency with primary responsibility for implementing the directive concurs that local action is required, as well as for any necessary permits or approvals required to complete these actions.
15. California Disaster Assistance Act Funding is authorized until June 30, 2017 to provide emergency water to individuals and households who are currently enrolled in the emergency water tank program.
16. State departments shall commence all drought remediation projects in Fresno, Kings, Tulare, and Tuolumne Counties within one year of the date of this Executive Order.

This Executive Order is not intended to, and does not, create any rights or benefits, substantive or procedural, enforceable at law or in equity, against the State of California, its agencies, departments, entities, officers, employees, or any other person.

I FURTHER DIRECT that as soon as hereafter possible, this Order be filed in the Office of the Secretary of State and that widespread publicity and notice be given of this Order.

IN WITNESS WHEREOF I have hereunto set my hand and caused the Great Seal of the State of California to be affixed this 7th day of April 2017.

EDMUND G. BROWN JR.
Governor of California

ATTEST:

ALEX PADILLA
Secretary of State

CITY COUNCIL AGENDA – JANUARY 19, 2021

SUBJECT: Consideration of Appointments to the Transactions and Use Tax (Measure H) Oversight Committee ("TUTOC")

SOURCE: Administrative Services

COMMENT: As previously reported to the City Council, two vacancies currently exist on TUTOC with terms expiring in May 2024.

TUTOC is charged with reviewing the revenue and expenditures of the budgets for Measure H (Fire, Police and Literacy) and Measure I, and to report its findings to the City Council. It is comprised of ten members of the public each serving four-year terms, and is required to meet at least once annually after the adoption of the budget. It has been TUTOC's recent practice to meet on a quarterly basis. To be eligible for appointment, individuals must either be a Porterville resident, business owner, or business operator.

Staff is in receipt of one Request for Appointment from Ms. Angela Dennis, which is provided herein for Council's consideration.

RECOMMENDATION: That the City Council consider the appointment of Ms. Angela Dennis to the Transactions and Use Tax (Measure H) Oversight Committee to fill one of the two vacancies with terms expiring in May 2024.

CITY COUNCIL AGENDA – JANUARY 19, 2021

SUBJECT: Consideration of the City Council's Procedural Handbook

SOURCE: City Manager's Office

COMMENT: With the seating of the new City Council, it is appropriate for the Council to consider its Procedural Handbook for ratification or potential amendments that the new Council may desire.

The prior City Council last considered and approved revisions to the City Council Handbook on December 17, 2019. A copy of the Handbook is attached hereto for Council's review and consideration.

RECOMMENDATION: That the City Council consider its Procedural Handbook and provide direction to staff.

PREAMBLE

The residents and businesses of the City of Porterville are entitled to have fair, ethical, and accountable local government. Such a government requires that:

- Public Officials comply with both the letter and spirit of the laws and policies affecting operations of the government;
- Public Officials be independent, impartial, and fair in their judgment and actions;
- Public office be used for the public good, not for personal gain; and
- Deliberations and processes be conducted openly, unless legally confidential, in an atmosphere of respect and civility.

No part of this Handbook shall be interpreted so as to violate any federal or state law; a Council Member's Oath of Office; a Council Member's moral or ethical responsibilities; or the exercise of a Council Member's individual rights afforded him/her by the U.S. Constitution.

To this end, the City Council of the City of Porterville hereby approves of and affirms the above to encourage public confidence in the integrity of local government and its operations.

(Minute Order 21-070511, July 5, 2011.)

II. MEETINGS OF COUNCIL

The Council shall provide by ordinance the time and place of holding regular meetings and the manner in which special meetings may be called. Public interest and convenience shall be primary consideration when decisions are made as to time, location and frequency.

Except as otherwise provided by law, all meetings of the Council shall be open to the public.

A. REGULAR MEETINGS

1. Pursuant to Section 10 of the City Charter, Regular Meetings of the Porterville City Council shall be held on the first and third Tuesday of each month in the Council Chambers at City Hall, 291 North Main Street, in the City. The Regular Meetings will commence at five thirty o'clock (5:30) P.M., with Closed Sessions commencing at five thirty o'clock (5:30) P.M., and Open Session commencing at six thirty o'clock (6:30) P.M. In the event that a regular meeting of the Council shall fall on a legal holiday, that regular meeting shall be held at the same place and time on the next succeeding working day, or as determined by Council. (*Ordinance 1766, August 17, 2010; M.O. 15-09181, September 18, 2012.*)
2. Following the mid-meeting break (around 9:00 p.m.) the Mayor, with assistance from the City Manager, will review the balance of the agenda with Council to discuss how it can be handled in the allowed time. If it is necessary to continue any items, it will be announced at that time.

B. ADJOURNED MEETINGS/STUDY SESSIONS (Open to the public)

1. The purpose of these meetings shall be for informal discussions between staff, advisory bodies or consultants and the City Council regarding specific programs, projects or policies. If noticed, formal action may be taken at such a meeting.
2. Adjourned Meetings/Study Sessions will be held at a time and place convenient to Council and advantageous for public participation.
3. Participation of the public shall be at the discretion of the Presiding Officer, upon consensus of the Council.

C. SPECIAL MEETINGS

1. Special meetings may be called by the Mayor or three members of the City Council. (*Gov. Code Section 54956*) Written notice of each special meeting must be given not less than twenty-four (24) hours before such meeting to each member of the City Council not joining the call.
2. Written notice must be given to the City Council and to the media 24 hours prior to each meeting. (*Gov. Code Section 54956*)
3. A supplemental telephone call shall be made if necessary to notify each Council Member.
4. No business other than that announced shall be discussed.
5. Any special meeting held at a place other than City Hall shall be open to the public. Notice requirements of the Brown Act shall be complied with for any such meetings; regular minutes shall be taken by the City Clerk and shall be available for public inspection.

D. ORDER OF BUSINESS:

Meeting called to Order
Roll Call
Oral Communications (closed session items only)
Closed Session(s)
Reconvene Open Session
Report on Action taken in Closed Session
Pledge of Allegiance
Invocation
Presentations
Oral Communications (on any matter of interest)
AB 1234 Reports
Committee and Commission Reports
Staff Informational Reports
Consent Calendar – to include:
 Approval of Minutes
 Claims Against the City
 Payment of Bills
 Payments on Public Works Projects
 Authorization to Purchase
 Authorization to Call for Bids
 Award of Bids
 Acceptance of Projects

Acceptance of Dedications/Property
Approval of Final Tract Maps
Annexations
Requests for City Services
Reports
Other Routine Matters
Public Hearings
Second Readings of Ordinances
Scheduled Matters
Oral Communications (on any matter of interest)
Council Comments
Adjournment
(Resolution 100-2019, December 17, 2019, *attached as Appendix A.*)

E. CONSENT ITEMS

1. Consent items are the first items on the open session portion of the agenda (items that are routine, have been discussed before, relate to implementation of approved budget items, or to City operations or item to be later set for public hearing).
2. Any item removed from the Consent Calendar shall be considered immediately after the last Scheduled Matter on the agenda and immediately before the Second Oral Communications. (*M.O. 16-091812, September 18, 2012.*)

III. MEETING PROCEDURES

A. PRESIDING OFFICER

1. The Mayor is the Presiding Officer and acts as Chair at Council meetings.
2. In the absence or incapacity of the Mayor, the Vice Mayor as Mayor Pro Tempore will serve as Presiding Officer. In the absence of both the Mayor and Vice Mayor, the Council Members present shall select one of their number to serve as Presiding Officer for that meeting. *(Amended via Minute Order 08-071911, July 19, 2011.)*
3. Seating arrangement of the Council:

Seating arrangements shall be at Council discretion with preference being given to health conditions, seniority, individual Council Member preferences, and the Mayor's preference, in that order. *(Amended via Minute Order 08-071911, July 19, 2011.)*
4. Signing of City Documents:

The Mayor, unless unavailable, shall sign all ordinances, resolutions, contracts and other documents which have been adopted by the City Council and require an official signature; except when the City Manager, or his or her designee, has been authorized by Council action to sign documents. In the event the Mayor is unavailable, the Vice Mayor may sign the required documents. *(Amended via Minute Order 08-071911, July 19, 2011.)*

B. QUORUM

A majority of the Council Members shall constitute a quorum for the transaction of business. *(City Charter)*

C. DISCUSSION RULES

1. Obtaining the floor:
 - a. A member of the City Council, staff, or public shall first address the Presiding Officer and gain recognition.

- b. Comments and questions shall be limited to the issue before Council except when members of the public are addressing the Council under Oral Communications.
 - c. Cross-exchange between Council Members, staff or public shall be avoided.
 - d. Any citizen may arise and address the City Council on any business especially concerning them or affecting their interests during Oral Communications, but preference will be given to those who have first presented matters in the form of a written communication or who have personally notified the presiding officer of their desire to speak.
 - e. Any member or other person using profane, vulgar, loud or boisterous language at any meeting, or otherwise interrupting the proceedings, who refuses to be seated or keep quiet when ordered to do so by the Mayor or Mayor Pro Tem of the City Council, shall be guilty of a misdemeanor. It shall be the duty of the Chief of Police, upon order of the presiding officer, to eject any such member or person from the council room.
(Ordinance 1537)
2. Questions to staff:
- A Council Member shall, after recognition by the Presiding Officer, address questions to duly designated staff members through the City Manager.
3. Interruptions:
- a. Once recognized, a Council Member shall not be interrupted while speaking except to make a point of order or personal privilege.
 - b. If a Council Member is called to order while speaking, the individual shall cease speaking until the question of order is determined.
 - c. Upon being recognized by the Presiding Officer, members of staff shall hold the floor until completion of their remarks or until recognition is withdrawn by the Presiding Officer.

IV. COUNCIL REQUESTS FROM THE PUBLIC

A. Response to Letters from the Public

Periodically Council Members receive letters requesting their response. If a Council Member wishes to answer the letter, the matter can be handled in either of three ways:

1. The Council Member can give the letter to the City Manager's Secretary along with direction on how they wish their response to be worded. The City Manager's staff will then prepare the letter on City Council stationery and forward it to the appropriate Council Member for approval and signature. Copies of both letters are kept on file in the City Manager's Office, and copies are available upon request.
2. If the letter requires specific information or details only available from another City Department, the City Manager may refer the letter to the appropriate Department Head for response by them or their designee. Copies of the letters will then be forwarded to the City Manager's Office for filing.
3. If the Council Member wishes to answer their own correspondence, City stationery is available upon request from the City Manager's secretary. Copies of all such letters on City Letterhead shall be provided to all other Council members, and the letter shall include a provision clearly defining that the correspondence represents the views and/or feelings of the specific Council member signing the letter. If the Council Member wishes to have a copy of the letters in their file, they should submit a copy to the City Manager's staff for filing.

If a Council Member receives an informational item and wants a copy to be given to the other Council Members and the City Manager or other Directors, the item should be given to the City Manager's staff and copies will be made and sent out.

B. Referrals to Council agenda

Periodically Council Members receive correspondence or verbal requests for items to be acted upon, or considered, by the City Council. If a Council Member wishes to respond to the request, the matter should be referred to the City Manager. The request can then be handled as follows:

1. The Council Member may request the City Manager to place the item on the Council agenda as a written communication (however, the request must be stated on the agenda face sheet for Council to be able to act on it at the meeting); or
2. Upon research, the request may be determined to be a violation of City, State or Federal law, policy, or previous Council determination, in which case an appropriate response as to why the matter can not be heard will be provided to the requesting party.

Correspondence requesting that an item be acted upon, or considered, by the City Council, which is received directly by the City Manager, is handled in either of two ways:

1. The City Manager shall place any routine and/or legitimate written request under written communications*, or have a staff report prepared if time permits, for the next City Council agenda; or
2. The City Manager shall place any request which has already been acted upon by Council, cannot legally be accomplished, or which has a potential for litigation, in an Administrative Memorandum.

C. Telephone Calls

Citizens attempting to communicate with the City Council often call the offices at City Hall. Such calls are referred to the City Manager's Office. The City Manager's staff will take a message and refer it to the appropriate Council Member, or give the caller the telephone number of the City Council Member so they may call them directly, according to instructions given by the Council Member [see X-D (3)].

D. Personal Meetings

Council Members who wish to meet with their constituents may use various rooms at City Hall. The Council Member should call the City Manager's Secretary as soon as they know a room is needed so that it can be reserved for their use. No more than two Council Members may attend a meeting to discuss City matters without the meeting becoming a public meeting and therefore falling under the requirements of the Brown Act Open Meeting Laws.

E. Personal Correspondence

Council Members who wish to send their own correspondence using City stationery shall include a provision clearly defining that the correspondence represents the views and/or feelings of the specific Council member signing the letter. Copies of all such letters on City Letterhead shall be provided to all other Council members. Letterhead stationery is available upon request from the City Manager's secretary, and if the Council Member wishes to have a copy of their letter in their file, they should submit a copy to the City Manager's staff for filing.

F. Out-of-District Requests

On occasion, Council Members will be contacted by citizens residing outside of their respective districts. When this occurs, City Council Members agree to advise the appropriate Council Member of the contact and matter of concern.

G. Requests for Proclamations

The City routinely receives requests for proclamations. Proclamations are ceremonial statements of Council Members which do not convey legislative action or policy of the Council. Each individual Council Member has the authority to grant and sign proclamations. Within one business day of receipt of a Request for Proclamation, staff shall scan and email the request to all City Council Members. If a Council Member is interested in granting the request, they shall notify staff of their interest. If more than one Council Member responds, the first responsive notification received by staff shall be the grantor. Upon receipt of the affirmative response, staff shall advise the remaining Council Members, and inquire whether they would also like to sign the proclamation. The Council Members shall have one business day to reply, after which the proclamation will be drafted with the appropriate number of signature blocks, and the grantor and signers shall be notified of its availability for signature.

Upon finalization of the proclamation, staff shall notify the requestor and arrange for its delivery, pick up, or presentation at an event, as requested. Proclamations shall not be included on the Council Agenda nor presented at a Council Meeting unless so approved by a majority of the Council. Staff shall provide a monthly informational report identifying the proclamations granted for the preceding month.

V. COUNCIL MEMBER REQUESTS TO STAFF

A. General Information

All City Council Member requests for information or documents shall be referred through the City Manager. Any Department Head who receives a direct request from a Council Member shall submit the request, including the name of the requesting Council Member, to the City Manager.

B. Research

All City Council Member requests for information or documents which require extensive research, in the opinion of the City Manager, shall be referred through the City Manager to the Council for direction. The City Manager will discuss the matter with the appropriate department and relay the approximate time table for completion to the City Council for discussion and action at the next available meeting of the City Council. If the request is approved by the Council, upon completion of the research, the information or documents will be forwarded to the City Council Members by the City Manager. *(Amended via Minute Order 08-071911, July 19, 2011.)*

C. Items for inclusion in Council Agenda

The City Manager shall compile the agenda for each meeting and shall include as agenda items, business in the normal course of City affairs, including but not limited to staff proposals to improve services, support the economy and land use, and enhance the efficiency and effectiveness of the City organization, items relating to current, past, and proposed City contracts, leases, franchises, agreements and similar documents, and matters affecting future or proposed City equipment and property, items relating to City employees, agents and contractors, and such other matters as are defined in this handbook or otherwise directed by the City Council.

All City Council Member requests for an item to be placed on the Council agenda shall be made in writing to the City Manager. Such request shall be submitted prior to Wednesday noon of the week before the Council meeting in order to be placed on the next regularly scheduled meeting. *(Amended via M.O. 13-111814, November 18, 2014, and via M.O. 13-052119, May 21, 2019.)*

The City Manager shall place any Council Member request for an agenda item on the next available agenda as a Consent Calendar item for Council approval to be included as a Scheduled Matter on the next available agenda. This does not prevent any Council Member from moving to place an item on the next available agenda during Other Matters of the current agenda. *(Amended via Minute Order 08-071911, July 19, 2011.)*

VI. COUNCIL AGENDA

A. Preparation:

Each Department Head submits their departmental agenda items to the City Manager for approval utilizing the City's electronic agenda management system. (*Amended via M.O. 11-111814, November 18, 2014.*)

The City Council meeting agendas are prepared on the Thursday prior to the Tuesday meeting. Any questions regarding whether items have been scheduled for consideration at a particular meeting may be directed to the Chief Deputy City Clerk and/or Deputy City Clerk.

B. Deadlines:

The deadlines for the agenda are the Monday preceding the Thursday preparation day. Public hearing items, scheduled matter items, Consent calendar items, and written communications must be submitted by the Monday deadline. The deadline for a Council member request for any item shall be Wednesday noon preceding the Thursday preparation day. (*Amended via M.O. 13-111814, November 18, 2014.*)

C. Delivery:

Agendas will be delivered to Council on the Thursday prior to the Tuesday meeting via an emailed link to the electronic agenda packet posted on the City's website. No items, or additional materials, shall be delivered after the initial delivery to Council on Thursday, except in the instance of a designated emergency item.

Once the Agenda is made available to the City Council, it is available to the public. (*Amended via M.O. 11-111814, November 18, 2014.*)

VII. THE RALPH M. BROWN ACT

The Ralph M. Brown Act (California Government Code Section 54950 et seq.) governs meetings conducted by local legislative bodies such as city councils, boards of supervisors, special districts, and school boards. The Act represents the State Legislature's determination of how the balance should be struck between the public access to meetings of multi-member public bodies on one hand, and the need for confidential candor, debate, and information gathering on the other.

The Act contains specific exceptions from the open meeting requirements where government has a demonstrated need for confidentiality. Where matters are not subject to a closed meeting exception, the Act has been interpreted to mean that all of the deliberative processes by legislative bodies, including discussion, debate and the acquisition of information, be open and available for public scrutiny.

Meetings are defined as any gathering of a quorum of a legislative body (which includes newly elected but unsworn members of the body) to discuss or transact business under the body's jurisdiction and serial meetings are prohibited. Exemptions are individual contacts between board members and others which do not constitute serial meetings, attendance at conferences and meetings which are open to the public so long as legislative bodies do not discuss amongst themselves business of a specific nature under the body's jurisdiction, and attendance at social or ceremonial events where no business of the body is discussed.

The Act requires that notices of regular meetings must be posted at least seventy-two (72) hours prior to the meeting, and twenty-four (24) hour notice must be provided to members of the legislative body and media outlets for special meetings.

A user's guide to the Ralph M. Brown Act is provided to Council Members for their information. If a Council Member has a specific question which does not seem to be covered in the guide, the Council Member should contact the City Attorney for a legal opinion.

VIII. TRAVEL, MEETINGS AND EXPENSES

This policy would satisfy the requirements of California Government Code §§ 53232.2 and 53233.3 in the event such requirements could be constitutionally applied to charter cities.

The City Manager, or his staff, will notify the City Council Members about any League of California Cities' Conferences, Committee meetings, and/or local meetings that may be of interest to the Council. If a Council Member is interested in attending any such meeting, the following procedures should be followed:

A. Requests for Reservations:

When a City Council Member wishes to attend a conference or meeting, he/she should contact the City Manager's office and indicate the following:

1. The date(s) of the conference or meeting;
2. If the Council Member will be accompanied by anyone else, i.e. spouse, child;
3. Any personal preferences for hotel reservations, such as smoking or non-smoking, king or double beds, etc.; and
4. Whether special travel arrangements need to be made, i.e. airplane tickets, ride-sharing, etc.

A disbursement will then be prepared and the payment for the conference or meeting will be forwarded, and, if applicable, the hotel will be contacted to make the appropriate reservations. When making hotel reservations to attend a conference or meeting, a request for a room sales tax waiver shall be made on behalf of the applicable Council member. If a prior room reservation request is not made, the Council member shall request a room sales tax waiver prior to payment for a room.

For lodging in connection with a conference, lodging expenses must not exceed the group rate published by the conference sponsor for the meeting in question, if such rates are available at the time of booking. If the group rate is not available, government rates must be used when available. Lodging rates that are equal or less than the government rates are presumed to be reasonable and allowed per this policy. In the event that government rates are not available at a given time or in a given area, lodging rates that do not exceed the IRS per diem rates for a given area are presumed reasonable and hence allowed.

B. Travel and Expense Form:

A Travel and Expense Form will then be prepared for the Council Member which indicates the following:

1. The amount of money to be issued to the traveler as per diem*; and
2. Mileage expense* (if a personal vehicle is used for travel and cost is paid in advance).

** Amount set in Administrative Policy Manual Sec. II-E-1, Travel & Conference Expenses. In regard to the per diem amount, if payments for expenses are made in advance pursuant to the specified per diem amounts, the disbursement shall not be considered to be reimbursable expense under AB 1234.*

The Council Member will then be issued a packet of materials several days prior to the meeting which contains the following:

1. A check for per diem and mileage;
2. Confirmation notification and informational materials regarding the conference;
3. Confirmation notification for any hotel reservations; and
4. A City credit card to pay for the room charges at the end of the meeting.

C. Receipts:

The Council Member shall then bring the receipt for the hotel charges to the City Manager's staff upon his/her return, together with the credit card, and any refund due the City. The Council Member shall sign the original Travel and Expense Form at that time, which shall then be filed with the Finance Department for final processing.

If a refund is due the Council Member, a check will be issued by the Finance Department and then distributed to the Council Member.

D. Eligibility:

The City shall pay for any Council Member to attend any meetings or conferences of their choice. City Council approval shall not be required unless it is required by AB 1234. A Council Member may request mileage and other expenses associated with attending meetings of boards, commissions, committees, or other groups to which the Council Member has been elected, appointed, or designated to attend by the City Council without further approval or ratification. When accompanied by a spouse, significant other, and/or one or more children, the Council Member shall pay for expenses incurred above that which would otherwise have been paid for the Council Member. Any charge placed on a City credit card for someone other than a Council

Member shall also be considered a refund due the City, payable within 10 days of the receipt of the charges. *(Amended via Minute Order 18-091812, September 18, 2012.)*

E. Event Tickets :

1. City and City-Sponsored Events:

A Council Member may accept no more than two (2) tickets issued by the City to a City event or a City-sponsored event. Any tickets in excess of two (2) accepted by a Council Member shall be paid for by the Council Member from non-City funds at the time of acceptance of the tickets. *(Resolution No. 97-2019, December 3, 2019, attached as Appendix B)*

2. Non-City Sponsored Events:

A Council Member may accept one (1) ticket issued by the event sponsor if attending the event in his/her capacity as a City Council Member. Any additional tickets shall be paid for by the Council Member from non-City funds at the time of acceptance of the tickets. *(Resolution No. 97-2019, December 3, 2019, attached as Appendix B)*

F. Council Member Meetings with District Constituents:

No City funds or resources shall be used to pay for expenses related to meetings held by individual Council Members with their constituents, unless prior approval is received from the Council. This does not pertain to City Council Members holding meetings in designated conference rooms at City Hall. Under no circumstances shall City funds or resources be used for campaign purposes. *(Via M.O. 13-052119, May 21, 2019.)*

IX. CONFLICT OF INTEREST

A. City Council Members Filing Requirements

City Council Members are under the provisions of the Political Reform Act (Gov. Code, Section 81000 et seq. known as "the Act") as enforced by the Fair Political Practices Commission. The Act applies to campaign contributions requirements, as well as matters of conflict of interest while in office.

1. Disclosure of Economic Interests:

City Council Members must file assuming office and leaving office statements, as well as annual statements while in office. The statements basically require the disclosure of the following information:

- Investments or interests in real property and its fair market value;
- Income, and the name and address of each source of income aggregating five hundred dollars (\$500) or more, or fifty (\$50) or more if a gift, and a general description of the business activity, if any of each source;
- Interests in real property held by a business entity or trust;
- Loans, and its annual interest rate and the security, if any, given for the loan;

2. Disqualification of Participation (Conflict of Interest):

A Council Member shall not make, participate in making, or in any way attempt to use his official position to influence a governmental decision in which he knows or has reason to know he has a financial interest. This might include decisions which affect property within up to 500 feet of the subject property in which the Council Member has an interest.

A financial interest in a decision, within the meaning of Section 87100 of the Act, is if it is reasonably foreseeable that the decision will have a material financial effect, distinguishable from its effect on the public generally, on the Council Member or:

- A member of his or her immediate family;

- A business entity in which the Council Member has a direct or indirect investment worth \$2000 or more;
- Any real property in which the Council Member has a direct or indirect interest worth \$2,000 or more;
- Any source of income, other than gifts or commercial lending institutes loans, aggregating \$500 or more received or promised to the City Council Member within twelve months prior to the time when the decision is made;
- Any business entity in which the City Council Member is a director, partner, trustee, employee, or holds any position of management;
- Any donor, or any intermediary or agent for a donor, or a gift or gifts aggregating \$420 or more in value provided to, received by, or promised to the City Council Member within 12 months prior to the time when the decision is made.

Indirect investment or interest means any investments or interest owned by the spouse or dependent child of a City Council Member, by an agent on behalf of a Council Member, or by a business entity or trust in which the Council Member, the Council Member's agents, spouse, and dependent children own directly, indirectly, or beneficially a 10% interest or greater.

Section 87100 of the Act does not prevent any Council Member from making or participating in the making of a governmental decision to the extent his participation is legally required for the action or decision to be made. The fact that a Council Member's vote is needed to break a tie does not make his participation legally required for purposes of this section.

Pursuant to Section 87105 of the Act, a public official who holds an office specified in Section 87200 who has a financial interest in a decision within the meaning of Section 87100 shall, upon identifying a conflict of interest or a potential conflict of interest and immediately prior to the consideration of the matter, do all of the following:

- a. Publicly identify the financial interest that gives rise to the conflict of interest or potential conflict of interest in detail sufficient to be understood by the public, except that disclosure of the exact street address of a residence is not required.

- b. Recuse himself or herself from discussing and voting on the matter, or otherwise acting in violation of Section 87100.
- c. Leave the room until after the discussion, vote, and any other disposition of the matter is concluded, unless the matter has been placed on the portion of the agenda reserved for uncontested matters.
- d. Notwithstanding paragraph (3), a public official may speak on the issue during the time that the general public speaks on the issue.

B. Other Agencies:

Whenever a Council Member is required to file a Statement of Economic Interest for an outside agency, the Deputy City Clerk will provide the correct form, and using the Statement of Economic Interest Form 700 filed in the City Clerk's Office for the City of Porterville, prepare a duplicate statement for signature, and forward the appropriate form to the requesting agency.

D. City of Porterville Conflict of Interest Code:

Certain designated City employees are also required to file conflict of interest forms under the provisions of the Political Reform Act Code, Sections 87100-87500 et seq. The City of Porterville Conflict of Interest Code was adopted by the City Council and is reviewed biennially to make sure it is kept current.

If Council Members have a question on whether an interest they have is sufficient for disqualification, they should contact the Fair Political Practices Commission at (866) 275-3772, or <http://www.fppc.ca.gov>, for a ruling or opinion.

X. GENERAL ITEMS

A. Different Hats

Members of the City Council also serve as the governing bodies for the following local agencies:

1. Successor Agency to the Porterville Redevelopment Agency
2. Industrial Development Authority
3. Public Financing Authority
4. Public Improvement Corporation
5. Planning Commission
6. Conflicts and Disclosure Monitor Agency

B. Compensation

As stated in the City Charter, Section 9, City Council Members shall receive \$20 per Council meeting, \$25 per Council meeting for the Mayor, with a maximum of seven paid Council meetings per month.

C. Issuance of Electronic Devices to Council Members

An Electronic Device, Internet, and Email Policy has been developed as set forth in Minute Order 14-090605. (*See Appendix D*)

D. Direction to Support Staff:

Upon assuming office, Council Members should notify the City Manager's staff regarding the following items:

1. Where to deliver Administrative Reports and Memorandums, i.e. home or business.
2. How to direct citizens who wish to speak to Council Members, i.e. take a message, give out home telephone numbers, give out business telephone numbers, etc.

E. City Attorney

The City Attorney is the legal advisor of the City Council, and all other City officials. The City Attorney shall prosecute all violations of City ordinances and shall draft all contracts and other legal documents and instruments, required by the Council or the

City Manager. The City Attorney shall perform such other legal services as the Council may direct and shall attend all meetings of the Council unless excused therefrom by three members or by the Mayor.

The types of questions referred to the City Attorney are as follows:

1. Generally whether a conflict of interest exists for a Council Member and whether they should abstain from voting on a specific matter.

Please note: Any advice received from the City Attorney relating to Conflicts of Interests is informal only and not binding; the Council Member must seek and obtain a formal written opinion from the FPPC in order to be afforded any statutory immunities.

2. Whether an issue has a legal standing, and what type of action would be appropriate.
3. Legal recommendations for matters of litigation.

F. Annual City Manager/City Attorney Evaluations

The City Council shall provide for annual evaluations for the City Manager and the City Attorney. A standardized evaluation form shall be used which shall address the areas of importance as set forth by the City Council. (*See Appendix C.*)

G. Response to President/Governor Directives

Directives issued by the President of the United States and/or Governor of the State of California shall not be considered a mandatory directive to the City of Porterville except as authorized and/or approved by the City Council. The one exception to this rule is that flags on City buildings shall be flown at half-staff upon orders by the President, Governor and/or Mayor, or by majority approval of the City Council.

APPENDICES

- A. Resolution 100-2019, Order of Business
- B. Resolution 97-2019, Ticket Policy
- C. Annual City Manager/City Attorney Evaluation Forms
- D. Electronic Device, Internet, and Email Policy
- E. Email Retention Policy

CITY COUNCIL CITY DEVICE, INTERNET & EMAIL POLICY

Electronic devices are made available to Council Members upon taking office and assuming Council duties. Access to email and the internet is a resource also made available to City Council Members as a means of communicating with City administration and constituents. The City Council recognizes that access to electronic communications contributes to the efficiency of conducting city business. The City Council has adopted this policy to ensure that all City of Porterville computer and network resources are used for purposes appropriate to City business; to inform Council Members of the applicability of laws and policies to computer and network usage; to establish policies on privacy, confidentiality, and security in electronic communications; and to provide guidance concerning rights and responsibilities with respect to the proper use of City of Porterville computer and network resources.

SCOPE

This policy applies to:

1. All City Council Members, as authorized users, whether elected or appointed;
2. All computer and mobile devices and network resources leased, owned, or managed by the City of Porterville; and
3. All electronic communications records in the possession of the City of Porterville.

CONFIDENTIALITY AND SECURITY

1. All materials sent or received over the Internet on electronic devices and/or network resources leased, owned or managed by the City, shall be considered property of the City. An authorized user does not have privacy rights in any matter created, received or sent. The City reserves the right to monitor access or disclose any message created, received or sent via the Internet or e-mail at any time, without advanced notice.
2. All authorized users shall respect the privacy of other users; for example, users shall not intentionally seek information on, obtain copies of, or modify files or data, belonging to other users, unless explicit permission to do so has been obtained.
3. Authorized users are to safeguard their accounts and passwords. Accounts and passwords are normally assigned to a single user, and are not to be shared with others. Users are responsible for their individual computer accounts and shall take

all reasonable precautions to prevent others from using their accounts. All notebooks and/or tablets should be locked or logged off each time they leave the device unattended. Account owners are ultimately responsible for all activity under their account.

4. Authorized users will not connect, attempt to connect or disconnect any computer or peripheral to, from or within the City of Porterville network without prior authorization from the Information Technology Division.
5. Authorized users will not use or attempt to use on the City of Porterville network any of the following items: any computer operating system media; computer or network utilities; network monitors; unlocking utilities or any software used to repair, change or monitor computer operations, network activity or security without preapproval from the Information Technology Division.
6. Authorized users should not attempt to remove the email disclaimers in their emails.
7. Authorized users shall not write down passwords to City of Porterville resources in an unsecured area.
8. Confidential information should not be downloaded or stored on portable resources unless proper encryption and password protection mechanisms are in place.

UNACCEPTABLE USES

1. Violations of the rights of any person or company protected by copyright, trade secret, patent or other intellectual property, or similar laws or regulations, including, but not limited to, unauthorized digitization and distribution of photographs from magazines, books or other copyrighted sources, copyrighted music, and the installation or distribution of “pirated” or other software products that are not appropriately licensed for use by City of Porterville.
2. Accessing or viewing sexually explicit or pornographic material.
3. Exporting software, technical information, public safety information, or encryption software, in violation of international or regional export control laws. Such use is illegal. The Information Technology Division should be consulted prior to export of any material that is in question.

4. Introduction of malicious programs into the network or servers (e.g., viruses, worms, Trojan horses, e-mail bombs, etc.) that may gain unauthorized access to any computer or computing system and cause intentional disruption.
5. Revealing your account password to others or allowing use of your account by others. This includes family and other household members when work is being done at home.
6. Using a City of Porterville device for profit activities (e.g., consulting for pay, sale of goods such as Avon and Amway products, etc.), or to actively engage in procuring or transmitting material that is in violation of discriminatory, sexual harassment or hostile workplace laws. Use of City devices or networks for political campaign purposes is expressly prohibited.
7. Making fraudulent offers of products, items or services originating from any City of Porterville account.
8. Effecting security incidents or disruptions of network communication. Security incidents include, but are not limited to, accessing data of which the authorized user is not an intended recipient or logging into a server or account that the authorized user is not expressly permitted to access, unless these duties are within the scope of regular duties. For purposes of this section, "disruption" includes, but is not limited to, network sniffing, pinged floods, packet spoofing, denial of service, and forged routing information for malicious purposes.
9. Port scanning or security scanning. Such use is expressly prohibited.
10. Executing any form of network monitoring which will intercept data not intended for the authorized user's host, unless this activity is part of the employee's normal job/duty.
11. Circumventing user authentication or security of any host, network or account.
12. Using any program/script/command, or sending messages of any kind, with the intent to interfere with, or disable, a user's terminal session, via any means, locally or via the Internet/Intranet/Extranet.

13. Unless explicitly authorized, providing information about, or lists of, City of Porterville employees or its affiliates to parties outside City of Porterville.
14. Incurring personal charges through the use of these systems. In the event that an authorized user does incur personal charges through the use of these systems, that user will be responsible for reimbursing the City for all expenses incurred.
15. Removing or disabling the security software (i.e. firewalls, anti-virus, anti-spyware, etc.) for any reason, unless done by or with the authority of the Information Technology staff.
16. The connection of portable or desktop computers to the City of Porterville computer network without approval by the Information Technology Division. Visitors or vendors under your care are not allowed to connect their portables directly to the City's network.

CITY'S RESERVATION OF THE RIGHT TO MONITOR

Pursuant to the Electronic Communications Privacy Act of 1986...notice is hereby given that there are NO facilities provided by the City for sending or receiving private confidential electronic communications. System administrators have access to all mail and user data files, and will monitor messages as necessary to assure efficient performance.

PUBLIC RECORDS AND PRIVATE AND PUBLIC DEVICES

Any temporary and permanent files and data prepared or received on a City owned or controlled device are considered a public record, unless an otherwise valid public records exemption applies.

Temporary and permanent files and data prepared or received on a privately-owned device or electronic system by an authorized user containing information relating to the conduct of the public's business are public records subject to control by the City and compliance with the City's record policies. A writing relates to the conduct of the public's business when it serves, or is intended to serve, a City purpose and involves a matter over which the authorized user has work responsibility. This policy is not intended to modify the definition of a public record as defined by the California Public Records Act.

When notified of a public records request, the authorized user must conduct a reasonable search for, locate, and review writings maintained on his or her privately-owned device or electronic systems that are potentially responsive to a public records request and provide the responsive records to the City Clerk. The authorized user must provide an explanation for a decision to exclude certain writings as not being responsive

public records. If required by the City Attorney, the authorized user must execute an affidavit containing a sufficient factual basis for the City or a court to determine whether a record on a privately-owned electronic systems is not a responsive public record.

LOST OR STOLEN

Authorized users must report to City Administration, within one business day, whenever any personal device used pursuant to this policy is suspected or known to be lost or stolen. Upon notification of loss/theft, the System administrators may issue a remote wipe of affected City-owned or controlled devices to ensure that City-related data is safeguarded. The City is not liable for the potential loss of personal (e.g., contacts, apps, photos, etc.) data, including the potential to restore the device to factory default settings.

CITY OF PORTERVILLE ADMINISTRATIVE POLICY	Number <u>V-A-15</u> Date <u>May 2, 2019</u> Revised _____ Authority <u>Administration</u>
SUBJECT: EMAIL RETENTION POLICY	_____ City Manager

PURPOSE:

To provide a procedure for the retention of e-mails consistent with applicable state and/or federal law and to provide for the efficient maintenance of affected infrastructure.

PROCEDURE:

Managing Agency E-mail

Agency officials and employees are responsible for the management of their e-mail folders on a regular basis. It is the responsibility of agency officials and employees to determine if an e-mail is an Official Agency Record ("OAR") which must be retained in accordance with the City's Records Retention Policy. An e-mail message and any attachments regardless of format may be considered an OAR.

Messages that are Generally NOT Considered as Official Agency Records

Examples of e-mail messages that are not generally considered OARs may include: (1) personal messages; (2) "Spam" emails, advertisements, or other "junk" e-mail; (3) messages not related to public business (e.g., employee birthday celebrations in the lunch room); and (4) newsletters or general information from vendors or other public agencies.

Preserving E-mails that are Official Agency Records

Any e-mail message, including any attachments regardless of format that is an OAR should be preserved by one of the following methods:

1. Print the email and consolidate the printed copy in the appropriate file. Generally, the employee who sends the e-mail should be the person responsible for printing and filing the hard copy, but persons responsible for a particular program or project file shall be responsible for retaining all e-mail they send or receive related to that program or project
2. Move the e-mail from your Inbox to the archival folder within your Office 365 account.

E-mail Box Retention Schedule

Days	120	120	30	30
Email Folders	Inbox	Sent	Delete	Junk

Inbox and **Sent** folders retention period is 120 days. Items that reach 120 days will be automatically moved to archive.

Deleted and **Junk** folders retention period is 30 days. Items that reach 30 days will be automatically moved to archive.

This policy does not waive any exemption to disclosure that may apply under the California Public Records Act or other applicable law.

CITY COUNCIL AGENDA – JANUARY 19, 2021

SUBJECT: Status and Review of Proclamation of Local Emergency: COVID-19

SOURCE: City Manager's Office

COMMENT: At its meeting of March 17, 2020, the City Council took action to approve a Resolution of Proclamation of Existence of a Local Emergency for the novel coronavirus (COVID-19), which staff also initiated a soft-opening of its Emergency Operations Center (EOC) on Friday, March 20, 2020. At its meeting on December 15, 2020, the Council reviewed the status of existence of local emergency, and acted to continue its Resolution of Proclamation.

On March 4, 2020, Governor Newsom issued a Proclamation of a State of Emergency, President Trump issued a Proclamation on Declaring a National Emergency on March 13, 2020, and the Tulare County Board of Supervisors adopted a Resolution of Proclamations of Local Emergencies on March 17, 2020. The Tule River Tribal Council also adopted a Resolution of Declaration of State of Emergency on March 13, 2020. Subsequent to his Proclamation at the time of this report, Governor Newsom has issued fifty-five (55) Executive Orders in support of the State addressing and mitigating COVID-19 impacts, several of which are pertinent to the City.

Governor Newsom's Executive Order N-25-20, issued on March 12, 2020, provided restrictions on mass gatherings of no more than 250, as well as provided accommodations to the Brown Act to encourage remote participation and social distancing. At its meeting of March 17, 2020, the Council gave direction of local gatherings not to exceed twenty-five (25), which staff responded to complaints and incidents accordingly. Both President Trump and the Centers for Disease Control (CDC) had recommended mass gatherings not exceed ten (10), which with Easter approaching on Sunday, April 12, 2020, the Council acted at its meeting on April 7, 2020, to limit local gatherings to no more than ten (10) individuals, allowing also for 6' social distancing. On October 9, 2020, apparently in consideration of the approaching holidays (e.g. Halloween, Thanksgiving, Christmas, etc.), the State issued guidance to allow up to three households to gather outdoors, including in a public park or outdoor space, allowing for social distancing, hand hygiene and wearing of face coverings unless eating or drinking, and not to exceed two hours in duration. On December 3, 2020, in response to rapidly increasing positive cases and hospitalizations (especially requiring ICU care), the State issued a new stay home order that prohibited all gatherings with members of other households.

The County and most cities across the county have either closed or instituted

soft-closings of its parks, including the closing of arbors, playgrounds and restrooms. At its meeting of April 7, 2020, the Council acted to soft-close City parks, including arbors, playgrounds, skatepark and sports courts (keeping restrooms open for hygiene purposes) and that gatherings of any size not occur. Consistent with the State and County's modified Orders regarding outdoor recreation and operating restrictions, at its meeting of May 5, 2020, the Council acted to reopen the City's golf course (including requiring participants to wear face coverings), OHV Park and tennis courts. On June 5, 2020, the State announced guidelines for the opening of outdoor recreation, including public swimming pools and aquatic venues, beginning June 12, 2020. At its meeting on June 16, 2020, the Council provided approval for the opening of the Murry Park swimming pool and Fallen Heroes Park splash pad consistent with the State's guidelines and necessary precautions and preparations. With continued limitations on team-oriented recreation activities, staff prepared new individual outdoor recreation opportunities for the community, such as cross-country running. On June 5, 2020, the State also provided guidance on the opening of day camps beginning June 12, 2020, which staff also prepared for opening consistent with the State's guidelines and necessary precautions and preparations, and subsequently was completed on July 31, 2020. On September 28, 2020, the State allowed public playgrounds to reopen with guidance and restrictions, which at its meeting on October 6, 2020, the Council acted to keep playgrounds closed until further action. In its regional stay at home order issued on December 3, 2020, the State ordered the closing of all indoor and outdoor playgrounds, but did encourage residents to experience outdoor recreation without gathering with anyone outside their immediate household. On December 9, 2020, the State changed its guidance on outdoor playgrounds, allowing to remain open to facilitate physically distanced personal health and wellness through outdoor exercise.

Due to the pandemic and to avoid mass gatherings, the community has suffered from the cancellation of the Iris Festival, Cinco de Mayo Parade, Porterville Fair, Military Banner Ceremony, KJUG Summer Concert Series, Freedom Fest, Pioneer Days, Veterans Day Parade, Christmas Tree-Lighting Ceremony and the Children's Christmas Parade (December).

Governor Newsom's Executive Order N-28-20, issued on March 16, 2020, strongly advised that both private and public utilities not shutoff utilities or charge late fees for lack of payment until May 31, 2020, and directed the California Public Utilities Commission to review both private and public utilities for conformance. At its meeting on March 17, 2020, the Council acted to suspend the shutoff of utilities and the charging of late fees for lack of payment until at least its meeting of April 21, 2020 for review. Governor Newsom issued Executive Order N-42-20 on April 2, 2020, which mandated that private and public water utilities not shutoff service due to non-payment, retroactive to March 4, 2020 - the Order did not reference the charging of late fees. Given the suspension of shutoff and charging of late fees, the City initially experienced a dramatic increase in accounts not making payment since the Council's action, which staff reinforced the message to customers that regular payments must still be made and has led to now generally usual payment,

although has begun to accumulate. Since the Council's action on March 17, 2020 and as of December 31, 2020, there was \$1,180,279 in unpaid City utility accounts (water: \$544,933; sewer: \$335,512; and refuse: \$300,282), with the corresponding total loss in late fees of \$296,250 - more than double the City's experience prior to the Governor's Executive Order. At its meeting on April 21, 2020, the Council acted to continue the moratorium of utility turnoff for non-payment consistent with the Executive Order, and to continue to not charge late fees until further action by the Council.

Governor Newsom's Executive Order N-32-20, issued on March 18, 2020, appropriated \$150 million in emergency homeless funding, of which \$284,403 was allocated to Tulare County between \$147,734 to the Continuum of Care (CoC) and \$136,669 to the County. The CoC initially indicated its appropriation to the City of approximately \$40,000 based upon recent homeless population counts, which City staff recommended be the funding source for the daily homeless lunch program the City initiated on March 27, 2020, with the closure of the local non-profit (Helping Hands of Porterville Inc.) due to pandemic concerns earlier that same week. Staff estimated that the \$40,000 would allow the daily lunch program to continue through the month of April 2020. Subsequently, the CoC indicated it was attempting to match its funding allocation with the County's as the required 25% match to larger federal FEMA funding of approximately \$1.2 million. The County has indicated its allocation will be utilized in assisting with providing shelter for homeless individuals that are identified high-risk or in need of quarantine due to COVID-19 (Project Roomkey), which the County is working with two local hotels in the leasing of approximately thirty (30) rooms. At the time of this report, the County reports there are currently one hundred and sixteen (116) total hotel rooms available to homeless individuals participating in the Project Roomkey program across the county, with seventy-five (75) of the rooms occupied. The County also reports that a Street Medicine event occurred in Porterville on June 29, 2020, during which twelve (12) individuals were tested for COVID-19 and all were negative. On July 1, 2020, Helping Hands of Porterville resumed its daily homeless lunch program, thus relieving the City and its staff of the deliver of this program. However, Helping Hands recently decided to close its program in October 2020 due to limited donations and participation.

The City's contract operator of the planned navigation center, Turning Point of Central California, had been issued building permits and was making necessary improvements for anticipated opening in the month of July, with the installation of the fire monitoring and suppression system the final improvement needed to be completed. Turning Point had previously indicated that due to the current pandemic, occupancy of the navigation center when opened would be at half-capacity to allow adequate physical distancing given group housing, but now believes the center can open with two-thirds capacity and meet State guidelines for healthy and safe operations. Given the delay in the installation of the fire monitoring and suppression system, at its meeting on August 4, 2020, the Council gave staff direction to consider opening the navigation center restricted to providing services without housing, which Turning Point opened and began offering daily services only on August 18, 2020. With the final completion of

the requisite fire suppression and monitoring system, Turning Point began offering emergency shelter and transitional housing on November 15, 2020.

Governor Newsom's Executive Order N-33-20, issued on March 19, 2020, ordered that state residents shelter-at-home, and that only identified essential businesses remain open and associated workforce. Much confusion reverberated throughout the state in clarifying essential businesses, which staff both responded to complaints and acted proactively in following the State's guidelines of essential businesses (attached). To assist in this ever-changing subject, at its meeting on April 21, 2020, the Council acted to appoint Vice Mayor Reyes and Council Member Gurrola to form an Ad Hoc Committee to coordinate with the City Attorney and City Manager in the application of the State and County guidelines in regard to essential and non-essential businesses. The Committee has met intermittently in review of local complaints and compliance with modified State and County Orders. At its meeting on December 15, 2020, the Council acted to appoint Council Member Carrillo to replace former Council Member Gurrola on the Committee.

On Tuesday, April 28, 2020, Governor Newsom announced his 4 Stage plan for reopening the California economy and gradual modification of his stay-at-home Order, which his presentation is enclosed. The Governor indicated that moving from current Stage 1 to State 2 would likely occur in several weeks and allow non-essential "low-risk" retail to reopen with requisite 6' social distancing. The Governor indicated "high-risk" personal services would likely be allowed later during the Summer. On May 4, 2020, Governor Newsom issued Executive Order N-60-20, allowing the reopening of lower-risk businesses and spaces in Stage 2 beginning May 8, 2020, including manufacturing, retailers (pick-up and delivery) and warehouses. The Order also allowed Counties to proceed more quickly through Stage 2 (Variation Attestation) given certain State-determined public health metrics were met, including: 1) sustained reduction or stability in new cases for fourteen (14) days; 2) adequate diagnostic testing capacity and test results, including the ability to test all individuals with COVID-19 symptoms, same-day testing widely available for hospitalized patients, healthcare workers and workers in essential roles, close contacts for confirmed cases, and outpatients with symptoms; 3) public health department's capacity to rapidly interview new cases, identify close contacts, and ensure isolation and quarantine are effective; and 4) health care system capacity to respond to potential surges.

At its meeting on May 12, 2020, the Tulare County Board of Supervisors considered its draft plan for compliance with the Executive Order (attached). Of note, the Tulare County Public Health Officer issued a health advisory on May 7, 2020, that county residents should wear face coverings when in public (attached). At its meeting on May 19, 2020, the Board of Supervisors acted to modify its draft plan for reopening, including advancing immediately through the State's Stage 3, rescinding the County's Public Health Officer's Order, halting all local civil enforcement of stay-at-home Orders, directing County guidance for Stage 3 businesses, and direct County efforts from meeting State metrics to supporting problem areas and populations including the elderly and

health compromised individuals, skilled nursing facilities, hospitals, and businesses or agencies with reported outbreaks. On May 26, 2020, the County submitted its Variance Attestation to the State, which was approved and posted by the State on May 27, 2020, allowing the county to proceed through the State's Stage 2.

On May 25, 2020, the State announced that places of worship (25% capacity) and in-store retail were allowed to proceed immediately statewide, and on May 26, 2020, the Governor announced that barber and hair salons could reopen immediately in counties with approved Variance Attestations, which as previously stated Tulare County's was approved by the State on May 27th. On June 5, 2020, the State announced that additional previous Stage 3 activities would be allowed to reopen with provided guidance effective June 12, 2020, including bars and wineries, campgrounds and RV parks, family entertainment centers (i.e. bowling alleys and movie theaters), fitness facilities, and museums/galleries/zoos/aquariums.

Due to increasing positive cases across the state, on June 18, 2020, the State issued guidance that all individuals wear face coverings when in public (attached). At its meeting on July 7, 2020, the Council acted to approve and Order under its Proclamation of Local Emergency authorizing the City to enforce the State's mandatory face covering requirements through the City's administrative citation regulations and aggressive education efforts, and directed City staff to prepare an emergency Ordinance requiring face coverings consistent with the State requirements, which was scheduled for Public Hearing and was approved by the Council at its meeting of July 21, 2020. In enforcement of the emergency Ordinance since adoption by Council, the Fire Department's Code Enforcement Division has nine documented business-oriented incidents, and the Police Department has forty (40) documented incidents involving individuals.

Due to increasing positive cases, testing positivity and COVID-19 hospitalizations, the State placed Tulare County on its monitoring list program for targeted engagement and potentially reinstituting community measures, which on June 28, 2020, the State directed all bars in Tulare County be closed again immediately by local health officer order. On July 1, 2020, the State further directed the closing of indoor activities for at least the succeeding three weeks, including restaurants, bowling alleys, movie theaters, card rooms, museums, wineries and zoos. On Monday, July 14, 2020, the State directed the immediate closure of all bars in California and cease in-restaurant dining, as well as the immediate closure of indoor activities or industries including barbershops, fitness centers, hair salons, malls, offices for non-essential sectors, personal care services (e.g. esthetic salons, nails salons, tattoo parlors), protests and places of worship for counties on the State's monitoring list (including Tulare County), unless the activity or industry can be modified to operate indoors or by pick-up. The State Board of Barbering and Cosmetology initially declared that barbershops and esthetic, hair and nails salons are required to operate indoors and may not operate outdoors and therefore must be closed, however, the State Board subsequently determined to allow these businesses to

be open with modifications to operate outdoors.

On August 28, 2020, Governor Newsom announced that the State was implementing a new County Monitoring List system known as the Blueprint for a Safer Economy, incorporating standardized four tiers dependent upon a county's daily new cases per 100,000 population and testing positivity rates and the corresponding effect on economic sectors guidelines for operation. Tulare County is currently in the Purple (Widespread) tier given its daily positive case rate per 100,000 population exceeds seven (17.6 at the time of this report), although the positivity rate is less than the maximum eight percent (7.1% at the time of this report). At the time of this report, there are forty-five (45) counties in the Purple (Widespread) tier, eight counties in the Red (Substantial) tier and five counties in the Orange (Moderate) tier, with no counties in the Yellow (Minimal) tier. Under the new system, the State allowed barber and hair salons to reopen indoor operations on August 31, 2020, and allowed nail salons to reopen indoor operations on September 22, 2020, if permitted by local county public health officials. The State further allowed expanded personal care services to reopen indoor operations on October 20, 2020, including esthetic, skin care, electrology, body art professionals, tattoo parlors, piercing shops and massage therapy (in non-healthcare settings).

On September 30, 2020, the State announced a new health equity metric to be included in the Blueprint for a Safer Economy, requiring that test positivity rates in disadvantaged communities that comprise the lowest quartile of a county's Healthy Places Index census tracts do not significantly lag behind overall county test positivity rates. In order to advance to the next less restrictive tier (e.g. Purple-widespread to Red-substantial), a county will need to meet an equity metric and/or demonstrate targeted investments to eliminate disparities in levels of transmission. According to Tulare County's report as of October 13, 2020, the lowest quartile does not include Porterville areas exceeding 8% positivity, with the census tracts of Cutler/Yettum (24.4%), Pixley/Teviston (18.9%), Earlimart (15.6%), Alpaugh/Allensworth/Richgrove (15.4%), South-Central Tulare (13.3%), Tipton/Woodville (12.5%), West-Central Tulare (11.8%) and Orosi (8.9%) being of greatest concern. As referenced by a Member of Council, at its meeting on October 6, 2020, the Tulare County Board of Supervisors adopted a Resolution, demanding clarity, consistency, and continuity from Governor Newsom regarding COVID-19 directives to counties.

On November 19, 2020, due to the observed significant rise in positive cases, the State announced a "Limited Stay At Home Order" that in all counties in the Purple (Widespread) tier under the State's Blueprint for a Safe Economy, requiring that all non-essential business and public activities cease to occur between 10:00 PM and 5:00 AM, effective November 21, 2020 through December 21, 2020 or as may be extended.

On December 3, 2020, due to the continued significant rise in positive cases and hospitalizations (especially ICU care), the State issued a "Regional Stay At Home Order" with the state separated into five regions by county and centered around maintaining a minimum of fifteen percent (15%) regional hospital ICU

capacity, with Tulare County joining eleven (11) other counties in the "San Joaquin Valley" region. The San Joaquin Valley region experienced 14.1% ICU capacity on December 5th and 6.6% capacity on December 6th, causing the new regional order to go into effect in the San Joaquin Valley region at 11:59 P.M. on December 6th. At the time of this report, the San Joaquin Valley region as 0% ICU capacity. The regional order modifies business operations, including: 1) limit indoor retail to no more than twenty percent (20%) capacity; 2) limit restaurants to delivery/pick-up/take-out only; 3) limit worship and political expression to outdoor only; 4) limit outdoor recreation to no drink or food sales; 5) limit essential office work only when remote work is not possible; and 6) limit hotels and lodging to only supporting critical infrastructure. The regional order closes business operations, including: 1) barber and hair salons; 2) personal care services (esthetician, massage, nail and tattoo); and 3) museums.

The new State Blueprint also provided a waiver process to allow TK-6th Grade students to receive in-person instruction with prior County and State approval, which locally St. Anne's School received such approval and began instruction on September 14, 2020. Also locally, Hope Elementary School received waiver approval and began in-person instruction on September 28, 2020, and Porterville Unified School District received waiver approval and began in-person instruction on December 1, 2020. Burton, Pleasant View Elementary and Rockford Elementary have each recently received both County and State waiver approval, but have not yet begun in-person instruction.

At its meeting on August 4, 2020, the Council considered and gave direction to staff evaluate opportunities for local restaurants to operate outdoors in the City's public right-of-way. At its meeting on August 18, 2020, given City liability considerations, the Council gave direction to work with local restaurants individually through an application and guidelines developed in coordination with the Council's Ad Hoc Committee. On August 24, 2020, the Council Ad Hoc Committee met with staff to review draft guidelines for the opening of outdoor dining by restaurants in public right-of-way, which the final guidelines are provided as an attachment. Consistent with the guidelines and the proposed City's support for protecting restaurant patrons dining in the public right-of-way, at its meeting on September 1, 2020, the Council authorized an appropriation of \$100,000 from the City's Emergency/Catastrophic Reserve Fund for the purchase of necessary traffic and sidewalk barriers and other complimentary amenities, with any expenditure of funds to be documented for potential reimbursement should future federal and/or state funding be made available to mitigate COVID-19 activities. At the time of this report, nine entities have been approved to provide outdoor dining, including the Elks Lodge #1342, New China Restaurant, El Jacalito Taqueria, Pho Sho Fusion House, Pizza Factory, El Maguey Mexican Restaurant, Mariscos El-30, RJ's Cafe & Bakery, El Nuevo Mexicali II, Habi Sushi, Black Bear Diner and Birria Y Pollos El Guero, and several more were in the application process prior to outdoor dining being prohibited by the State's regional stay at home orders on December 3, 2020.

Due to increasing virus spread in the Central Valley resulting in increased cases and hospitalizations, on July 27, 2020, the Governor announced the

appropriation of \$52 million in support of the counties of Fresno, Kern, Kings, Madera, Merced, San Joaquin, Stanislaus and Tulare in the implementation of three Unified Support Teams to provide hands-on technical assistance in support of testing, contact tracing, isolation and quarantine efforts. On August 12 and 13, 2020, the State's Unified Support Team met with local representatives in developing strategies reducing community spread in Tulare County.

Most of the City's workforce has been deemed essential under the State's guidelines, which the City has directed its limited non-essential workers to remain at home and available for assignment if necessary, and has implemented a rotation of its essential workforce as much as possible to reduce employees public exposure. Employees required to be at work during the shelter-at-home Order are accrued special leave for later utilization and/or payment, as well as employees that are working from home. Given the State's reopening guidelines, all City employees returned to work effective June 1, 2020, and the special leave program was discontinued effective May 31, 2020. Compounding the challenge for the City's workforce was the temporary closure of local non-profit contractor Promoting Self Worth (PSW) due to its workforce being considered highly vulnerable to COVID-19, thus necessitating City staff to address the contracted essential services of graffiti removal and the care for a significant number of Landscape and Lighting Maintenance Districts (LMD). PSW returned to performing its contracted services with the City beginning the week of May 11, 2020.

Governor Newsom's Executive Order N-37-20, issued on March 27, 2020, established a moratorium on eviction of tenants in good standing as of the date of the Order through May 31, 2020, which had been an issue of discussion by the Council at its meeting on March 17, 2020. On May 29, 2020, Governor Newsom issued Executive Order N-66-20, extending the eviction moratorium through July 28, 2020. On June 30, 2020, the Governor issued Executive Order N-71-20, extending the eviction moratorium through September 30, 2020. On August 31, 2020, Governor Newsom signed legislation to extend protections for tenants from eviction from COVID-19-related back rent through February 1, 2021, as well as extended anti-foreclosure protections in the Homeowner Bill of Rights to small landlords.

Governor Newsom's Executive Order N-39-20, issued on March 30, 2020, provided broad waivers of certifications and licensing for healthcare providers and locations to expand the provision of medical care in meeting an expected patient surge. During his press conference announcing the Order, Governor Newsom mentioned that Porterville would play a role in meeting the expected patient surge, which staff has learned will involve the reactivation of a portion of the General Treatment Area of the Porterville Developmental Center (PDC), including caring for up to potentially 350 COVID-19 patients in four (4) categories: 1) patients too sick to recover at home, but do not need hospitalization; 2) patients who have been hospitalized and who are recovering and require less care; 3) skilled nursing facility patients who don't require acute care; and 4) developmentally-disabled group home patients. Preliminary construction improvements have been completed to prepare the facility's

infrastructure, with no timeline yet provided for necessary medical improvements expected to begin. The City has repeatedly asked the State to keep it involved in its planning efforts, including any actions by Council that would be supportive of its operation. On May 8, 2020, the City received notice from the County that the State intended to immediately relocate approximately forty (40) foster youth from across the state with COVID-19 to PDC, however, on May 9, 2020, the County notified the City that the State had changed its plans and would not be relocating the youth to PDC, likely to ensure regional patient surge capacity. On July 2, 2020, the City received notification from the County that the State would activate PDC as a regional alternate site on Friday, July 3, 2020, treating low-acute COVID-19 patients transferred from impacted hospitals from across the Central Valley. On August 19, 2020, the State notified the County that State personnel were being assigned to support the large fires in northern California and now across the state, and that PDC would not be accepting any new patients until further notice. As of September 12, 2020, there were no patients being treated at PDC, with the State designating the "warm closure" of the facility that can be reactivated within seventy-two (72) hours if necessary. The State has indicated that due to rising hospitalizations, it anticipated that PDC would be reopened as a regional alternate site, which was activated on December 15, 2020, and at the time of this report is currently treating ten (10) patients.

As part of the Governor's commitment to broader testing in rural and under-served areas of the state, the State established a contracted large-scale testing facility at the Veterans Memorial Building, beginning operations on Tuesday, May 5, 2020. Up to 130 tests are expected to be performed each day (Monday - Friday) for the next several months, which testing will be available to everyone by appointment. Given initial low utilization, City staff initiated a local messaging campaign for local residents to be tested, which precipitated improved community response beyond minimum State testing thresholds. City staff had been notified by County staff that the Veterans Memorial administration has given notice to the State to terminate the testing at its facility effective July 31, 2020, so that it may again use the facility for other purposes, however, the State and the Veterans Memorial administration have agreed to continue testing for the next several months.

The United States Food and Drug Administration (FDA) provided emergency use authorization for the Pfizer-BioNTech COVID-19 vaccine on December 11, 2020, and the Moderna vaccine on December 18, 2020, which the State provided guidelines for the distribution of vaccines in three phases. Consistent with the State's identified Phase 1A/Tier 1 priority, Tulare County began vaccinations the week of December 14, 2020, with approximately 3,000 vaccines administered. At the time of this report, the County has received 18,275 vaccines and administered 5,388 vaccines to residents, in the process of transitioning through Tiers 1 and 3 in Phase 1A. The County is in the process of identifying large-scale community vaccination sites, with locations proposed in the Porterville, Tulare and Visalia areas.

On March 27, 2020, President Trump signed the Coronavirus Aid, Relief, and
Item No. 17.

Economic Security (CARES) Act, a \$2 trillion economic recovery stimulus package. The financial recovery package includes: 1) \$604 billion for individuals/families, including \$300 billion in cash payments, \$260 billion in unemployment payments and \$44 billion in student loan assistance; 2) \$500 billion for large corporations; 3) \$377 billion for small business; 4) \$340 billion for state and local governments; 5) and \$180 billion for public services, including \$100 billion for hospitals. Within the state and local government provisions, a local government's (county or city) population must exceed 500,000 to receive direct federal recovery, which local governments with population less than 500,000 would only receive federal recovery through a state if the state was agreeable to local government distributions. On April 24, 2020, President Trump signed the Paycheck Protection Program and Healthcare Enhancement Act (H.R. 266), which provided approximately \$400 billion in additional business assistance (\$321 billion) and medical support and testing (\$75 billion). Staff is focusing its efforts now in engaging with local businesses and financial institutions to ensure the emergency resources are made available to promote local economic stability upon the completion of the current state of emergency.

On December 27, 2020, President Trump signed a \$900 billion COVID-19 relief bill into law, which included enhanced unemployment benefits, direct cash payments, small business assistance, childcare and education funding, rental assistance, vaccine and hospital funding, and payroll tax repayment, but did not include local government funding.

Further federal economic recovery packages are currently in discussions by Congress, with the House of Representatives proposed Health and Economic Recovery Omnibus Emergency Solutions (HEROES) Act including \$3 trillion in federal assistance which includes \$1 trillion in state and local government funding assistance, and the Senate proposed Health, Economic Assistance, Liability protection and Schools (HEALS) Act including \$1 trillion in federal assistance which does not include any local government funding assistance. President-Elect Biden has indicated a significant economic recovery stimulus package, estimated at \$2 trillion, will be a major priority at the beginning of his administration.

At its meeting on May 5, 2020, the Council acted to amend its federal Community Development Block Grant (CDBG) 5-Year Action Plan and program the \$490,000 CDBG-CV business assistance funds received, and took additional action at its meeting on June 2, 2020, which staff received final approval from the Housing and Urban Development (HUD) Department on July 21, 2020, and begin providing local small business assistance. Although the City received approval of its CDBG-CV plan and program by HUD, on August 10, 2020, HUD released its final set of program rules, which staff had to review for consistency. On September 17, 2020, the City received notification from HUD of an additional \$393,000 in additional CDBG-CV funds, which City staff is still awaiting final approval from HUD on the use of funds. At its meeting of June 16, 2020, the Council took action to defer the collection of the biannual \$25 business license from July 2020 to January 2021 for local small businesses,

which due to the State's current regional stay at home order, at its meeting on December 15, 2020, the Council acted to defer the biannual collection again until July 2021.

On December 3, 2020, given the new Regional Stay-at-Home Orders, the State announced that a new \$500 million in grants would be made available to assist small businesses impacted by the Orders, which the application period for the first round of funding opened on December 30, 2020, and closed on January 13, 2021. A second round of funding has been committed to by the State, but the application period has not yet been determined.

Given challenges of access and gaps in available small business assistance, some cities have developed self-funded small business assistance programs. As an example, the City of Whittier recently developed a \$500,000 small business assistance grant program, with eligible businesses required to have a valid business license, be independently owned and operated, and have a physical commercial location (home based businesses are not eligible). The program provides \$500 to personal care services providers (i.e. hair, massage, nail, skincare, tattoo), \$2,000 to businesses that generate less than \$250,000 in gross taxable sales, and \$2,500 to businesses that generate more than \$250,000 in gross taxable sales. Small businesses are defined generating less than \$1.25 million in gross taxable sales.

From a City financial perspective, there is little doubt that the pandemic is having significant negative impact on local sales tax and transient occupancy tax, which will be further compounded by a likely reassessment of property tax values. Fortunately, the conservative stewardship of the City has allowed it to have General Fund reserves for Catastrophic Emergencies (\$2.8 million) and Budget Stabilization (\$4.3 million), which in addition to the recent passage of Measure I, allows the City to purposefully address the current crisis and plan for budgetary accommodations that the City's essential services to the community can continue without current modification. The League of California Cities has estimated cities in California will collectively lose \$7 billion in revenue through the 2020-2021 fiscal year, and the State has forecasted that it will lose \$54 billion, exhausting its reserves and requiring significant State program reductions.

As a component of its 2020-2021 budget adoption, the State appropriated \$500 million of CARES Act funding to cities that were not allocated CARES Act funding directly by the federal government, including \$275 million to cities with a population of less than 300,000, which the City will receive approximately \$740,000.

On Friday, January 8, 2021, Governor Newsom announced the State's proposed \$227 billion budget for the upcoming 2021-2022 fiscal year, allocating \$15 billion for COVID-19 recovery and support, focused on vaccinations, safe reopening of schools, support for small businesses, and funding for California residents, but did not include financial support for cities.

RECOMMENDATION:

That the City Council:

1. Receive the report of status and review of the Proclamation of Local Emergency;
2. Determine the need exists to continue said Declaration; and
3. Take action and/or provide direction as deemed necessary.

RESOLUTION NO. 22-2020

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF PORTERVILLE TO PROCLAIM THE EXISTENCE OF A LOCAL EMERGENCY

RESOLVED, by the City Council (the “Council”) of the City of Porterville (the “City”),
as follows:

WHEREAS, the novel coronavirus (COVID-19) is a respiratory disease which the Centers for Disease Control and Prevention (CDC) considers to be a very serious public health threat with outcomes ranging from mild to severe sickness and death; and

WHEREAS, COVID-19 is easily transmissible from person to person and has spread globally to over 118 countries, infected more than 125,000, and killed more than 4,000 as of March 11, 2020 per the World Health Organization (WHO); and

WHEREAS, on January 31, 2020, the United States Department of Public Health and Human Services declared a public emergency for COVID-19 beginning on January 27, 2020; and

WHEREAS, on March 4, 2020, Governor Gavin Newsom declared a state of emergency in the State of California due to the number of confirmed cases of COVID-19 in the State; and

WHEREAS, on March 11, 2020, WHO made the assessment that COVID-19 can be characterized as a pandemic; and

WHEREAS, on March 12, 2020, Tulare County declared an emergency due to the confirmed case of COVID-19 at Sierra View Medical Center in the city of Porterville, thus enabling Tulare County to take extraordinary measures; and

WHEREAS, on March 13, 2020, Governor Newsom announced that California public health officials have determined that gatherings of more than 250 people should be postponed or canceled across the State at least until the end of March; and

WHEREAS, COVID-19 therefore and will continue to cause conditions of peril to the health, safety, and welfare of persons and property in the City of Porterville; and

WHEREAS, preparing for, responding to, mitigating, and recovering from the spread of COVID-19 requires the City to divert resources from normal day-to-day operations, and has and will continue to impose extraordinary requirements on and expenses to the City; and

WHEREAS, the City Council hereby finds that the above described conditions related to the COVID-19 outbreak does warrant and necessitate the proclamation of the existence of a local emergency in the city of Porterville.

NOW, THEREFORE, it is hereby **DECLARED** and **ORDERED**, as follows:

1. The proclamation of existence of a local emergency exists throughout the City of Porterville.
2. The local emergency shall be deemed to continue to exist until its termination is proclaimed by the City Council of the City of Porterville.
3. As required by law, the City Council shall review the need to continue the state of emergency every thirty (30) days until this Resolution is terminated.

PASSED, APPROVED, AND ADOPTED this 17th day of March, 2020.

Martha A. Flores, Mayor

By: Fernando Gabriel-Moraga, Deputy City Clerk

**EXECUTIVE DEPARTMENT
STATE OF CALIFORNIA**

PROCLAMATION OF A STATE OF EMERGENCY

WHEREAS in December 2019, an outbreak of respiratory illness due to a novel coronavirus (a disease now known as COVID-19), was first identified in Wuhan City, Hubei Province, China, and has spread outside of China, impacting more than 75 countries, including the United States; and

WHEREAS the State of California has been working in close collaboration with the national Centers for Disease Control and Prevention (CDC), with the United States Health and Human Services Agency, and with local health departments since December 2019 to monitor and plan for the potential spread of COVID-19 to the United States; and

WHEREAS on January 23, 2020, the CDC activated its Emergency Response System to provide ongoing support for the response to COVID-19 across the country; and

WHEREAS on January 24, 2020, the California Department of Public Health activated its Medical and Health Coordination Center and on March 2, 2020, the Office of Emergency Services activated the State Operations Center to support and guide state and local actions to preserve public health; and

WHEREAS the California Department of Public Health has been in regular communication with hospitals, clinics and other health providers and has provided guidance to health facilities and providers regarding COVID-19; and

WHEREAS as of March 4, 2020, across the globe, there are more than 94,000 confirmed cases of COVID-19, tragically resulting in more than 3,000 deaths worldwide; and

WHEREAS as of March 4, 2020, there are 129 confirmed cases of COVID-19 in the United States, including 53 in California, and more than 9,400 Californians across 49 counties are in home monitoring based on possible travel-based exposure to the virus, and officials expect the number of cases in California, the United States, and worldwide to increase; and

WHEREAS for more than a decade California has had a robust pandemic influenza plan, supported local governments in the development of local plans, and required that state and local plans be regularly updated and exercised; and

WHEREAS California has a strong federal, state and local public health and health care delivery system that has effectively responded to prior events including the H1N1 influenza virus in 2009, and most recently Ebola; and

WHEREAS experts anticipate that while a high percentage of individuals affected by COVID-19 will experience mild flu-like symptoms, some will have more serious symptoms and require hospitalization, particularly individuals who are elderly or already have underlying chronic health conditions; and

WHEREAS it is imperative to prepare for and respond to suspected or confirmed COVID-19 cases in California, to implement measures to mitigate the spread of COVID-19, and to prepare to respond to an increasing number of individuals requiring medical care and hospitalization; and

WHEREAS if COVID-19 spreads in California at a rate comparable to the rate of spread in other countries, the number of persons requiring medical care may exceed locally available resources, and controlling outbreaks minimizes the risk to the public, maintains the health and safety of the people of California, and limits the spread of infection in our communities and within the healthcare delivery system; and

WHEREAS personal protective equipment (PPE) is not necessary for use by the general population but appropriate PPE is one of the most effective ways to preserve and protect California's healthcare workforce at this critical time and to prevent the spread of COVID-19 broadly; and

WHEREAS state and local health departments must use all available preventative measures to combat the spread of COVID-19, which will require access to services, personnel, equipment, facilities, and other resources, potentially including resources beyond those currently available, to prepare for and respond to any potential cases and the spread of the virus; and

WHEREAS I find that conditions of Government Code section 8558(b), relating to the declaration of a State of Emergency, have been met; and

WHEREAS I find that the conditions caused by COVID-19 are likely to require the combined forces of a mutual aid region or regions to appropriately respond; and

WHEREAS under the provisions of Government Code section 8625(c), I find that local authority is inadequate to cope with the threat posed by COVID-19; and

WHEREAS under the provisions of Government Code section 8571, I find that strict compliance with various statutes and regulations specified in this order would prevent, hinder, or delay appropriate actions to prevent and mitigate the effects of the COVID-19.

NOW, THEREFORE, I, GAVIN NEWSOM, Governor of the State of California, in accordance with the authority vested in me by the State Constitution and statutes, including the California Emergency Services Act, and in particular, Government Code section 8625, **HEREBY PROCLAIM A STATE OF EMERGENCY** to exist in California.

IT IS HEREBY ORDERED THAT:

1. In preparing for and responding to COVID-19, all agencies of the state government use and employ state personnel, equipment, and facilities or perform any and all activities consistent with the direction of the Office of Emergency Services and the State Emergency Plan, as well as the California Department of Public Health and the Emergency Medical Services Authority. Also, all residents are to heed the advice of emergency officials with regard to this emergency in order to protect their safety.
2. As necessary to assist local governments and for the protection of public health, state agencies shall enter into contracts to arrange for the procurement of materials, goods, and services needed to assist in preparing for, containing, responding to, mitigating the effects of, and recovering from the spread of COVID-19. Applicable provisions of the Government Code and the Public Contract Code, including but not limited to travel, advertising, and competitive bidding requirements, are suspended to the extent necessary to address the effects of COVID-19.
3. Any out-of-state personnel, including, but not limited to, medical personnel, entering California to assist in preparing for, responding to, mitigating the effects of, and recovering from COVID-19 shall be permitted to provide services in the same manner as prescribed in Government Code section 179.5, with respect to licensing and certification. Permission for any such individual rendering service is subject to the approval of the Director of the Emergency Medical Services Authority for medical personnel and the Director of the Office of Emergency Services for non-medical personnel and shall be in effect for a period of time not to exceed the duration of this emergency.
4. The time limitation set forth in Penal Code section 396, subdivision (b), prohibiting price gouging in time of emergency is hereby waived as it relates to emergency supplies and medical supplies. These price gouging protections shall be in effect through September 4, 2020.
5. Any state-owned properties that the Office of Emergency Services determines are suitable for use to assist in preparing for, responding to, mitigating the effects of, or recovering from COVID-19 shall be made available to the Office of Emergency Services for this purpose, notwithstanding any state or local law that would restrict, delay, or otherwise inhibit such use.
6. Any fairgrounds that the Office of Emergency Services determines are suitable to assist in preparing for, responding to, mitigating the effects of, or recovering from COVID-19 shall be made available to the Office of Emergency Services pursuant to the Emergency Services Act, Government Code section 8589. The Office of Emergency Services shall notify the fairgrounds of the intended use and can immediately use the fairgrounds without the fairground board of directors' approval, and

notwithstanding any state or local law that would restrict, delay, or otherwise inhibit such use.

7. The 30-day time period in Health and Safety Code section 101080, within which a local governing authority must renew a local health emergency, is hereby waived for the duration of this statewide emergency. Any such local health emergency will remain in effect until each local governing authority terminates its respective local health emergency.
8. The 60-day time period in Government Code section 8630, within which local government authorities must renew a local emergency, is hereby waived for the duration of this statewide emergency. Any local emergency proclaimed will remain in effect until each local governing authority terminates its respective local emergency.
9. The Office of Emergency Services shall provide assistance to local governments that have demonstrated extraordinary or disproportionate impacts from COVID-19, if appropriate and necessary, under the authority of the California Disaster Assistance Act, Government Code section 8680 et seq., and California Code of Regulations, Title 19, section 2900 et seq.
10. To ensure hospitals and other health facilities are able to adequately treat patients legally isolated as a result of COVID-19, the Director of the California Department of Public Health may waive any of the licensing requirements of Chapter 2 of Division 2 of the Health and Safety Code and accompanying regulations with respect to any hospital or health facility identified in Health and Safety Code section 1250. Any waiver shall include alternative measures that, under the circumstances, will allow the facilities to treat legally isolated patients while protecting public health and safety. Any facilities being granted a waiver shall be established and operated in accordance with the facility's required disaster and mass casualty plan. Any waivers granted pursuant to this paragraph shall be posted on the Department's website.
11. To support consistent practices across California, state departments, in coordination with the Office of Emergency Services, shall provide updated and specific guidance relating to preventing and mitigating COVID-19 to schools, employers, employees, first responders and community care facilities by no later than March 10, 2020.
12. To promptly respond for the protection of public health, state entities are, notwithstanding any other state or local law, authorized to share relevant medical information, limited to the patient's underlying health conditions, age, current condition, date of exposure, and possible contact tracing, as necessary to address the effect of the COVID-19 outbreak with state, local, federal, and nongovernmental partners, with such information to be used for the limited purposes of monitoring, investigation and control, and treatment and coordination of care. The

notification requirement of Civil Code section 1798.24, subdivision (i), is suspended.

13. Notwithstanding Health and Safety Code sections 1797.52 and 1797.218, during the course of this emergency, any EMT-P licensees shall have the authority to transport patients to medical facilities other than acute care hospitals when approved by the California EMS Authority. In order to carry out this order, to the extent that the provisions of Health and Safety Code sections 1797.52 and 1797.218 may prohibit EMT-P licensees from transporting patients to facilities other than acute care hospitals, those statutes are hereby suspended until the termination of this State of Emergency.

14. The Department of Social Services may, to the extent the Department deems necessary to respond to the threat of COVID-19, waive any provisions of the Health and Safety Code or Welfare and Institutions Code, and accompanying regulations, interim licensing standards, or other written policies or procedures with respect to the use, licensing, or approval of facilities or homes within the Department's jurisdiction set forth in the California Community Care Facilities Act (Health and Safety Code section 1500 et seq.), the California Child Day Care Facilities Act (Health and Safety Code section 1596.70 et seq.), and the California Residential Care Facilities for the Elderly Act (Health and Safety Code section 1569 et seq.). Any waivers granted pursuant to this paragraph shall be posted on the Department's website.

I FURTHER DIRECT that as soon as hereafter possible, this proclamation be filed in the Office of the Secretary of State and that widespread publicity and notice be given of this proclamation.

IN WITNESS WHEREOF I have
hereunto set my hand and caused
the Great Seal of the State of
California to be affixed this 4th day
of March 2020

Secretary of State

**PROCLAMATIONS**

Proclamation on Declaring a National Emergency Concerning the Novel Coronavirus Disease (COVID-19) Outbreak

Issued on: March 13, 2020

In December 2019, a novel (new) coronavirus known as SARS-CoV-2 (“the virus”) was first detected in Wuhan, Hubei Province, People’s Republic of China, causing outbreaks of the coronavirus disease COVID-19 that has now spread globally. The Secretary of Health and Human Services (HHS) declared a public health emergency on January 31, 2020, under section 319 of the Public Health Service Act (42 U.S.C. 247d), in response to COVID-19. I have taken sweeping action to control the spread of the virus in the United States, including by suspending entry of foreign nationals seeking entry who had been physically present within the prior 14 days in certain jurisdictions where COVID-19 outbreaks have occurred, including the People’s Republic of China, the Islamic Republic of Iran, and the Schengen Area of Europe. The Federal Government, along with State and local governments, has taken preventive and proactive measures to slow the spread of the virus and treat those affected, including by instituting Federal quarantines for individuals evacuated from foreign nations, issuing a declaration pursuant to section 319F-3 of the Public Health Service Act (42 U.S.C. 247d-6d), and releasing policies to accelerate the acquisition of personal protective equipment and streamline bringing new diagnostic capabilities to laboratories. On March 11, 2020, the World Health Organization announced that the COVID-19 outbreak can be characterized as a pandemic, as the rates of infection continue to rise in many locations around the world and across the United States.

The spread of COVID-19 within our Nation’s communities threatens to strain our Nation’s healthcare systems. As of March 12, 2020, 1,645 people from 47 States have been infected with the virus that

causes COVID-19. It is incumbent on hospitals and medical facilities throughout the country to assess their preparedness posture and be prepared to surge capacity and capability. Additional measures, however, are needed to successfully contain and combat the virus in the United States.

NOW, THEREFORE, I, DONALD J. TRUMP, President of the United States, by the authority vested in me by the Constitution and the laws of the United States of America, including sections 201 and 301 of the National Emergencies Act (50 U.S.C. 1601 *et seq.*) and consistent with section 1135 of the Social Security Act (SSA), as amended (42 U.S.C. 1320b-5), do hereby find and proclaim that the COVID-19 outbreak in the United States constitutes a national emergency, beginning March 1, 2020. Pursuant to this declaration, I direct as follows:

Section 1. Emergency Authority. The Secretary of HHS may exercise the authority under section 1135 of the SSA to temporarily waive or modify certain requirements of the Medicare, Medicaid, and State Children's Health Insurance programs and of the Health Insurance Portability and Accountability Act Privacy Rule throughout the duration of the public health emergency declared in response to the COVID-19 outbreak.

Sec. 2. Certification and Notice. In exercising this authority, the Secretary of HHS shall provide certification and advance written notice to the Congress as required by section 1135(d) of the SSA (42 U.S.C. 1320b-5(d)).

Sec. 3. General Provisions. (a) Nothing in this proclamation shall be construed to impair or otherwise affect:

(i) the authority granted by law to an executive department or agency, or the head thereof; or

(ii) the functions of the Director of the Office of Management and Budget relating to budgetary, administrative, or legislative proposals.

(b) This proclamation shall be implemented consistent with applicable law and subject to the availability of appropriations.

(c) This proclamation is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, or entities, its officers, employees, or agents, or any other person.

IN WITNESS WHEREOF, I have hereunto set my hand this thirteenth day of March, in the year of our Lord two thousand twenty, and of the Independence of the United States of America the two hundred and forty-fourth.

SUBJECT: Ratify Proclamations of Emergency for COVID-19

REQUEST(S):

That the Board of Supervisors:

1. Ratify a Proclamation of Local Emergency issued by the County Coordinator of Emergency Services on March 11, 2020 due to COVID-19; and
2. Ratify a Proclamation of Local Health Emergency issued by the County Health Officer on March 11, 2020 due to COVID-19.

SUMMARY:

As has been widely covered in the media, the COVID-19 outbreak originated in China beginning in December 2019. The Tulare County Department of Public Health, in cooperation with all Tulare County departments and numerous healthcare and community partners, has been actively monitoring and proactively preparing for COVID-19 since early January 2020.

Since that time, cases have been reported worldwide along with numerous deaths resulting from the disease. California has had numerous cases resulting from travel, person-to-person contact, and community spread. On March 4, 2020, Governor Newsom proclaimed a State of Emergency for COVID-19 after the first COVID-19 related death in California. Since that date, confirmed cases have also occurred in neighboring Fresno and Madera Counties.

On March 11, 2020, Tulare County had its first confirmed positive COVID-19 case. As a result, the County implemented a contingency plan under which the County's Coordinator of Emergency Services proclaimed a Local Emergency, and the County

SUBJECT: Ratify Proclamations of Emergency due to COVID-19
DATE: March 17, 2020

Health Officer proclaimed a Local Health Emergency, to enable the County to take all necessary response actions to combat the effects of the disease. Pursuant to California Government Code section 8630(b), these proclamations must be ratified within seven (7) days by the Board of Supervisors in order to remain in effect.

The Governor's State of Emergency dated March 4, 2020, waives statutory requirements to renew emergency proclamations for COVID-19, so these local proclamations will remain in effect until terminated by the Tulare County Board of Supervisors.

As a matter of information, local public health emergencies due to the threat posed by COVID-19 also have been declared by the Counties of Santa Clara, San Diego, San Francisco, Orange, Solano, Alameda, Sonoma, Marin, Placer, Los Angeles, Mendocino, Butte, San Bernardino, San Benito, Yolo, Monterey, San Mateo, Yuba, Sutter, Contra Costa, Humboldt, Lake, and Sacramento, and by numerous California cities and Indian Tribes.

FISCAL IMPACT/FINANCING:

There is no cost associated with proclaiming or terminating a local emergency or local health emergency. The proclamation of local emergency contains a request for California Disaster Assistance Act funding, which may result in cost recovery of extraordinary response costs associated with this incident.

LINKAGE TO THE COUNTY OF TULARE STRATEGIC BUSINESS PLAN:

The County's five-year strategic plan includes the Safety and Security initiative, with a directive to plan and provide coordinated emergency preparedness, response, recovery and mitigation capabilities for both natural and man-made disasters. These proclamations support the County's emergency response and coordination efforts by ensuring all necessary actions can be taken to mitigate the spread of disease.

* * * * *

1. Ratified a Proclamation of Local Emergency issued by the County Coordinator of Emergency Services on March 11, 2020 due to COVID-19; and
2. Ratified a Proclamation of Local Health Emergency issued by the County Health Officer on March 11, 2020 due to COVID-19.

**PROCLAMATION OF A LOCAL EMERGENCY
BY THE DIRECTOR OF EMERGENCY SERVICES**

WHEREAS, Government Code section 8630 and Tulare County Ordinance Code section 1-15-1030 authorize the Director of Emergency Services to proclaim a local emergency when the County of Tulare ("County") is threatened by conditions of disaster or extreme peril to the safety of persons and property within the County that are or are likely to be beyond the control of the services, personnel, equipment, and facilities of the County, and the Board of Supervisors is not in session; and

WHEREAS, the Director of Emergency Services hereby finds:

Conditions of extreme peril to the safety of persons and property have arisen within the County due to the following:

A novel coronavirus (named "COVID-19") was first detected in Wuhan City, Hubei Province, China, in December 2019. The U.S. Centers for Disease Control and Prevention ("CDC") considers the virus to be a very serious public health threat, based on current information. In part, the virus is considered a serious public health threat because much is unknown. The exact modes of transmission, the factors facilitating human-to-human transmission, the extent of asymptomatic viral shedding, the groups most at risk of serious illness, the attack rate, and the case fatality rate all remain active areas of investigation. The CDC believes at this time that symptoms appear two to fourteen days after exposure. Currently, there is no vaccine or specific antiviral treatment for COVID-19.

The number of reported cases of COVID-19 has escalated dramatically over a short period of time. To date, worldwide there are over 125,000 confirmed cases of COVID-19 and over 4,600 deaths from COVID-19. Cases of COVID-19, though concentrated in China, have been reported in one hundred twenty-two countries, including the United States, and include individuals who never visited China. Transmission from an asymptomatic individual has been documented. In the U.S., there have been 939 total cases of COVID-19 confirmed to date in 41 different states, and at least 29 deaths reported.

The World Health Organization has declared the outbreak to be a global health emergency. Actions are being taken to protect public health and limit the spread of COVID-19 in the United States.

On March 4, 2020, Governor Newsom proclaimed a state of emergency to exist in California. There are now almost 200 confirmed cases in California spanning some 24 counties and at least four deaths have been reported in California due to COVID-19.

Local public health emergencies due to the threat posed by COVID-19 have been declared by the Counties of Santa Clara, San Diego, San Francisco, Orange, Solano, Alameda, Sonoma, Marin, Placer, Los Angeles, Mendocino, Butte, San Bernardino, San Benito, Yolo, Monterey, San Mateo, Yuba, Sutter, Contra Costa, Humboldt, Lake, and Sacramento, and by numerous California cities and Indian Tribes; and

Tulare County has a population of over 450,000 residents, many of whom travel frequently for business or personal reasons. The Health Officer of the County of Tulare has determined that there is an imminent and proximate threat to public health from the introduction of COVID-19 in Tulare County, and has declared a Local Health Emergency as a result.

These conditions are beyond the control of the services, personnel, equipment, and facilities of the County and require the combined forces of other political subdivisions to combat.

WHEREAS, on March 11, 2020, a Tulare County resident tested positive for COVID-19; and

WHEREAS, based on the experience of other California communities, it can reasonably be expected that other positive tests will soon follow; and

WHEREAS, the Board of Supervisors is not in session, and cannot immediately be called into session; and

WHEREAS, during a local emergency, the Director of Emergency Services or other individual authorized to serve in that capacity under Tulare County Ordinance Code sections 1-15-1031 and 1-15-1032 is empowered by Tulare County Ordinance Code section 1-15-1025 to issue rules and regulations on matters reasonably related to the protection of life and property as affected by such emergency; provided, however, that such rules and regulations must be confirmed at the earliest possible time by the Board of Supervisors; and

WHEREAS, the Director of Emergency Services is unavailable to issue a proclamation as he is currently outside of Tulare County and has authorized his successor, the County's Coordinator of Emergency Services (Assistant County Administrative Officer), as designated in Tulare County Ordinance Code sections 1-15-1010 (c) and 1-15-1030 (g) to exercise the powers of Director of Emergency Services as provided for in Tulare County Ordinance Code section 1-15-1030 (h) and thereby to issue this proclamation of local emergency; and

WHEREAS, the Tulare County Health Department must use all preventive measures, which will require access to available services, personnel, equipment, and facilities, to respond to COVID-19; and

NOW THEREFORE, the Tulare County Coordinator of Emergency Services hereby:

1. Proclaims that a local emergency, as defined in Government Code Section 8558 and Tulare County Ordinance Code Section 1-15-1005, now exists within the County due to the presence of COVID-19; and
2. Requests that the Governor of the State of California request a federal declaration to provide assistance, including, but not limited to, California Disaster Assistance Act ("CDAA"); and
3. Orders that the Tulare County Health Department must use all preventive measures, which will require access to available services, personnel, equipment, and facilities, to respond to COVID-19.

The local emergency shall not remain in effect for a period in excess of seven days unless it has been ratified by the Board of Supervisors.

**PROCLAMATION OF LOCAL HEALTH EMERGENCY
REGARDING NOVEL CORONAVIRUS (COVID-19)**

WHEREAS, California Health and Safety Code section 101080 and Tulare County Ordinance Code section 1-15-1033 authorize the local health officer to declare a local health emergency in the health officer's jurisdiction, or any part thereof, whenever the health officer reasonably determines that there is an imminent and proximate threat of the introduction of any contagious, infectious, or communicable disease, chemical agent, noncommunicable biologic agent, toxin, or radioactive agent; and

WHEREAS, the local health emergency shall not remain in effect after 7 days from the date of this declaration unless it has been ratified by the County of Tulare's Board of Supervisors; and

WHEREAS, the Health Officer of the County of Tulare makes the following findings:

A novel coronavirus (named "COVID-19") was first detected in Wuhan City, Hubei Province, China, in December 2019. The U.S. Centers for Disease Control and Prevention ("CDC") considers the virus to be a very serious public health threat, based on current information. In part, the virus is considered a serious public health threat because much is unknown. The exact modes of transmission, the factors facilitating human-to-human transmission, the extent of asymptomatic viral shedding, the groups most at risk of serious illness, the attack rate, and the case fatality rate all remain active areas of investigation, but are poorly characterized at this time. The best information to date suggests that the virus is spread between people primarily via respiratory droplets produced when an infected person coughs or sneezes. Symptoms of the virus include fever, cough, and shortness of breath, and infected individuals have experienced a range of outcomes, from mild sickness to severe illness and death. The CDC believes at this time that symptoms appear two to fourteen days after exposure. Currently, there is no vaccine or specific antiviral treatment for COVID-19.

The number of reported cases of COVID-19 has escalated dramatically over a short period of time. To date, worldwide there are over 125,000 confirmed cases of COVID-19 and over 4,600 deaths from COVID-19. Cases of COVID-19, though concentrated in China, have been reported in 122 counties, including the United States. Confirmed cases of COVID-19 include individuals who never visited China. Transmission from an asymptomatic individual has been documented. The World Health Organization has declared the outbreak to be a global health emergency.

On March 4, 2020, Governor Newsom proclaimed a state of emergency to exist in California.

**DECLARATION OF LOCAL HEALTH EMERGENCY
REGARDING NOVEL CORONAVIRUS (COVID-19)**

There are now almost 200 confirmed cases in California spanning 24 counties, and 4 deaths have been reported in California due to COVID-19.

Local public health emergencies due to the threat posed by COVID-19 have been declared by the Counties of Santa Clara, San Diego, San Francisco, Orange, Solano, Alameda, Sonoma, Marin, Placer, Los Angeles, Mendocino, Butte, San Bernardino, San Benito, Yolo, Monterey, San Mateo, Yuba, Sutter, Contra Costa, Humboldt, Lake, and Sacramento, and by numerous California cities and Indian Tribes.

Tulare County has a population of over 450,000 residents, many of whom travel frequently for business or personal reasons. As of March 11, 2020 there are 939 total cases of COVID-19 in the United States and 29 deaths. 41 states have reported cases.

WHEREAS, on March 11, 2020, a Tulare County resident tested positive for COVID-19; and

WHEREAS, based on the experience of other California communities, it can reasonably be expected that other positive tests will soon follow; and

WHEREAS, the Health Officer of the County of Tulare does hereby find that there is an imminent and proximate threat to public health from the introduction of COVID-19 in Tulare County; and

WHEREAS, the Board of Supervisors is not in session, and cannot immediately be called into session; and

NOW, THEREFORE, the Health Officer of the County of Tulare hereby proclaims and declares that a local health emergency now exists in the County of Tulare due to the presence of and threat posed by COVID-19.

TULE RIVER INDIAN TRIBE OF CALIFORNIA

IN THE MATTER OF:

Resolution to Formally Declare a State of
Emergency for the Tule River Tribe of The)
Tule River Reservation of California)

RESOLUTION NO. FY2020-100

BE IT RESOLVED BY THE COUNCIL OF THE TULE RIVER INDIAN TRIBE:

WHEREAS, the Tule River Indian Tribe (the "Tribe") is a federally recognized Indian tribe organized pursuant to the Constitution and Bylaws of the Tule River Indian Tribe approved January 15, 1936 ("Constitution"); and

WHEREAS, pursuant to Article III, Section 1 of the Constitution the governing body of the Tribe is the Tribal Council and pursuant to Article VI, Section 1 of its Constitution it has the power to promulgate ordinance for the purpose of safeguarding the peace and safety of residents of the reservation and to adopt resolutions regulating the procedure of tribal agencies of the reservation; and

WHEREAS, On March 4th 2020, a proclaimed State of Emergency exists in the State of California, as result of the threat of COVID-19; and

WHEREAS, despite sustained efforts, the virus remains a threat, and further efforts to control the spread of the virus to reduce and minimize the risk of infection are needed; and

WHEREAS, for the safety and protection of the public health within the jurisdiction of the Tribe for the Tribe and/or its governmental agencies to obtain emergency support and funding from Federal, state and local agencies; and

WHEREAS, the Tule River Tribal Council desires to consider state and local recommendation deemed necessary in the interests of the public health, issue guidance limiting or recommend limitations upon attendance at public assemblies, conferences, or other mass events, which could cause the cancellation of such gatherings through no fault or responsibility of the parties involved thereby constituting a force majeure; and

WHEREAS, in the interest of public health and safety, it is necessary to exercise my authority under Constitution of the governing body of the Tribe to ensure adequate response and address potential issues related to the threat of COVID-19; and

NOW THEREFORE BE IT RESOLVED, the Tribal Council hereby declares a State of Emergency for the safety and protection of the public health within the jurisdiction of the Tribe for the Tribe and/or its governmental agencies to obtain emergency support and funding from Federal, state and local agencies

Page 2.

Resolution No. FY2020-100

BE IT FURTHER RESOLVED that this resolution has not been amended or rescinded in any way.

ABSTAIN 0

NEIL PEYRON, CHAIRMAN
TULE RIVER TRIBAL COUNCIL

HEATHER TERAN, SECRETARY
TULE RIVER TRIBAL COUNCIL

ATTEST TO:

RECORDING SECRETARY

**EXECUTIVE DEPARTMENT
STATE OF CALIFORNIA**

EXECUTIVE ORDER N-25-20

WHEREAS on March 4, 2020, I proclaimed a State of Emergency to exist in California as a result of the threat of COVID-19; and

WHEREAS despite sustained efforts, the virus remains a threat, and further efforts to control the spread of the virus to reduce and minimize the risk of infection are needed; and

WHEREAS state and local public health officials may, as they deem necessary in the interest of public health, issue guidance limiting or recommending limitations upon attendance at public assemblies, conferences, or other mass events, which could cause the cancellation of such gatherings through no fault or responsibility of the parties involved, thereby constituting a force majeure; and

WHEREAS the Department of Public Health is maintaining up-to-date guidance relating to COVID-19, available to the public at <http://cdph.ca.gov/covid19>; and

WHEREAS the State of California and local governments, in collaboration with the Federal government, continue sustained efforts to minimize the spread and mitigate the effects of COVID-19; and

WHEREAS there is a need to secure numerous facilities to accommodate quarantine, isolation, or medical treatment of individuals testing positive for or exposed to COVID-19; and

WHEREAS, many individuals who have developmental disabilities and receive services through regional centers funded by the Department of Developmental Services also have chronic medical conditions that make them more susceptible to serious symptoms of COVID-19, and it is critical that they continue to receive their services while also protecting their own health and the general public health; and

WHEREAS individuals exposed to COVID-19 may be temporarily unable to report to work due to illness caused by COVID-19 or quarantines related to COVID-19 and individuals directly affected by COVID-19 may experience potential loss of income, health care and medical coverage, and ability to pay for housing and basic needs, thereby placing increased demands on already strained regional and local health and safety resources such as shelters and food banks; and

WHEREAS in the interest of public health and safety, it is necessary to exercise my authority under the Emergency Services Act, specifically Government Code section 8572, to ensure adequate facilities exist to address the impacts of COVID-19; and

WHEREAS under the provisions of Government Code section 8571, I find that strict compliance with various statutes and regulations specified in this order would prevent, hinder, or delay appropriate actions to prevent and mitigate the effects of the COVID-19 pandemic.

NOW, THEREFORE, I, GAVIN NEWSOM, Governor of the State of California, in accordance with the authority vested in me by the State Constitution and statutes of the State of California, and in particular, Government Code sections 8567, 8571 and 8572, do hereby issue the following order to become effective immediately:

IT IS HEREBY ORDERED THAT:

1. All residents are to heed any orders and guidance of state and local public health officials, including but not limited to the imposition of social distancing measures, to control the spread of COVID-19.
2. For the period that began January 24, 2020 through the duration of this emergency, the Employment Development Department shall have the discretion to waive the one-week waiting period in Unemployment Insurance Code section 2627(b)(1) for disability insurance applicants who are unemployed and disabled as a result of the COVID-19, and who are otherwise eligible for disability insurance benefits.
3. For the period that began January 24, 2020 through the duration of this emergency, the Employment Development Department shall have the discretion to waive the one-week waiting period in Unemployment Insurance Code section 1253(d) for unemployment insurance applicants who are unemployed as a result of the COVID-19, and who are otherwise eligible for unemployment insurance benefits.
4. Notwithstanding Health and Safety Code section 1797.172(b), during the course of this emergency, the Director of the Emergency Medical Services Authority shall have the authority to implement additions to local optional scopes of practice without first consulting with a committee of local EMS medical directors named by the EMS Medical Directors Association of California.
5. In order to quickly provide relief from interest and penalties, the provisions of the Revenue and Taxation Code that apply to the taxes and fees administered by the Department of Tax and Fee Administration, requiring the filing of a statement under penalty of perjury setting forth the facts for a claim for relief, are suspended for a period of 60 days after the date of this Order for any individuals or businesses who are unable to file a timely tax return or make a timely payment as a result of complying with a state or local public health official's imposition or recommendation of social distancing measures related to COVID-19.
6. The Franchise Tax Board, the Board of Equalization, the Department of Tax and Fee Administration, and the Office of Tax Appeals shall use their administrative powers where appropriate to provide those individuals and businesses impacted by complying with a state or local public health official's imposition or recommendation of social

distancing measures related to COVID-19 with the extensions for filing, payment, audits, billing, notices, assessments, claims for refund, and relief from subsequent penalties and interest.

7. The Governor's Office of Emergency Services shall ensure adequate state staffing during this emergency. Consistent with applicable federal law, work hour limitations for retired annuitants, permanent and intermittent personnel, and state management and senior supervisors, are suspended. Furthermore, reinstatement and work hour limitations in Government Code sections 21220, 21224(a), and 7522.56(b), (d), (f), and (g), and the time limitations in Government Code section 19888.1 and California Code of Regulations, title 2, sections 300-303 are suspended. The Director of the California Department of Human Resources must be notified of any individual employed pursuant to these waivers.
8. The California Health and Human Services Agency and the Office of Emergency Services shall identify, and shall otherwise be prepared to make available—including through the execution of any necessary contracts or other agreements and, if necessary, through the exercise of the State's power to commandeer property – hotels and other places of temporary residence, medical facilities, and other facilities that are suitable for use as places of temporary residence or medical facilities as necessary for quarantining, isolating, or treating individuals who test positive for COVID-19 or who have had a high-risk exposure and are thought to be in the incubation period.
9. The certification and licensure requirements of California Code of Regulations, Title 17, section 1079 and Business and Professions Code section 1206.5 are suspended as to all persons who meet the requirements under the Clinical Laboratory Improvement Amendments of section 353 of the Public Health Service Act for high complexity testing and who are performing analysis of samples to test for SARS-CoV-2, the virus that causes COVID-19, in any certified public health laboratory or licensed clinical laboratory.
10. To ensure that individuals with developmental disabilities continue to receive the services and supports mandated by their individual program plans threatened by disruptions caused by COVID-19, the Director of the Department of Developmental Services may issue directives waiving any provision or requirement of the Lanterman Developmental Disabilities Services Act, the California Early Intervention Services Act, and the accompanying regulations of Title 17, Division 2 of the California Code of Regulations. A directive may delegate to the regional centers any authority granted to the Department by law where the Director believes such delegation is necessary to ensure services to individuals with developmental disabilities. The Director shall describe the need justifying the waiver granted in each directive and articulate how the waiver is necessary to protect the public health or safety from the threat of COVID-19 or necessary to ensure that services to individuals with developmental disabilities are not disrupted. Any waiver granted by a directive shall expire 30 days from the date of its issuance. The Director may grant one or more 30-day extensions if the waiver continues to be necessary

to protect health or safety or to ensure delivery of services. The Director shall rescind a waiver once it is no longer necessary to protect public health or safety or ensure delivery of services. Any waivers and extensions granted pursuant to this paragraph shall be posted on the Department's website.

11. Notwithstanding any other provision of state or local law, including the Bagley-Keene Act or the Brown Act, a local legislative body or state body is authorized to hold public meetings via teleconferencing and to make public meetings accessible telephonically or otherwise electronically to all members of the public seeking to attend and to address the local legislative body or state body, during the period in which state or local public officials impose or recommend measures to promote social distancing, including but not limited to limitations on public events. All requirements in both the Bagley-Keene Act and the Brown Act expressly or impliedly requiring the physical presence of members, the clerk or other personnel of the body, or of the public as a condition of participation in or quorum for a public meeting are hereby waived.

In particular, any otherwise-applicable requirements that

- (i) state and local bodies notice each teleconference location from which a member will be participating in a public meeting;
- (ii) each teleconference location be accessible to the public;
- (iii) members of the public may address the body at each teleconference conference location;
- (iv) state and local bodies post agendas at all teleconference locations;
- (v) at least one member of the state body be physically present at the location specified in the notice of the meeting; and
- (vi) during teleconference meetings, at least a quorum of the members of the local body participate from locations within the boundaries of the territory over which the local body exercises jurisdiction

are hereby suspended, on the conditions that:

- (i) each state or local body must give advance notice of each public meeting, according to the timeframe otherwise prescribed by the Bagley-Keene Act or the Brown Act, and using the means otherwise prescribed by the Bagley-Keene Act or the Brown Act, as applicable; and
- (ii) consistent with the notice requirement in paragraph (i), each state or local body must notice at least one publicly accessible location from which members of the public shall have the right to observe and offer public comment at the public meeting, consistent with the public's rights of access and public comment otherwise provided for by the Bagley-Keene Act and the Brown Act, as applicable (including, but not limited to, the requirement that such rights of access and public comment be made available in a manner consistent with the Americans with Disabilities Act).

In addition to the mandatory conditions set forth above, all state and local bodies are urged to use sound discretion and to make reasonable efforts to adhere as closely as reasonably possible to the provisions of the Bagley-Keene Act and the Brown Act, and other applicable local laws regulating the conduct of public meetings, in order to maximize transparency and provide the public access to their meetings.

IT IS FURTHER ORDERED that as soon as hereafter possible, this Order be filed in the Office of the Secretary of State and that widespread publicity and notice be given of this Order.

This Order is not intended to, and does not, create any rights or benefits, substantive or procedural, enforceable at law or in equity, against the State of California, its agencies, departments, entities, officers, employees, or any other person.

IN WITNESS WHEREOF I have
hereunto set my hand and caused
the Great Seal of the State of
California to be affixed this 12th day
of March 2020.

ATTEST:

ALEX PADILLA
Secretary of State

EXECUTIVE DEPARTMENT
STATE OF CALIFORNIA

EXECUTIVE ORDER N-28-20

WHEREAS on March 4, 2020, I proclaimed a State of Emergency to exist in California as a result of the threat of COVID-19; and

WHEREAS despite sustained efforts, the virus remains a threat, and further efforts to control the spread of the virus to reduce and minimize the risk of infection and otherwise mitigate the effects of COVID-19 are needed; and

WHEREAS the economic impacts of COVID-19 have been significant, and could threaten to undermine Californians' housing security and the stability of California businesses; and

WHEREAS many Californians are experiencing substantial losses of income as a result of business closures, the loss of hours or wages, or layoffs related to COVID-19, hindering their ability to keep up with their rents, mortgages, and utility bills; and

WHEREAS Californians who are most vulnerable to COVID-19, those 65 years and older, and those with underlying health issues, are advised to self-quarantine, self-isolate, or otherwise remain in their homes to reduce the transmission of COVID-19; and

WHEREAS because homelessness can exacerbate vulnerability to COVID-19, California must take measures to preserve and increase housing security for Californians to protect public health; and

WHEREAS local jurisdictions, based on their particular needs, may therefore determine that additional measures to promote housing security and stability are necessary to protect public health or to mitigate the economic impacts of COVID-19; and

WHEREAS local jurisdictions may also determine, based on their particular needs, that promoting stability amongst commercial tenancies is also conducive to public health, such as by allowing commercial establishments to decide whether and how to remain open based on public health concerns rather than economic pressures, or to mitigate the economic impacts of COVID-19; and

WHEREAS in addition to these public health benefits, state and local policies to promote social distancing, self-quarantine, and self-isolation require that people be able to access basic utilities—including water, gas, electricity, and telecommunications—at their homes, so that Californians can work from home, receive public health information, and otherwise adhere to policies of social distancing, self-quarantine, and self-isolation, if needed; and

WHEREAS many utility providers, public and private, covering electricity, gas, water, and sewer, have voluntarily announced moratoriums on service disconnections and late fees for non-payment in response to COVID-19; and

WHEREAS many telecommunication companies, including internet and cell phone providers, have voluntarily announced moratoriums on service disconnections and late fees for non-payment in response to COVID-19;

NOW, THEREFORE, I, GAVIN NEWSOM, Governor of the State of California, in accordance with the authority vested in me by the State Constitution and statutes of the State of California, and in particular, Government Code sections 8567 and 8571, do hereby issue the following order to become effective immediately:

IT IS HEREBY ORDERED THAT:

- 1) The time limitation set forth in Penal Code section 396, subdivision (f), concerning protections against residential eviction, is hereby waived. Those protections shall be in effect through May 31, 2020.
- 2) Any provision of state law that would preempt or otherwise restrict a local government's exercise of its police power to impose substantive limitations on residential or commercial evictions as described in subparagraphs (i) and (ii) below—including, but not limited to, any such provision of Civil Code sections 1940 et seq. or 1954.25 et seq.—is hereby suspended to the extent that it would preempt or otherwise restrict such exercise. This paragraph 2 shall only apply to the imposition of limitations on evictions when:
 - (i) The basis for the eviction is nonpayment of rent, or a foreclosure, arising out of a substantial decrease in household or business income (including, but not limited to, a substantial decrease in household income caused by layoffs or a reduction in the number of compensable hours of work, or a substantial decrease in business income caused by a reduction in opening hours or consumer demand), or substantial out-of-pocket medical expenses; and
 - (ii) The decrease in household or business income or the out-of-pocket medical expenses described in subparagraph (i) was caused by the COVID-19 pandemic, or by any local, state, or federal government response to COVID-19, and is documented.

The statutory cause of action for judicial foreclosure, Code of Civil Procedure section 725a et seq.; the statutory cause of action for unlawful detainer, Code of Civil Procedure section 1161 et seq., and any other statutory cause of action that could be used to evict or otherwise eject a residential or commercial tenant or occupant of residential real property after foreclosure is suspended only as applied to any tenancy, or residential real property and any

occupation thereof, to which a local government has imposed a limitation on eviction pursuant to this paragraph 2, and only to the extent of the limitation imposed by the local government.

Nothing in this Order shall relieve a tenant of the obligation to pay rent, nor restrict a landlord's ability to recover rent due.

The protections in this paragraph 2 shall be in effect through May 31, 2020, unless extended.

- 3) All public housing authorities are requested to extend deadlines for housing assistance recipients or applicants to deliver records or documents related to their eligibility for programs, to the extent that those deadlines are within the discretion of the housing authority.
- 4) The Department of Business Oversight, in consultation with the Business, Consumer Services, and Housing Agency, shall engage with financial institutions to identify tools to be used to afford Californians relief from the threat of residential foreclosure and displacement, and to otherwise promote housing security and stability during this state of emergency, in furtherance of the objectives of this Order.
- 5) Financial institutions holding home or commercial mortgages, including banks, credit unions, government-sponsored enterprises, and institutional investors, are requested to implement an immediate moratorium on foreclosures and related evictions when the foreclosure or foreclosure-related eviction arises out of a substantial decrease in household or business income, or substantial out-of-pocket medical expenses, which were caused by the COVID-19 pandemic, or by any local, state, or federal government response to COVID-19.
- 6) The California Public Utilities Commission is requested to monitor measures undertaken by public and private utility providers to implement customer service protections for critical utilities, including but not limited to electric, gas, water, internet, landline telephone, and cell phone service, in response to COVID-19, and on a weekly basis publicly report these measures.

Nothing in this Order shall be construed to invalidate any limitation on eviction enacted by a local jurisdiction between March 4, 2020 and this date.

Nothing in this Order shall in any way restrict state or local authority to order any quarantine, isolation, or other public health measure that may compel an individual to remain physically present in a particular residential real property.

This Order is not intended to, and does not, create any rights or benefits, substantive or procedural, enforceable at law or in equity, against the State of California, its agencies, departments, entities, officers, employees, or any other person.

I FURTHER DIRECT that as soon as hereafter possible, this proclamation be filed in the Office of the Secretary of State and that widespread publicity and notice be given of this Order.

IN WITNESS WHEREOF I have hereunto set my hand and caused the Great Seal of the State of California to be affixed this 16th day of March 2020.

GAVIN NEWSOM
Governor of California

ATTEST:

ALEX PADILLA
Secretary of State

**EXECUTIVE DEPARTMENT
STATE OF CALIFORNIA**

EXECUTIVE ORDER N-32-20

WHEREAS on March 4, 2020, I proclaimed a State of Emergency to exist in California as a result of the threat of COVID-19; and

WHEREAS despite sustained efforts, the virus continues to spread and is impacting nearly all sectors of California; and

WHEREAS in the past two years, the State of California has allocated \$1.15 billion to local partners through the Homeless Emergency Aid Program and the Homeless Housing, Assistance, and Prevention Program, funding intended to provide for a variety of programs and facilities aimed at combatting homelessness; and

WHEREAS on March 17, 2020, I signed Senate Bill 89, emergency legislation that authorizes \$500 million in immediately available funding to help California fight COVID-19 for any purpose related to the March 4, 2020 proclamation of a State of Emergency, including to support local governments to protect the health and safety of homeless populations, reduce the spread of COVID-19 in homeless populations, and provide safe beds for people experiencing homelessness; and

WHEREAS the emergency of COVID-19 necessitates a more focused approach, including emergency protective measures to bring unsheltered Californians safely indoors, expand shelter capacity, maintain health and sanitation standards and institute medically indicated interventions, and add new isolation and quarantine capacity to California's shelter and housing inventory to slow the spread of the pandemic; and

WHEREAS under the provisions of Government Code section 8571, I find that strict compliance with various statutes and regulations specified in this order would prevent, hinder, or delay appropriate actions to prevent and mitigate the effects of the COVID-19 pandemic.

NOW, THEREFORE, I, GAVIN NEWSOM, Governor of the State of California, in accordance with the authority vested in me by the State Constitution and statutes of the State of California, and in particular, Government Code sections 8567 and 8571, do hereby issue the following order to become effective immediately:

IT IS HEREBY ORDERED THAT:

- 1) To the limited extent that any part of Health & Safety Code section 50214, subdivision (a), restricts a local jurisdiction from expending Homeless Emergency Aid Program funds on preparing for and addressing the impacts of the COVID-19 pandemic on homeless individuals, including through implementing guidance from the Department of Public Health on hand and respiratory hygiene and protective congregate living protocols, and providing isolation and quarantine capacity, that part is suspended.

- 2) To the limited extent that any part of Health & Safety Code section 50219, subdivision (c), restricts a local jurisdiction from expending Homeless Housing, Assistance, and Prevention Program funds on preparing for and addressing the impacts of the COVID-19 pandemic on homeless individuals, including through expanding shelter and housing services and capacity, that part is suspended.
- 3) Division 13 (commencing with section 21000) of the Public Resources Code and regulations adopted pursuant to that Division are suspended for any project using Homeless Emergency Aid Program funds, Homeless Housing, Assistance, and Prevention Program funds, or funds appropriated in Senate Bill 89, signed on March 17, 2020.

IT IS FURTHER ORDERED that as soon as hereafter possible, this Order be filed in the Office of the Secretary of State and that widespread publicity and notice be given of this Order.

This Order is not intended to, and does not, create any rights or benefits, substantive or procedural, enforceable at law or in equity, against the State of California, its agencies, departments, entities, officers, employees, or any other person.

IN WITNESS WHEREOF I have
hereunto set my hand and caused
the Great Seal of the State of
California to be affixed this 18th day
of March 2020.

GAVIN NEWSOM
Governor of California

ATTEST:

ALEX PADILLA
Secretary of State

**EXECUTIVE DEPARTMENT
STATE OF CALIFORNIA**

EXECUTIVE ORDER N-33-20

WHEREAS on March 4, 2020, I proclaimed a State of Emergency to exist in California as a result of the threat of COVID-19; and

WHEREAS in a short period of time, COVID-19 has rapidly spread throughout California, necessitating updated and more stringent guidance from federal, state, and local public health officials; and

WHEREAS for the preservation of public health and safety throughout the entire State of California, I find it necessary for all Californians to heed the State public health directives from the Department of Public Health.

NOW, THEREFORE, I, GAVIN NEWSOM, Governor of the State of California, in accordance with the authority vested in me by the State Constitution and statutes of the State of California, and in particular, Government Code sections 8567, 8627, and 8665 do hereby issue the following Order to become effective immediately:

IT IS HEREBY ORDERED THAT:

- 1) To preserve the public health and safety, and to ensure the healthcare delivery system is capable of serving all, and prioritizing those at the highest risk and vulnerability, all residents are directed to immediately heed the current State public health directives, which I ordered the Department of Public Health to develop for the current statewide status of COVID-19. Those directives are consistent with the March 19, 2020, Memorandum on Identification of Essential Critical Infrastructure Workers During COVID-19 Response, found at: <https://covid19.ca.gov/>. Those directives follow:

ORDER OF THE STATE PUBLIC HEALTH OFFICER
March 19, 2020

To protect public health, I as State Public Health Officer and Director of the California Department of Public Health order all individuals living in the State of California to stay home or at their place of residence except as needed to maintain continuity of operations of the federal critical infrastructure sectors, as outlined at <https://www.cisa.gov/identifying-critical-infrastructure-during-covid-19>. In addition, and in consultation with the Director of the Governor's Office of Emergency Services, I may designate additional sectors as critical in order to protect the health and well-being of all Californians.

Pursuant to the authority under the Health and Safety Code 120125, 120140, 131080, 120130(c), 120135, 120145, 120175 and 120150, this order is to go into effect immediately and shall stay in effect until further notice.

The federal government has identified 16 critical infrastructure sectors whose assets, systems, and networks, whether physical or virtual, are considered so vital to the United States that their incapacitation or

destruction would have a debilitating effect on security, economic security, public health or safety, or any combination thereof. I order that Californians working in these 16 critical infrastructure sectors may continue their work because of the importance of these sectors to Californians' health and well-being.

This Order is being issued to protect the public health of Californians. The California Department of Public Health looks to establish consistency across the state in order to ensure that we mitigate the impact of COVID-19. Our goal is simple, we want to bend the curve, and disrupt the spread of the virus.

The supply chain must continue, and Californians must have access to such necessities as food, prescriptions, and health care. When people need to leave their homes or places of residence, whether to obtain or perform the functions above, or to otherwise facilitate authorized necessary activities, they should at all times practice social distancing.

- 2) The healthcare delivery system shall prioritize services to serving those who are the sickest and shall prioritize resources, including personal protective equipment, for the providers providing direct care to them.
- 3) The Office of Emergency Services is directed to take necessary steps to ensure compliance with this Order.
- 4) This Order shall be enforceable pursuant to California law, including, but not limited to, Government Code section 8665.

IT IS FURTHER ORDERED that as soon as hereafter possible, this Order be filed in the Office of the Secretary of State and that widespread publicity and notice be given of this Order.

This Order is not intended to, and does not, create any rights or benefits, substantive or procedural, enforceable at law or in equity, against the State of California, its agencies, departments, entities, officers, employees, or any other person.

IN WITNESS WHEREOF I have
hereunto set my hand and caused
the Great Seal of the State of
California to be affixed this 19th day
of March 2020.

GAVIN NEWSOM
Governor of California

ATTEST:

ALEX PADILLA
Secretary of State

ESSENTIAL WORKFORCE

On March 19, 2020, Governor Newsom issued Executive Order N-33-20 directing all residents immediately to heed current State public health directives to stay home, except as needed to maintain continuity of operations of essential critical infrastructure sectors and additional sectors as the State Public Health Officer may designate as critical to protect health and well-being of all Californians.

In accordance with this order, the State Public Health Officer has designated the following list of “Essential Critical Infrastructure Workers” to help state, local, tribal, and industry partners as they work to protect communities, while ensuring continuity of functions critical to public health and safety, as well as economic and national security.

Sector Index:

1. HEALTHCARE / PUBLIC HEALTH

Sector Profile

The Healthcare and Public Health (HPH) Sector is large, diverse, and open, spanning both the public and private sectors. It includes publicly accessible healthcare facilities, research centers, suppliers, manufacturers, and other physical assets and vast, complex public-private information technology systems required for care delivery and to support the rapid, secure transmission and storage of large amounts of HPH data.

Essential Workforce, if remote working is not practical:

1. Health care providers and caregivers (including physicians, dentists, psychologists, mid-level practitioners, nurses, assistants, and aids; infection control and quality assurance personnel; pharmacists; physical, respiratory, speech and occupational therapists and assistants; social workers and providers serving individuals with disabilities including developmental disabilities; optometrists; speech pathologists; chiropractors; diagnostic and therapeutic technicians; and radiology technologists).
2. Workers required for effective clinical, command, infrastructure, support service, administrative, security and intelligence operations across the direct patient care and full healthcare and public health spectrum, including accounting, administrative, admitting and discharge, engineering, accrediting, certification, licensing, credentialing, epidemiological, source plasma and blood donation, food service, environmental services, housekeeping, medical records, information technology and operational technology, nutritionists, sanitarians; emergency medical services workers; prehospital workers including but not limited to urgent care workers; inpatient and hospital workers; outpatient care workers; home care workers; workers at long-term care facilities, residential and community-based providers; workplace safety workers).
3. Workers needed to support transportation to and from healthcare facilities and provider appointments.
4. Workers needed to provide laundry services, food services, reprocessing of medical equipment, and waste management.
5. Vendors and suppliers (including imaging, pharmacy, oxygen services, durable medical equipment)
6. Workers who perform critical clinical research, development, and testing needed for COVID-19 response.
7. Workers in other medical and life science facilities (including Ambulatory Health and Surgical, Blood Banks, Clinics, Community Mental Health, Comprehensive Outpatient rehabilitation, End Stage Renal Disease, Health Departments, Home Health care, Hospices, Hospitals, Long Term Care, Organ Pharmacies, Procurement Organizations, Psychiatric, Residential, Rural Health Clinics and Federally Qualified Health Centers, and retail facilities specializing in medical goods and supplies, including cannabis).
8. Workers for health manufacturing (including life science companies, and companies that have shifted production to medical supplies), materials and parts suppliers, technicians, logistics and warehouse operators, printers, packagers, and distributors of medical equipment (including those who test and repair), personal protective equipment (PPE), isolation barriers, medical

- gases, pharmaceuticals (including materials used in radioactive drugs, and cannabis products), dietary supplements, blood and blood products, vaccines, testing materials, laboratory supplies, cleaning, sanitizing, disinfecting or sterilization supplies, personal hygiene products, and tissue and paper towel products.
9. Public health / community health workers, including those who compile, model, analyze and communicate public health information.
 10. Behavioral and mental health workers responsible for coordination, outreach, engagement, and treatment to individuals in need of mental health and/or behavioral services.
 11. Donors of blood bone marrow, blood stem cell, or plasma and the workers of the organizations that operate and manage related activities.
 12. Workers that manage health plans, billing, and health information.
 13. Workers who conduct community-based public health functions, conducting epidemiologic surveillance, compiling, analyzing and communicating public health information.
 14. Workers performing IT and cybersecurity functions at healthcare and public health facilities.
 15. Workers performing security, incident management, and emergency operations functions at or on behalf of healthcare entities including healthcare coalitions.
 16. Pharmacy employees, including workers necessary to maintain uninterrupted prescription filling.
 17. Workers in retail facilities specializing in medical goods and supplies.
 18. Public health and environmental health workers, including workers specializing in environmental health that focus on implementing environmental controls, sanitary and infection control interventions, healthcare facility safety and emergency preparedness planning, engineered work practices, and developing guidance and protocols for appropriate PPE to prevent COVID-19 disease transmission; Public health/ community health workers (including call center workers) who conduct community- based public health functions, conducting epidemiologic surveillance and compiling, analyzing, and communicating public health information.
 19. Mortuary services providers, including workers performing mortuary, funeral, cremation burial, cemetery, and related services, including funeral homes, crematoriums, cemetery workers and coffin makers.
 20. Workers who coordinate with other organizations to ensure the proper recovery, handling, identification, transportation, tracking, storage, and disposal of human remains and personal effects; certify cause of death; and facilitate access to behavioral and mental health services to the family members, responders, and survivors of an incident.
 21. Workers supporting veterinary hospitals and clinics.

2. EMERGENCY SERVICES SECTOR

Sector Profile

The Emergency Services Sector (ESS) is a community of highly-skilled, trained personnel, along with the physical and cyber resources, that provide a wide range of prevention, preparedness, response, and recovery services during both day-to-day operations and incident response. The ESS includes geographically distributed facilities and equipment in both paid and volunteer capacities organized primarily at the federal, state, local, tribal, and territorial levels of government, such as city police departments and fire stations, county sheriff's offices, Department of Defense police and fire departments, and town public works departments. The ESS also includes private sector resources, such as industrial fire departments, private security organizations, and private emergency medical services providers.

Essential Workforce, if remote working is not practical:

1. Public, private, and voluntary personnel (front line and management) in emergency management, law enforcement, fire and rescue services, emergency medical services, corrections, rehabilitation and reentry, search and rescue, hazardous material response, and technicians supporting maritime and aviation emergency response.
2. Public Safety Answering Points and 911 call center employees; personnel involved in access to emergency services including the emergency alert system and wireless emergency alerts.
3. Fusion Center employees
4. Workers who support weather disaster / natural hazard monitoring, response, mitigation, and prevention, including personnel conducting, supporting, or facilitating wildfire mitigation activities
5. Workers – including contracted vendors -- who maintain, manufacture, or supply equipment and services supporting law enforcement, fire, EMS, and emergency service response operations (including safety equipment, electronic security, and uniforms)
6. Workers responding to abuse and neglect of children, elders and dependent adults.
7. Animal control officers and humane officers
8. Security staff to maintain building access control and physical security measures
9. Workers and contracted vendors who maintain and provide services and supplies to public safety facilities, including emergency communication center, public safety answering points, public safety communications centers, emergency operation centers, fire and emergency medical services stations, police and law enforcement stations and facilities.

Relevant Sector Guidance:

- [Public Health Guidance about COVID-19 for California State Prisons](#)
- [First responders, including paramedics and EMTs](#)

3. FOOD AND AGRICULTURE

Sector Profile

The Food and Agricultural (FA) Sector is composed of complex production, processing, and delivery systems and has the capacity to feed people and animals both within and beyond the boundaries of the United States. Beyond domestic food production, the FA Sector also imports many ingredients and finished products, leading to a complex web of growers, processors, suppliers, transporters, distributors, and consumers. This sector is critical to maintaining and securing our food supply.

Essential Workforce, if remote working is not practical:

1. Workers supporting groceries, pharmacies, convenience stores, and other retail that sells food or beverage products, and animal/pet food, retail customer support service, information technology support staff, for online orders, pickup/takeout or delivery.
2. Workers supporting restaurant carry-out and quick serve food operations, including food preparation, carry-out and delivery food employees.
3. Food manufacturer employees and their supplier employees to include those employed in food ingredient production and processing-facilities; aquaculture and seafood harvesting facilities; livestock, poultry, seafood slaughter facilities; pet and animal feed processing facilities; human food facilities producing by-products for animal food; beverage production facilities; and the production of food packaging, including recycling operations and processing.
4. Farmers, farm and ranch workers, and agribusiness support services to include those employed in auction and sales; grain and oilseed handling, storage, processing and distribution; animal food, feed, and ingredient production, packaging, and distribution; manufacturing, packaging, and distribution of veterinary drugs; truck delivery and transport.
5. Farmers, farm and ranch workers, support service workers and their supplier employees producing food supply domestically and for export to include those engaged in raising, cultivating, harvesting, packing, storing, or delivering to storage or to market or to a carrier for transportation to market any agricultural or horticultural commodity for human consumption; those engaged in producing and harvesting field crops; cannabis growers; agricultural and commodity inspection; fuel ethanol facilities; storage facilities; biodiesel and renewable diesel facilities; and other agricultural inputs
6. Employees and firms supporting food, feed, and beverage distribution and ingredients used in these products including warehouse workers, vendor-managed inventory controllers, and blockchain managers.
7. Workers supporting the sanitation of all food manufacturing processes and operations from wholesale to retail.
8. Workers supporting the growth and distribution of plants and associated products for home gardens.
9. Workers in cafeterias used to feed workers, particularly worker populations sheltered against COVID-19
10. Workers in animal diagnostic and food testing laboratories
11. Workers essential for assistance programs and government payments
12. Government, private, and non-governmental organizations' workers essential for food assistance programs (including school lunch programs) and government payments.

13. Employees of companies engaged in the production, storage, transport, and distribution of chemicals; medicines, including cannabis; vaccines; and other substances used by the food and agriculture industry, including seeds, pesticides, herbicides, fertilizers, minerals, enrichments, and other agricultural production aids.
14. Animal agriculture workers to include those employed in veterinary health (including those involved in supporting emergency veterinary or livestock services); raising of animals for food; animal production operations; livestock markets; slaughter and packing plants, manufacturers, renderers, and associated regulatory and government workforce.
15. Transportation supporting animal agricultural industries, including movement of animal medical and reproductive supplies and material, animal vaccines, animal drugs, feed ingredients, feed, and bedding, live animals, animal medical materials; transportation of deceased animals for disposal; and associated regulatory and government workforce
16. Workers who support sawmills and the manufacture and distribution of fiber and forest products, including, but not limited to timber, paper, and other wood and fiber products
17. Employees engaged in the manufacture and maintenance of equipment and other infrastructure necessary to agricultural production and distribution
18. Workers at animal care facilities that provide food, shelter, veterinary and/or routine care and other necessities of life for animals.

Relevant Sector Guidance:

- [Food, Beverage, Other Services](#)
 - [Alimentos, Bebidas y Otros Sitios de Servicios Relacionados](#)
- [Food Industry and Food Supply Chain](#)

4. ENERGY

Sector Profile

The Energy Sector consists of widely diverse and geographically dispersed critical assets and systems that are often interdependent of one another. This critical infrastructure is divided into three interrelated segments or subsectors—electricity, oil, and natural gas—to include the production, refining, storage, and distribution of oil, gas, and electric power. The Energy Sector supplies fuels to the transportation industry, electricity to households and businesses, and other sources of energy that are integral to growth and production across the Nation. In turn, it depends on the Nation's transportation, information technology, communications, finance, water, and government infrastructures.

Essential Workforce, if remote working is not possible:

1. Workers supporting the energy sector, regardless of the energy source, segment of the system, or infrastructure the worker is involved in, or who are needed to monitor, operate, engineer, and maintain the reliability, safety, environmental health, physical and cyber security of the energy system, including power generation, transmission and distribution.
2. Workers supporting the energy sector, regardless of the energy source, needed for construction, manufacturing, transportation and logistics, maintenance, and permitting.
3. IT and OT technology for essential energy sector operations including support workers, customer service operations, call centers, and emergency response and customer emergency operations; energy management systems, control systems, Supervisory Control and Data Acquisition SCADA systems, and energy sector entity data centers; cybersecurity engineers; and cybersecurity risk management.
4. Workers providing services related to energy sector fuels and supply chains, supporting the procurement, mining, drilling, processing, refining, manufacturing, refueling, construction, logistics, transportation (including marine transport, terminals, rail and vehicle transport), permitting operation and maintenance, security, waste disposal, storage, and monitoring of support for resources;
5. Workers supporting environmental remediation and monitoring.
6. Workers supporting manufacturing and distribution of equipment, supplies, and parts necessary to maintain production, maintenance, restoration, and service at energy sector facilities across all energy sectors, and regardless of the energy source.
7. Workers at Independent System Operators and Regional Transmission Organizations, and Network Operations staff, engineers and technicians to manage the network or operate facilities.
8. Workers at Reliability Coordinator, Balancing Authorities, and primary and backup Control Centers, including but not limited to independent system operators, regional transmission organizations, and balancing authorities; and workers involved in energy commodity trading and scheduling.
9. Mutual assistance personnel, which may include workers from outside of the state or local jurisdiction
10. Retail fuel centers such as gas stations and truck stops, and the distribution systems that support them.

5. WATER AND WASTEWATER

Sector Profile

The Water and Wastewater Sector is a complex sector composed of drinking water and wastewater infrastructure of varying sizes and ownership types. Multiple governing authorities pertaining to the Water and Wastewater Sector provide for public health, environmental protection, and security measures, among others.

Essential Workforce, if remote working is not practical:

Employees needed to operate and maintain drinking water and wastewater/drainage infrastructure, including:

1. Operational staff at water authorities
2. Operational staff at community water systems
3. Operational staff at wastewater treatment facilities
4. Workers repairing water and wastewater conveyances and performing required sampling or monitoring
5. Operational staff for water distribution and testing
6. Operational staff at wastewater collection facilities
7. Operational staff and technical support for SCADA Control systems
8. Chemical disinfectant suppliers for water and wastewater and personnel protection
9. Workers that maintain digital systems infrastructure supporting water and wastewater operations

6. TRANSPORTATION AND LOGISTICS

Sector Profile

The Transportation Systems Sector consists of seven key subsectors, or modes:

- Aviation includes aircraft, air traffic control systems, and airports, heliports, and landing strips. Commercial aviation services at civil and joint-use military airports, heliports, and sea plane bases. In addition, the aviation mode includes commercial and recreational aircraft (manned and unmanned) and a wide variety of support services, such as aircraft repair stations, fueling facilities, navigation aids, and flight schools.
- Highway and Motor Carrier encompasses roadway, bridges, and tunnels. Vehicles include trucks, including those carrying hazardous materials; other commercial vehicles, including bicycles, commercial motor coaches and school buses; vehicle and driver licensing systems; taxis, transportation services including Transportation Network Companies, and delivery services including Delivery Network Companies; traffic management systems; AND cyber systems used for operational management.
- Maritime Transportation System consists of coastline, ports, waterways, and intermodal landside connections that allow the various modes of transportation to move people and goods to, from, and on the water.
- Mass Transit and Passenger Rail includes terminals, operational systems, and supporting infrastructure for passenger services by transit buses, trolleybuses, monorail, heavy rail—also known as subways or metros—light rail, passenger rail, and vanpool/rideshare.
- Pipeline Systems consist of pipelines carrying natural gas hazardous liquids, as well as various chemicals. Above-ground assets, such as compressor stations and pumping stations, are also included.
- Freight Rail consists of major carriers, smaller railroads, active railroad, freight cars, and locomotives.
- Postal and Shipping includes large integrated carriers, regional and local courier services, mail services, mail management firms, and chartered and delivery services.

Essential Workforce, if remote working is not practical:

1. Employees supporting or enabling transportation functions, including truck drivers, bus drivers, dispatchers, maintenance and repair technicians, warehouse workers, truck stop and rest area workers, towing and recovery services, roadside assistance workers, intermodal transportation personnel, and workers that maintain and inspect infrastructure
2. Working supporting or providing services that enable logistics operations for essential sectors, wholesale and retail sale, including warehousing, cooling, storing, packaging, and distributing products for wholesale or retail sale or use.
3. Workers supporting maintenance and operation of essential highway infrastructure, including roads, bridges, and tunnels.

4. Workers of firms providing services, supplies, and equipment that enable warehouse and operations, including cooling, storing, packaging, and distributing products for wholesale or retail sale or use.
5. Mass transit workers providing critical transit services and/or performing critical or routine maintenance to mass transit infrastructure or equipment.
6. Employees supporting personal and commercial transportation services, including taxis, bicycle services, Transportation Network Companies, and delivery services including Delivery Network Companies
7. Workers responsible for operating dispatching passenger, commuter and freight trains and maintaining rail infrastructure and equipment
8. Maritime transportation and inland waterway workers – to include maintenance and repair – including port authority and commercial facility personnel, dredgers, port workers, mariners, ship crewmembers, ship pilots and tugboat operators, ship supply, Chandler, and equipment operators.
9. Workers who support the operation, inspection, and maintenance of essential dams, locks, and levees.
10. Workers who support the inspection and maintenance of aids to navigation and other government-provided services that ensure continued maritime commerce.
11. Workers supporting transportation of chemicals, hazardous, medical, waste and recyclable materials to support critical sectors and infrastructure.
12. Automotive repair, maintenance, and transportation equipment manufacturing and distribution facilities.
13. Transportation safety inspectors, including hazardous material inspectors and accident investigator inspectors
14. Manufacturers and distributors (to include service centers and related operations) of lighting and communication systems, specialized signage and structural systems, emergency response equipment and support materials, printers, printed materials, packaging materials, pallets, crates, containers, and other supplies needed to support manufacturing, packaging staging and distribution operations
15. Postal, parcel, courier, last-mile delivery, and shipping workers, to include private companies who accept, process, transport, and deliver information and goods.
16. Workers who supply equipment and materials for maintenance of transportation equipment.
17. Employees who repair and maintain vehicles, aircraft, rail equipment, marine vessels, bicycles, and the equipment and infrastructure that enables operations that encompass movement of cargo and passengers
18. Workers who support air transportation for cargo and passengers, including operation distribution, maintenance, and sanitation. This includes air traffic controllers, flight dispatchers, maintenance personnel, ramp workers, fueling agents, flight crews, airport safety inspectors and engineers, airport operations personnel, aviation and aerospace safety workers, security, commercial space personnel, operations personnel, accident investigators, flight instructors, and other on- and off-airport facilities workers.
19. Workers critical to the manufacturing, distribution, sales, rental, leasing, repair, and maintenance of vehicles and other transportation equipment (including electric vehicle charging stations) and the supply chains that enable these operations, subject to adhering public health guidance issued by CDPH.
20. Workers who support the operation, inspection, and maintenance of essential public works facilities and operations, including bridges, water and sewer main breaks, fleet maintenance personnel, construction of critical or strategic infrastructure, construction material

suppliers, traffic signal maintenance, emergency location services for buried utilities, maintenance of digital systems infrastructure supporting public works operations, and other emergent issues

21. Workers who support, such as road and line clearing, to ensure the availability of needed facilities, transportation, energy and communications.

7. COMMUNICATIONS AND INFORMATION TECHNOLOGY

Sector Profile

The Communications Sector provides products and services that support the efficient operation of today's global information-based society. Communication networks enable people around the world to contact one another, access information instantly, and communicate from remote areas. This involves creating a link between a sender (including voice signals) and one or more recipients using technology (e.g., a telephone system or the Internet) to transmit information from one location to another. Technologies are changing at a rapid pace, increasing the number of products, services, service providers, and communication options. The national communications architecture is a complex collection of networks that are owned and operated by individual service providers. Many of this sector's products and services are foundational or necessary for the operations and services provided by other critical infrastructure sectors. The nature of communication networks involves both physical infrastructure (buildings, switches, towers, antennas, etc.) and cyber infrastructure (routing and switching software, operational support systems, user applications, etc.), representing a holistic challenge to address the entire physical-cyber infrastructure.

The IT Sector provides products and services that support the efficient operation of today's global information-based society and are integral to the operations and services provided by other critical infrastructure Sectors. The IT Sector is comprised of small and medium businesses, as well as large multinational companies. Unlike many critical infrastructure Sectors composed of finite and easily identifiable physical assets, the IT Sector is a functions-based Sector that comprises not only physical assets but also virtual systems and networks that enable key capabilities and services in both the public and private sectors.

Essential Workforce – Communications, if remote working is not practical:

1. Maintenance of communications infrastructure- including privately owned and maintained communication systems- supported by technicians, operators, call-centers, wireline and wireless providers, cable service providers, satellite operations, Internet Exchange Points, Network Access Points, back haul and front haul facilities, and manufacturers and distributors of communications equipment.
2. Workers performing functions related to undersea cable infrastructure and support facilities, including cable landing sites, beach manhole vaults and covers, submarine cable depots, and submarine cable ship facilities
3. Government and private sector employees supporting Department of Defense internet and communications facilities.
4. Workers who support radio, television, and media service, including, but not limited to front line news reporters, studio, and technicians for newsgathering, reporting, and publishing news.
5. Network Operations staff, engineers and/or technicians to include IT managers and staff, HVAC & electrical engineers, security personnel, software and hardware engineers, and database administrators that manage the network or operate facilities
6. Workers responsible for infrastructure construction and restoration, including contractors for construction and engineering of fiber optic cables, buried conduit, small cells, other wireless facilities, and other communications sector-related infrastructure. This includes construction of

new facilities and deployment of new technology required to address congestion or customer usage on remote services.

7. Installation, maintenance and repair technicians that establish, support or repair service as needed.
8. Central office personnel to maintain and operate central office, data centers, and other network office facilities, and critical support personnel assisting front line employees
9. Customer service and support staff, including managed and professional services as well as remote providers of support to transitioning employees to set up and maintain home offices, who interface with customers to manage or support service environments and security issues, including payroll, billing, fraud, logistics and troubleshooting
10. Workers providing electronic security, fire, monitoring, and life safety services, and who ensure physical security, cleanliness, and the safety of facilities and personnel, including those who provide temporary licensing waivers for security personnel to work in other States or Municipalities.
11. Dispatchers involved with service repair and restoration
12. Retail customer service personnel at critical service center locations for onboarding customers, distributing and repairing equipment and other supply chain personnel, to support individuals' remote emergency communications needs;
13. External Affairs personnel to assist in coordinating with local, state, and federal officials to address communications needs supporting COVID-19 response, public safety, and national security.
14. Workers responsible for ensuring that persons with disabilities have access to and the benefits of various communications platforms, including those involved in the provision of telecommunication relay services, closed captioning of broadcast television for the deaf, video relay services for deaf citizens who prefer communication via American Sign Language over text, and audio-description for television programming.

Essential Workforce - Information Technology, if remote working is not practical:

15. Workers who support command centers, including, but not limited to Network Operations Command Centers, Broadcast Operations Control Center and Security Operations Command Centers
16. Data center operators, including system administrators, HVAC & electrical engineers, security personnel, IT managers and purchasers, data transfer solutions engineers, software and hardware engineers, and database administrators
17. Workers who support client service centers, field engineers, and other workers supporting critical infrastructure, as well as manufacturers and supply chain vendors that provide hardware and software, support services, research and development, information technology equipment (to include microelectronics and semiconductors), and HVAC and electrical equipment for critical infrastructure and test labs and certification agencies that qualify such equipment for critical infrastructure.
18. Workers needed to pre-empt and respond to cyber incidents involving critical infrastructure,, and entities supporting the functioning of critical infrastructure sectors
19. Suppliers, designers, transporters and other workers supporting the manufacture, distribution, and construction of essential global, national and local infrastructure for computing services (including cloud computing services and teleworking capabilities), business infrastructure, financial transactions, web-based services, and critical manufacturing

20. Workers supporting communications systems, information technology, and work from home solutions
21. Employees required to support Software as a Service businesses that enable remote working, performance of business operations, distance learning, media services, and digital health offerings, or required for technical support crucial for business continuity and connectivity.

8. GOVERNMENT OPERATIONS AND OTHER COMMUNITY-BASED ESSENTIAL FUNCTIONS

Essential Workforce, if remote working is not practical.

1. Critical government workers, as defined by the employer and consistent with Continuity of Operations Plans and Continuity of Government plans.
2. County workers responsible for determining eligibility for safety net benefits
3. The Courts, consistent with guidance released by the California Chief Justice
4. Workers who support administration and delivery of unemployment insurance programs, income maintenance, employment service, disaster assistance, workers' compensation insurance and benefits programs, and pandemic assistance
5. Workers to ensure continuity of building functions, including but not limited to security and environmental controls, the manufacturing and distribution of the products required for these functions, and the permits and inspection for construction.
6. Elections personnel
7. Federal, State, and Local, Tribal, and Territorial employees who support Mission Essential Functions and communications networks
8. Trade Officials (FTA negotiators; international data flow administrators)
9. Weather forecasters
10. Workers that maintain digital systems infrastructure supporting other critical government operations
11. Workers who support necessary credentialing, vetting and licensing operations for critical sector workers and operations.
12. Workers who are critical to facilitating trade in support of the national, state, and local emergency response supply chain
13. Workers supporting public and private childcare establishments, pre-K establishments, K-12 schools, colleges, and universities for purposes of distance learning, provision of school meals, or care and supervision of minors to support essential workforce across all sectors
14. Staff at government offices who perform title search, notary, and recoding services in support of mortgage and real estate services and transactions;
15. Workers and instructors supporting academies and training facilities and courses for the purpose of graduating students and cadets that comprise the essential workforce for all identified critical sectors
16. Clergy for essential support and faith-based services that are provided through streaming or other technologies that support physical distancing and state public health guidelines.
17. Human services providers, especially for at risk populations, including home delivered meal providers for older adults, people with disabilities, and others with chronic health conditions; home-maker services for frail, homebound, older adults; personal assistance services providers to support activities of daily living for older adults, people with disabilities, and others with chronic health conditions who live independently in the community with supports and services; home health providers who deliver health care services for older adults, people with disabilities, and others with chronic health conditions who live independently in the community with supports and services.
18. Government entities, and contractors that work in support of local, state, and federal public health and medical mission sets, including but not limited to supporting access to healthcare and associated payment functions, conducting public health functions, providing medical care,

supporting emergency management, or other services necessary for supporting the COVID-19 response.

9. CRITICAL MANUFACTURING

Sector Profile

The Critical Manufacturing Sector identifies several industries to serve as the core of the sector: Primary Metals Manufacturing, Machinery Manufacturing, Electrical Equipment, Appliance, and Component Manufacturing, Transportation Equipment Manufacturing Products made by these manufacturing industries are essential to many other critical infrastructure sectors.

Essential Workforce, if remote working is not practical

1. Workers necessary for the manufacturing of metals, industrial minerals, semiconductors, materials and products needed for supply chains of the critical infrastructure sectors.
2. Workers necessary for the manufacturing of materials and products needed to manufacture medical equipment and personal protective equipment
3. Workers necessary for mining and production of critical minerals, materials and associated essential supply chains, and workers engaged in the manufacture and maintenance of equipment and other infrastructure necessary for mining production and distribution.
4. Workers who produce or manufacture parts or equipment that supports continued operations for any essential services and increase in remote workforce, including computing and communication devices, semiconductors, and equipment such as security tools for Security Operations Centers (SOCs) or data centers.
5. Workers manufacturing or providing parts and equipment that enable the maintenance and continued operation of essential businesses and facilities.

10. FINANCIAL SERVICES

Sector Profile

The Financial Services Sector includes thousands of depository institutions, providers of investment products, insurance companies, other credit and financing organizations, and the providers of the critical financial utilities and services that support these functions. Financial institutions vary widely in size and presence, ranging from some of the world's largest global companies with thousands of employees and many billions of dollars in assets, to community banks and credit unions with a small number of employees serving individual communities. Whether an individual savings account, financial derivatives, credit extended to a large organization, or investments made to a foreign country, these products allow customers to: Deposit funds and make payments to other parties; Provide credit and liquidity to customers; Invest funds for both long and short periods; Transfer financial risks between customers.

Essential Workforce, if remote working is not practical:

1. Workers who are needed to process and maintain systems for processing financial transactions and services, including payment, clearing, and settlement; wholesale funding; insurance services; and capital markets activities
2. Workers who are needed to maintain orderly market operations to ensure the continuity of financial transactions and services.
3. Workers who are needed to provide business, commercial, and consumer access to banking and non-bank financial and lending services, including ATMs, lending money transmission, and to move currency, checks, securities, and payments
4. Workers who support financial operations, such as those staffing call, data and security operations centers, managing physical security, or providing accounting services.
5. Workers supporting production and distribution of debit and credit cards.
6. Workers providing electronic point of sale support personnel for essential businesses and workers.

11. CHEMICAL & HAZARDOUS MATERIALS

Sector Profile

The Chemical Sector—composed of a complex, global supply chain—converts various raw materials into diverse products that are essential to modern life. Based on the product produced, the sector can be divided into five main segments, each of which has distinct characteristics, growth dynamics, markets, new developments, and issues: Basic chemicals; Specialty chemicals; Agricultural chemicals; Pharmaceuticals; Consumer products.

Essential Workforce, if remote working is not practical:

1. Workers supporting the chemical and industrial gas supply chains, including workers at chemical manufacturing plants, workers in laboratories, workers at distribution facilities, workers who transport basic raw chemical materials to the producers of industrial and consumer goods, including hand sanitizers, food and food additives, pharmaceuticals, textiles, building materials, plumbing, electrical and paper products.
2. Workers supporting the safe transportation of chemicals, including those supporting tank truck cleaning facilities and workers who manufacture packaging items
3. Workers supporting the production of protective cleaning and medical solutions, personal protective equipment, disinfectants, and packaging that prevents the contamination of food, water, medicine, among others essential products
4. Workers supporting the operation and maintenance of facilities (particularly those with high risk chemicals and/ or sites that cannot be shut down) whose work cannot be done remotely and requires the presence of highly trained personnel to ensure safe operations, including plant contract workers who provide inspections
5. Workers who support the production and transportation of chlorine and alkali manufacturing, single-use plastics, and packaging that prevents the contamination or supports the continued manufacture of food, water, medicine, and other essential products, including glass container manufacturing
6. Workers at nuclear facilities, workers managing medical waste, workers managing waste from pharmaceuticals and medical material production, and workers at laboratories processing test kits
7. Workers who support hazardous materials response and cleanup
8. Workers who maintain digital systems infrastructure supporting hazardous materials management operations
9. Workers who support the removal, storage, and disposal of residential and commercial solid waste and hazardous waste, including landfill and recycling operations.

12. DEFENSE INDUSTRIAL BASE

Sector Profile

The Defense Industrial Base Sector is the worldwide industrial complex that enables research and development, as well as design, production, delivery, and maintenance of military weapons systems, subsystems, and components or parts, to meet U.S. military requirements. The Defense Industrial Base partnership consists of Department of Defense components, Defense Industrial Base companies and their subcontractors who perform under contract to the Department of Defense, companies providing incidental materials and services to the Department of Defense, and government-owned/contractor-operated and government-owned/government-operated facilities. Defense Industrial Base companies include domestic and foreign entities, with production assets located in many countries. The sector provides products and services that are essential to mobilize, deploy, and sustain military operations.

Essential Workforce, if remote working is not practical:

1. Workers who support the essential services required to meet national security commitments to the federal government and U.S. Military, including, but are not limited to, space and aerospace workers, nuclear matters workers, mechanical and software engineers (various disciplines), manufacturing and production workers, IT support, security staff, security personnel, intelligence support, aircraft and weapon system mechanics and maintainers, and sanitary workers who maintain the hygienic viability of necessary facilities.
2. Personnel working for companies, and their subcontractors, who perform under contract or sub-contract to the Department of Defense (DoD) and the Department of Energy (DoE) (on nuclear matters), as well as personnel at government-owned/contractor operated facilities, and who provide materials and services to the DoD and DoE (on nuclear matters), including support for weapon systems, software systems and cybersecurity, defense and intelligence communications, surveillance, sale of U.S. defense articles and services for export to foreign allies and partners (as authorized by the U.S. government), and space systems and other activities in support of our military, intelligence, and space forces.

13. INDUSTRIAL, COMMERCIAL, RESIDENTIAL, and SHELTERING FACILITIES AND SERVICES

Essential Workforce, if remote working is not practical:

1. Construction Workers who support the construction, operation, inspection, and maintenance of construction sites and construction projects (including housing, commercial, and mixed-use construction); and workers who support the supply chain of building materials from production through application/installation, including cabinetry, fixtures, doors, cement, hardware, plumbing, electrical, heating/cooling, refrigeration, appliances, paint/coatings, and employees who provide services that enable repair materials and equipment for essential functions.
2. Workers such as plumbers, electricians, exterminators, and other service providers who provide services that are necessary to maintaining the safety, sanitation, construction material sources, and essential operation of construction sites and construction projects (including those that support such projects to ensure the availability of needed facilities, transportation, energy and communications; and support to ensure the effective removal, storage, recycling and disposal of solid waste and hazardous waste)
3. Workers such as plumbers, electricians, exterminators, and other service providers who provide services that are necessary to maintaining the safety, sanitation, and essential operation of residences, businesses, and buildings such as hospitals and senior living facilities, including any facility supporting COVID-19 response.
4. Workers who support the supply chain of building materials from production through application and installation, including cabinetry, fixtures, doors, cement, hardware, plumbing (including parts and services), electrical, heating and cooling, refrigeration, appliances, paint and coatings, and workers who provide services that enable repair materials and equipment for essential functions.
5. Workers in hardware and building materials stores, consumer electronics, technology and appliances retail, and related merchant retailers, wholesalers and distributors that support essential workforce functions where sales and operations cannot be conducted online
6. Warehouse operators, including vendors and support personnel critical for business continuity (including heating, ventilation, and air conditioning (HVAC) and electrical engineers, security personnel, and janitorial staff), e-commerce or online commerce, and customer service for essential functions.
7. Workers supporting the operations of commercial buildings that are critical to safety, security, and the continuance of essential activities, such as on-site property managers, building engineers, security staff, fire safety directors, janitorial personnel, and service technicians (e.g., mechanical, HVAC, plumbers, electricians, and elevator).
8. Workers supporting ecommerce through distribution, warehouse, call center facilities, and other essential operational support functions, that accept, store, and process goods, and that facilitate their transportation and delivery
9. Workers distributing, servicing, repairing, installing residential and commercial HVAC systems, boilers, furnaces and other heating, cooling, refrigeration, and ventilation equipment.
10. Workers managing or servicing hotels or other commercial and residential buildings that are used for COVID-19 mitigation and containment measures, treatment measures, provide accommodation for essential workers, or providing housing solutions, including measures to protect homeless populations.

11. Workers responsible for the leasing of residential and commercial properties to provide individuals and families with ready access to available housing.
12. Residential and commercial real estate workers, limited to scheduled property viewings to a potential buying party. This does not extend to open-house viewings, nor viewings with more than one buying party at a time.
13. Professional services, such as legal or accounting services, when necessary to assist in compliance with legally mandated activities and critical sector services
14. Workers responsible for handling property management, maintenance, and related service calls who can coordinate the response to emergency “at-home” situations requiring immediate attention, as well as facilitate the reception of deliveries, mail, and other necessary services.
15. Workers supporting the entertainment industries, studios, and other related establishments, provided they follow covid-19 public health guidance around physical distancing.
16. Workers that provide or determine eligibility for food, shelter, in-home supportive services, child welfare, adult protective services and social services, and other necessities of life for economically disadvantaged or otherwise needy individuals (including family members)
17. Workers performing services in support of the elderly and disabled populations who coordinate a variety of services, including health care appointments and activities of daily living.
18. Workers who provide support to vulnerable populations to ensure their health and well-being including family care providers.
19. Workers providing dependent care services, particularly those whose services ensure essential workers can continue to work.
20. Workers who support food, shelter, and social services, and other necessities of life for economically disadvantaged or otherwise needy individuals, such as those residing in shelters.
21. Workers in laundromats, laundry services, and dry cleaners.
22. Workers providing disinfection services, for all essential facilities in essential sectors
23. Workers necessary for the installation, maintenance, distribution, and manufacturing of water and space heating equipment and its components.
24. Support required for continuity of services, including commercial disinfectant services, janitorial/cleaning personnel, and support personnel functions that need freedom of movement to access facilities in support of front-line employees.

**EXECUTIVE DEPARTMENT
STATE OF CALIFORNIA**

EXECUTIVE ORDER N-37-20

WHEREAS on March 4, 2020, I proclaimed a State of Emergency to exist in California as a result of the threat of COVID-19; and

WHEREAS in a short period of time, COVID-19 has rapidly spread throughout California, necessitating stringent public health emergency orders as well as guidance from federal, state, and local public health officials; and

WHEREAS on March 16, 2020, I issued Executive Order N-28-20, suspending state law limitations on local jurisdictions that impose restrictions on evictions; and

WHEREAS on March 19, 2020, I issued Executive Order N-33-20, ordering all residents to immediately heed the Order of the State Public Health Officer for all residents, unless exempted, to stay home or at their place of residence; and

WHEREAS many Californians are experiencing or will experience substantial losses of income as a result of business closures, the loss of hours or wages, or layoffs related to COVID-19, hindering their ability to keep up with their rent, and leaving them vulnerable to eviction; and

WHEREAS minimizing evictions during this period is critical to reducing the spread of COVID-19 in vulnerable populations by allowing all residents to stay home or at their place of residence in compliance with Executive Order N-33-20; and

WHEREAS Chief Justice Tani Cantil-Sakauye issued advisory guidance on March 20, 2020 for superior courts to suspend most civil trials and hearings for at least 60 days, and on March 23, 2020, suspended all jury trials for a period of 60 days, and extended by 60 days the time period for the holding of a civil trial; and

WHEREAS on March 25, 2020 the Department of Business Oversight secured support from national banks, state banks and credit unions for temporary delays in mortgage payments and foreclosure sales and evictions for homeowners who have economic impacts from COVID-19 with the objective of maximizing consistency and minimizing hurdles potentially faced by borrowers.

NOW, THEREFORE, I, GAVIN NEWSOM, Governor of the State of California, in accordance with the authority vested in me by the State Constitution and statutes of the State of California, and in particular, Government Code sections 8567 and 8571, do hereby issue the following Order to become effective immediately:

IT IS HEREBY ORDERED THAT:

- 1) The deadline specified in Code of Civil Procedure section 1167 shall be extended for a period of 60 days for any tenant who is served, while

this Order is in effect, with a complaint that seeks to evict the tenant from a residence or dwelling unit for nonpayment of rent and who satisfies all of the following requirements:

- a. Prior to the date of this Order, the tenant paid rent due to the landlord pursuant to an agreement.
 - b. The tenant notifies the landlord in writing before the rent is due, or within a reasonable period of time afterwards not to exceed 7 days, that the tenant needs to delay all or some payment of rent because of an inability to pay the full amount due to reasons related to COVID-19, including but not limited to the following:
 - (i) The tenant was unavailable to work because the tenant was sick with a suspected or confirmed case of COVID-19 or caring for a household or family member who was sick with a suspected or confirmed case of COVID-19;
 - (ii) The tenant experienced a lay-off, loss of hours, or other income reduction resulting from COVID-19, the state of emergency, or related government response; or
 - (iii) The tenant needed to miss work to care for a child whose school was closed in response to COVID-19.
 - c. The tenant retains verifiable documentation, such as termination notices, payroll checks, pay stubs, bank statements, medical bills, or signed letters or statements from an employer or supervisor explaining the tenant's changed financial circumstances, to support the tenant's assertion of an inability to pay. This documentation may be provided to the landlord no later than the time upon payment of back-due rent.
- 2) No writ may be enforced while this Order is in effect to evict a tenant from a residence or dwelling unit for nonpayment of rent who satisfies the requirements of subparagraphs (a)-(c) of paragraph 1.
- 3) The protections in paragraphs 1 and 2 shall be in effect through May 31, 2020.

Nothing in this Order shall prevent a tenant who is able to pay all or some of the rent due from paying that rent in a timely manner or relieve a tenant of liability for unpaid rent.

Nothing in this Order shall in any way restrict state or local governmental authority to order any quarantine, isolation, or other public health measure that may compel an individual to remain physically present in a particular residential property.

IT IS FURTHER ORDERED that this Order supersedes Executive Order N-28-20 to the extent that there is any conflict with that Order.

This Order is not intended to, and does not, create any rights or benefits, substantive or procedural, enforceable at law or in equity, against the State of California, its agencies, departments, entities, officers, employees, or any other person.

I FURTHER DIRECT that as soon as hereafter possible, this proclamation be filed in the Office of the Secretary of State and that widespread publicity and notice be given of this Order.

IN WITNESS WHEREOF I have hereunto set my hand and caused the Great Seal of the State of California to be affixed this 27th day of March 2020.

A handwritten signature in black ink, appearing to read 'Gavin Newsom', written over a horizontal line.

GAVIN NEWSOM
Governor of California

ATTEST:

ALEX PADILLA
Secretary of State

**EXECUTIVE DEPARTMENT
STATE OF CALIFORNIA**

EXECUTIVE ORDER N-39-20

WHEREAS on March 4, 2020, I proclaimed a State of Emergency to exist in California as a result of the threat of COVID-19; and

WHEREAS despite sustained efforts, COVID-19 continues to spread at a rapid rate, threatening to overwhelm California's healthcare delivery system; and

WHEREAS California is preparing for a surge in the number of people who will need hospital care during the COVID-19 outbreak by increasing the number of hospital beds and post-acute care facilities that can treat and serve patients; and

WHEREAS this anticipated increase in the use of the healthcare system will require an increase in the health care workforce such as nurses, doctors, medical assistants, and emergency medical technicians; and

WHEREAS maximizing the number of qualified and capable medical and healthcare workers in service in California is imperative to ensure that Californians impacted by COVID-19 can access medical treatment; and

WHEREAS, the anticipated surge requires temporary adjustment of California's staffing and health and safety standards for health providers and health facilities, which are among the strongest in the nation, as numerous professionals are unable to satisfy professional licensing requirements in light of the COVID-19 pandemic that then subsequently prevent them from providing necessary medical and healthcare assistance to the public; and

WHEREAS, our most vulnerable residents who rely on state and local government for social services need additional support during this time; and

WHEREAS the Department of Developmental Services operates Stabilization, Training, Assistance and Reintegration (STAR) community crisis homes to treat individuals with developmental disabilities in acute crisis and additional STAR homes are required to provide treatment to such individuals and to protect the public health during the COVID-19 crisis; and

WHEREAS federal guidance permits monthly caseworker visits with children under court jurisdiction to be accomplished through videoconferencing in limited circumstances, such as a declaration of an emergency that prohibits or strongly discourages face-to-face contact for public health reasons; and

WHEREAS under the provisions of Government Code section 8571, I find that strict compliance with various statutes and regulations specified in this order would prevent, hinder, or delay appropriate actions to prevent and mitigate the effects of the COVID-19 pandemic.

NOW, THEREFORE, I, GAVIN NEWSOM, Governor of the State of California, in accordance with the authority vested in me by the State Constitution and statutes of the State of California, and in particular, Government Code sections 8567 and 8571, do hereby issue the following Order to become effective immediately:

IT IS HEREBY ORDERED THAT:

- 1) To assist in the care and/or to protect the health of individuals in hospitals and other health facilities, and due to the COVID-19 outbreak, the director of the State Department of Public Health may, to the extent necessary and only for the duration of the declared emergency, waive any of the licensing and staffing requirements of chapters 2 and 2.4 of division 2 of the Health and Safety Code and any accompanying regulations with respect to any hospital or health facility identified in Health and Safety Code section 1250. Any waiver shall include alternative measures that, under the circumstances, will allow the facilities to treat patients while protecting public health and safety. To the extent the facility maintains a disaster and mass casualty plan, the facility granted a waiver shall be established and operate in accordance with that plan. Any waivers granted pursuant to this paragraph shall be posted on the Department's website.
- 2) To facilitate the continued provision of care due to the COVID-19 outbreak, the director of the State Department of Public Health may, to the extent necessary and only for the duration of the declared emergency, waive any of the professional licensing and certification requirements and amend scopes of practice of chapters 2, 2.35, and 8 of division 2 of the Health and Safety Code and any accompanying regulations with respect to certified nursing assistants, home health aides, and nursing home administrators, and chapter 3, division 2 of the Business and Professions Code and accompanying regulations with respect to certified hemodialysis technicians. The Department shall provide guidance to facilities directing the appropriate qualifications and scope of practice for each classification operating under a waiver based on sound clinical guidelines and the individual's training, education, and work experience. Any waiver shall include alternative measures that, under the circumstances, will allow the facilities to treat patients while protecting public health and safety. Any waivers granted pursuant to this paragraph shall be posted on the Department's website.
- 3) The certification and permitting requirements of the Radiologic Technology Act (as identified in Health and Safety Code section 27) are, only for the duration of the declared emergency, suspended for all persons:
 - (i) whose certificate or permit issued pursuant to the Radiological Technology Act is expired, regardless of expiration date, or has been canceled; or
 - (ii) who hold Radiography certification issued by the American Registry of Radiologic Technologists or are an American Registry of Radiologic Technologists Registered Radiologist Assistant; or
 - (iii) who are credentialed as Radiology Practitioner Assistants by the Certification Board for Radiology Practitioner Assistants; or

- (iv) who are certified, permitted or otherwise authorized to perform radiologic technology by passing a State-required examination by a state other than the State of California; and
- (v) who are working under the supervision of a person licensed under the Medical Practice Act, except that the requirement to be under supervision shall not apply to a licentiate of the healing arts, as defined in the Radiological Technology Act; and
- (vi) who are deemed by a health facility as necessary workforce for purposes of this Order.

The specific certification requirements of Health and Safety Code section 107110 are suspended for any person who is licensed under the Medical Practice Act (Business and Professions Code sections 2000, et seq.). Except for persons licensed under the Medical Practice Act, this suspension of certification and permitting requirements shall not apply to persons who have never been either certified or permitted by the Department of Public Health, or certified, permitted, or otherwise authorized by the American Registry of Radiologic Technologists, the Certification Board for Radiology Practitioner Assistants, or any other state. This suspension of certification and permitting requirements shall also not apply to persons whose certificate, permit, or other authorization has been revoked or suspended for cause by the Department of Public Health, the American Registry of Radiologic Technologists, the Certification Board for Radiology Practitioner Assistants, or any other state.

- 4) To ensure hospitals are adequately prepared and staffed to treat COVID-19 patients, the Director of the State Department of Public Health may temporarily waive licensing requirements in Health and Safety Code section 1277 and sections 70203(a)(2), 70701(a)(1)(E), 70703(b), and 70705(a) of Chapter 1, Article 3, of Title 22, that pertain to the credentialing and privileging of physicians. Any waiver shall include alternate measures that, under the circumstances, ensure the competency of physicians providing medical services at the hospital.
- 5) To facilitate the continued provision of care to individuals affected by the COVID-19 outbreak, the Director of the Department of Consumer Affairs may to the extent necessary and only for the duration of the declared emergency, waive any of the professional licensing requirements and amend scopes of practice in Division 2 of the Business and Professions Code, and any accompanying regulations. Professional licensing requirements should be interpreted broadly to effectuate the purposes of this executive order, and they include, but are not limited to, the examination, education, experience, and training requirements necessary to obtain and maintain licensure, and requirements governing the practice and permissible activities for licensees. The Department, in conjunction with the relevant licensing board, shall provide guidance identifying the appropriate qualifications and scope of practice for each classification operating under a waiver based on sound clinical guidelines and the individual's training, education, and work experience. Any waiver may include alternative measures that, under the circumstances, will allow the regulated individual to treat patients while protecting public health

and safety. Any waivers granted pursuant to this paragraph shall be posted on the Department's website.

- 6) To ensure the continued operation of the Emergency Medical Services (EMS) system without unduly endangering the people of California during the COVID-19 outbreak, the Director of the California Emergency Medical Services Authority may as necessary and only for the duration of the declared emergency, suspend any licensing, certification, or training requirements for EMS personnel as contained in the EMS Act Chapters 2, 3, and 4, and accompanying regulations, including the authority to permit EMS personnel to provide services in any setting as authorized by the Director for the performance of the current scope of practice. The Authority shall provide guidance to local emergency medical services authorities directing the appropriate qualifications and scope of practice for each classification operating under a waiver based on sound clinical guidelines and the individual's training, education, and work experience. Any waivers granted pursuant to this paragraph shall be posted on the Authority's website.
- 7) Notwithstanding the Government Code section 14669, or any other law, the Director of the Department of Developmental Services has the authority to enter into a lease, lease-purchase, lease with option to purchase any real or personal property or any other agreement to procure residences or facilities and necessary equipment, goods or services to serve those individuals with development disabilities in crisis, to respond to, mitigate the effects or prevent the spread of COVID-19 to individuals with developmental disabilities or the general community. The leases or agreements may be executed without the review or prior approval of any other state department or agency. The leases or agreements executed pursuant to this provision shall be in effect so long as necessary to address the COVID-19 crisis or its effects.
- 8) The Department of Social Services may, to the extent the Department deems necessary to respond to the COVID-19 crisis, allow any state monthly face-to-face caseworker visitation requirement, standard, or criteria set forth in the Welfare and Institutions Code sections 16501.1, subdivision (l), 16516.5, and 16516.6, as well as accompanying regulations or other written directives, policies or procedures, to be accomplished through videoconferencing, instead of in-person contact. This flexibility shall only be utilized by caseworkers in keeping with guidance from the Department and after a child-specific decision based on the training and experience of the social worker, considering all available information, that an in-person visit is not necessary to ensure the child's safety and well-being. Any flexibility granted pursuant to this paragraph shall not waive or conflict with applicable federal requirements in United States Code, Title 42, sections 622, subdivision (b)(17) and 624, subdivision (f), as modified for emergency waivers in guidance issued March 18, 2020, in the Child Welfare Policy Manual Title IV-B, section 7.3, question 8 and shall expire at the end of the emergency declaration, in 90 days, or sooner as determined by the Department. Any flexibility granted pursuant to this paragraph shall be posted to the Department's website.

IT IS FURTHER ORDERED that as soon as hereafter possible, this Order be filed in the Office of the Secretary of State and that widespread publicity and notice be given of this Order.

This Order is not intended to, and does not, create any rights or benefits, substantive or procedural, enforceable at law or in equity, against the State of California, its agencies, departments, entities, officers, employees, or any other person.

IN WITNESS WHEREOF I have hereunto set my hand and caused the Great Seal of the State of California to be affixed this 30th day of March 2020.

**EXECUTIVE DEPARTMENT
STATE OF CALIFORNIA**

EXECUTIVE ORDER N-42-20

WHEREAS on March 4, 2020, I proclaimed a state of emergency to exist in California as a result of the threat of COVID-19; and

WHEREAS it is the established policy of the State under Water Code section 106.3 that every human being has the right to safe, clean, affordable, and accessible water adequate for human consumption, cooking, and sanitary purposes; and

WHEREAS to limit the spread of COVID-19 it is crucial that Californians wash their hands regularly and thoroughly; and

WHEREAS many Californians are experiencing or will experience substantial losses of income as a result of business closures, the loss of work hours or wages, or layoffs related to COVID-19, which may hinder their ability to make payments for water service and subject them to water shutoffs due to non-payment; and

WHEREAS many small businesses that provide services essential to the health and well-being of Californians have experienced substantial reductions in income, which may hinder their ability to make payments for water service and subject them to water shutoffs due to non-payment; and

WHEREAS the California Public Utilities Commission has directed private water utilities under its jurisdiction to implement customer service protections, including a moratorium on service disconnections, during the COVID-19 emergency; and

WHEREAS more than 100 public and private water systems have voluntarily agreed to halt disconnections as well; and

WHEREAS under the provisions of Government Code section 8571, I find that strict compliance with the various statutes and regulations concerning water shutoffs specified in this order would prevent, hinder, or delay appropriate actions to prevent and mitigate the effects of the COVID-19 pandemic.

NOW, THEREFORE, I, GAVIN NEWSOM, Governor of the State of California, in accordance with the authority vested in me by the State Constitution and the statutes of the State of California, and in particular, Government Code sections 8567, 8570, 8571, and 8627, do hereby issue the following order to become effective immediately:

IT IS HEREBY ORDERED THAT:

- 1) The authority of urban and community water systems, as defined in Health and Safety Code section 116902, subdivision (d), to discontinue residential service, as defined in Health and Safety Code section 116902, subdivision (c), for non-payment under Health and Safety Code sections 116908 and 116910, is suspended.
- 2) Water systems not subject to the requirements of Health and Safety Code sections 116908 and 116910 shall not discontinue residential

service, as defined in Health and Safety Code section 116902, subdivision (c), for non-payment.

- 3) Water systems shall restore any residential service to occupied residences that has been discontinued for nonpayment since March 4, 2020.
- 4) Water systems shall not discontinue service to any business in the critical infrastructure sectors designated by the State Public Health Officer as critical to protect the health and well-being of all Californians that qualifies as a small business under 13 C.F.R. § 121.201 of the Small Business Administration's regulations.
- 5) The State Water Resources Control Board shall identify best practices, guidelines, or both to be implemented during the COVID-19 emergency (i) to address non-payment or reduced payments, (ii) to promote and to ensure continuity of service by water systems and wastewater systems, and (iii) to provide measures such as the sharing of supplies, equipment and staffing to relieve water systems under financial distress.

Nothing in this Order eliminates the obligation of water customers to pay for water service, prevents a water system from charging a customer for such service, or reduces the amount a customer already may owe to a water system.

Nothing in this Order modifies the obligations of urban and community waters systems to comply with provisions of the Water Shutoff Protection Act not specifically addressed by this Order or other applicable laws, regulations, and guidelines.

IT IS FURTHER ORDERED that as soon as hereafter possible, this Order be filed in the Office of the Secretary of State and that widespread publicity and notice be given of this Order.

This Order is not intended to, and does not, create any rights or benefits, substantive or procedural, enforceable at law or in equity, against the State of California, its agencies, departments, entities, officers, employees, or any other person.

IN WITNESS WHEREOF I have hereunto set my hand and caused the Great Seal of the State of California to be affixed this 2nd day of April 2020.

ATTEST:

ALEX PADILLA
Secretary of State

Update on California's Pandemic Roadmap

6 Indicators for Modifying Stay-at-Home Order

- Ability to test, contact trace, isolate, and support the exposed
- Ability to protect those at high risk for COVID-19
- Surge capacity for hospital and health systems
- Therapeutic development to meet the demand
- Ability of businesses, schools, and childcare facilities to support physical distancing
- Determination of when to reinstitute measures like Stay-At-Home

California Hospitalization Trend Lines

Total includes both COVID-19 confirmed positive hospitalizations as well as COVID-19 suspect hospitalizations.

The Basics

COVID-19 is not going away soon.

Modifications to Stay-At-Home Order must be guided by health risk and a commitment to equity.

Taking responsibility is key at all levels – individual, business, and government.

Resilience Roadmap Stages

STAGE 1: Safety and Preparedness

Making essential workforce environment as safe as possible.

STAGE 2: Lower Risk Workplaces

Creating opportunities for lower risk sectors to adapt and re-open.

Modified school programs and childcare re-open.

STAGE 3: Higher Risk Workplaces

Creating opportunities for higher risk sectors to adapt and re-open.

STAGE 4: End of Stay-At-Home Order

Return to expanded workforce in highest risk workplaces.

Requires
Therapeutics.

Stage 1: Safety and Preparedness

This is where we are now.

- **Continue to build out testing, contact tracing, PPE, and hospital surge capacity.**
- **Continue to make essential workplaces as safe as possible.**
 - Physical and work flow adaption
 - Essential workforce safety net
 - Make PPE more widely available
 - Individual behavior changes
- **Prepare sector-by-sector safety guidelines for expanded workforce.**

Stage 2: Lower Risk Workplaces

Gradually opening some lower risk workplaces with ADAPTATIONS:

- Retail (e.g. curbside pickup)
- Manufacturing
- Offices (when telework not possible)
- Opening more public spaces

Expanded Workforce Safety Net:

- Wage replacement so workers can stay home when sick

Stage 2: Lower Risk Workplaces

Schools and Childcare Facilities with Adaptations:

- Summer programs and next school year potentially starting sooner (July/August)
- Childcare facilities to provide more care
- Address learning gaps
- Ensure students and staff are protected
- Allow broader workforce to return to work

Actions needed to get from Stage 1 to Stage 2

Government Actions

- Policies that allow people to stay home when they're sick
- Guidance provided on how to reduce risk

Business Actions

- Wage replacement so workers can stay home when sick
- Implement adaptations to lower-risk workplaces NOW
- Employees continue to work from home when possible

Individual Actions

- Safety precautions – physical distancing, face coverings, etc.
- Avoid all non-essential travel
- Support and care for people who are at high risk

When are we ready for Stage 2?

Key indicator considerations to move to Stage 2:

- Hospitalization and ICU trends stable.
- Hospital surge capacity to meet demand.
- Sufficient PPE supply to meet demand.
- Sufficient testing capacity to meet demand.
- Contact tracing capacity statewide.

Transition to Stage 2 will occur through a statewide modification to the Stay-At-Home Order.

Opportunity for Regional Variations

During Stage 2, counties may choose to relax stricter local orders at their own pace.

Following Stage 2, once a statewide COVID-19 surveillance system is made possible through testing, further regional variations could be supported.

State will consult and collaborate closely with local governments.

Stage 3: Higher Risk Workplaces

Open higher risk environments with adaptations and limits on size of gatherings:

- Personal care (hair and nail salons, gyms)
- Entertainment venues (movie theaters, sports without live audiences)
- In-person religious services (churches, weddings)

Stage 4: End of Stay-At-Home Order

Re-open highest risk workplaces with all indicators satisfied once therapeutics have been developed:

- Concerts
- Convention Centers
- Live audience sports

Be Part of the Solution

Stay Home. Practice Physical Distancing.

We are enlisting all Californians to help inform the development of guidance for sectors across our economy.

This guidance will provide a framework for how to safely re-open.

CALIFORNIA
ALL

EXECUTIVE DEPARTMENT
STATE OF CALIFORNIA

EXECUTIVE ORDER N-60-20

WHEREAS on March 4, 2020, I proclaimed a State of Emergency to exist in California as a result of the threat of COVID-19; and

WHEREAS on March 19, 2020, I issued Executive Order N-33-20, which directed all California residents to immediately heed current State public health directives; and

WHEREAS State public health directives, available at <https://covid19.ca.gov/stay-home-except-for-essential-needs/>, have ordered all California residents stay home except for essential needs, as defined in State public health directives; and

WHEREAS COVID-19 continues to menace public health throughout California; and

WHEREAS the extent to which COVID-19 menaces public health throughout California is expected to continue to evolve, and may vary from place to place within the State; and

WHEREAS California law promotes the preservation of public health by providing for local health officers—appointed by county boards of supervisors and other local authorities—in addition to providing for statewide authority by a State Public Health Officer; and

WHEREAS these local health officers, working in consultation with county boards of supervisors and other local authorities, are well positioned to understand the local needs of their communities; and

WHEREAS local governments are encouraged to coordinate with federally recognized California tribes located within or immediately adjacent to the external geographical boundaries of such local government jurisdiction; and

WHEREAS the global COVID-19 pandemic threatens the entire State, and coordination between state and local public health officials is therefore, and will continue to be, necessary to curb the spread of COVID-19 throughout the State; and

WHEREAS State public health officials have worked, and will continue to work, in consultation with their federal, state, and tribal government partners; and

WHEREAS the State Public Health Officer has articulated a four-stage framework—which includes provisions for the reopening of lower-risk businesses and spaces (“Stage Two”), to be followed by the reopening of higher-risk businesses and spaces (“Stage Three”)—to allow Californians to gradually resume various activities while continuing to preserve public health in the face of COVID-19; and

WHEREAS the threat posed by COVID-19 is dynamic and ever-changing, and the State's response to COVID-19 (including implementation of the four-stage framework) should likewise retain the ability to be dynamic and flexible; and

WHEREAS to preserve this flexibility, and under the provisions of Government Code section 8571, I find that strict compliance with the Administrative Procedure Act, Government Code section 11340 et seq., would prevent, hinder, or delay appropriate actions to prevent and mitigate the effects of the COVID-19 pandemic.

NOW, THEREFORE, I, GAVIN NEWSOM, Governor of the State of California, in accordance with the authority vested in me by the State Constitution and statutes of the State of California, and in particular, Government Code sections 8567, 8571, 8627, and 8665; and also in accordance with the authority vested in the State Public Health Officer by the laws of the State of California, including but not limited to Health and Safety Code sections 120125, 120130, 120135, 120140, 120145, 120150, 120175, and 131080; do hereby issue the following Order to become effective immediately:

IT IS HEREBY ORDERED THAT:

- 1) All residents are directed to continue to obey State public health directives, as made available at <https://covid19.ca.gov/stay-home-except-for-essential-needs/> and elsewhere as the State Public Health Officer may provide.
- 2) As the State moves to allow reopening of lower-risk businesses and spaces ("Stage Two"), and then to allow reopening of higher-risk businesses and spaces ("Stage Three"), the State Public Health Officer is directed to establish criteria and procedures—as set forth in this Paragraph 2—to determine whether and how particular local jurisdictions may implement public health measures that depart from the statewide directives of the State Public Health Officer.

In particular, the State Public Health Officer is directed to establish criteria to determine whether and how, in light of the extent to which the public health is menaced by COVID-19 from place to place within the State, local health officers may (during the relevant stages of reopening) issue directives to establish and implement public health measures less restrictive than any public health measures implemented on a statewide basis pursuant to the statewide directives of the State Public Health Officer.

The State Public Health Officer is further directed to establish procedures through which local health officers may (during the relevant stages of reopening) certify that, if their respective jurisdictions are subject to proposed public health measures (which they shall specify to the extent such specification may be required by the State Public Health Officer) that are less restrictive than public health measures implemented on a statewide basis pursuant to the statewide directives of the State Public Health Officer, the public health will not be menaced. The State Public Health Officer shall additionally establish procedures to permit, in a manner consistent with public health and

safety, local health officers who submit such certifications to establish and implement such less restrictive public health measures within their respective jurisdictions.

The State Public Health Officer may, from time to time and as she deems necessary to respond to the dynamic threat posed by COVID-19, revise the criteria and procedures set forth in this Paragraph 2. Nothing related to the establishment or implementation of such criteria or procedures, or any other aspect of this Order, shall be subject to the Administrative Procedure Act, Government Code section 11340 et seq. Nothing in this Paragraph 2 shall limit the authority of the State Public Health Officer to take any action she deems necessary to protect public health in the face of the threat posed by COVID-19, including (but not limited to) any necessary revision to the four-stage framework previously articulated by the State Public Health Officer.

- 3) Nothing in this Order shall be construed to limit the existing authority of local health officers to establish and implement public health measures within their respective jurisdictions that are more restrictive than, or that otherwise exist in addition to, the public health measures imposed on a statewide basis pursuant to the statewide directives of the State Public Health Officer.

IT IS FURTHER ORDERED that as soon as hereafter possible, this Order be filed in the Office of the Secretary of State and that widespread publicity and notice be given of this Order.

This Order is not intended to, and does not, create any rights or benefits, substantive or procedural, enforceable at law or in equity, against the State of California, its agencies, departments, entities, officers, employees, or any other person.

IN WITNESS WHEREOF I have hereunto set my hand and caused the Great Seal of the State of California to be affixed this 4th day of May 2020.

Health Officer
5957 South Mooney Blvd.
Visalia, CA 93277 559-624-8480

**EXTENSION OF EMERGENCY ORDER FOR THE PREVENTION OF NOVEL CORONAVIRUS (COVID-19)
TRANSMISSION IN OR ABOUT RESTAURANTS, BARS, FOOD TRUCKS, GROCERY STORES, AND OTHER
RETAIL FOOD AND BEVERAGE SERVICE VENUES, ENTERTAINMENT AND RECREATIONAL VENUES,
GYMS, HEALTH CLUBS, THEATERS, CHURCHES, AND OTHER SOCIAL GATHERINGS**

WHEREAS, on March 11, 2020, the County Health Officer of the County of Tulare proclaimed and declared that a local health emergency now exists in the County of Tulare due to the presence of and threat posed by the novel coronavirus ("COVID-19"); and

WHEREAS, the Tulare County Board of Supervisors ratified said proclamation at its regular meeting of March 17, 2020; and

WHEREAS, said proclamation shall remain in effect until further notice; and

WHEREAS, the severity of the local health emergency appears to be increasing each day, with additional reported cases of COVID-19 infections and related deaths in all areas of California, the U.S., and throughout the world; and

WHEREAS, on March 16, 2020, the California Department of Public Health ("CDPH") and State Emergency officials issued guidance to local communities regarding public safety measures that should be taken with respect to (1) retail food, beverage, and related service venues, (2) entertainment venues; and (3) gyms, health clubs, theaters, and other social gatherings, in order to prevent the transmission of COVID-19;

WHEREAS, on March 19, 2020, the County Public Health Officer issued an Emergency Order For The Prevention Of Novel Coronavirus (COVID-19) Transmission In Or About Restaurants, Bars, Food Trucks, Grocery Stores, And Other Retail Food And Beverage Service Venues, Entertainment And Recreational Venues, Gyms, Health Clubs, Theaters, Churches, And Other Social Gatherings ("ORDER"), which is set to expire on April 19, 2020;

WHEREAS, on March 19, 2020, Governor Newsom issued Executive Order N-33-20 directing all California residents immediately to heed current State public health directives to stay home (shelter-in-place), except as needed to maintain continuity of operations of essential critical infrastructure sectors and additional sectors as the State Public Health Officer may designate as critical to protect the health and well-being of all Californians; and

WHEREAS, due to the continued transmission of COVID-19 throughout Tulare County, it is the opinion of the County Public Health Officer that it is necessary to continue to enforce the aforementioned orders to combat further transmission of the disease to Tulare County residents.

NOW, THEREFORE, pursuant to Tulare County Ordinance Code sections 1-15-1033 (b) and 1-15-1040 (b), and California Health and Safety Code sections 101040, 101085, and 120175, the County Public Health Officer extends the ORDER previously issued on March 19, 2020, until such a time that it is terminated or modified by the County Public Health Officer in writing.

IT IS SO ORDERED.

WHEREAS, on March 11, 2020, the County Health Officer of the County of Tulare proclaimed and declared that a local health emergency now exists in the County of Tulare due to the presence of and threat posed by the novel coronavirus ("COVID-19"); and

WHEREAS, the Tulare County Board of Supervisors ratified said proclamation at its regular meeting of March 17, 2020; and

WHEREAS, said proclamation shall remain in effect until further notice; and

WHEREAS, the severity of the local health emergency appears to be increasing each day, with additional reported cases of COVID-19 infections and related deaths in all areas of California, the U.S., and throughout the world; and

WHEREAS, the California Department of Public Health ("CDPH") and State Emergency officials have issued ongoing guidance to local communities regarding public safety measures that should be taken with respect to (1) retail food, beverage, and related service venues, (2) entertainment venues, and (3) gyms, health clubs, theaters, other social gatherings, and outdoor recreational activities, in order to prevent the transmission of COVID-19; and

WHEREAS, said guidance is designed to protect individuals attending and working at these venues and prevent the spread of COVID-19 in our communities; and

WHEREAS, under said guidance, available at <https://www.cdph.ca.gov/Programs/CID/DCDC/Pages/Immunization/ncov2019.aspx> and <https://covid19.ca.gov/stay-home-except-for-essential-needs/> the following actions have been recommended:

- **Bars, wineries, breweries and pubs** should be closed, except for venues that are currently authorized to provide off sale beer and wine to be consumed off premises be allowed; bars, breweries, pubs, and wineries that include meals provided by a full kitchen should follow the restaurant guidance below if they provide delivery or pick-up options;
- **Restaurants** should be closed for in-restaurant seated dining and should be open only to drive-through or other pick-up/delivery options;
- **Food trucks** should increase the frequency of cleaning of menus, cash registers, receipt trays, condiment holders, writing instruments and other non-food contact surfaces frequently touched by patrons and employees, ensure that social distancing of six feet per person between those who are not members of the same household is maintained and make clear that members of the same household can participate together, stand in line together, etc., but limiting the number of

people in lines;

- **Grocery stores and charitable food distribution sites** should remain fully open and operational, but ensure that social distancing of six feet per person between those who are not members of the same household is maintained and make clear that members of the same household can participate in activities together, stand in line together, etc., and limiting the number of customers at any given time as necessary to reduce outdoor/indoor crowding and lines to meet social distancing guidance, and increase cleaning and sanitizing frequency of restroom and other high contact areas; and stores that have online ordering with outside pick-up or delivery options should encourage use of these when possible in lieu of indoor shopping;
- **Certified Farmers' Markets** should space booths accordingly to increase social distancing among patrons in line and walking about the market; ensure that social distancing of six feet per person between those who are not members of the same household is maintained and make clear that members of the same household can participate in activities together, stand in line together, etc.; limit the number of customers at any given time as necessary to reduce outdoor/indoor crowding and lines to meet social distancing guidance; increase cleaning and sanitizing frequency of restroom and other high contact areas; train employees on best hygiene practices including washing their hands often with soap and water for at least 20 seconds; offer additional hand washing or sanitizing stations throughout the venue; encourage activities such as pre-bagging to expedite purchasing; suspend sampling activities; increase frequency of cleaning of tables, payment devices, and other surfaces; eliminate non-essential/non-related services, such as bands or other entertainment; and at the end of the market, continue to utilize local food recovery systems to feed/donate extra products to populations in need;
- **All retail food and beverage service venues** should remind employees of best hygiene practices including washing their hands often with soap and water for at least 20 seconds;
- **Gambling venues** should eliminate, delay, or reduce conventions/tournaments that increase customer flow above 250 persons in a single room/space; increase frequency of cleaning of chips, shuffling machines, and other objects utilized in games; increase frequency of cleaning and/or disposal of playing cards; eliminate non-essential/non-related services, such as massages or other ancillary services co-housed in gambling venues that could increase customer flow above 250 persons in a single room/space; ensure that social distancing of six feet per person between those who are not members of the same household is maintained and make clear that members of the same household can participate together, stand in line together etc.; limit the number of people in lines; separate spaces on the gaming floor into smaller components; increase frequency of cleaning and sanitizing per CDC Environmental Cleaning and Disinfection guidance of all hard surfaces, including terminals and felt and vinyl surfaces of card tables and chairs; increase cleaning and sanitizing frequency of restroom and other high contact areas; eliminate events/marketing that target individuals that the CDPH has identified higher risk of serious illness for COVID-19 ; provide additional opportunities throughout the venue for persons to reduce the spread of the virus through hand washing or sanitizing stations;
- **Theme Parks and Attractions** should ensure that social distancing of six feet per between those who are not members of the same household is maintained and make clear that members of the same household can participate in activities together, stand in line together etc.; limit attendance as necessary to reduce outdoor/indoor crowding and lines to meet social distancing guidance; increase cleaning and sanitizing frequency of restroom and other high contact areas; train employees on best hygiene practices including washing their hands often with soap and water for at least 20 seconds; increase spacing of show times to allow for more thorough cleaning of single room or space and social distancing during show times; provide additional opportunities throughout the venue for persons to reduce the spread of the virus through hand washing or sanitizing stations; eliminate events/marketing that target individuals that the CDPH has

identified as higher risk of serious illness for COVID-19; extend hours to allow for staggering of attendance; and add distance to locations individuals sit or stand around tables;

- **Gyms, health clubs, and theaters** should be closed;
- **All gatherings** (defined as any event or convening that brings together people in a single room or single space at the same time, such as an auditorium, stadium, arena, large conference room, meeting hall, cafeteria, or any other indoor or outdoor space) should be postponed or cancelled, except for those defined as “essential,” meaning that they cannot be postponed or achieved without gathering, and that some other means of communication could not be used to conduct the essential function.
- **Face coverings**, such as scarves (dense fabric, without holes), bandanas, neck gaiters, or other fabric face coverings, should be worn by all persons over the age of two years at all times while inside of or waiting to enter any business or facility, while riding or waiting to ride any public or shared transportation, and at any other time when it is impossible to maintain a distance of six-feet between persons who are not members of a shared household. All persons, including Essential Workers are discouraged from using Personal Protective Equipment (PPE), such as N95 masks, for non-medical reasons, because supply must be available to healthcare workers.

WHEREAS, the increasing threat posed by COVID-19 in Tulare County makes it advisable that the actions recommended in said guidance become mandatory in the incorporated and unincorporated areas of County of Tulare at least for the time being.

NOW, THEREFORE, pursuant to Tulare County Ordinance Code sections 1-15-1033 (b) and 1-15-1040 (b), and California Health and Safety Code sections 101040, 101085, and 120175, the Health Officer of the County of Tulare hereby orders as follows, which shall be effective immediately and remain in effect until such a time that it is terminated or modified by the County Public Health Officer in writing:

1. Definitions:

- a) Restaurant: Any establishment that sells food for consumption on-premises.
- b) Food Court: Any establishment that sells food for consumption on-premises in a shared setting with other establishments.
- c) Bar and tavern: Any establishment with the following types of California Alcoholic Beverage Control licenses:
 - 1) 40 - On Sale Beer (Bar, Tavern)
 - 2) 42 - On Sale Beer & Wine - Public Premises (Bar, Tavern)
 - 3) 48 - On Sale General - Public Premises (Bar, Night Club)
 - 4) 51 - Club
 - 5) 57 - Special On Sale General
 - 6) 60 - On Sale Beer - Seasonal
 - 7) 61 - On Sale Beer - Public Premises
- d) Food truck: Any “mobile food facility” within the meaning of the California Retail Food Code.
- e) Certified Farmers’ Market: A location that is certified by the State of California through the enforcement officers of the county agricultural commissioners and operated pursuant to Chapter 10.5 (commencing with Section 47000) of Division 17 of the Food and Agricultural Code and regulations adopted pursuant to that chapter.
- f) Grocery Store: Any store primarily engaged in the retail sale of canned food, dry goods, fresh fruits and vegetables, and fresh meats, fish, and poultry and any area that is not separately owned within the store where food is prepared and served, including a bakery, deli, and meat and

seafood counter. "Grocery store" includes convenience stores.

- g) Charitable Food Distribution Site: A "food bank" or "limited service charitable feeding operation" within the meaning of the California Retail Food Code.
 - h) Gambling venue: Any cardroom, casino, or similar site where the primary goal of those assembled is the wagering of money or other things of value on events with uncertain outcomes, with the primary intent of winning money or material goods, and over which the Tulare County Public Health Officer has jurisdiction.
 - i) Entertainment and recreational venue: Any site where the primary goal of those assembled is to promote amusement, enjoyment, pleasure, recreation, diversion, relaxation, and other similar uses, including, but not limited to, theme parks, amusement parks, attractions, theaters, museums, roller rinks, skate parks, sports stadiums, bowling alleys, and the like.
 - j) Theme park: Any entertainment venue or amusement park in which rides, games, and buildings are based on a central theme.
 - k) Amusement Park: Any entertainment venue that features various attractions such as rides and games, as well as other events for entertainment purposes.
 - l) Attraction: Any place of interest where persons visit, typically for its inherent or exhibited natural or cultural value, historical significance, natural or built beauty, offering leisure and amusement.
 - m) Gym and Health Club: Any room or building used for various indoor sports or exercise activities, and usually equipped with exercise or gymnastic apparatus, locker and shower rooms, indoor or outdoor swimming pools, sports courts, and similar spaces.
 - n) Theater: Any entertainment venue used for housing dramatic presentations, stage entertainments, or motion-picture shows.
 - o) Church: Any site, with or without structures, the primary use of which is the assemblage of people for any religious worship, education, or expression.
 - p) Social gathering: Any event or convening that brings together people in a single room or single space at the same time, such as an auditorium, stadium, arena, large conference room, meeting hall, cafeteria, or any other indoor or outdoor space.
 - q) Outdoor recreational activities: Any activity that can be done in an outside setting, including but not limited to, individual and group sports.
2. **Restaurants, Food Courts, and other establishments** that offer on-premises dining shall not allow consumption of food or beverages on-premises. Delivery, drive-thru, and pick-up options are allowed.
 3. **Bars and taverns** shall be closed.
 4. **Food Trucks** shall not allow consumption of food or beverages on or about the premises and shall increase the frequency of cleaning of menus, cash registers, receipt trays, condiment holders, writing instruments and other non-food contact surfaces frequently touched by patrons and employees; ensure that social distancing of six feet per person between those who are not members of the same household is maintained and make clear that members of the same household can participate together, stand in line together, etc., but limit the number of people in their lines. All employees of the Food Truck should wear an appropriate face covering at all times.
 5. **Certified Farmers' Markets** shall space booths accordingly to increase social distancing among patrons in line and walking about the market; ensure that social distancing of six feet per between those who are not members of the same household is maintained and make clear that members of the same household can participate in activities together, stand in line together, etc.; limit the number of customers at any given time as necessary to reduce outdoor/indoor crowding and lines to meet social distancing guidance; increase cleaning and sanitizing frequency of restroom and other high contact areas; train employees on best hygiene practices including washing their hands often with

soap and water for at least 20 seconds; offer additional hand washing or sanitizing stations throughout the venue; encourage activities such as pre-bagging to expedite purchasing; suspend sampling activities; increase frequency of cleaning of tables, payment devices, and other surfaces; eliminate non-essential/non-related services, such as bands or other entertainment; and at the end of the market, continue to utilize local food recovery systems to feed/donate extra products to populations in need. All persons providing essential services at a Farmers' Market should wear an appropriate face covering at all times.

6. **Grocery Stores and Charitable Food Distribution Sites** are allowed to remain fully open and operational, but must ensure that social distancing of six feet per person between those who are not members of the same household is maintained and make clear that members of the same household can participate in activities together, stand in line together, etc.; limit the number of customers at any given time as necessary to reduce outdoor/indoor crowding and lines to meet social distancing guidance; increase cleaning and sanitizing frequency of restroom and other high contact areas; and stores that have online ordering with outside pick-up or delivery options should encourage use of these when possible in lieu of indoor shopping. All employees of the grocery store or charitable food distribution site should wear an appropriate face covering at all times.
7. **All retail food, beverage, and other related service venues** shall remind employees of best hygiene practices including washing their hands often with soap and water for at least 20 seconds. All venues should require employees to wear an appropriate face covering at all times.
8. **Gambling venues** shall be closed.
9. **Entertainment and recreational venues**, including, but not limited to, theme parks, amusement parks, attractions, theaters, museums, roller rinks, skate parks, sports stadiums, bowling alleys, and the like, shall be closed.
10. **Gyms and health clubs** shall be closed;
11. **All social gatherings**, including, but not limited to church services, meetings of service and social clubs, conferences, conventions, and the like, shall be postponed or cancelled.
12. **Outdoor recreational activities** are permissible as long as it is feasible to maintain a safe physical distance of six feet and gather only with members of the same household at all times during said activity(ies). Individual outdoor recreational activities are permissible as long as it is feasible to maintain a safe physical distance of six feet at all times during said activity. Any outdoor group sports or activities shall be postponed or cancelled unless the sport or activity can be done individually or with members of the same household only. There should be no shared equipment between persons who are not members of the same household. Visit <https://covid19.ca.gov/stay-home-except-for-essential-needs/#top>, Outdoor Recreation section for a list of requirements, specifically allowed activities, and further guidance from the state of California.
13. For those businesses closed under this Order, business owners, managers, and supervisory staff are allowed to be on site to conduct minimum basic operations, provided that they each observe the social distancing and best personal hygiene practices (including washing their hands often with soap and water for at least 20 seconds) outlined above.
14. No County permits for special events shall be granted. All County permits for special events previously issued are revoked or postponed.
15. No temporary ABC licenses shall be authorized by the County.
16. For personal and public health and safety purposes, all residents of and visitors to Tulare County are strongly urged to practice social distancing of six feet per person when able to do so, wash their hands often with soap and water for at least 20 seconds, wear face coverings, such as scarves (dense fabric, without holes), bandanas, neck gaiters, or other fabric face coverings, at all times while inside of or waiting to enter any business or facility, while riding or waiting to ride any public or shared

transportation, and at any other time when it is impossible to maintain a distance of six-feet between persons who are not members of a shared household and follow all other guidance from public health officials with regard to the threat posed by COVID-19.

17. Each incorporated city within Tulare County is urged and requested to take such actions, if any, as may be reasonably necessary to permit this Order to be fully enforced within its respective jurisdiction.
18. The Public Health Branch of the Tulare County Health and Human Services Agency, the Tulare County District Attorney's office, the Tulare County Counsel's office, and all other applicable County of Tulare Agencies, Departments, and Divisions are requested and directed to enforce this Order within their respective jurisdictions.
19. Pursuant to California Government Code section 26602, the Sheriff of Tulare County is requested to enforce this Order within the Sheriff's jurisdiction to prevent the spread of COVID-19.
20. Pursuant to California Government Code section 41601, the chiefs of the police departments of the Cities of Visalia, Tulare, Porterville, Dinuba, Exeter, Lindsay, Woodlake, and Farmersville are requested to enforce this Order within their respective jurisdictions to prevent the spread of COVID-19.
21. The Order shall be subject to amendment or repeal at any time and shall not be deemed to confer any contractual obligations, property rights, or assume any County or other public agency liability.
22. If any provision of this Order or its application to any person or circumstance is held to be invalid, then the remainder of the Order, including the application of such part or provision to other persons or circumstances, shall not be affected and shall continue in full force and effect. To this end, the provisions of this Order are severable.
23. This Order shall be immediately translated into Spanish, and accommodations made for disabled persons to read its contents; it shall also be distributed to all local media and made prominently available on the County of Tulare's website.
24. Pursuant to California Health and Safety Code sections 101029 and 120280, and Tulare County Ordinance Code sections 1-15-1040(b) and 125, violations of this Order shall be punishable as a misdemeanor upon conviction by a fine of not exceeding one thousand dollars or by imprisonment for a term of not exceeding six months, or by both such fine and imprisonment.

IT IS SO ORDERED.

Health Advisory Recommending Face Coverings for the Public and Essential Workers

This health advisory seeks to inform the public about the need for Face Coverings when outside the home for the prevention and source control of COVID-19.

Summary

- Tulare County Public Health urges the public to use Face Coverings while attending to essential activities in order to reduce the spread of COVID-19
- Individuals are asked to ensure effective use of Face Coverings by washing their hands after putting on and taking of the Face Covering
- Essential businesses and their employees are asked to utilize Face Coverings when providing services to the public
- Essential businesses are asked to post signage informing the public of the requirement to utilize Face Coverings

The United States Centers for Disease Control and Prevention ("CDC"), California Department of Public Health ("CDPH"), and the Tulare County Public Health Branch ("TCPH") have recommended that members of the public, should cover the mouth and nose to prevent inadvertently spreading the virus that causes Coronavirus Disease 2019 ("COVID-19"). One key transmission method for the COVID-19 virus is respiratory droplets that people expel when they breathe or sneeze. Individuals have been found to be infected with COVID-19 and not have any symptoms, meaning they are asymptomatic, but they can still be contagious. People can also be infected and contagious 48 hours before developing symptoms, the time when they are pre-symptomatic. Many people with the COVID-19 virus have mild symptoms and do not recognize they are infected and contagious, and they can unintentionally infect others. Therefore, the CDC, CDPH, and TCPH believe that wearing a face covering, when combined with physical distancing of at least 6 feet and frequent hand washing, may reduce the risk of transmitting coronavirus when in public and engaged in essential activities by reducing the spread of respiratory droplets. *For clarity, although wearing a face covering is one tool for reducing the spread of the virus, doing so is not a substitute for sheltering in place, physical distancing of at least 6 feet, and frequent hand washing.*

This Advisory requires that people wear Face Coverings in three main settings. First, members of the public must wear Face Coverings while inside of or waiting in line to enter Essential Businesses and other businesses or facilities engaged in Minimum Basic Operations, providing Essential Infrastructure, and providing Essential Government Functions (except Healthcare Operations, which are subject to different requirements), when seeking healthcare from Healthcare Operations, and when waiting for or riding on

Agency Director

public transportation and other types of shared transportation. These settings are defined further below.

Second, this Advisory also requires employees, contractors, owners, and volunteers of all Essential Businesses or those operating public transportation and other types of shared transportation to wear a Face Covering when at work.

And third, this Advisory also requires workers engaged in Minimum Basic Operations, Essential Infrastructure work, and Essential Government Functions to wear a Face Covering in areas where the public is present or likely to be and at any time when others are nearby.

This Advisory does not require that any child aged twelve years or younger wear a Face Covering and recommends that any child aged two years or younger should not wear one because of the risk of suffocation. This Advisory also does not apply to people who are in their own cars alone or with members of their own household. It also does not require people wear Face Coverings while engaged in outdoor recreation such as hiking, bicycling, or running, though it does recommend that they have a Face Covering with them and still requires them to practice social distancing and other measures to protect against transmission of the virus.

Definition of Face Coverings

As used in this Advisory, a "Face Covering" means a covering made of cloth, fabric, or other soft or permeable material, without holes, that covers only the nose and mouth and surrounding areas of the lower face. A covering that hides or obscures the wearer's eyes or forehead is not a Face Covering. Examples of Face Coverings include a scarf or bandana; a neck gaiter; a homemade covering made from a t-shirt, sweatshirt, or towel, held on with rubber bands or otherwise; or a mask, which need not be medical-grade. A Face Covering may be factory-made, or may be handmade and improvised from ordinary household materials. The Face Covering should be comfortable, so that the wearer can breathe comfortably through the nose and does not have to adjust it frequently, so as to avoid touching the face. For as long as medical grade masks such as N95 masks and surgical masks are in short supply, members of the public should not purchase those masks as Face Coverings under this Advisory. In general, even when not required by this Advisory, people are strongly encouraged to wear Face Coverings when in public.

A video showing how to make a face covering and additional information about how to wear and clean Face Coverings may be found at the website of Centers for Disease Control and Prevention, at <https://www.cdc.gov/coronavirus/2019-ncov/prevent-getting-sick/diy-cloth-face-coverings.html>.

Effective Use

Face Coverings must be worn in such a manner as to contain respiratory droplets and minimize transmission of the virus via the hands. To achieve this, Face Coverings should fit snugly and be washed daily. Cloth Face Coverings can be safely cleaned in a washing machine or by hand as the materials

TULARE COUNTY HEALTH & HUMAN SERVICES AGENCY

Karen Haught, MD, M.P.H. • County Health Officer

permit. Individuals should be careful not to touch their eyes, nose, or mouth when removing their Face Coverings and wash their hands immediately after removing.

Members of the Public

All members of the public, except as specifically exempted below, must wear a Face Covering outside their home or other place they reside in the following situations:

1. When they are inside of, or in line to enter, any Essential Business, including, but not limited to, grocery stores, convenience stores, supermarkets, laundromats, and restaurants;
2. When they are inside or at any location or facility engaging in Minimum Basic Operations or seeking or receiving Essential Government Functions inside of any location or facility;
3. When they are engaged in Essential Infrastructure work
4. When they are obtaining services at Healthcare Operations— including hospitals, clinics, COVID-19 testing locations, dentists, pharmacies, blood banks and blood drives, other healthcare facilities, mental health providers, or facilities providing veterinary care and similar healthcare services for animals — unless directed otherwise by an employee or worker at the Healthcare Operation; or
5. When they are waiting for or riding on public transportation or paratransit or are in a taxi, private car service, or ride-sharing vehicle.

Essential Businesses and Infrastructure

All Essential Businesses, as well as entities and organizations with workers engaged in Essential Infrastructure work, Minimum Basic Operations, or Essential Government Functions (except for Healthcare Operations, which are subject to their own regulation regarding specified face coverings), must:

1. Require their employees, contractors, owners, and volunteers to wear a Face Covering at the workplace and when performing work off-site any time the employee, contractor, owner, or volunteer is:
 - a. interacting in person with any member of the public;
 - b. working in any space visited by members of the public, such as by way of example and without limitation reception areas, grocery store or pharmacy aisles, service counters, public restrooms, cashier and checkout waiting rooms, service areas, and other spaces used to interact with the public, regardless of whether anyone from the public is present at the time;
 - c. working in any space where food is prepared or packaged for sale or distribution to others;
 - d. working in or walking through common areas such as hallways, stairways, elevators, and parking facilities; or
 - e. in any room or enclosed area when other people (except for members of the person's own household or residence) are present.

TULARE COUNTY HEALTH & HUMAN SERVICES AGENCY

Timothy W. Lutz, MBA
Agency Director

Karen M. Elliott, MBA • Public Health Branch Director
Karen Haught, MD, M.P.H. • County Health Officer

2. Take reasonable measures, such as posting signs, to remind their customers and the public of the requirement that they wear a Face Covering while inside of or waiting in line to enter the business, facility, or location. Essential Businesses and entities or organizations that engaged in Essential Infrastructure work or Minimum Basic Operations must take all reasonable steps to prohibit any member of the public who is not wearing a Face Covering from entering and must not serve that person if those efforts are unsuccessful and seek to remove that person.

For clarity, a Face Covering is not required when a person is in a personal office (a single room) when others outside of that person's household are not present as long as the public does not regularly visit the room.

Exceptions

1. Any child aged two years or less must not wear a Face Covering because of the risk of suffocation. This Order does not require that any child aged twelve years or less wear a Face Covering. Parents and caregivers must supervise use of Face Coverings by children to avoid misuse.
2. Wearing a Face Covering is recommended, but not required, while engaged in outdoor recreation such as hiking, bicycling, or running. But each person engaged in such activity must comply with social distancing requirements including maintaining at least six feet of separation from all other people. Because running or bicycling causes people to more forcefully expel airborne particles, making the usual minimum 6 feet distance less adequate, runners and cyclists must take steps to avoid exposing others to those particles, which include the following measures: wearing a Face Covering when possible; crossing the street when running to avoid sidewalks with pedestrians; slowing down and moving to the side when unable to leave the sidewalk and nearing other people; never spitting; and avoiding running or cycling directly in front of or behind another runner or cyclist who is not in the same household.
3. This Advisory does not require any person to wear a Face Covering while driving alone, or exclusively with other members of the same family or household, in a motor vehicle.
4. A Face Covering is also not required by this Advisory to be worn by a particular individual if the person can show either: (1) a medical professional has advised that wearing a Face Covering may pose a risk to the person wearing the mask for health-related reasons; or (2) wearing a Face Covering would create a risk to the person related to their work as determined by local, state, or federal regulators or workplace safety guidelines. A Face Covering should also not be used by anyone who has trouble breathing or is unconscious, incapacitated, or otherwise unable to remove the Face Covering without assistance.

Conclusion

The intent of this Order is to ensure that all people who are visiting or working at Essential Businesses

**TULARE COUNTY
HEALTH & HUMAN SERVICES AGENCY**

Timothy W. Lutz, MBA
Agency Director

Karen M. Elliott, MBA • Public Health Branch Director
Karen Haught, MD, M.P.H. • County Health Officer

and all people who are seeking care at healthcare facilities or engaged in certain types of public transit or transportation with others wear a Face Covering to reduce the likelihood that they may transmit or receive the COVID-19 virus. The intent of this Advisory is also to ensure that people who work for or seek services from entities engaged in Essential Infrastructure work, Minimum Basic Operations, or Essential Government Functions also wear a Face Covering when they are in close proximity to others. In so doing, this Advisory will help reduce the spread of the COVID-19 virus and mitigate the impact of the virus on members of the public and on the delivery of critical healthcare services to those in need. All provisions of this Advisory must be interpreted to effectuate this intent.

EMERGENCY ORDER FOR THE PREVENTION OF NOVEL CORONAVIRUS (COVID-19) TRANSMISSION

WHEREAS, on March 4, 2020, the Governor of the State of California proclaimed a state of Emergency now exists in the State of California due to the presence of and threat posed by the novel coronavirus ("COVID-19"); and

WHEREAS, on March 11, 2020, the County Health Officer of the County of Tulare proclaimed and declared that a local health emergency now exists in the County of Tulare due to the presence of and threat posed by COVID-19; and

WHEREAS, the Tulare County Board of Supervisors ratified said proclamation at its regular meeting of March 17, 2020; and

WHEREAS, said proclamation shall remain in effect until further notice; and

WHEREAS, on March 19, 2020, the Governor of the State of California issued Executive Order N-33-20, ordering that all Californians shelter in place to preserve public health and safety ("Shelter in Place Order"); and

WHEREAS, the Shelter in Place Order has been successful in slowing the transmission and infection rate of COVID-19 in the State of California; and

WHEREAS, on March 19, 2020 the County Health Officer of the County of Tulare issued an EMERGENCY ORDER FOR THE PREVENTION OF NOVEL CORONAVIRUS (COVID-19) TRANSMISSION IN OR ABOUT RESTAURANTS, BARS, FOOD TRUCKS, GROCERY STORES, AND OTHER RETAIL FOOD AND BEVERAGE SERVICE VENUES, ENTERTAINMENT AND RECREATIONAL VENUES, GYMS, HEALTH CLUBS, THEATERS, CHURCHES, OTHER SOCIAL GATHERINGS, AND OUTDOOR RECREATIONAL ACTIVITIES, which order was extended on April 8, 2020, and amended on May 5, 2020 (the "Amended Emergency Order"); and

WHEREAS, on April 14, 2020, the State of California presented the Pandemic Roadmap, a four-stage plan for modifying the Shelter in Place Order, and defining the statewide current status under the plan as being at Stage 1; and

WHEREAS, on May 4, 2020, the State announced that entry into Stage 2 of the plan would begin on May 8, 2020 for all Counties, subject to certain conditions and certain guidance; and

WHEREAS, advancement within the Pandemic Roadmap by an individual County can be accomplished by meeting certain State-defined criteria and procedures; and

WHEREAS, the Pandemic Roadmap is designed to prevent the spread of COVID-19 in California while allowing parts of our state to safely reopen; and

WHEREAS, it is advisable that the State criteria, procedures, and guidance for the stages of the Pandemic

Roadmap become mandatory in the incorporated and unincorporated areas of County of Tulare.

NOW, THEREFORE, pursuant to Tulare County Ordinance Code sections 1-15-1033 (b) and 1-15-1040 (b), and California Health and Safety Code sections 101040, 101085, and 120175, the Health Officer of the County of Tulare hereby orders as follows, which shall be effective immediately and remain in effect until such a time that it is terminated or modified by the County Public Health Officer in writing:

1. **The Amended Emergency Order** is hereby terminated. Any previous Public Health Orders, other than the Emergency Declaration dated March 11, 2020, not previously terminated by the Amended Emergency Order are hereby terminated.
2. **The Shelter in Place Order**, the emergency orders of the State Public Health Director related to the COVID-19 pandemic, and the State's Pandemic Roadmap and guidance issued with respect to the roadmap, as may be amended, modified, or supplemented from time-to-time by their makers, are hereby adopted as emergency orders of the County Health Officer of the County of Tulare and enforceable as such.
3. **Only** the activities and businesses authorized by the County's current stage of the Pandemic Roadmap shall be allowed. The County's current stage of the Pandemic Roadmap can be found at <https://covid19.tularecounty.ca.gov/>.
4. **Bars, wineries, breweries and pubs** shall follow the State's guidelines and shall be closed until allowed under the County's current stage of the Pandemic Roadmap.
5. **Restaurants** shall follow the State's guidelines and shall be open only to drive-through or other pickup/delivery options and shall not open their in-restaurant seated dining nor allow consumption of food or beverages on-premises until allowed under the County's current stage of the Pandemic Roadmap.
6. **Food Trucks** shall follow the State's guidelines and shall not allow consumption of food or beverages on or about the premises until allowed under the County's current stage of the Pandemic Roadmap.
7. **Certified Farmers' Markets** shall follow the State's guidelines and shall space booths accordingly to increase social distancing and shall eliminate non-essential/non-related services, such as bands or other entertainment until allowed under the County's current stage of the Pandemic Roadmap.
8. **Gambling venues** shall follow the State's guidelines and shall be closed until allowed under the County's current stage of the Pandemic Roadmap.
9. **Entertainment and recreational venues**, including, but not limited to, theme parks, amusement parks, attractions, theaters, museums, roller rinks, skate parks, sports stadiums, bowling alleys, and the like, shall follow the State's guidelines and shall be closed until allowed under the County's current stage of the Pandemic Roadmap.
10. **Gyms and health clubs** shall follow the State's guidelines and shall be closed until allowed under the County's current stage of the Pandemic Roadmap.
11. **All social gatherings**, including, but not limited to church services, meetings of service and social

clubs, conferences, conventions, and the like, shall be postponed or cancelled until allowed under the County's current stage of the Pandemic Roadmap.

12. **Outdoor recreational activities** shall be permissible as long as it is feasible to maintain a safe physical distance of six feet and gather only with members of the same household at all times during said activity(ies). Individual outdoor recreational activities are permissible as long as it is feasible to maintain a safe physical distance of six feet at all times during said activity. Any outdoor group sports or activities shall be postponed or cancelled unless the sport or activity can be done individually or with members of the same household only. There should be no shared equipment between persons who are not members of the same household. Visit <https://covid19.ca.gov/stay-home-except-for-essential-needs/#top>, Outdoor Recreation section for a list of requirements, specifically allowed activities, and further guidance from the state of California. These social distancing requirements shall remain in place as they relate to Outdoor Recreation Activities until abolished under the County's current stage of the Pandemic Roadmap.
13. For those businesses closed under this Order, business owners, managers, and supervisory staff are allowed to be on site to conduct minimum basic operations, provided that they each observe the social distancing and best personal hygiene practices (including washing their hands often with soap and water for at least 20 seconds) outlined above.
14. No County permits for special events shall be granted, all County permits for special events previously issued are revoked or postponed, and no temporary ABC licenses shall be authorized by the County until social gatherings are permitted under the County's current stage of the Pandemic Roadmap.
15. For personal and public health and safety purposes, all residents of and visitors to Tulare County are strongly urged to practice social distancing of six feet per person when able to do so, wash their hands often with soap and water for at least 20 seconds, wear face coverings, such as scarves (dense fabric, without holes), bandanas, neck gaiters, or other fabric face coverings, at all times while inside of or waiting to enter any business or facility, while riding or waiting to ride any public or shared transportation, and at any other time when it is impossible to maintain a distance of six-feet between persons who are not members of a shared household and follow all other guidance from public health officials with regard to the threat posed by COVID-19.
16. Each incorporated city within Tulare County is urged and requested to take such actions, if any, as may be reasonably necessary to permit this Order to be fully enforced within its respective jurisdiction.
17. The Public Health Branch of the Tulare County Health and Human Services Agency, the Tulare County District Attorney's office, the Tulare County Counsel's office, and all other applicable County of Tulare Agencies, Departments, and Divisions are requested and directed to enforce this Order within their respective jurisdictions.
18. Pursuant to California Government Code section 26602, the Sheriff of Tulare County is requested to enforce this Order within the Sheriff's jurisdiction to prevent the spread of COVID-19.
19. Pursuant to California Government Code section 41601, the chiefs of the police departments of the

Cities of Visalia, Tulare, Porterville, Dinuba, Exeter, Lindsay, Woodlake, and Farmersville are requested to enforce this Order within their respective jurisdictions to prevent the spread of COVID-19.

20. The Order shall be subject to amendment or repeal at any time and shall not be deemed to confer any contractual obligations, property rights, or assume any County or other public agency liability.
21. If any provision of this Order or its application to any person or circumstance is held to be invalid, then the remainder of the Order, including the application of such part or provision to other persons or circumstances, shall not be affected and shall continue in full force and effect. To this end, the provisions of this Order are severable.
22. This Order shall be immediately translated into Spanish, and accommodations made for disabled persons to read its contents; it shall also be distributed to all local media and made prominently available at <https://covid19.tularecounty.ca.gov/>.
23. Pursuant to California Health and Safety Code sections 101029 and 120280, and Tulare County Ordinance Code sections 1-15-1040(b) and 125, violations of this Order shall be punishable as a misdemeanor upon conviction by a fine of not exceeding one thousand dollars or by imprisonment for a term of not exceeding six months, or by both such fine and imprisonment.
24. Pursuant to Tulare County Ordinance Code sections 4-01-1070 and 4-01-1315, violations of this Order may be considered a public nuisance.
25. Pursuant to Tulare County Ordinance Code sections 1-23-1000 and 1-23-1015 violations of this Order shall be subject to an administrative fine or penalty.
26. All open businesses, facilities, retail food, venues shall ensure social distancing of six feet per person between those who are not members of the same household, limit the number of customers at any given time as necessary to reduce outdoor/indoor crowding and lines to meet social distancing guidance, increase cleaning and sanitizing frequency of all contact areas, encourage use of online ordering with curbside pickup or delivery options in lieu of indoor shopping, remind employees of best hygiene practices including washing their hands often with soap and water for at least 20 seconds and wearing appropriate face covering when necessary.
27. Current guidance related to the Pandemic Roadmap is located at <https://covid19.ca.gov/roadmap/>.
28. Tulare County's Current Stage and information related to allowable businesses and activities is located at <https://covid19.tularecounty.ca.gov/>.
29. For personal and public health and safety purposes, all residents of and visitors to Tulare County are strongly urged to practice social distancing of six feet per person when able to do so, wash their hands often with soap and water for at least 20 seconds, wear face coverings, such as scarves (dense fabric, without holes), bandanas, neck gaiters, or other fabric face coverings, at all times while inside of or waiting to enter any business or facility, while riding or waiting to ride any public or shared transportation, and at any other time when it is impossible to maintain a distance of six-feet between

persons who are not members of a shared household and follow all other guidance from public health officials with regard to the threat posed by COVID-19.

30. Each incorporated city within Tulare County is urged and requested to take such actions, if any, as may be reasonably necessary to permit this Order to be fully enforced within its respective jurisdiction.
31. The Public Health Branch of the Tulare County Health and Human Services Agency, the Tulare County District Attorney's office, the Tulare County Counsel's office, and all other applicable County of Tulare Agencies, Departments, and Divisions are requested and directed to enforce this Order within their respective jurisdictions.
32. Pursuant to California Government Code section 26602, the Sheriff of Tulare County is requested to enforce this Order within the Sheriff's jurisdiction to prevent the spread of COVID-19.
33. Pursuant to California Government Code section 41601, the chiefs of the police departments of the Cities of Visalia, Tulare, Porterville, Dinuba, Exeter, Lindsay, Woodlake, and Farmersville are requested to enforce this Order within their respective jurisdictions to prevent the spread of COVID-19.
34. The Order shall be subject to amendment or repeal at any time and shall not be deemed to confer any contractual obligations, property rights, or assume any County or other public agency liability.
35. If any provision of this Order or its application to any person or circumstance is held to be invalid, then the remainder of the Order, including the application of such part or provision to other persons or circumstances, shall not be affected and shall continue in full force and effect. To this end, the provisions of this Order are severable.
36. This Order shall be immediately translated into Spanish, and accommodations made for disabled persons to read its contents; it shall also be distributed to all local media and made prominently available on the County of Tulare's website.
37. Pursuant to California Health and Safety Code sections 101029 and 120280, and Tulare County Ordinance Code sections 1-15-1040(b) and 125, violations of this Order shall be punishable as a misdemeanor upon conviction by a fine of not exceeding one thousand dollars or by imprisonment for a term of not exceeding six months, or by both such fine and imprisonment.

IT IS SO ORDERED.

Time: 7:35am

TULARE COUNTY'S MULTI-STAGE APPROACH TOWARDS A HEALTHIER COMMUNITY

Epidemiologists and infectious disease experts agree that in the absence of strict social distancing, Tulare County numbers would once again surge. COVID-19 will continue to be a serious threat until there is an effective vaccine or more effective therapeutic treatments. Centers for Disease Control and Prevention (CDC) and National Institute of Allergy and Infectious Diseases (NIAID) experts estimate that we will not have a vaccine for COVID-19 until 2021, at the earliest. For the foreseeable future, living with COVID-19 is our new “normal”.

Living with this disease means finding ways for our community to return to work with COVID-19 still circulating. There is an emerging consensus that America's economy should open in stages with different parts of the economy and different aspects of public life reopening at different times will present a framework for a three-stage approach that reflects the state of the COVID-19 pandemic in Tulare County.

Over the last couple of weeks, California counties in coordination with the California Department of Public Health have worked extensively to create meaningful criteria that provides a solid framework to use when deciding to reopen local economies. Specifically, Tulare County has adopted four criteria to use as the means of determining the readiness of reopening our local economy. It is important to note that these criteria are aligned with other California Counties and the recommendations from the State, however, our readiness may be earlier or later than other counties due to our local situation.

The following four (4) criteria will need to be met simultaneously before moving to Stage 2, and then again before moving to Stage 3, and then once again before moving to Stage 4. Each of the following criteria has assessments and respective metrics that will be used to determine forward movement to the next Stage. However, if it is determined that there is a potential rebound or local outbreak, returning to an earlier Stage is probable.

- **(CASES) SUSTAINED REDUCTION OR STABILITY IN NEW CASES FOR 14 DAYS.** Tulare County agrees that movement towards reopening for Stage 2 should begin after 14 days of a sustained downward trend in COVID-19 positive cases.

Certain increases, such as an increase in active cases over the course of five days, would clearly be a cause for concern. However, exact judgements should reflect a precise understanding of local trends. If, for instance, public health departments identify a specific outbreak and are able to isolate COVID-positive cases and quarantine people who were in close contact quickly, movement towards greater reopening could continue, even with an increase in positive cases.

- **ADEQUATE DIAGNOSTIC TESTING CAPACITY AND RAPID TEST RESULTS. THE ABILITY TO TEST ALL INDIVIDUALS WITH COVID-19 SYMPTOMS (WITHIN A CERTAIN TIMEFRAME). SAME-DAY TESTING WIDELY AVAILABLE FOR HOSPITALIZED PATIENTS, HEALTH CARE WORKERS AND WORKERS IN ESSENTIAL ROLES, CLOSE CONTACTS OF CONFIRMED CASES, AND OUTPATIENTS WITH SYMPTOMS).** Expanding testing capacity and making testing broadly available is necessary to treat and control infection, and for detecting increases COVID-19 cases early.
- **PUBLIC HEALTH DEPARTMENT’S CAPACITY TO RAPIDLY INTERVIEW NEW CASES, IDENTIFY CLOSE CONTACTS, AND ENSURE THAT ISOLATION AND QUARANTINE ARE EFFECTIVE.** Public health surveillance must be strengthened to understand the spread of COVID-19 and rapidly detect outbreaks. Experts call for evidence of declining transmission for at least 14 days before there could be a move to a staged approach of reopening the economies. Tulare County must closely monitor the signs of COVID-19 spread. It must notice problems to avoid overcrowding of emergency departments or outbreaks among the higher risk.
- **HEALTH CARE SYSTEM CAPACITY TO RESPOND TO POTENTIAL SURGES.** Tulare County must ensure that the local healthcare system is out of crisis mode and able to handle potential new surges in patients, along with non-COVID-19 related services, prior to reopening the economy. Tulare County will continue to track and share information about the availability of hospital beds, ICU beds, ventilators, and personal protective equipment (PPE) in order to ensure that they are adequately available if cases surge, as modeled under a variety of assumptions. Data on available capacity should be assessed at a designated frequency. State stockpiles should be used to fill any deficiencies and there should be continuous monitoring of cases statewide to assure that capacity will not be exceeded.

GOALS AND LINKED METRICS TO CONSIDER WHEN MOVING BETWEEN STAGES

Goals	Metric
1. Containment Capacity	GOAL: Stable or decreasing COVID-19 infection rate METRIC: Low prevalence of disease - no more than 1 case per 10,000 people in last 14 days METRIC: No more than 1 death in last 14 days GOAL: Ability to test everyone who needs to be tested METRIC: Minimum daily testing volume of 1.5 per 1,000 residents METRIC: Testing availability for at least 75% of residents as measured by specimen collection sites within a 60-minute drive in rural areas
2. Case investigation and contact tracing	GOAL: The public health system has adequate infrastructure, processes, and workforce to reliably detect and safely isolate new cases, as well as follow up with individuals who have been in contact with positive cases METRIC: Sufficient staff allocated to contact tracing, at least 15 staff per 100,000 population

	METRIC: Availability of temporary housing units to shelter at least 15% of county residents experiencing homelessness
3. Health Care System Capacity	GOAL: Hospitals can quickly and independently supply sufficient PPE and critical medical equipment and can surge intensive care unit (ICU) capacity. METRIC: Ability to accommodate a minimum surge of 35% (combined for county) due to COVID-19 patients as well as providing usual care for non-COVID-19 patients.
4. Vulnerable Populations	GOAL: Ability to protect our vulnerable populations METRIC: Skilled nursing & other congregate living facilities have > 14-day supply of PPE and access to non-state sources for replenishing the supplies.

Potential Increased Community Transmission when Re-opening Public Spaces.

Opening public spaces will entail an increased risk of community transmission. Certain populations will be more at risk for serious consequences and mortality from contracting the disease. Those most at risk include:

- Healthcare workers, first responders and other essential workers in contact with the public;
- Older adults living in nursing homes, assisted living, and senior housing;
- Racial and ethnic minorities;
- Justice-involved populations;
- People experiencing homelessness; and,
- People with disabilities and living in state institutions, group homes, and other congregate settings.
- Pregnant individuals

Given the setting and circumstances of where these populations reside, targeted monitoring and interventions will be critical to protecting these communities. Tulare County must develop effective systems and policies that protect these populations so that it is less likely to experience outbreaks that can interrupt the gradual reopening of society.

Strong and Clear Communication and Public Engagement Plan.

Communication is an integral part during a crisis, and is even more important as Tulare County moves toward reopening. It is critical that public engagement is incorporated into the response plan to minimize the risk of misunderstanding, confusion, or protest by individuals who believe reopening should be either faster or slower. It is important that Tulare County evaluates the different needs, risk factors, and resources.

Rationale for a Multi-Stage Approach to Reopening

Developing a framework that thoughtfully guides decision making on key factors to reopen the economy is important. The framework must include an array of public health factors, including consistent communication related to COVID-19, data collection, defining measures to reassess readiness for opening, and anticipating the need to revert to tighter control measures. Additionally, criteria for moving between stages and defining the stages for reopening must be established. Equally important is building partnerships between public and private sectors to implement the plan.

This is the time to identify and share critical metrics and explain “the rules for reopening.” The most important message to convey in this period is that **the rate of transmission must decline or remain low to make it safe to proceed with plans to reopen local economies**. During this process, local governments should engage health care systems, schools and businesses to fine tune plans for a staged reopening and to clearly convey the steps that will be necessary.

Testing capacity should continue to expand; vulnerable populations should be identified and monitored. Businesses, schools, and healthcare facilities should develop written plans for how they will help prevent COVID-19 spread in their facilities. Policymakers should also examine disincentives to testing and isolation or quarantining, such as the fear that people who test positive or are quarantined could lose their jobs. Travel to and from areas that are experiencing significant disease should be discouraged or prohibited.

This stage should continue for the next two weeks. During this time, monitoring should indicate case numbers are declining. Based on COVID-19 case rate statistics by city and region, healthcare providers and health systems should demonstrate they can manage (with ICU beds, ventilators, PPE, nurse and physician staffing, and other metrics of capacity) no less than 1 week of new cases at the prior week case rate prior to progression between stages or to moving on to the first stage of reopening.

During this planning period, all non-essential businesses should remain closed and the Stay At Home Order remains in place. Except when performing essential services, citizens over age 65 and those with high risk factors need to remain vigilant and to shelter at home.

- Work from home should continue whenever possible, and cloth face coverings should be worn in public locations.
- Tulare County will work to accomplish all specific requirements listed above, including testing, tracking and quarantine strategies to identify cases and prevent transmission.
- All essential and non-essential businesses should begin preparations for later stages, and should be prepared to certify to the Health Department that they have written protocols, completed the social distancing and safety plan checklist and can reliably perform the following functions before advancing to later stages:

- Screen daily all employees for respiratory symptoms. Workers in close contact with each other should be screened daily with temperature checks as well. Business safety plans should clearly specify protocols for different categories.
- Advise employees with symptoms to remove themselves from the workplace and call healthcare provider for guidance. Establish policies and procedures to help employees who are required to by the healthcare provider to isolate or quarantine.
- Set expectations for frequent hand hygiene and wearing of cloth face coverings by employees where appropriate or able.
- Hand sanitizer should be placed throughout the business.

GUIDELINES FOR ALL STAGES

Individuals:

- **Continue to adhere to state and local guidance, in particularly with respect to face coverings.**
- **Continue to practice good hygiene**
 - Wash your hands with soap and water or use hand sanitizer, especially after touching frequently used items or surfaces.
 - Avoid touching your face
 - Sneeze or cough into a tissue, or the inside of your elbow.
 - Disinfect frequently used items and surfaces as much as possible
 - Using face coverings while in public, and particularly when using mass transit or carpools.
 - People who feel sick should stay home. Do not go to work or school.
 - Contact and follow the advice of your medical provider.
 - Practice social distancing

Employers: See guidance document for employers

- **Develop and implement appropriate policies, in accordance with Federal, State, and local regulations and guidance, and informed by industry best practices, regarding employee and customer protection**
- **Keeping the Workplace Safe**
- **Communicating with your team**
- **Preparing Your Space**
- **Cleaning and Disinfecting after opening**
- **Personal Protection Equipment (PPE)**
- **How Long COVID19 Lives on Surfaces**
- **5 Essential Actions for Individuals**

If positive improvement/stability of metrics for 14 days, move to STAGE 2

CURRENT STAGE/STAGE 1

Retail Stores	• Non-essential closed • Essential businesses must implement social distancing measures for all staff and customers • Face coverings required for customers • Employees screened daily and must wear face covering and maintain 6 ft social distancing from co-workers and the public if possible
Commercial Businesses/Offices	• Non-essential closed • Essential businesses must implement social distancing measures for all staff and customers • Face coverings required for customers • Employees screened daily and must wear face covering and maintain 6 ft social distancing from co-workers and the public if possible
Manufacturing	• Employees screened daily and must wear face covering and maintain 6 ft social distancing from co-workers and the public if possible •
Restaurants & Bars Serving Food	• Online order and curbside pickup only • Face coverings required for customers • Employees screened daily and must wear face covering and maintain 6 ft social distancing from co-workers and the public if possible
Nail Salons, Hair Salons, Barber Shops, etc.	• Closed
Health Care, Dental, Optometry, etc.	• Essential and/or emergency services only • Implement social distancing measures for all customers • Face coverings required for customers • Employees screened daily and must wear face covering and maintain 6 ft social distancing from co-workers and the public if possible
Massage, Tattoo & Body Art, etc.	• Closed
Gyms, Fitness Centers, Pubic Pools, Community Pools, Interactive Water Features, Close Contact Sports, etc.	• Closed
Bars, Entertainment Venues, Community Events, etc.	• Closed
Faith Based Institutions	• Closed
Educational Institutions	• Closed
Public Spaces	•
All Residents	• Age 65+ and individuals with underlying conditions, stay home. All, work from home, if possible. Wear face covering and maintain 6 ft. social distancing when in public.

If positive improvement/stability of metrics for 14 days, move to STAGE 3/ If significant decrease in metrics return to Stage 1

STAGE 2: Lower Risk Workplaces

Retail Stores	• Online order and curbside pickup for non-essential businesses. • Employees screened daily and must wear face covering and maintain 6 ft social distancing from co-workers and the public if possible
Commercial Businesses/Offices	• Implement social distancing measures for all customers. • Employees screened daily and must wear face covering and maintain 6 ft social distancing from co-workers and the public if possible
Manufacturing	• Employees screened daily and must wear face covering and maintain 6 ft social distancing from co-workers and the public if possible.
Restaurants & Bars Serving Food	• Continue online order and curbside pickup only. No dine-in • Employees screened daily and must wear face covering and maintain 6 ft social distancing from co-workers and the public if possible
Nail Salons, Hair Salons, Barber Shops, etc.	• Closed
Health Care, Dental, Optometry, etc.	• Urgent or Emergent procedures only • Implement social distancing measures for all customers and between coworkers • Employees screened daily and must wear face covering
Massage, Tattoo & Body Art, etc.	• Closed
Gyms, Fitness Centers, Public Pools, Community Pools, Interactive Water Features (e.g. splash pads), Close Contact Sports, etc.	• Closed
Close Contact Sports	• Closed
Bars, Entertainment Venues, etc.	• Closed
Community Events (health fairs, cook-offs, etc.)	• Closed
Faith Based Institutions	• Closed
Educational Institutions, schools and organized youth	• Follow established guidelines for schools and child care facilities •

activities (day camp, summer camp)	
Senior Facilities (Skilled Nursing, Assisted Living, Long-term Living, etc.)	• Follow all established guidelines for all types of senior facilities • Implement social distancing measures. • Employees screened daily and must wear face covering and maintain 6 ft social distancing from co-workers and the public if possible
Public Spaces	• All activities adhere to distancing and infection control protocols •
All Employers	• Continue to encourage work from home, if possible. Return to work in stages. Close common areas where personnel are likely to congregate or enforce strict social distancing protocols. Minimize non-essential travel. Consider special accommodations for personnel who are members of a vulnerable population.
All Residents	• Age 65+ and individuals with underlying conditions, stay home. All, if essential employee, work from home, if possible. Wear face covering when unable to continuously maintain 6 ft. social distancing when in public. Social gatherings should be in accordance with State guidance and be limited to immediate family. Minimize non-essential travel.

If positive improvement/stability of metrics for 14 days, move to STAGE 4 /if significant decrease in metrics, return to STAGE 2

STAGE 3: Higher Risk Workplaces

Retail Stores	• Open at 50% capacity. • Implement social distancing measures for all customers. • Employees screened daily and must wear face covering if unable to continuously maintain 6 ft social distancing from co-workers and the public.
Commercial Businesses/Offices	• Open at 50% capacity. • Implement social distancing measures for all customers. • Employees screened daily and must wear face covering if unable to continuously maintain 6 ft social distancing from co-workers and the public.
Manufacturing	• Employees screened daily and must wear face covering and maintain 6 ft social distancing from co-workers and the public if possible.
Restaurants & Bars Serving Food	• With State Executive Order lifted, open at 50% seating capacity. • Implement social distancing measures for all customers. • Employees screened daily and must wear face covering if unable to continuously maintain 6 ft social distancing from co-workers and the public.
Nail Salons, Hair Salons, Barber Shops, etc.	• Restricted to appointment only services. No walk-in customers. • Employees screened daily and must wear face covering if unable to continuously maintain 6 ft social distancing from co-workers and the public.

Health Care, Dental, Optometry, etc.	• Routine and elective procedures for patients for all age groups. • Implement social distancing measures for all customers. • Employees screened daily and must wear face covering if unable to continuously maintain 6 ft social distancing from co-workers and the public.
Massage, Tattoo & Body Art, etc.	• Restricted to appointment only services. No walk-in customers. • Implement social distancing measures for all customers. • Employees screened daily and must wear face covering if unable to continuously maintain 6 ft social distancing from co-workers and the public.
Gyms, Fitness Centers, Public Pools, Community Pools, Interactive Water Features (e.g., splash pad), etc.	• Open at limited capacity while adhering to 6ft social distancing criteria. • Implement social distancing measures for all customers. • Employees screened daily and must wear face covering if unable to continuously maintain 6 ft social distancing from co-workers and the public.
Close Contact Sports	• Closed
Bars, Entertainment Venues, etc.	• Closed
Community Events (health fairs, cook-offs, etc.	• Closed
Faith Based Institutions (Churches & Weddings)	• Open at 50% capacity. • Implement social distancing measures. • Wear face covering if unable to continuously maintain 6 ft. social distancing when in public.
Educational Institutions, school and organized youth activities (day camp, summer camp)	• Follow established CDPH and CDC guidelines for schools and child care
Senior Facilities (Skilled Nursing, Assisted Living, Long-term Living, etc.)	• Follow all established CDPH guidelines for all types of senior facilities • Implement social distancing measures. • Employees screened daily and must wear face covering if unable to continuously maintain 6 ft social distancing from co-workers and the public.
Public Spaces	• All activities adhere to distancing and infection control protocols
All Employers	Close common areas where personnel are likely to congregate or enforce moderate social distancing protocols. Consider special accommodations for personnel who are members of the vulnerable populations.
All Residents	• Age 65+ and individuals with underlying conditions, stay home. Work from home, if possible. Wear face covering if unable to continuously maintain 6 ft. social distancing when in public. Social gatherings should be in accordance with State guidance. Some non-essential travel may resume.

If significant decrease in metrics, return to STAGE 3

Stage 4: End of Stay at Home Order

Retail Stores	• Open at full capacity. • Implement social distancing measures for all customers. • Employees screened daily and must wear face covering if unable to continuously maintain 6 ft social distancing from co-workers and the public.
Commercial Businesses	• Open at full capacity. • Implement social distancing measures for all customers. • Employees screened daily and must wear face covering if unable to continuously maintain 6 ft social distancing from co-workers and the public.
Restaurants & Bars Serving Food	• Limited to State restrictive capacity. If no limitations, open at full capacity. • Implement social distancing measures for all customers. • Employees screened daily and must wear face covering if unable to continuously maintain 6 ft social distancing from co-workers and the public.
Nail Salons, Hair Salons, Barber Shops, etc.	• Open at full capacity. • Implement social distancing measures for all customers. • Employees screened daily and must wear face covering if unable to continuously maintain 6 ft social distancing from co-workers and the public.
Health Care, Dental, Optometry, etc.	• Routine and elective procedures for patients for all age groups. • Implement social distancing measures for all customers. • Employees screened daily and must wear face covering if unable to continuously maintain 6 ft social distancing from co-workers and the public.
Massage, Tattoo & Body Art, etc.	• Open at full capacity. • Implement social distancing measures for all customers. • Employees screened daily and must wear face covering if unable to continuously maintain 6 ft social distancing from co-workers and the public.
Gyms, Fitness Centers, Pubic Pools, Community Pools, Interactive Water Features (e.g., splash pad), etc.	• Open at full capacity. • Implement social distancing measures for all customers. • Employees screened daily and must wear face covering if unable to continuously maintain 6 ft social distancing from co-workers and the public.
Close Contact Sports	• Open at full capacity
Bars, Entertainment Venues, etc.	• Open at full capacity. • Implement social distancing measures for all customers. • Employees screened daily and must wear face covering if unable to continuously maintain 6 ft social distancing from co-workers and the public.
Community Events (health fairs, cook-offs, etc.	• Open at full capacity • Implement social distancing measures. •

Faith Based Institutions	• Open at full capacity. • Implement social distancing measures. • Wear face covering if unable to continuously maintain 6 ft social distancing from co-workers and the public.
Senior Facilities (Skilled Nursing, Assisted Living, Long-term Living, etc.)	• Follow all established CDPH guidelines for all types of senior facilities • Implement social distancing measures. • Employees screened daily and must wear face covering if unable to continuously maintain 6 ft social distancing from co-workers and the public.
Educational Institutions, schools and organized youth activities (day camp, summer camp)	• Open • Implement social distancing measures. • Wear face covering if unable to continuously maintain 6 ft social distancing when in public.
All Employers	• Resume unrestricted staffing of worksites
All Residents	• Age 65+ and individuals with underlying conditions can resume public interactions, but should practice social distancing, minimize social settings where distancing may not be practiced. Wear face covering if unable to continuously maintain 6 ft social distancing when in public. Social gatherings should be in accordance with State guidance.

Conclusion

The threat of COVID-19 will be with us for the foreseeable future. There is a high probability that Tulare County will experience continued outbreaks that will force us to revert to earlier stages at some point during the reopening process. Now is the time to build capacity and create partnerships, across our county with employers, nonprofits, and community groups, to respond effectively to this challenge. This is also the time to provide clear guidance and an evidence-based framework for reopening our local economy.

Discussions with the state and federal government will continue with the purpose of redefining essential v. nonessential sectors. Instead of classifying businesses and industries as essential vs. non-essential, moving towards the terminology of “lower risk” vs “higher risk” operations may be more viable. This will allow all businesses to begin working on plans that focus on safety and are designed to lower the risk of COVID-19 transmission to their workers and customers. Examples of “low-risk” activities that are currently deemed non-essential: 1) Bookstores: could be lower risk if they limited the number of people that enter the store and took precautions to protect the clerks; Examples of “higher-risk” activities could include hair salons and tattoo shops where there is longer close personal contact.

**County of Tulare
Health & Human Services Agency
Public Health Branch**

Health Officer
5957 South Mooney Blvd.
Visalia, CA 93277 559-624-8480

**AMENDED EMERGENCY ORDER FOR THE PREVENTION OF
NOVEL CORONAVIRUS (COVID-19) TRANSMISSION**

WHEREAS, on March 4, 2020, the Governor of the State of California proclaimed a state of Emergency now exists in the State of California due to the presence of and threat posed by the novel coronavirus ("COVID-19"); and

WHEREAS, on March 11, 2020, the County Health Officer of the County of Tulare proclaimed and declared that a local health emergency now exists in the County of Tulare due to the presence of and threat posed by COVID-19; and

WHEREAS, the Tulare County Board of Supervisors ratified said proclamation at its regular meeting of March 17, 2020; and

WHEREAS, said proclamation shall remain in effect until further notice; and

WHEREAS, on March 19, 2020, the Governor of the State of California issued Executive Order N-33-20, in conjunction with the ORDER OF THE STATE PUBLIC HEALTH ORDER dated the same day, ordering that all Californians shelter in place to preserve public health and safety ("Shelter in Place Order"); and

WHEREAS, the Shelter in Place Order has been successful in slowing the transmission and infection rate of COVID-19 in the State of California; and

WHEREAS, on March 19, 2020 the County Health Officer of the County of Tulare issued an EMERGENCY ORDER FOR THE PREVENTION OF NOVEL CORONAVIRUS (COVID-19) TRANSMISSION IN OR ABOUT RESTAURANTS, BARS, FOOD TRUCKS, GROCERY STORES, AND OTHER RETAIL FOOD AND BEVERAGE SERVICE VENUES, ENTERTAINMENT AND RECREATIONAL VENUES, GYMS, HEALTH CLUBS, THEATERS, CHURCHES, OTHER SOCIAL GATHERINGS, AND OUTDOOR RECREATIONAL ACTIVITIES, which order was extended on April 8, 2020, and amended on May 5, 2020 (the "Emergency Order Amended May 5, 2020"); and

WHEREAS, on April 14, 2020, the State of California presented the Pandemic Roadmap, a four-stage plan for modifying the Shelter in Place Order, and defining the statewide current status under the plan as being at Stage 1; and

WHEREAS, on May 4, 2020, the State announced that entry into Stage 2 of the plan would begin on May 8, 2020 for all Counties, subject to certain conditions and certain guidance; and

WHEREAS, advancement within the Pandemic Roadmap by an individual County can be accomplished by meeting certain State-defined criteria and procedures; and

WHEREAS, the Pandemic Roadmap is designed to prevent the spread of COVID-19 in California while allowing parts of our state to safely reopen; and

WHEREAS, compliance with the State criteria, procedures, and guidance for the stages of the Pandemic Roadmap is mandatory in the incorporated and unincorporated areas of County of Tulare.

NOW, THEREFORE, pursuant to Tulare County Ordinance Code sections 1-15-1033 (b) and 1-15-1040 (b),

and California Health and Safety Code sections 101040, 101085, and 120175, the Health Officer of the County of Tulare hereby orders as follows, which shall be effective immediately and remain in effect until such a time that it is terminated or modified by the County Public Health Officer in writing:

1. **The Emergency Order Amended May 5, 2020** is hereby terminated. Any previous Public Health Orders, other than the Emergency Declaration dated March 11, 2020, not previously terminated by the Emergency Order Amended May 5, 2020, are hereby terminated.
2. **The Shelter in Place Order**, the emergency orders of the State Public Health Director related to the COVID-19 pandemic, and the State's Pandemic Roadmap and guidance issued with respect to the roadmap, as they may be amended, modified, or supplemented from time-to-time by their makers, are hereby adopted as emergency orders of the County Health Officer of the County of Tulare and enforceable as such.
3. **Only** the activities and businesses authorized by the current stage of the State's Pandemic Roadmap shall be allowed. The current stage of the Pandemic Roadmap and current guidance related to the Pandemic Roadmap can be found at: <https://covid19.tularecounty.ca.gov/covid-19-updates-and-situation-in-tulare-county/>.
4. **Bars, wineries, breweries and pubs** shall follow all restrictions, closures, and guidelines under the current stage of the State's Pandemic Roadmap.
5. **Restaurants** shall follow all restrictions, closures, and guidelines under the current stage of the State's Pandemic Roadmap.
6. **Food Trucks** shall follow all restrictions, closures, and guidelines under the current stage of the State's Pandemic Roadmap.
7. **Certified Farmers' Markets** shall follow all restrictions, closures, and guidelines under the current stage of the State's Pandemic Roadmap.
8. **Gambling venues** shall follow all restrictions, closures, and guidelines under the current stage of the State's Pandemic Roadmap.
9. **Entertainment and recreational venues**, including, but not limited to, theme parks, amusement parks, attractions, theaters, museums, roller rinks, skate parks, sports stadiums, bowling alleys, and the like, shall follow all restrictions, closures, and guidelines under the current stage of the State's Pandemic Roadmap.
10. **Gyms and health clubs** shall follow all restrictions, closures, and guidelines under the current stage of the State's Pandemic Roadmap.
11. **All social gatherings**, including, but not limited to church services, meetings of service and social clubs, conferences, conventions, and the like, shall be postponed or cancelled until allowed under the current stage of the State's Pandemic Roadmap.
12. **Outdoor recreational activities** shall be permissible as long as it is feasible to maintain a safe physical distance of six feet and gather only with members of the same household at all times during said activity(ies). Individual outdoor recreational activities are permissible as long as it is feasible to maintain a safe physical distance of six feet at all times during said activity. Any outdoor group sports or activities shall be postponed or cancelled unless the sport or activity can be done individually or

with members of the same household only. There should be no shared equipment between persons who are not members of the same household. Visit <https://covid19.ca.gov/stay-home-except-for-essential-needs/#top>, Outdoor Recreation section for a list of requirements, specifically allowed activities, and further guidance from the state of California. These social distancing requirements shall remain in place as they relate to Outdoor Recreation Activities until abolished under the current stage of the State's Pandemic Roadmap.

13. For those businesses closed under the current stage of the State's Pandemic Roadmap, business owners, managers, and supervisory staff are allowed to be on site to conduct minimum basic operations, provided they follow all guidance from public health officials to reduce the spread of COVID-19, including social distancing and hand washing with soap and water for at least 20 seconds.
14. No County permits for special events shall be granted, all County permits for special events previously issued are revoked or postponed, and no temporary ABC licenses shall be authorized by the County until social gatherings are permitted under the current stage of the State's Pandemic Roadmap.
15. For personal and public health and safety purposes, all residents of and visitors to Tulare County are strongly urged to practice social distancing of six feet per person when able to do so, wash their hands often with soap and water for at least 20 seconds, wear face coverings, such as scarves (dense fabric, without holes), bandanas, neck gaiters, or other fabric face coverings, at all times while inside of or waiting to enter any business or facility, while riding or waiting to ride any public or shared transportation, and at any other time when it is impossible to maintain a distance of six-feet between persons who are not members of a shared household and follow all other guidance from public health officials with regard to the threat posed by COVID-19.
16. This Order may be enforced pursuant to California law, including, but not limited to Government Code sections 26602, 41601, and 8665 to prevent the spread of Covid-19.
17. Each incorporated city within Tulare County is permitted to take such actions, if any, as may be reasonably necessary to permit this Order to be fully enforced within its respective jurisdiction. Pursuant to California Government Code section 41601, the chiefs of the police departments of the Cities of Visalia, Tulare, Porterville, Dinuba, Exeter, Lindsay, Woodlake, and Farmersville may enforce this Order within their respective jurisdictions to prevent the spread of COVID-19.
18. The Public Health Branch of the Tulare County Health and Human Services Agency, the Tulare County District Attorney's office, the Tulare County Counsel's office, and all other applicable County of Tulare Agencies, Departments, and Divisions are permitted to enforce this Order within their respective jurisdictions.
19. Pursuant to California Health and Safety Code sections 101029 and 120280, and Tulare County Ordinance Code sections 1-15-1040(b) and 125, violations of this Order may be punishable as a misdemeanor upon conviction by a fine of not exceeding one thousand dollars or by imprisonment for a term of not exceeding six months, or by both such fine and imprisonment.
20. Pursuant to Tulare County Ordinance Code sections 4-01-1070 and 4-01-1315, violations of this Order may be considered a public nuisance.
21. Pursuant to Tulare County Ordinance Code sections 1-23-1000 and 1-23-1015 violations of this Order may be subject to an administrative fine or penalty.

22. The Order shall be subject to amendment or repeal at any time and shall not be deemed to confer any contractual obligations, property rights, or assume any County or other public agency liability.
23. If any provision of this Order or its application to any person or circumstance is held to be invalid, then the remainder of the Order, including the application of such part or provision to other persons or circumstances, shall not be affected and shall continue in full force and effect. To this end, the provisions of this Order are severable.
24. This Order shall be immediately translated into Spanish, and accommodations made for disabled persons to read its contents; it shall also be distributed to all local media and made prominently available at <https://covid19.tularecounty.ca.gov/>.
25. All open businesses, facilities, retail food, and other venues shall ensure social distancing of six feet per person between those who are not members of the same household, limit the number of customers at any given time as necessary to reduce outdoor/indoor crowding and lines to meet social distancing guidance, increase cleaning and sanitizing frequency of all contact areas, encourage use of online ordering with curbside pickup or delivery options in lieu of indoor shopping, and remind employees of guidance from public health officials to reduce the spread of COVID-19, including washing their hands often with soap and water for at least 20 seconds and wearing appropriate face covering when necessary. Any business, facility, retail food, and other venue may create an individual policy restricting entry of patrons not wearing masks.

IT IS SO ORDERED.

Roadmap to Recovery

STAGE ONE

- Stay at Home Order
- Planning for Recovery

STAGE TWO (Low Risk Businesses)

- Curbside retail:
 - Bookstores
 - Jewelry stores
 - Clothing stores
 - Shoe stores
 - Home furnishing
 - Sporting goods
 - Florists
- Car washes
- Pet grooming
- Landscape gardening
- Shopping malls
- Dine-in restaurants
- Schools
- Office-based businesses
- Childcare facilities
- Outdoor museums and open gallery spaces
- Outdoor recreational activities
 - Parks
 - Trails
 - Golf Courses
 - Lakes

STAGE THREE (High Risk Businesses)

- Personal services such as: nail salons, tattoo parlors, gyms and fitness studios
- Bars and lounges
- Indoor museums, gallery spaces, zoos, and libraries
- Community centers, public pools, playgrounds, and picnic areas
- Religious services and cultural ceremonies
- Hotels/lodging for leisure and tourism

STAGE FOUR (End of Stay at Home Order)

LATER

- Entertainment venues
- Large conventions
- Sporting and spectator events
- Concerts
- Convention Centers

GUIDANCE FOR THE USE OF FACE COVERINGS

Because of our collective actions, California has limited the spread of COVID-19 and associated hospitalizations and deaths in our state. Still, the risk for COVID-19 remains and the increasing number of Californians who are leaving their homes for work and other needs, increases the risk for COVID-19 exposure and infection.

Over the last four months, we have learned a lot about COVID-19 transmission, most notably that people who are infected but are asymptomatic or pre-symptomatic play an important part in community spread. The use of face coverings by everyone can limit the release of infected droplets when talking, coughing, and/or sneezing, as well as reinforce physical distancing.

This document updates existing [CDPH guidance](#) for the use of cloth face coverings by the general public when outside the home. It mandates that face coverings be worn state-wide in the circumstances and with the exceptions outlined below. It does not substitute for existing guidance about social distancing and handwashing.

Guidance

People in California must wear face coverings when they are in the high-risk situations listed below:

- Inside of, or in line to enter, any indoor public space;¹
- Obtaining services from the healthcare sector in settings including, but not limited to, a hospital, pharmacy, medical clinic, laboratory, physician or dental office, veterinary clinic, or blood bank;²
- Waiting for or riding on public transportation or paratransit or while in a taxi, private car service, or ride-sharing vehicle;
- Engaged in work, whether at the workplace or performing work off-site, when:
 - Interacting in-person with any member of the public;
 - Working in any space visited by members of the public, regardless of whether anyone from the public is present at the time;

¹ Unless exempted by state guidelines for specific public settings (e.g., school or childcare center)

² Unless directed otherwise by an employee or healthcare provider

- Working in any space where food is prepared or packaged for sale or distribution to others;
- Working in or walking through common areas, such as hallways, stairways, elevators, and parking facilities;
- In any room or enclosed area where other people (except for members of the person's own household or residence) are present when unable to physically distance.
- Driving or operating any public transportation or paratransit vehicle, taxi, or private car service or ride-sharing vehicle when passengers are present. When no passengers are present, face coverings are strongly recommended.
- While outdoors in public spaces when maintaining a physical distance of 6 feet from persons who are not members of the same household or residence is not feasible.

The following individuals are exempt from wearing a face covering:

- Persons age two years or under. These very young children must not wear a face covering because of the risk of suffocation.
- Persons with a medical condition, mental health condition, or disability that prevents wearing a face covering. This includes persons with a medical condition for whom wearing a face covering could obstruct breathing or who are unconscious, incapacitated, or otherwise unable to remove a face covering without assistance.
- Persons who are hearing impaired, or communicating with a person who is hearing impaired, where the ability to see the mouth is essential for communication.
- Persons for whom wearing a face covering would create a risk to the person related to their work, as determined by local, state, or federal regulators or workplace safety guidelines.
- Persons who are obtaining a service involving the nose or face for which temporary removal of the face covering is necessary to perform the service.
- Persons who are seated at a restaurant or other establishment that offers food or beverage service, while they are eating or drinking, provided that they are able to maintain a distance of at least six feet away from persons who are not members of the same household or residence.
- Persons who are engaged in outdoor work or recreation such as swimming, walking, hiking, bicycling, or running, when alone or with household members, and when they are able to maintain a distance of at least six feet from others.

- Persons who are incarcerated. Prisons and jails, as part of their mitigation plans, will have specific guidance on the wearing of face coverings or masks for both inmates and staff.

Note: Persons exempted from wearing a face covering due to a medical condition who are employed in a job involving regular contact with others should wear a non-restrictive alternative, such as a face shield with a drape on the bottom edge, as long as their condition permits it.

Background

What is a cloth face covering?

A cloth face covering is a material that covers the nose and mouth. It can be secured to the head with ties or straps or simply wrapped around the lower face. It can be made of a variety of materials, such as cotton, silk, or linen. A cloth face covering may be factory-made or sewn by hand or can be improvised from household items such as scarfs, T-shirts, sweatshirts, or towels.

How well do cloth face coverings work to prevent spread of COVID-19?

There is scientific evidence to suggest that use of cloth face coverings by the public during a pandemic could help reduce disease transmission. Their primary role is to reduce the release of infectious particles into the air when someone speaks, coughs, or sneezes, including someone who has COVID-19 but feels well. Cloth face coverings are not a substitute for physical distancing, washing hands, and staying home when ill, but they may be helpful when combined with these primary interventions.

When should I wear a cloth face covering?

You should wear face coverings when in public places, particularly when those locations are indoors or in other areas where physical distancing is not possible

How should I care for a cloth face covering?

It's a good idea to wash your cloth face covering frequently, ideally after each use, or at least daily. Have a bag or bin to keep cloth face coverings in until they can be laundered with detergent and hot water and dried on a hot cycle. If you must re-wear your cloth face covering before washing, wash your hands immediately after putting it back on and avoid touching your face. Discard cloth face coverings that:

- No longer cover the nose and mouth
- Have stretched out or damaged ties or straps
- Cannot stay on the face
- Have holes or tears in the fabric

ORDINANCE NO. 1874

**AN URGENCY ORDINANCE OF THE CITY COUNCIL
OF THE CITY OF PORTERVILLE REQUIRING THE USE OF
FACE COVERINGS IN CONFORMITY WITH THE REQUIREMENTS SET
BY THE CALIFORNIA DEPARTMENT OF PUBLIC HEALTH**

WHEREAS, the novel coronavirus (COVID-19) is a respiratory disease which the Centers for Disease Control and Prevention (CDC) considers to be a very serious public health threat with outcomes ranging from mild to severe sickness and death;

WHEREAS, COVID-19 has been found to be easily transmissible from person to person;

WHEREAS, on January 31, 2020, the United States Department of Public Health and Human Services declared a public emergency for COVID-19 beginning on January 27, 2020;

WHEREAS, on March 4, 2020, Governor Gavin Newsom declared a state of emergency in the State of California due to the number of confirmed cases of COVID-19 in the State;

WHEREAS, on March 21, 2020, Tulare County declared an emergency, thus enabling the County to take extraordinary measures;

WHEREAS, on March 17, 2020, due the actions of the Federal and State Governments, and due to the presence of confirmed cases in Tulare County and the Porterville area, the Porterville City Council adopted Resolution No. 22-2020, a Resolution of the City Council of the City of Porterville to Proclaim the Existence of a Local Emergency;

WHEREAS, on June 18, 2020, the California Department of Public Health issued Guidance for the Use of Face Coverings, which mandates that face coverings be worn state-wide in certain settings and circumstances;

WHEREAS, as of July 7, 2020, Tulare County remains on the State of California Covid-19 “watch list,” due to continuing spread of the disease in the County, including in the Porterville area;

WHEREAS, on July 7, 2020, the Porterville City Council ordered that the face covering requirements of the State be enforced within the City via the City’s administrative citation regulations and through aggressive education efforts, and directed that an urgency ordinance be prepared consistent with the order;

WHEREAS, the City of Porterville is authorized to enforce the state-wide order concerning Face Coverings pursuant to the California Constitution, Porterville City Charter Section 4, and applicable State laws and City regulations; and

WHEREAS, substantial scientific evidence shows that when combined with physical distancing and other health and safety practices such as hand washing and the regular disinfection of surfaces, wearing Face Coverings will assist in allowing additional business and other activities

to be resumed in the safest way possible, and will help protect Porterville's community members and in particular those that are most vulnerable due to age or health conditions;

THE CITY COUNCIL OF THE CITY OF PORTERVILLE does ordain as follows:

Section 1. The provisions of this urgency ordinance are necessary for the immediate preservation of the health and safety of the public; will help protect all community members who live, work and are present in the City of Porterville; and will assist in state-wide efforts to mitigate the spread of Covid-19.

Section 2. Individuals, while in the City of Porterville, are required to comply with all guidance within the California Department of Public Health's "Guidance for the Use of Face Coverings," (hereinafter "Face Covering Requirements") as currently set forth and as may be further revised by the State of California. A copy of the Face Covering Requirements, released June 18, 2020, and revised on June 29, 2020, is attached hereto as Exhibit "A."

Section 3. Businesses operating in the City of Porterville are required to comply with all applicable Industry Guidance issued by the California Department of Public Health, which incorporate the Face Covering Requirements.

Section 4. The City is authorized to utilize education efforts in any effort to gain cooperation and compliance with the Face Covering Requirements;

Section 5. City staff is further authorized to engage in code enforcement efforts to remedy violations of the Face Covering Requirements. Violations of these requirements are punishable as permitted by State law. Furthermore, the City is hereby authorized to enforce violations of the requirements pursuant to its Administrative Citation regulations set forth in Chapter 2, Article 14, Sections 2-141 through 2-155 of the Porterville Municipal Code.

Section 6. This Ordinance is exempt from the requirements of CEQA pursuant to California Public Resources Code Section 21080(b) (4).

Section 7. This Ordinance shall take effect immediately upon adoption by at least a 4/5 vote of the all members of the Porterville City Council, pursuant to Section 13 of the Porterville City Charter.

THE FOREGOING ORDINANCE was approved by the City Council of the City of Porterville, State of California, on July 21, 2020 at a regular meeting of said Council duly and regularly convened.

###

City of Porterville

Guidelines for Expanded Outdoor Dining During Covid-19

Preface

The City of Porterville has developed these guidelines for outdoor dining to assist our restaurant businesses in providing expanded seating capacity in the public right-of-way and on private spaces for in-person restaurant dining as allowed for by the State of California and Tulare County COVID-19 Health Orders (Health Orders). These guidelines are temporary in nature and will only be in place during this time of restricted restaurant operations or up until January 31, 2021, *whichever occurs earlier*.

The City of Porterville will be allowing restaurants to utilize sidewalks, public parking spaces, and/or in parking spaces in privately owned shopping centers, for the purposes of providing outdoor dining areas. Specific restrictions and guidelines for each of these locations are outlined in this guidebook.

State of California

Effective as of June 6, 2020, the State of California is permitting outdoor dining. General requirements include, but are not limited to:

- The establishment a written, workplace-specific COVID-19 prevention plan. State of California COVID-19 Industry Guidelines for Dine-In Restaurants can be currently found at <https://files.covid19.ca.gov/pdf/guidance-outdoor-restaurants--en.pdf>. Facilities that open for outdoor dining must offer curbside pickup, takeaway, and/or delivery service alternatives. Lines for pickup or takeaway must be in a separate area from the outdoor dining area to prohibit patrons from unnecessarily accessing the outdoor dining area.
- *Pursuant to State licensing*, alcohol may be sold to patrons in conjunction with a meal, but it may not be sold independently, and bar areas must remain closed to customers.
- Patrons are required to wear a face covering except when sitting at a table.

Temporary Outdoor Restaurant Dining Permit

The City has developed a no-fee streamlined encroachment permit application for temporary outdoor dining. The intent of this permit is to be temporary in nature and to be in place only during the Health Orders restrictions on restaurant operations or up until January 31, 2021, *whichever occurs earlier*.

The following documents are required in order to process a permit for outdoor seating in the City of Porterville:

- Temporary Outdoor Restaurant Dining Permit Application
- Certificate of Liability Insurance and Endorsements
- Site Plan diagram of proposed outdoor dining lay-out

The Temporary Outdoor Restaurant Dining Permit application is available on the City's website (<https://www.ci.porterville.ca.us>).

General Guidelines for all Outdoor Dining Areas

The following general guidelines apply to all areas:

- **Adequate Clearance for Social Distancing.** Any outdoor table and seating must maintain a minimum sidewalk clearance and/or pedestrian through zone of 6-feet from any physical obstruction to allow pedestrians to maintain adequate social distancing when passing by patrons seated at a table. The physical obstruction includes light poles, fire hydrants, trees, or other barriers and entryways or display window of adjacent businesses, unless authorized by the adjacent business.
- **Seating Area Allowance for Social Distancing.** The seating provided shall allow for patrons to maintain a minimum 6-foot social distance from the nearest group of other patrons seated in the same area.
- In addition to the cleaning and sanitary measures, tables must be arranged to ensure that no customer is sitting within six feet of any other customer at a separate table.
- Patrons at a single table are limited to no more than six, and they must be from the same household or living unit.
- **ADA Compliance.** Outdoor seating areas must comply with all requirements of the California Building Code, Americans with Disabilities Act (ADA), and provide sufficient clearance and walkway space to allow safe access and egress. Restaurants must ensure that a minimum 3-foot ADA path of travel is maintained throughout the areas for patrons to access tables provided.
- **Temporary Fixtures.** Tables, seating, umbrellas, heating lamps, planters, platforms or flooring shall achieve California Building Code and ADA compliance, and any approved physical barriers to mark the seating area are the only items permitted in the public right-of-way. These items must be designed to be weighted down for wind protection, removable, and minimize tripping hazards.
- **Alcohol Service.** Restaurants and food establishments licensed by the State of California will be permitted to sell and allow on-premise consumption of alcoholic beverages. Alcohol service is only allowed under full-service conditions and alcoholic beverages consumed in the outdoor dining premises are not allowed to be provided in to-go containers. Establishments that serve alcoholic beverages in the outdoor dining area shall be required to meet all requirements of the Alcoholic Beverage Control Board and any other federal, state, or local laws and regulations governing the sale and consumption of alcoholic beverages. Visit the ABC website for their specific COVID-19 regulatory updates.
- **No Outdoor Food Preparation.** Outdoor food preparation is not permitted. No heating, cooking or open flames are permitted in the outdoor dining space or public rights-of-way.
- **Amplification of noise.** Amplification of music or other sounds is generally prohibited for these temporary uses, and for any proposed use of amplified music or an intercom system, if allowed an amplification permit will be required. The application may be found at the following location: <http://www.ci.porterville.ca.us/depts/ParksandLeisure/documents/OutsideAmplifierPermit.pdf>

Music volume must be adjusted so that workers can maintain social distance from customers to hear orders.

- **Site Maintenance.** Outdoor seating areas shall be maintained free of litter, refuse and debris. The area shall be scrubbed and mopped to remove any food or drink stains on a daily basis by the permittee. Such cleaning shall be in accordance with the City's Storm Water Management and Discharge Control Program, which prohibits any discharge other than storm water into the storm water drainage system.

- **Tents or Shade Structures.** Umbrellas and other decorative material shall be fire-retardant, pressure-treated or manufactured of fire-resistant material. No portion of an umbrella shall be less than six (6) feet, eight (8) inches (eighty (80) inches) above the sidewalk. Tents or any structures shall be installed in an *approved* manner that is inspected by both the Fire Department and the Building Division prior to being occupied. The use of tents or shade structures in excess of 400 square feet will require coordination with and approval from the Porterville Fire Department. To request more information contact (559) 782-7526.
- **Space Heaters.** Space heaters are permitted if they are an outdoor approved type, are located in accordance with the manufacturer's recommendations and California Fire Code, and are located at least two (2) feet from the edge of any umbrella canvas, any foliage, or any other flammable object or material. Use will require coordination with and approval from the Porterville Fire Department. To request more information contact (559) 782-7526.
- **Hours of Operation.** The outdoor dining areas shall adhere to the same approved hours of operation as the existing restaurant
- **Lighting.** Temporary outdoor lighting in compliance with the Porterville Development Ordinance is allowed. Lighting shall be turned off whenever the restaurant is closed and/or the outdoor dining area is not in use.
- **Removal of Items.** All items installed to support outdoor dining shall be temporary in nature and removed at such the time the City so orders. Upon removal of these items, the site shall be restored to its previous condition within 48 hours.
- **Restrooms.** Restaurant patrons shall have access to the restroom(s) affiliated with the subject restaurant.

Sidewalk Dining Areas

Sidewalk dining involves the placement of tables and chairs in the public sidewalk area. Businesses may request the closure of sidewalk immediately adjacent to the restaurant with Temporary Outdoor Restaurant Dining Permit. Furthermore, Businesses may request the closure of on-street public parking spots directly adjacent to the business frontage, for use as a buffer or extended entrance area (no dining in on-street parking spots is permitted).

The following specific conditions apply to these areas:

Restaurants using these areas will need to provide their own furniture for use of by the patrons and will be responsible for securing their furniture when not in use.

Restaurants that are providing alcohol service must meet all requirements of the Alcoholic Beverage Control Board and any other federal, state, or local laws and regulations governing the sale and consumption of alcoholic beverages.

- **Signage** – when sidewalk and/or on-street parking closure is requested, the applicant shall provide detour signage to ensure pedestrians are made aware of alternative routes.
- The applicant shall notify all residents and businesses that will be affected by the sidewalk or on-street parking closure.
- **Barricades** - All parking stalls adjacent to the sidewalk dining areas shall be closed and have barricades as provided by the City of Porterville.

Public Parking Dining Areas

The City is providing the opportunity to restaurants in the Downtown District to request outdoor dining in portions of the public parking lots located near restaurants.

The following specific conditions apply to these areas:

- Restaurants using these areas will need to provide their own furniture for use by the patrons and will be responsible for securing their furniture when not in use.
- Barricades must be used to protect patrons from vehicular traffic and shall be provided by the City of Porterville.
- Restaurants that are providing alcohol service must meet all requirements of the Alcoholic Beverage Control Board and any other federal, state, or local laws and regulations governing the sale and consumption of alcoholic beverages.

Private Parking Lot Dining Areas

Private parking lot areas refer to shopping centers, strip malls, and stand-alone commercial properties that have their own designated parking areas. The City of Porterville is temporarily suspending requirements restricting the provision of outdoor dining, minimum parking standards as codified in Municipal Code **, and planning application conditions of approval related to parking and outdoor dining with an approved Temporary Outdoor Restaurant Dining Permit. Suspending these requirements will temporarily allow restaurants to provide outdoor dining in their respective private parking lots. Arrangements for outdoor dining must be worked out with and agreed to by the property owner for each location. The City shall not be a party to discussions or arrangements concerning the leasing or use of outdoor space on private property.

The following specific conditions apply to these areas:

- Restaurants must have the written permission of the property owner in order to use the parking space areas.
- The parking lots must still comply with all California Building Code and ADA standards, including ADA paths of travel and adequate provision of handicapped parking spaces pursuant to California Building Code Section 11B.
- Restaurants that are providing alcohol service must meet all requirements of the Alcoholic Beverage Control Board and any other federal, state, or local laws and regulations governing the sale and consumption of alcoholic beverages.
- Access to fire hydrants, fire hose connections for sprinkler systems, and entrances and exits of all buildings shall not be obstructed at any time by barriers or seating. The twenty (20) feet fire lane shall not be obstructed at any time. There shall be a minimum of forty (40) inches in distance separating the edge of a table or chair to a fire department connection.
- Consideration should be given to maintaining adequate parking supply on-site to prevent spillover parking in adjacent residential areas
- Seating areas shall occupy a specifically approved and defined location that does not disrupt the normal function of the site or its circulation. The area shall be located outside of any fire lane or fire access way.

For More Information:

For Questions or additional information regarding these Outdoor Dining Guidelines or the Temporary Outdoor Restaurant Dining Encroachment Permit application, please contact:

TO: All Californians

SUBJECT: Outdoor Playgrounds and other Outdoor Recreational Facilities

Summary

COVID-19 continues to pose a severe risk to communities and requires all people in California to follow necessary precautions and to adapt the way they live and function in light of this ongoing risk. This guidance provides direction on usage of outdoor playgrounds and outdoor recreational facilities (hereafter facilities), to support a safe environment for children and families. It applies to outdoor playgrounds located in parks, campgrounds, and other publicly accessible locations. This guidance does not apply to indoor playgrounds or family entertainment centers.

Outdoor Playground Definition:

- Fully outdoors
- Publicly accessible
- Free to enter and use
- Operated by a city, state, county, or federal government
- Designed primarily to serve nearby residents within a half a mile
- Can provide State-mandated outdoor space for preschools (which could be scheduled in advance to avoid overlapping use)
- Typically includes recreational equipment, like play structures, slides, swings, etc. intended to enrich children's physical health and development

Visitors to outdoor community playgrounds must comply with the following requirements:

1. Face masks over the mouth and nose are required for everyone 2 years of age or older with caregiver supervision at all times to ensure face mask use.
2. Do not use the playground when different households are unable to maintain a physical distance of 6 feet or when the capacity limit has been reached.
3. Caregivers must monitor to keep adults and children from different households at least 6 feet apart.
4. Consider coming on different times or days to avoid wait times and potential crowded times.
5. No eating or drinking in playground, to ensure face masks are worn at all times.
6. Wash or sanitize hands before and after using the playground.
7. Elderly and persons with underlying medical conditions should avoid playground when others are present.

8. Limit visit to 30 min per day when others are present

Note: Facility operators should download and print this flyer to post at all outdoor playgrounds.

All playground facilities operators should review and follow these recommendations:

1. An adult must actively supervise each child at all times to make sure that children two years of age or older keep their face covering over their nose and mouth and stay 6 feet away from adults and children outside their household.
 - a. Children who are supervised by the same adult must stay together in the same play area or play structure at all times, to allow active supervision.
 - b. If an infant or child requires attention (nursing, diapering) that precludes an adult from actively supervising other children using the playground, the adult should ask the other children to leave the play structure/area and stay by the adult's side until needed care is complete.
2. People standing outside the playground, including people waiting to enter the playground, should remain 6 feet away from areas of the playground used by children and adults.
3. Maintain six-foot distancing between children and adults from different households including children using or waiting to use play structures or play areas, and families waiting to enter the playground.
4. Increase cleaning of frequently touched surfaces, daily as practicable.
5. To the extent feasible, provide handwashing stations or sanitizer to facilitate hand hygiene, especially during times of heavy usage. Use a hand sanitizer containing (60% ethanol or 70% isopropanol). Never use hand sanitizers with methanol due to its high toxicity to both children and adults.
6. Post the maximum number of children allowed at the entrance of each playground.
 - a. Determine and post the maximum occupancy of each play structure, (e.g., climbing structures, slides, swings, spinning structures, and sand areas) with 6 foot vertical and horizontal distancing.
 - b. Determine and post the maximum occupancy for supervising adults to ensure that each adult can maintain six feet of distance from other adults and children.
 - c. Provide directions on how to wait in line when maximum playground occupancy has been reached.
7. Mark playgrounds to help children and adults maintain 6 foot distancing.
 - a. Mark spaces for families to stand while waiting to enter the playground. The spaces should be far enough apart to allow 6 feet of distance between households.
 - b. For play structures or play areas that can hold more than one child while allowing 6 foot distancing:
 - i. Post the maximum number of children allowed on each structure/in each area to allow 6 foot distancing vertically and horizontally.
 - ii. For play structures or areas that can hold more than 1 child, consider marking with tape or other visual indicators to help children assess whether they are 6 feet apart.

- c. Mark designated spaces 6 feet apart for children to stand while waiting to use a play structure/area.

Additional Considerations

If there is a pre-scheduled activity that will access the playground, the playground must be closed to the broader public during that time.

Child care programs, schools, out-of-school time programs and other programs for children and youth where children must remain in cohorts may not use playgrounds during times when they are open to the public. However, if the playground operator permits, the childcare, school or other program may reserve a time for the exclusive use of the playground by the program. While on the playground, cohorts should maintain separation and avoid mixing.

Play It Safe

Due to the ongoing spread of COVID-19 in our communities, please follow these simple steps to help keep our outdoor playgrounds safe, open and fun.

✓ **WEAR A MASK**

Everyone 2 years and older should wear a mask covering their face.

✓ **MAINTAIN DISTANCE**

Maintain physical distance of 6 feet between individuals from different households and prevent crowding of children.

✓ **NO FOOD OR DRINK**

Do not eat or drink in playground to ensure face masks are worn at all times.

✓ **WASH HANDS**

Wash or sanitize your hands before and after you visit

✓ **PLAN AHEAD**

Visit the park at different times or days to avoid crowds and waits.

✓ **KNOW WHEN TO STAY HOME**

Elderly individuals and people with underlying medical conditions should avoid playgrounds when others are present.

✓ **SHARE OUR SPACE**

To avoid crowding and allow everyone to use this space, please limit your visit to 30 minutes when others are waiting.

CALIFORNIA

ALL

Your Actions
Save Lives
covid19.ca.gov

Actué con Precaución

Debido a la propagación continua de Covid-19 en nuestras comunidades, siga estos pasos sencillos para ayudar a mantener nuestros parques infantiles al aire libre seguros, abiertos y divertidos.

✓ **USE UNA MASCARILLA**

Todas las personas mayores de dos años deben usar una mascarilla que cubra su cara.

✓ **MANTENGA DISTANCIA**

Mantén una distancia física de 6 pies entre personas de diferentes hogares y evite que se amontonen los niños.

✓ **NADA DE COMIDA NI BEBIDA**

No coma ni beba en el parque infantil para asegurarse que se usen mascarillas en todo momento.

✓ **LAVE MANOS**

Lávese y desinfecte sus manos antes y después de su visita.

✓ **PLANEA CON ANTICIPACIÓN**

Visite el parque en diferentes horarios o días para evitar demasiadas personas y esperas.

✓ **SEPA CUANDO QUEDARSE EN CASA**

Las personas mayores y las personas con condiciones médicas subyacentes deben evitar parques infantiles cuando hay otros presentes.

✓ **COMPARTE EL ESPACIO**

Para evitar aglomeraciones y permitir que todos usen el espacio, por favor limite su visita a 30 minutos cuando otros están esperando.

**BEFORE THE BOARD OF SUPERVISORS
COUNTY OF TULARE, STATE OF CALIFORNIA**

IN THE MATTER OF DEMANDING)
GOVERNOR NEWSOM PROVIDE) Resolution No. 2020-0695
CLARITY, CONSISTENCY, AND)
CONTINUITY REGARDING COVID-19)
DIRECTIVES TO COUNTIES)

WHEREAS, the Tulare County Board of Supervisors recognizes the seriousness of COVID-19 and the public health impact it is having in the country, the State, and the County; and

WHEREAS, the Tulare County Board of Supervisors recognizes and appreciates the tremendous difficulty and work associated with managing the country, the State, and the County through this extraordinary public health emergency; and

WHEREAS, the Tulare County Board of Supervisors believes that public health best practices, such as washing hands, social distancing, wearing a mask, disinfecting surfaces, and staying far away from others when sick, are essential for slowing the spread of COVID-19; and

WHEREAS, the Tulare County Board of Supervisors believes that slowing the spread of COVID-19 is critical to maintaining local hospital capacity and avoiding the catastrophic failure of the County's hospital and medical acute care systems; and

WHEREAS, the Tulare County Board of Supervisors believes that the biggest threat to slowing the spread of COVID-19 is large private and public gatherings, for extended periods of time, where basic public health guidelines and best practices are not being implemented or are ignored; and

WHEREAS, the Tulare County Board of Supervisors believes that government, while critical to helping slow the spread of COVID-19 and promoting best practices, cannot take the place of personal responsibility and individual decision-making when it comes to exercising public health best practices or voluntary testing; and

WHEREAS, on March 19, 2020, in response to the COVID-19 pandemic, California Governor Gavin Newsom issued Executive Order N-33-20, ordering all individuals in California to stay in their place of residence except as needed to maintain continuity of operations of federal critical infrastructure sectors; and

WHEREAS, California counties are required to adhere to Governor Newsom's orders, directives, criteria, requirements, and guidelines for COVID-19; and

WHEREAS, Tulare County, as a State mandated condition to receive CARES Act funding (i.e. federal funding allocated to local governments under the Corona Virus Aid, Relief, and Economic Security Act [H.R. 748]) from the State's federal allocation, certified that it will continue to adhere to the Governor's "stay-at-home requirements and other health requirements as directed in gubernatorial Executive Order N-33-20, and subsequent Executive Orders or statutes, and all California Department of Public Health orders, directives, and guidance in response to the COVID-19 emergency;" and

WHEREAS, on July 10, 2020, as a State condition to receiving CARES Act funding, Tulare County submitted a certification agreeing to adhere to the State's orders and guidance; and

WHEREAS, since March 19, 2020, Governor Newsom and the California Department of Public Health have modified state COVID-19 orders, directives, criteria, requirements, and guidelines for COVID-19, impacting all Californians, all California counties, all economic activity and other public and private activities on multiple occasions and without collaboration or consultation with the entities such orders impact; and

WHEREAS, California's counties are responsible for the implementation of state orders, directives, criteria, requirements, and guidelines, and are critical to the State's achievement of its goals and objectives related to COVID-19; and

WHEREAS, Governor Newsom continues to modify orders, directives, criteria, requirements, and guidelines, and goals and objectives related to COVID-19, with little to no collaboration with counties prior to announcement; and

WHEREAS, Governor Newsom's changes to COVID-19 goals and objectives have complicated the management of this crisis, forcing counties like Tulare to change course, and re-prioritize at great time and expense, straining local personnel and resources, often with little to no clarification regarding how these new goals and objectives prevent or slow the spread of COVID-19; and

WHEREAS, on August 28, 2020, Governor Newsom issued a new framework entitled "Blueprint for a Safer Economy" ("Blueprint"), to allow for the "safe progression of opening more businesses in each county so impacts of any given change can be fully evaluated;" and

WHEREAS, this Blueprint originally, and specifically, required California's counties to meet stated and simple benchmarks in overall Case Rates and Testing Positivity Rates in order to move into less restrictive tiers that would allow for a measured reopening of businesses, schools and other activities; and

WHEREAS, on Monday, September 7, 2020 Governor Newsom announced an adjustment to this Blueprint to include a Case Rate Adjustment Factor for counties with an overall Testing Rate lower than the state median, a complicated additional criteria that counties must meet for the measured reopening of businesses, schools and other activities; and

WHEREAS, Governor Newsom is now arbitrarily inflating overall Case Rate numbers in those counties who have an overall Testing Rate below the statewide average, further slowing and complicating a county's move into a less restrictive tier; and

WHEREAS the median statewide testing rate is a moving target and the relevance of using this measure to adjust county case rates is unclear; and

WHEREAS, this new criterion unnecessarily burdens Tulare County residents by slowing business and school reopening, and it penalizes counties, which have little to no control over individual decision-making related to COVID-19 testing, and

WHEREAS, due to the constantly changing orders and metrics, Tulare County continues to bear the increasing burden and expense of adjusting its pandemic response strategies and tracking mechanisms so that it may continue to receive the CARES Act funding it has been allocated; and

WHEREAS, Tulare County and its residents have been especially hindered by these changing metrics as other counties begin to move through the tiers that allow for reopening of in person education, leaving Tulare County behind in the education of its youth and lead to significant emotional, nutritional, and physical harm; and

WHEREAS, the Governor's newly-established health equity measures will have a disproportionally negative impact on Tulare County's agricultural community, low-income residents, disadvantaged students and other community groups; and

WHEREAS, Tulare County is slowing the spread of COVID-19, has continued to locally reinforce all directives of the State; has made critical investments in testing and contact tracing capacity; has made critical investments in testing, tracing and containment at State-regulated skilled nursing facilities; has made critical investments in support of local business, non-profits, and disadvantaged communities; has lowered local hospitalization rates; and has increased and sustained local hospital capacity.

NOW, THEREFORE, IT IS RESOLVED, by the Board of Supervisors of the County of Tulare, State of California, as follows:

1. Tulare County demands that Governor Newsom provide increased clarity, consistency and continuity in his directives to counties, business communities, and residents regarding the COVID-19 pandemic.
2. Tulare County demands that the Governor and his administration work more closely with all counties, including Tulare, to develop a pathway for increased business activity and school reopening, ensuring it is done safely and responsibly.
3. Tulare County demands that State and local actions related to COVID-19 focus on maintaining hospital and medical system capacity, which was the primary

objective in "flattening the curve" at the start of the pandemic in March.

4. Tulare County demands that the State use hospital and medical system capacity as the primary criteria for increased, but measured, reopening of businesses and schools in all counties.
5. Tulare County demands that Governor Newsom not continue to modify the criteria and metrics used by the State to determine when businesses can begin to reopen in each county.
6. Tulare County demands that Governor Newsom track and utilize each county's actual Case Rate and Testing Positivity Rate, without a Case Rate Adjustment Factor, to determine a county's movement through the "Blueprint for a Safer Economy" risk tier framework.
7. Tulare County demands that Governor Newsom not penalize counties for not achieving new State goals and objectives that are not directly related to flattening the curve and maintaining hospital and medical system capacity; and
8. Tulare County demands that Governor Newsom follow through with his commitments to the Central Valley and provide Tulare County with the necessary contracts and infrastructure development to meet the State's metrics for testing volume.
9. Tulare County demands that Governor Newsom not continue to burden California's small business community and families by linking business and school reopening to any requirements beyond what was outlined in the original Blueprint, announced on August 28, 2020.
10. Tulare County demands that California counties be judged on simple, consistent, achievable, and measurable objectives related to maintaining hospital and medical system capacity, and slowing the spread of COVID-19.
11. Tulare County demands that due to the increasing burden and expense to Tulare County that these changing orders have presented, the State distribute in its entirety, the remaining CARES Act funding allocated to Tulare County under the State Budget Act of 2020.
12. The Clerk of the Board of Supervisors shall transmit copies of this to the following:

County Administrative Office

County Counsel

The Honorable Gavin Newsom
Governor of California

State Capitol
Sacramento, CA 95814

UPON MOTION OF SUPERVISOR TOWNSEND, SECONDED BY SUPERVISOR SHUKLIAN, THE FOLLOWING WAS ADOPTED BY THE BOARD OF SUPERVISORS, AT AN OFFICIAL MEETING HELD OCTOBER 6, 2020, BY THE FOLLOWING VOTE:

October 9, 2020

TO: All Californians

SUBJECT: Guidance for Private Gatherings

Summary

This guidance provides an updated plan for Californians to gather outside their household and replaces the prior gatherings guidance issued on September 12, 2020 and March 16, 2020. It applies to private gatherings, and all other gatherings not covered by existing sector guidance are prohibited. Gatherings are defined as social situations that bring together people from different households at the same time in a single space or place. When people from different households mix, this increases the risk of transmission of COVID-19.

Mandatory Requirements for All Gatherings

All persons planning to host or participate in a private gathering, as defined above, must comply with the following requirements. Local health jurisdictions may be more restrictive than this guidance. Refer to your local guidance for what is allowed in your area.

1. Attendance

- *Gatherings that include more than **3 households are prohibited**. This includes everyone present, including hosts and guests. Remember, the smaller the number of people, the safer.*
- *Keep the households that you interact with stable over time. By spending time with the same people, risk of transmission is reduced. Participating in multiple gatherings with different households or groups is strongly discouraged.*
- *The host should collect names of all attendees and contact information in case contact tracing is needed later.*

2. *Gather Outdoors*

- Gatherings that occur outdoors are significantly safer than indoor gatherings. All gatherings must be held outside. Attendees may go inside to use restrooms as long as the restrooms are frequently sanitized.
- Gatherings may occur in outdoor spaces that are covered by umbrellas, canopies, awnings, roofs, and other shade structures provided that at least three sides of the space (or 75%) are open to the outdoors.
- A gathering of no more than three households is permitted in a public park or other outdoor space, even if unrelated gatherings of other groups up to three households are also occurring in the same park or other outdoor space. If multiple such gatherings are occurring, mixing between group gatherings is not allowed. Additionally, multiple gatherings of three households cannot be jointly organized or coordinated to occur in the same public park or other outdoor space at the same time – this would constitute a gathering exceeding the permitted size.

3. *Don't Attend Gatherings If You Feel Sick or You Are in a High-Risk Group*

- Anyone with any COVID-19-like symptoms (fever, cough, shortness of breath, chills, night sweats, sore throat, nausea, vomiting, diarrhea, tiredness, muscle or body aches, headaches, confusion, or loss of sense of taste/smell), **must stay home and not come into contact with anyone outside their household.**
- Anyone who develops COVID-19 within 48 hours after attending a gathering should notify the other attendees as soon as possible regarding the potential exposure.
- People at higher risk of severe illness or death from COVID-19 (such as older adults and people with chronic medical conditions) are strongly urged not to attend any gatherings.

4. *Practice Physical Distancing and Hand Hygiene at Gatherings*

- For any gatherings permitted under this guidance, the space must be large enough so that everyone at a gathering can maintain at least a 6-foot physical distance from others (not including their own household) at all times.
- Seating must provide at least 6 feet of distance (in all directions—front-to-back and side-to-side) between different households.
- Everyone at a gathering should frequently wash their hands with soap and water, or use hand sanitizer if soap and water are not available. A place to wash hands or hand sanitizer must be available for participants to use.
- Shared items should not be used during a gathering. As much as possible, any food or beverages at outdoor gatherings must be in single-serve disposable containers. If providing single-serve containers is not possible, food and beverages must be served by a person who washes or sanitizes their hands frequently, and wears a face covering. Self-serve items from communal containers should not be used.

5. *Wear a Face Covering to Keep COVID-19 from Spreading*

- When gathering, face coverings must be worn in accordance with the CDPH Guidance on the Use of Face Coverings (PDF), unless an exemption is applicable.
- People at gatherings may remove their face coverings briefly to eat or drink as long as they stay at least 6 feet away from everyone outside their own household, and put their face covering back on as soon as they are done with the activity.
- Face coverings can also be removed to meet urgent medical needs (for example, to use an asthma inhaler, take medication, or if feeling light-headed).

6. *Keep it short*

- Gatherings should be two hours or less. The longer the duration, the risk of transmission increases.

7. *Rules for Singing, Chanting, and Shouting at Outdoor Gatherings*

- Singing, chanting, shouting, and physical exertion significantly increases the risk of COVID-19 transmission because these activities increase the release of respiratory droplets and fine aerosols into the air. Because of this, singing, chanting, and shouting are strongly discouraged, but if they occur, the following rules and recommendations apply:
 - All people who are singing or chanting should wear a face covering at all times while singing or chanting, including anyone who is leading a song or chant. Because these activities pose a very high risk of COVID-19 transmission, face coverings are essential to reduce the spread of respiratory droplets and fine aerosols;
 - People who are singing, shouting, chanting, or exercising are strongly encouraged to maintain physical distancing beyond 6 feet to further reduce risk.
 - People who are singing or chanting are strongly encouraged to do so quietly (at or below the volume of a normal speaking voice).
- Instrumental music is allowed as long as the musicians maintain at least 6-foot physical distancing. Musicians must be from one of the three households. Playing of wind instruments (any instrument played by the mouth, such as a trumpet or clarinet) is strongly discouraged.

Context

COVID-19 continues to pose a severe risk to communities and requires all people in California to follow necessary precautions and to adapt the way they live and function in light of this ongoing risk. The safest way to gather is to spend time with people in the same household or to gather virtually.

In general, the **more people from different households** a person interacts with at a gathering, the **closer** the physical interaction is, and the **longer** the interaction lasts, the higher the risk that a person with a COVID-19 infection, symptomatic or asymptomatic, may spread it to others. Public health studies have also shown that the risk of transmission is increased **in indoor spaces**, particularly when there isn't appropriate ventilation.[1] Unlike indoor spaces, wind and air in outdoor spaces can help reduce spread of the virus from one person to another.

Planning scenarios published by the CDC estimate that, on average, a person with COVID-19 goes on to infect between 2-4 people, with a best estimate of 2.5 when there are no preventive measures.[2] For example, if each infected person spreads the virus to two people, who in turn spread it to two others each; those four will spread the

virus to eight others; those eight will spread the virus to 16; and so on. As a result, after 10 transmission cycles, one person could be responsible for 1,024 other people contracting the virus.[3] Additionally, there is broad agreement that people who are not experiencing symptoms can still spread COVID-19[4]. The fact that COVID-19 can be spread by people who don't have symptoms or aren't showing symptoms yet is one of the aspects of the COVID-19 that makes it difficult to control.

All gatherings pose a higher risk of transmission and spread of COVID-19 when people mix from different households and communities. The likelihood of transmission and spread increases with laughing, singing, loud talking and difficulty maintaining physical distance. Limiting attendance at gatherings is a way to reduce the risk of spread as it lowers the number of different people who are interacting. Additionally, by limiting attendance there is an improved ability to perform effective contact tracing if there is a positive case discovered, which can help to slow the spread of COVID-19[5]. People who do choose to attend gatherings should discuss and agree upon the specific group rules before convening together.

Census Tracts in the Lowest Quartile of the Healthy Places Index for Tulare County

Health Equity Blueprint Metric

- ▶ Lowest HPI quartile test positivity rate must meet the specified threshold for the less restrictive tier before a county can move to that tier
 - ▶ For counties entering the red tier, their lowest quartile HPI census tracts' test positivity must also be $\leq 8\%$
 - ▶ For counties entering the orange tier, their lowest quartile HPI census tracts' test positivity must be within 5% of the orange tier threshold, or $\leq 5.2\%$
 - ▶ For counties entering the yellow tier, their lowest quartile HPI census tracts must be within 10% of the yellow tier threshold, or $\leq 2.1\%$

Tier assignment updated October 13

- Tulare County's overall positivity rate was 5.8% and
- Positivity in the lowest HPI quartile was 8.0%
- Both were in Tier 2 "substantial" category
- However, we were assigned Tier 1 due to case rate > 7.0

Positivity by Census Tract 10/13 Specimens Collected 9/27-10/3

Tulare County Census Tracts with > 8.0% Positivity - Specimens collected 9/27-10/3

Census Tract	HPI Quartile	% Positive	Continuous Weeks > 8%	Population (2014-2018)	Place
0600	Q1 - Low HPI	24.4	2	7,068	Cutler/Yettem
4200	Q1 - Low HPI	18.9	1	6,643	Pixley/Teviston
0202	Q2	17.9	1	2,522	Rural north of Orosi
3300	Q2	16.0	3	7,848	Strathmore/Plainview
4400	Q1 - Low HPI	15.6	3	7,607	Earlimart
4300	Q1 - Low HPI	15.4	1	7,487	Alpaugh/Allensworth/Richgrove
0100	Q4 - High HPI	15.2	1	4,715	Three Rivers/Badger
2901	Q1 - Low HPI	13.3	2	4,088	South-central Tulare
3200	Q1 - Low HPI	12.5	1	7,420	Tipton/Woodville
0502	Q3	12.2	2	4,321	South-west Dinuba
2202	Q1 - Low HPI	11.8	1	6,076	West-central Tulare
0401	Q3	10.5	3	6,188	North Dinuba
0402	Q3	10.3	3	7,337	North-Central Dinuba
1400	Q3	9.5	2	5,202	N. Farmersville/Lindcove/Lemoncove
3100	Q2	9.4	1	3,502	Waukena/SW of Tulare
2100	Q3	9.4	2	2,559	Rural area NW of Tulare
3002	Q2	9.3	1	3,434	South-west Tulare
1602	Q2	9.3	1	5,725	Rural area south of Farmersville
1501	Q3	9.0	1	5,398	North Exeter
0201	Q1 - Low HPI	8.9	3	8,607	Orosi
2700	Q4 - High HPI	8.3	2	5,164	Springville/Camp Nelson/Posey

- 21 census tracts have positivity > 8.0%
- 25 tracts have positivity between 5 and 8%
- 21 tracts have positivity between 2 and 5%
- 9 tracts have positivity < 2.0%

Note that for small areas such as individual census tracts, data shifts from week to week.

The health equity metric is calculated for all low quartile tracts aggregated together.

Census tracts highlighted have had positivity > 8% for 3 weeks in a row.

Population estimates are from the 5 year American Community Survey (2014-2018), US Census Bureau

Health Equity Metric updated 10/13
Data is for specimens collected 9/27-10/3

COVID-19 INDUSTRY GUIDANCE: Expanded Personal Care Services

October 20, 2020

This guidance is designed to address sectors and activities opening statewide. However, local health officers may implement more stringent rules tailored to local epidemiological conditions, so employers should also confirm relevant local opening policies.

OVERVIEW

On March 19, 2020, the State Public Health Officer and Director of the California Department of Public Health issued an order requiring most Californians to stay at home to disrupt the spread of COVID-19 among the population.

The impact of COVID-19 on the health of Californians is not yet fully known. Reported illness ranges from very mild (some people have no symptoms) to severe illness that may result in death. Certain groups, including people aged 65 or older and those with serious underlying medical conditions, such as heart or lung disease or diabetes, are at higher risk of hospitalization and serious complications. Transmission is most likely when people are in close contact or in a poorly ventilated area with an infected person, even if that person does not have any symptoms or has not yet developed symptoms.

Precise information about the number and rates of COVID-19 by industry or occupational groups, including among critical infrastructure workers, is not available at this time. There have been multiple outbreaks in a range of workplaces, indicating that workers are at risk of acquiring or transmitting COVID-19 infection. Examples of these workplaces include hospitals, long-term care facilities, prisons, food production, warehouses, meat processing plants, restaurants, and grocery stores.

As stay-at-home orders are modified, it is essential that all possible steps be taken to ensure the safety of workers and the public.

Key prevention practices include:

- ✓ physical distancing to the maximum extent possible,
- ✓ use of face coverings by workers (where respiratory protection is not required) and customers/clients,
- ✓ frequent handwashing and regular cleaning and disinfection,
- ✓ training workers on these and other elements of the COVID-19 prevention plan.

In addition, it will be critical to have in place appropriate processes to identify new cases of illness in workplaces and, when they are identified, to intervene quickly and work with public health authorities to halt the spread of the virus.

PURPOSE

This document provides guidance for expanded personal care services, which includes personal care that requires touching a client's face, e.g. facials, electrolysis, and waxing. This guidance applies to esthetic, skin care, electrology, nail services, body art professionals, tattoo parlors, and piercing shops, and massage therapy (in non-healthcare settings). Businesses in these industries are open across all tiers but must follow the modifications in this guidance.

For the most updated information on county tier status, visit [Blueprint for a Safer Economy](#). Please note that local health departments can have more restrictive criteria and different closures. Find [your county's local information](#).

This guidance is intended to support a safe, clean environment for workers and customers. Establishment license holders must acknowledge that renters or lessees should only resume operations when they are ready and able to implement the necessary safety measures to provide for their safety and that of their customers.

The guidance is not intended to revoke or repeal any worker rights, either statutory, regulatory, or collectively bargained and is not exhaustive, as it does not include county health orders, nor is it a substitute for any existing safety and health-related regulatory requirements such as those of Cal/OSHA or the California Board of Barbering and Cosmetology.¹ Stay current on changes to public health guidance and state/local orders, as the COVID-19 situation continues. Cal/OSHA has more comprehensive guidance on their [Cal/OSHA General Guidelines on Protecting Workers from COVID-19 webpage](#). CDC has additional requirements in their [guidance](#) for businesses and employers.

Required Use of Face Coverings

On June 18, CDPH issued [Guidance on the Use of Face Coverings](#), which broadly requires the use of face coverings for both members of the public and workers in all public and workplace settings where there is a high risk of exposure. Complete details, including all requirements and exemptions to these rules, can be found in the [guidance](#).

The [CDPH Face Covering Guidance](#) is subject to additional updates based on the current scientific understanding of transmission of the virus causing COVID-19. Please check the CDPH website for any revisions.

Workplace Specific Plan

- Establish a written, workplace-specific COVID-19 prevention plan at every location, perform a comprehensive risk assessment of all work areas and work tasks and designate a person at each facility to implement the plan.
- Incorporate the [CDPH Face Covering Guidance](#) into the Workplace Specific Plan and include a policy for handling exemptions.
- Identify contact information for the local health department where the facility is located for communicating information about COVID-19 outbreaks among workers or customers.
- Train and communicate with workers and worker representatives on the plan and make the plan available to workers and their representatives.
- Regularly evaluate the workplace for compliance with the plan and document and correct deficiencies identified.
- Investigate any COVID-19 illness and determine if any work-related factors could have contributed to risk of infection. Update the plan as needed to prevent further cases.
- Implement the necessary processes and protocols when a workplace has an outbreak, in accordance with [CDPH guidelines](#) and orders or guidance from the local health department.
- Identify close contacts (within six feet for 15 minutes or more) of an infected worker and take steps to isolate COVID-19 positive worker(s) and close contacts.
- Notify all employees in writing, and employers of subcontracted employees, who may have been exposed to COVID-19 and report workplace outbreaks to the local health department. For additional information on employer responsibilities under [AB 685](#) (Chapter 84, Statutes of 2020), refer to the [Enhanced Enforcement and Employer Reporting Requirements](#) from Cal/OSHA and the [Employer Questions about AB 685](#) from CDPH.
- Adhere to the guidelines below. Failure to do so could result in workplace illnesses that may cause operations to be temporarily closed or limited.

Topics for Worker Training

- Information on [COVID-19](#), how to prevent it from spreading, and [people who are at higher risk](#) for severe illness or death.
- Self-screening at home, including temperature and/or symptom checks using [CDC guidelines](#).

- The importance of not coming to work:
 - If a worker has symptoms of COVID-19 as [described by the CDC](#), such as a fever or chills, cough, shortness of breath or difficulty breathing, fatigue, muscle or body aches, headache, new loss of taste or smell, sore throat, congestion or runny nose, nausea, vomiting, or diarrhea, OR
 - If a worker was diagnosed with COVID-19 and has not yet been released from isolation, OR
 - If, within the past 14 days, a worker has had contact with someone who has been diagnosed with COVID-19 and is considered potentially infectious (i.e. still on isolation).
- To return to work after a worker receives a COVID-19 diagnosis only after meeting [CDPH Guidance on Returning to Work or School Following COVID-19 Diagnosis](#).
- To seek medical attention if their symptoms become severe, including persistent pain or pressure in the chest, confusion, or bluish lips or face. Updates and further details are available on [CDC's webpage](#).
- The importance of frequent handwashing with soap and water, including scrubbing with soap for 20 seconds (or using hand sanitizer with at least 60% ethanol (preferred) or 70% isopropanol (if the product is inaccessible to unsupervised children) when workers cannot get to a sink or handwashing station, per [CDC guidelines](#)). Never use hand sanitizers with [methanol](#) due to its high toxicity to both children and adults.
- The importance of physical distancing, both at work and off work time (see Physical Distancing section below).
- Proper use of face coverings, including:
 - Face coverings are not personal protective equipment (PPE).
 - Face coverings do not replace the need for physical distancing and frequent handwashing.
 - Face coverings must cover the nose and mouth.
 - Workers should wash or sanitize hands before and after using or adjusting face coverings.
 - Avoid touching eyes, nose, and mouth.
 - Face coverings must not be shared and should be washed or discarded after each shift.
- Information contained in the [CDPH Guidance for the Use of Face Coverings](#), which mandates the circumstances in which face coverings must be worn and the exemptions, as well as any policies, work rules, and

practices the employer has adopted to ensure the use of face coverings. Training should also include the employer's policies on how people who are exempted from wearing a face covering will be handled.

- Ensure any independent contractors, temporary, or contract workers at the facility are also properly trained in COVID-19 prevention policies and have necessary supplies and PPE. Discuss these responsibilities ahead of time with organizations supplying temporary and/or contract workers.
- Information on paid leave benefits the worker may be entitled to receive that would make it financially easier to stay at home. See additional information on [government programs supporting sick leave and workers' compensation for COVID-19](#), including workers' sick leave rights under the [Families First Coronavirus Response Act](#).

Individual Control Measures and Screening

- Provide temperature and/or symptom screenings for all workers at the beginning of their shift and any vendors or contractors entering the establishment. Make sure the temperature/symptom screener avoids close contact with workers to the extent possible.
- If requiring self-screening at home, which is an appropriate alternative to providing it at the establishment, ensure that screening was performed prior to the worker leaving the home for their shift and follows [CDC guidelines](#), as described in the Topics for Worker Training section above.
- Encourage workers and customers who are sick or exhibiting symptoms of COVID-19 to stay home.
- Employers must provide and ensure workers use all required protective equipment, including eye protection, gloves, and face shields where necessary.
- Employers should consider where disposable glove use may be helpful to supplement frequent handwashing or use of hand sanitizer; examples are for workers who are screening others for symptoms or handling commonly touched items. Workers should wear gloves when handling items contaminated by body fluids.
- Disposable gloves should be worn for services that require them. Wearing gloves should be done in conjunction with regular hand washing and is not a substitute for regular hand washing.
- Workers who consistently must be within six feet of customers or co-workers must wear a secondary barrier (e.g., face shield or safety goggles) in addition to a face covering. All employees should minimize the amount of time spent within six feet of customers.

- Contact customers before visits to confirm appointments and ask if they or someone in their household is exhibiting any COVID-19 symptoms. If the customer answers in the affirmative, reschedule the appointment. Such communication can be done via phone, app, email, or text to remind customers that they should only come to the facility for their appointment if they do not pose a health risk to other customers or workers. In order to implement pre-screening protocols and ensure physical distancing protocols, consider suspending walk-in appointment availability.
- Tell customers that no additional friends or family will be permitted in the facility, except for a parent or guardian accompanying a minor.
- Customers should be screened for temperature and/or symptoms upon arrival, asked to use hand sanitizer, and to wear a face covering unless exempted per the [CDPH Face Covering Guidance](#). Employers have the right to refuse entry to symptomatic customers or visitors.
- Display a set of guidelines for customers that are to be a condition of entry. The guidelines must include instructions to wear face coverings, use hand sanitizer, maintain physical distance from other customers, and they should communicate changes to service offerings. The guidelines should be posted in clearly visible locations, including at entrances, include pictograms, and be made available digitally (e.g. through email).

Ventilation, Cleaning, and Disinfecting Protocols

- Consider opening treatment room windows, if feasible and within security protocols.
- Where possible, install portable high-efficiency air cleaners, upgrade the building's air filters to the highest efficiency possible, and make other modifications to increase the quantity of outside air and ventilation in all working areas.
- Check the [CDPH website](#) periodically for updates on indoor air quality and ventilation guidance for airborne diseases in indoor settings.
- Ensure that coworkers, fellow tenants, booth renters, and/or staff have coordinated and put a plan in place for cleaning and disinfection at the beginning and end of each shift and in between customers. Perform thorough cleaning in high traffic areas, such as reception areas, and areas of ingress and egress including stairways, stairwells, and handrails.
- Frequently disinfect commonly used surfaces including credit card terminals, counters, reception area seating, door handles, light switches, phones, toilets, and handwashing facilities.
- Evaluate existing ventilation, hygiene, and sanitation protocols and

cleaning processes and update where necessary. Use hospital grade, [Environmental Protection Agency \(EPA\)-approved products](#) to clean and disinfect anything the client came in contact with, including treatment tables, face cradles, stools, bolsters, door knobs, side tables, chairs, etc. Follow the product manufacturer's recommendations for contact time. Use disinfectants labeled to be effective against emerging viral pathogens, diluted household bleach solutions (5 tablespoons per gallon of water), or alcohol solutions with at least 70% alcohol that are appropriate for the surface. Provide workers training on the chemical hazards, manufacturer's directions for use, ventilation requirements, and Cal/OSHA requirements for safe use. Workers using cleaners or disinfectants should wear gloves and other protective equipment as required by the product. Follow the [asthma-safer cleaning methods](#) recommended by the California Department of Public Health and ensure proper ventilation.

- Since porous surfaces such as chair seats cannot be easily disinfected, consider covering with a plastic or disposable liner and cleaning or disposing of the liner after each customer.
- All appliances at work stations and in treatment rooms should be properly disinfected between each customer.
 - For non-porous implements, such as tweezers or scissors, clean the item with hot, soapy water to remove any physical debris. Rinse and dry the implement completely. Follow by immersing the implement in an EPA-registered liquid disinfectant that is labeled as a bactericide, fungicide, and virucide for the full contact time as stated by the manufacturer's directions. Items should be removed at the end of contact time, rinsed, and dried with a clean paper towel.
 - For electrical implements such as magnifying LED lamps, hot towel warmers, and esthetic devices, clean the implement with a spray or wipe to remove any physical debris. Follow with an EPA-registered disinfectant spray or wipe for the full contact time as noted by the manufacturer's directions. Use caution when using a spray and be sure your device is unplugged and do not spray into the motor. For electronics such as tablets, touch screens, keyboards, remote controls, and ATM machines, remove visible contamination if present. Follow the manufacturer's instructions for all cleaning and disinfection products. Consider use of wipeable covers for electronics. If no manufacturer guidance is available, consider the use of alcohol-based wipes or sprays containing at least 60% alcohol to disinfect touch screens. Dry surfaces thoroughly to avoid pooling of liquids.
- To minimize the risk of [Legionnaires' disease](#) and other diseases associated with water, [take steps](#) to ensure that all water systems (e.g., drinking fountains) are safe to use after a prolonged facility shutdown.

- Where linens are used, even if the customer does not get under them, the linens should still be removed and the bed or table properly disinfected. Treatment tables must be covered with either clean treatment table paper, a clean towel, or a clean sheet after each use.
- Workers should wear disposable gloves when removing used linens, towels, and other draping, including blankets and client draping for each treatment. Do not shake the dirty laundry. Place used linens in a lined, lidded receptacle positioned outside the treatment space, if possible, to minimize the possibility of dispersing virus in the air. Dirty linens should not be used again until properly laundered either by a commercial laundering service or a laundering process which includes immersion in water of at least 160 degrees Fahrenheit for at least 25 minutes. Store all clean linens in a clean, covered place.
- Where possible, do not clean floors by sweeping or other methods that can disperse pathogens into the air unless all persons in the area have appropriate PPE. Use a vacuum with a HEPA filter wherever possible.
- Do not allow food or beverages to be at stations or in treatment rooms.
- Thoroughly clean any product display areas, including all shelving and display cases. Remove and discard any open "test" products and discontinue this practice to help reduce contamination. Add signage to this area to let customers know it is cleaned and disinfected daily.
- Encourage the use of credit cards and contactless payment systems. If electronic or card payment is not possible, customers should come with exact cash payment or check.
- Consider upgrading to touchless faucets, soap and paper towel dispensers, and adding touchless, automatic hand sanitizer dispensers. Ensure soap dispensers and paper towel dispensers are regularly filled.
- Equip reception areas and workstations with proper sanitation products, including hand sanitizer and sanitizing wipes.
- Provide time for workers to implement cleaning practices during their shift. Cleaning assignments should be assigned during working hours as part of the worker's job duties.
- Workers should avoid sharing phones, tablets, laptops, desks, pens, and other work supplies, wherever possible. Never share PPE.
- In addition to the above cleaning and disinfecting protocols, businesses must follow the existing [California Board of Barbering and Cosmetology rules](#). Additional rules may also apply for businesses at the local, county-level.

Physical Distancing Guidelines

- **WARNING:** physical distancing alone is insufficient to prevent transmission of COVID-19.
- Implement measures to ensure physical distancing of at least six feet between and among workers and customers, except while providing the services that require close contact. This can include use of physical partitions or visual cues (e.g., floor markings, colored tape, or signs to indicate to where workers and/or customers should stand).
- Maintain at least six feet of physical distance between each work station area, and/or use impermeable barriers between work stations to protect customers from each other and workers.
- Stagger appointments to reduce reception congestion and ensure adequate time for proper cleaning and disinfection between each customer visit. Consider servicing fewer customers each day or expanding operating hours to allow for more time between customers and suspending walk-in appointments.
- If possible, implement virtual check-in technology to ensure that workers are notified when a customer arrives. Ask customers to wait outside or in their cars rather than congregating in reception areas. Reception areas should only have one customer at a time or the area should be modified to support adequate physical distancing, including removing chairs and sofas or spacing them further apart.
- For outdoor operations, establish an outdoor reception area where customers can check in while still following physical distancing guidelines. Take measures at reception desks or other areas where physical distancing cannot be maintained to minimize exposure between workers and customers, such as Plexiglas or other barriers.
- For outdoor operations, create outdoor break areas with shade covers and seating that ensures physical distancing, where possible.
- Take measures at reception desks or other areas where physical distancing cannot be maintained to minimize exposure between workers and customers, such as Plexiglas or other barriers.
- Consider offering workers who request modified duties options that minimize their contact with customers and other workers (e.g., managing inventory or managing administrative needs through telework).
- Require workers to avoid handshakes, fist bumps, hugs, or similar greetings that break physical distance.
- Do not allow people to congregate in high traffic areas such as bathrooms, hallways, bar areas, reservation, and credit card terminals, etc.

- Ensure workers can maintain physical distance in breakrooms, using barriers, increasing distance between tables/chairs to separate workers, etc. Where possible, create outdoor break areas with shade coverings and seating arrangements that ensures physical distancing. Discourage workers from congregating during breaks and ensure they are not eating or drinking without face coverings within six feet of each other.
- Adjust any staff meetings to ensure physical distancing. Hold meetings over the phone or via webinar for workers wherever possible.

Additional Considerations for Esthetic and Skin Care Services

- Workers should wear a face shield for eye protection (with a face covering) when they are providing clients treatment on facial or neck areas that do not enable the client to wear a face covering.
- Disposable gloves should be worn throughout the entire esthetic service and while performing cleaning and disinfection of all implements and surfaces after each client session.
- Before leaving the treatment room or area, remove and dispose of gloves, apply proper hand sanitizer or wash hands with soap and water, and use a previously readied disposable barrier, such as a paper towel or sanitizer wipe, to open and close the treatment room door while leaving the room.
- Single use applicators must be used and disposed of immediately after use in a lined trash bin. The trash bin should have a lid and should be lined with a disposable plastic bag.

Additional Considerations for Electrology Services

- Electrology services must not be provided in the outdoor setting because they are invasive procedures that require a controlled hygienic environment to be performed safely.
- Electrologists must use disposable gloves during the client's entire treatment. Electrologists should wear a face shield for eye protection (with a face covering) when they are providing clients treatment on facial or neck areas that do not enable the client to wear a face covering.
- Clients having any other areas treated should be required to wear a face covering throughout the service, if able to wear one per the [CDPH Face Covering Guidance](#).

- Tweezers, rollers, and needle holder caps should be properly cleaned and sterilized between each client. This could include the use of an autoclave or placing the items in a sealed pouch and sterilizing them in a dry heat sterilizer. The pouch should not be reopened until the next client's treatment session begins.
- Where possible, use disposable probes that do not require a probe tip or cap, which will reduce exposure points. If not using disposable probe tips or caps, the removable tip or cap of the epilator needle/probe holder must be cleaned and disinfected after each client.
- Needles used for electrolysis must be single-use, disposable, pre-packaged, and sterile and disposed of in an approved sharps container immediately after use. Sharps containers must be discarded in accordance with biomedical waste regulation.
- Heat produced by the electrical current passing through an electrolysis needle is not sufficient to sterilize it.
- Ultrasonic cleaning units, forceps, and all containers, including their removable parts, must be cleaned and disinfected between each client according to the manufacturer's instructions.

Additional Considerations for Nail Services

- Clients must wash their hands before nail services are provided.
- Workers must wear face coverings at all times, or a respirator where required. Respirators are required where ventilation is insufficient to reduce exposure below permissible exposure limits established in title 8 [section 5155](#). In cases of chemical exposure, only elastomeric respirators with the correct chemical cartridge combined with a particulate filter are appropriate for use.
- Disposable gloves should be worn throughout the entire service and while performing cleaning and disinfection of all implements and surfaces after each client. Once cleaning is finished, remove and dispose of gloves and apply proper hand sanitizer or wash hands with soap and water.
- Pedicures done outside shall be limited to portable tubs/bowls and must be disinfected with an EPA-registered liquid disinfectant that is labeled as a bactericide, fungicide and virucide. Refer to manufacturer's instructions on concentration. The disinfection should occur inside the nail salon and not in the temporary outdoor setting.
- Pedicure bowls must be disinfected with an EPA-registered liquid disinfectant that is labeled as a bactericide, fungicide and virucide. Refer to manufacturer's instructions on concentration. For whirlpool foot spas, air-jet basins or pipeless foot spas, disinfectant must be circulated for at least

10 minutes. For non-whirlpool foot basins and tubs, soak disinfectant in the basin or tub for at least 10 minutes. Foot-spas, basins and pedicure bowls must be properly cleaned and disinfected after every client even if a disposable plastic liner is used.

- Nail salons should use disposable supplies whenever possible. Any non-disposable supplies must be fully disinfected between customers according to the California Board of Barbering and Cosmetology guidelines.
- All single use items, such as cardboard files, sand-bands for drills and buffers, disposable sandals, toe separators, and applicators, must be used once and immediately thrown away in a lined, lidded trash can.
- To reduce the number of touchpoints, remove the nail polish displays. In the absence of a nail polish display, use a color palette, which is to be cleaned and disinfected after each client use. If the nail polish display is not removed, nail polishes should be cleaned and disinfected before being returned to the display.
- Consider whether it is feasible to install a plastic partition between the worker and client with ample space cut out where hands or feet can be slid underneath to conduct the manicure or pedicure.
- Allow only one manicurist to work at each station and do not allow clients to get multiple services at the same time, such as a manicure and pedicure.
- If fans, such as pedestal fans or hard-mounted fans, are used in the salon, take steps to minimize air from fans blowing directly from one person toward another. If fans are disabled or removed, employers should remain aware of possible heat hazards and take steps to mitigate them.
- Nail salons should consider upgrading existing ventilation to include locally exhausted nail tables.

Additional Considerations for Body Art Professionals, Tattoo Parlors, and Piercing Shops

- Disposable gloves are required throughout the tattooing or piercing service and while performing cleaning and disinfection of all implements and surfaces after each customer session.
- Workers should ensure they wash their hands thoroughly with soap and water or use hand sanitizer immediately before putting on and after removing gloves.

- Suspend piercing and tattooing services for the mouth/nose area.
- Chairs should be arranged to ensure at least six feet of space between customers. Establishments should consider additional divider shields or other impermeable barriers where appropriate.
- Workers should provide tattooing or piercing services for only one customer at a time.

Additional Considerations for Massage Services (Non-Healthcare Settings)

- Clients must wash their hands before any services are provided.
- Consider alterations to the treatment table setup to support the required cleaning and disinfecting protocols. This could include using disposable face cradle covers and/or protecting the table, table warmers, bolsters, and other items with washable barriers like pillowcases that can be removed and replaced between each client. Barriers are not a substitution for the required cleaning and disinfecting protocols.
- Evaluate whether facial massages or other hands-on work to the face will be offered. If providing such services, use non-latex gloves for this part of the treatment. Facial massages should not be performed if it requires removal of the client's face covering.
- Provide any hand treatments as the last part of the service.
- Workers should wash their hands immediately upon finishing massage services.

¹ Additional requirements must be considered for vulnerable populations. Personal care providers must comply with all [Cal/OSHA](#) standards and be prepared to adhere to its guidance as well as guidance from the [Centers for Disease Control and Prevention \(CDC\)](#) and the [California Department of Public Health \(CDPH\)](#). Additionally, employers should be prepared to alter their operations as those guidelines change.

Sandra Shewry
Acting Director
Erica S. Pan, MD, MPH
Acting State Health Officer

State of California—Health and Human
Services Agency
**California Department of
Public Health**

GAVIN NEWSOM
Governor

November 19, 2020

TO: All Californians

SUBJECT: Limited Stay At Home Order

Upon assessment of the recent, unprecedented rate of rise in increase in COVID-19 cases across California, the California Department of Public Health (CDPH) is taking immediate actions to prevent the spread of the virus. These immediate actions will help reduce community spread, protect individuals at higher risk of severe illness or death from COVID-19, and prevent the state's health care delivery system from becoming overwhelmed. Reducing movement and mixing of individual Californians is critical to decreasing transmission, hospitalizations, and deaths.

Therefore, as the State Public Health Officer, I am issuing a Limited Stay at Home order, effective in counties under Tier One (Purple) of California's Blueprint for a Safer Economy, requiring that all gatherings with members of other households and all activities conducted outside the residence, lodging, or temporary accommodation with members of other households cease between 10:00pm PST and 5:00am PST, except for those activities associated with the operation, maintenance, or usage of critical infrastructure[1] or required by law. This order does not apply to persons experiencing homelessness. Nothing in this order prevents any number of persons from the same household from leaving their residence, lodging, or temporary accommodation, as long as they do not engage in any interaction with (or otherwise gather with) any number of persons from any other household, except as specifically permitted herein.

This Limited Stay at Home Order will reduce opportunities for disease transmission with the goal of decreasing the number of hours individuals are in the community and mixing with individuals outside of their household. Every intervention to decrease mixing of households is critical during this unparalleled increase in case rate rise of about 50 percent during the first week in November. In particular, activities conducted during 10:00pm to 5:00am are often non-essential and more likely related to social activities and gatherings that have a higher likelihood of leading to reduced inhibition and reduced likelihood to adhere to COVID-19 preventive measures (e.g., wearing face coverings and maintaining physical distance).

This order shall take effect on November 21, 2020, at 10:00pm PST.

For counties that move into Tier One (Purple) after the effective date of this Order, the terms of this Order shall apply at 10:00pm PST on day two after the county is assigned to Tier One (Purple). For the purpose of counting days, day one shall be the first full day following the date of the tier assignment.

This order remains in effect until 5:00am PST on December 21, 2020, and may be extended or revised as needed.

This order is issued pursuant to Health and Safety Code sections 120125, 120130(c), 120135, 120140, 120145, 120175, 120195 and 131080; EO N-60-20, N-25-20, and other authority provided for under the Emergency Services Act; and other applicable law.

Erica S. Pan, MD, MPH
Acting State Public Health Officer

Regional Stay At Home Order
12/03/2020

Upon assessment of the recent, unprecedented rise in the rate of increase in COVID-19 cases, hospitalizations, and test positivity rates across California, the California Department of Public Health (CDPH) is taking immediate actions to prevent the spread of the virus.

The State, like the nation, continues to record an unprecedented surge in the level of community spread of COVID-19. California implemented an accelerated application of the Blueprint Framework metrics on November 16 and a limited Stay at Home Order issued on November 19. However, in the interim, the number of new cases per day has increased by over 112%, (from 8,743 to 18,588) and the rate of rise of new cases per day continues to increase dramatically. The number of new hospital admissions has increased from 777 on November 15, to 1,651 on December 2, and because of the lag between case identification and hospitalizations, we can only expect these numbers to increase.

Current projections show that without additional intervention to slow the spread of COVID-19, the number of available adult Intensive Care Unit (ICU) beds in the State of California will be at capacity in mid-December. This is a sign that the rate of rise in cases, if it continues, is at risk of overwhelming the ability of California hospitals to deliver healthcare to its residents suffering from COVID-19 and from other illnesses requiring hospital care. ICU beds are a critical resource for individuals who need the most advanced support and care and the ability to add additional ICU capacity is limited by the lack of available ICU nurses and physicians as a result of the nationwide surge in hospitalizations and ICU admissions.

Because the rate of increases in new cases continues to escalate and threatens to overwhelm the state's hospital system, further aggressive action is necessary to respond to the quickly evolving situation. While vaccines are promising future interventions, they are not available to address the immediate risks to healthcare delivery in the current surge. The immediate aggressive institution of additional non-pharmaceutical public health interventions is critical to avoid further overwhelming hospitals and to prevent the need to ration care.

NOW, THEREFORE, I, as Acting State Public Health Officer of the State of California, order:

1. CDPH will evaluate public health based on Regions, responsive to hospital capacity for persons resident in those Regions.
2. CDPH will evaluate the adult ICU bed capacity for each Region and identify on covid19.ca.gov any Regions for which that capacity is less than 15%. When that capacity is less than 15%, the following terms (the Terms of this Order) will apply.
 - a. All gatherings with members of other households are prohibited in the Region except as expressly permitted herein.
 - b. All individuals living in the Region shall stay home or at their place of residence except as necessary to conduct activities associated with the operation, maintenance, or usage of critical infrastructure,¹ as required by law, or as specifically permitted in this order.
 - c. [Worship](#) and [political expression](#) are permitted outdoors, consistent with existing guidance for those activities.
 - d. Critical infrastructure sectors may operate and must continue to modify operations pursuant to the [applicable sector guidance](#).
 - e. [Guidance](#) related to schools remain in effect and unchanged. Accordingly, when this Order takes effect in a Region, schools that have previously reopened for in-person instruction may remain open, and schools may continue to bring students back for in-person instruction under the [Elementary School Waiver Process](#) or [Cohorting Guidance](#).
 - f. In order to reduce congestion and the resulting increase in risk of transmission of COVID-19 in critical infrastructure retailers, all retailers may operate indoors at no more than 20% capacity and must follow the [guidance for retailers](#). All access to retail must be strictly metered to ensure compliance with the limit on capacity. The sale of food, beverages, and alcohol for in-store consumption is prohibited.
 - g. To promote and protect the physical and mental well-being of people in California, outdoor recreation facilities may continue to operate. Those facilities may not sell food or drink for on-site consumption. Overnight stays at

¹ See <https://covid19.ca.gov/essential-workforce/> for full list of California's Critical Infrastructure workforce.

campgrounds are not permitted.

- h. Nothing in this Order prevents any number of persons from the same household from leaving their residence, lodging, or temporary accommodation, as long as they do not engage in any interaction with (or otherwise gather with) any number of persons from any other household, except as specifically permitted herein.
 - i. Terms (a) and (b) of this section do not apply to persons experiencing homelessness.
- 3. Except as otherwise required by law, no hotel or lodging entity in California shall accept or honor out of state reservations for non-essential travel, unless the reservation is for at least the minimum time period required for quarantine and the persons identified in the reservation will quarantine in the hotel or lodging entity until after that time period has expired.
- 4. This order shall take effect on December 5, 2020 at 1259pm PST.
- 5. For Regions where the adult ICU bed capacity falls below 15% after the effective date of this order, the Terms of this Order shall take effect 24 hours after that assessment.
- 6. The Terms of this Order shall remain in place for at least three weeks from the date the order takes effect in a Region and shall continue until CDPH's four-week projections of the Region's total available adult ICU bed capacity is greater than or equal to 15%. Four-week adult ICU bed capacity projections will be made approximately twice a week, unless CDPH determines that public health conditions merit an alternate projection schedule. If after three weeks from the effective date of the Terms of this Order in a Region, CDPH's four-week projections of the Region's total available adult ICU bed capacity is greater than or equal to 15%, the Terms of this Order shall no longer apply to the Region
- 7. After the termination of the Terms of this Order in a Region, each county within the Region will be assigned to a tier based on the [Blueprint for a Safer Economy](#) as set out in my August 28, 2020 Order, and the County is subject to the restrictions of the Blueprint appropriate to that tier.
- 8. I will continue to monitor the epidemiological data and will modify this Regional Stay-at-Home Order as required by the evolving public health conditions. If I determine that it is necessary to change the Terms of this Order, or otherwise modify the Regional Stay-at-Home Order, these modifications will be posted at covid19.ca.gov.

9. When operative in a Region, the Terms of this Order supersede any conflicting terms in other CDPH orders, directives, or guidance. Specifically, for those Regions with ICU bed capacity triggering this order, the Terms of this Order shall supersede the State's [Blueprint for a Safer Economy](#) and all guidance (other than guidance for critical infrastructure sectors) during the operative period. In all Regions that are not subject to the restrictions in this order, the [Blueprint for a Safer Economy](#) and all guidance shall remain in effect.
10. This order is issued pursuant to Health and Safety Code sections 120125, 120130(c), 120135, 120140, 120145, 120175, 120195 and 131080; EO N-60-20, N-25-20, and other authority provided for under the Emergency Services Act; and other applicable law.

COVID-19 Vaccine Prioritization Recommendations for Moving Through Vaccine Phases and Tiers

January 7, 2021

Given the limited supply of COVID-19 vaccines, the California Department of Public Health (CDPH) recommends balancing the prioritization of these scarce resources to maximize the goal of achieving community immunity for all Californians.

After focused and appropriate efforts to reach the individual groups currently prioritized, health departments and providers may offer doses promptly to people in lower priority groups when:

- Demand subsides in the current groups, or
- Doses are about to expire according to labeling instructions.

To maximize vaccine administration and reduce the potential for vaccine wastage, local health departments and providers should immediately administer COVID-19 vaccines to individuals in all tiers of Phase 1a. Providers offering vaccines should consider partnering with other providers or organizations to provide vaccinations for individuals in the prioritized tiers. However, local health departments and providers should make special efforts to administer the vaccine to vaccinators.

Local health departments and providers may allocate doses on the assumption that immunization will be accepted by some but not all who are offered the vaccine, and then continue to offer vaccinations to all individuals in progressive priority tiers. If a county has maximized use of the vaccine to administer individuals in Phase 1a, they should move to Phase 1b, Tier 1 while continuing to offer vaccines to those in higher priority groups.

Tulare County Public Health Releases COVID-19 Vaccine Schedule

*COVID-19 Vaccinations Are Underway for Phase 1A of Distribution Plan,
County Offers COVID-19 Vaccine Interest Form for Tulare County Residents*

The COVID-19 virus continues to spread at alarming rates throughout Tulare County. In the midst of an ongoing surge of infections following holiday social gatherings, Tulare County Public Health releases its COVID-19 Vaccine Schedule for distribution and delivery of the much-anticipated vaccine to end the pandemic. For the COVID-19 Vaccine Schedule in Tulare County and for the latest information on the COVID-19 vaccine, visit: <https://covid19.tularecounty.ca.gov/covid-19-vaccine/>.

Vaccinating NOW – Phase 1A

Due to limited supplies of COVID-19 vaccine, Tulare County is currently distributing COVID-19 vaccine to those eligible in **Phase 1A ONLY**. The following people qualify to receive vaccinations within Phase 1A:

Phase 1A, Tier 1:

- Acute care, psychiatric, and correctional facility hospital staff
- Skilled nursing facilities, assisted living facilities, special needs group living equivalent
- Paramedics, EMTs, and others providing medical emergency services
- Dialysis centers
- Residents in long-term care settings
- Staff of residential and inpatient substance abuse disorder treatment and mental health facilities

Phase 1A, Tier 2:

- Intermediate care facilities staff
- Home health care and in-home supportive services
- Community health workers, including promotoras
- Public health field staff
- Primary care clinics, including Federally Qualified Health Centers, Rural Health Centers, correctional facility clinics, and urgent care clinics

Phase 1A, Tier 3:

- Specialty health care clinics (i.e., optometry, cardiology, neurology, outpatient, surgery, physical therapy, etc.)
- Laboratory workers
- Dental and other oral health clinics
- Pharmacy staff not working in settings at higher tiers
- Mortuary service industry

If you meet the eligibility requirements for Phase 1A, you can register to get vaccinated at:

<https://covid19.tularecounty.ca.gov/covid-19-vaccine/tulare-county-covid-19-vaccine-phase-1a/>

Those receiving vaccines in Phase 1A will be required to show proof of eligibility with either of the following: employer ID badge, employer payment stub, or official letter from employer.

Vaccinating Next – Phase 1B and Phase 1C

Currently, Tulare County Public Health is ONLY vaccinating those who are eligible in Phase 1A.

Once COVID-19 vaccine supply expands and those who qualify for Phase 1A have been vaccinated,

TULARE COUNTY HEALTH & HUMAN SERVICES AGENCY

Timothy W. Lutz, MBA
Agency Director

Karen M. Elliott, MBA • Director • Public Health Branch
Karen Haight, MD, MPH • County Health Officer

Tulare County Public Health will begin vaccinating residents that meet the requirements of distribution to Phase 1B and Phase 1C of the COVID-19 Vaccine Distribution Plan. Phase 1B and Phase 1C include the following:

Phase 1B

Phase 1B, Tier 1:

- Individuals aged 75 years and older
- Essential workers in the following sectors: education, childcare, emergency services, and food and agriculture

Phase 1B, Tier 2:

- Individuals aged 65-74 years of age
- Essential workers in the following sectors: transportation and logistics; industrial, commercial, residential, and sheltering facilities and services; critical manufacturing
- Congregate settings: incarceration facilities and homeless

Phase 1C

- Individuals 50-64 years of age
- Persons aged 16 – 64 years with high-risk medical conditions
- Essential workers in the following sectors: water and wastewater; defense; energy; chemical and hazardous materials; communications and IT; financial services; government operations/community-based essential functions

Tulare County COVID-19 Vaccine Interest Form

Tulare County residents who don't qualify for Phase 1A can inform County health officials of their intent to get vaccinated for COVID-19 by completing the Tulare County COVID-19 Vaccine Interest Form.

Residents can sign up for vaccine notifications of when they are eligible and where they can go to get vaccinated by completing the Tulare County COVID-19 Vaccine Interest Form online at:

<https://arcg.is/0KKez4>.

Until the COVID-19 vaccine is widely available, it is imperative to reduce the spread of COVID-19 in Tulare County by practicing both social and physical distancing of six feet or more between persons and not participating in social gatherings of any kind. Residents must always wear a face mask or covering while in environments where physical distancing is not possible and while in public settings. In addition, everyone is encouraged to frequently wash their hands with soap and water for at least 20 seconds or use hand sanitizer, regularly disinfect high-touch surfaces, and stay home if you are sick or instructed to isolate/quarantine by a medical or public health professional.

For more information about COVID-19, visit www.tchhsa.org/ncov and www.covid19.tularecounty.ca.gov

###

VACCINATING NOW

PHASE 1A

Persons at risk of exposure to SARS-CoV-2 through direct health care or long-term care settings.

TIER 1

- Acute care, psychiatric, and correctional facility hospital staff
- Skilled nursing facilities, assisted living facilities, special needs group living equivalent
- Paramedics, EMTs, and others providing emergency medical services
- Dialysis centers
- Residents in long-term care settings
- Staff of residential and inpatient substance abuse disorder treatment and mental health facilities

TIER 2

- Intermediate care facilities staff
- Home health care and in-home supportive services
- Community health workers including promotoras
- Public health field staff
- Primary care clinics, including federally qualified health centers, rural health centers, correctional facility clinics, urgent care clinics

VACCINATING NEXT

PHASE 1B

- Persons aged 75 years and older
- Frontline essential workers

PHASE 1C

- Persons ages 65 to 74 years
- Persons ages 16 to 64 years
